

**AVIATION FEES****Cost per course – 2016-2017 Catalog**

The fees for the aviation flight labs may be paid in one lump sum at the beginning of the semester or in a few installments as the flight lessons progress toward completion. Flight accounts must show a positive balance before any flight lessons will take place. If flight lessons are not completed within one semester and a grade of “Incomplete” is awarded, then the lessons may continue into the next semester. Please note that the FAA places restrictions on how much time may lapse between flight lessons without needing to repeat some of those lessons – check with the flight instructor or Chief for more information. Students must complete one flight lab course before enrolling in the next one. As of August 1, 2016, and until further notice, VA funding may not be available for the flight training costs associated with the Private Pilot License. Please consult with the VA Certifying Agent at FSU for the most current information available.
