University Terrace

The entire Practice Field Parking Lot was closed, starting 4/27/15. Construction fencing, erosion and sediment control, and other safety items have been installed. The job trailer and several storage containers have been setup on-site. The project sign was installed. Began on earthwork 4/28/15; grading hillside and removing asphalt. NPDES permit was issued by the DEP on 4/27/15. Progress Meeting will be held on 5/13/15.

Temporary Parking & Paving

A total of 245 spaces were achieved. The lot was opened for event parking the morning of 4/24/15. The lot was opened for student use, 4/27/15. Multiple email and online notifications informed campus of this progress including how to access the new parking lot. In addition parking directional signs have been installed. The project is complete and we are awaiting the contractors final payment and close out documents.

Locust Ave. Widening Project

Continue to widen Locust for the new turning lane. Contractor began installing curbs on 4/28/15. Electrical contractor continues to install conduit, light pole bases, and junction boxes within future sidewalks. Goal is to begin installing new sidewalks in three weeks. Began laying the base course of asphalt on 5/1/15 for new turning lane at Oakwood Rd./Locust Ave. intersection.
