Locust Avenue Widening Project

The State Road has begun the process of widening Locust Ave to create a turning lane for easier access and better traffic conditions. Continue to work on utility relocation including a gas line. Marked locations for the new traffic controls and began looking at electrical paths. Some delays are to be expected. Please allow additional time in your commute to and from campus. Also please check your email and felix account frequently for updates and notifications regarding traffic patterns.

RCB Classroom HVAC Replacement

The HVAC unit within Classroom 136 Aerospace Center is proceeding to be replaced. The new unit was shipped 1/23/15 and the contractor expects it to arrive 2/2/15. Installation is anticipated to begin mid February.
