Feaster Gym Floor and Bleacher Replacement

RM Huffman placed probes in the concrete floor 08/04/14 and took readings throughout the week to monitor moisture content. Results will be discussed at the progress meeting 08/12/14. The electrical work and rough-in for new bleacher controllers continues. FSU electricians began installing new LED lights in gym last week. Lights above upper bleacher level have been completed. Will begin working on installing lights above gym floor this week.

Jaynes Hall Classroom Remodel

Classrooms 101 and 103 have been completed. New ceiling tiles and grid were installed, and the rooms received new carpet and paint. Desks have been replaced and the rooms are ready for the start of school next week.

Lot 14 Paving

Paving and striping of Lot 14, Pence Hall parking lot, and the President’s driveway is complete. CW Stickley installed an inlet in Lot 14 near Hunt Haught Hall to avoid puddling that had occurred there in the past.

Re-grading and graveling of Locust Ave. Lot remains dependent on the State Road Widening project.
