

FINANCE CONCENTRATION

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

OVERVIEW OF THE PROGRAM:

The Bachelor of Science (B.S.) in Business Administration program with a Finance concentration prepares students for careers in corporate financial management, banking, investments/portfolio management, and financial planning, as well as related areas such as insurance, real estate, and strategic management. Key concepts in the curriculum are the tradeoff between risk and return, decision making under uncertainty, the time value of money, and financial statement analysis. Financial managers are fundamentally decision makers. They use accounting data and concepts of financial analysis to decide things such as whether or not to make a loan, to invest in a new manufacturing facility, or to buy a particular stock. The Business Administration Program is Accredited by the Accreditation Council for Business Schools & Programs (ACBSP)

EMPLOYMENT OPPORTUNITIES:

Students completing the B.S. in Business Administration degree with a concentration in finance are prepared for careers as account managers, loan officers, credit analysts, retail bankers, equity traders, fixed-income traders, securities analysts, portfolio managers, financial planners, risk managers, capital expenditure managers, cash managers, and foreign exchange managers. Students may also find the program helpful as a base for future study toward the Chartered Financial Analyst (CFA), or Certified Financial Planner® (CFP®) professional designations, or graduate study in an M.B.A program or law school.
