

PLANNING MONTHLY PARENT WORKSHOPS

BRAINSTORM LIST

Brainstorming involves generating as many ideas as possible. Work with your team on brainstorming ideas/themes for parent workshops for each month. Ask team members to state ANY and ALL ideas they have, without stopping for discussion. Be sure to get all ideas on this sheet. After everyone has run out of ideas, combine and narrow down the choices, but save this list to refer back to. Once the list has been created, plan a time to discuss each idea and determine which might be effective at reaching the most parents and meeting GEAR UP goals.
