

**To find your Outgoing Mail Server Host Name (SMTP server name)**, sign in to Outlook.com at the following address: <https://pod51000.outlook.com/owa/>. After you sign in successfully, the address you entered will resolve to a different address that contains the SMTP server name you need to use. Use the following table to find the SMTP server name. For example, if the address in your Web browser begins with **https://bl2prd01**, enter **pod51000.outlook.com** for the Outgoing Mail Server Host Name.

<b>Outlook Web Access address starts with</b>	<b>SMTP server name</b>
https://bl2prd01 or https://pod51000	pod51000.outlook.com
https://db2prd01 or https://pod51002	pod51002.outlook.com
https://sinprd01 or https://pod51003	pod51003.outlook.com
