**Construction Update**

**WEEKLY REPORT:**
- **LOCUST AVE. PARKING LOT**
- **RCB GUTTER REPAIR**
- **CAPERTON BOILER REPLACEMENT**

---

**Locust Ave. Parking Lot**

The Locust Ave. gravel lot is temporary closed. The parking lot has been re-graded, graveled, and has begun to be striped. This work greatly improved the condition of the parking and will also lend additional parking spaces with a more efficient layout.

---

**RCB Gutter Repair**

Contractor mobilized end of last week. The gutter on the Rotunda side of the Hanger has begun been completed. The contractor has move to the gutter on the other side of Hanger A. Each joint in the gutter is being sealed with a 9” lap strip beneath the continuous rubber. The metal coping has been temporarily removed to wrap the rubber up and over the parapet wall to ensure a good seal with minimum penetrations. The drain bodies have been replaced with tubes to ensure no leaks.

---

**Caperton Boiler Replacement**

Temporary boiler still in operation supply heat to the building. Controls contractor onsite beginning control work in preparation for Boiler and Boiler Housing to arrive this week.
