Feaster Gym Floor and Bleacher Replacement

RM Huffman completed the subfloor and began laying the hardwood flooring on 9/8/2014. One half of the gym court new flooring has been installed. They expect to complete installation of the hardwood floor by 09/19/14, and begin sanding in preparation for floor graphics. There are still issues with students/staff entering the gym from the weight room. Plastic barriers have been hung to deter access and protect equipment from dust. Please do not remove signs/barriers.

Hall of Fame

The first floor hallway in the Feaster Center is home to men’s and women’s basketball locker rooms and the football team locker room. The Physical Plant has been working to renovate the hallway and turn it into a hall of fame, highlighting past coaches and players of the University. The CMU block walls have been covered with drywall and new ceilings and lighting installed.

Statue Dedicated in Honor of Deacon Duvall

Harold “Deacon” Duvall was recognized at the FSU first home game on 9/4/2014, with the unveiling of a donated statue in his honor. Physical Plant poured a concrete foundation, set the marble base and the life-size statue.
