

## **Operating System Identification: (What operating system am I running?)**

For Windows users:

1. Wait for your computer to load the Desktop.
2. Right Click on My Computer or Computer. You may have an icon on your desktop that says this. If not, click the Start button.
3. Choose Properties.
4. Your Operating System and other System information will be listed here.

For Mac users:

1. Click the apple menu in the top left corner of the screen.

In the apple menu click "About this Mac" or "About this Computer".
