

Faculty Handbook Committee Member Terms

New document regarding lengths of terms and rotation of members.

The committee has determined that due to the importance of experienced members on this committee and the work that is done year after year which depends on previous committee work, that terms of members should be three years. This includes the five members elected by each college and the three members appointed by the Provost. Note that the Provost also is a voting member of this committee. Similar to the Provost being a member, the three ex officio members belong to the committee due to their position at the University.

It was further determined that the terms should not all end in the same year, but should overlap to maintain continuity of the membership of the committee. The current rotation of members will be:

College of Business and Aviation (M.E. Yancosek Gamble) Expires in 2027 (Appointed 2024)
