Buzy Beez

The Physical Plant staff has been busy this season.

Employees completed the Merchant Street classroom renovation. Creating new classroom space with updated amenities.

The Physical Plant also enlisted the employees to assist with the Feaster Center Hall of Fame. New ceiling grid, tile, VCT, fresh paint and new lighting were all added to help improve the corridor.

The electricians were also a vital part of the new Greenhouse growing system at Hunt Haught Hall. They installed LED grow lights that will provide the plants with light and heat they need to flourish. The new LEDs also help with campus energy savings.

The Information Technology department got a facelift. Trades Specialists created a new office space for IT personnel. From new carpet to lighting and duct work the area was completed to everyone's satisfaction.

Plunging Into Work

The Physical Plant added another member to our team. Brad Eagle started September 1st. Brad is our second plumber on campus. He jumped in with both feet. When you see Brad welcome him to campus.

Construction Updates

Contractors are continuing to work on renovations and upgrades on campus. For more information please check out the weekly updates at <http://www.fairmontstate.edu/adminfiscalaffairs/physical-plant/construction-projects> or <http://www.pierpont.edu/adminfiscalaffairs/physical-plant/construction-projects>

Constructions projects have been steady through the fall semester.

The Feaster Gym floor and bleacher replacement is moving forward. The floor graphics were applied on September 22nd. The project was substantially completed on November 12th.

College Park Apartments

replacement project reached 50% completion in the Construction Document phase. The tentative project schedule it to put the project out to bid January 2015 and begin construction March 2015.

Our off campus sites are being worked on as well. The Robert C. Byrd Aviation Center has a gutter repair project underway and are awaiting submittals for the new HVAC classroom unit.

The Caperton Center had a boiler issue during the fall semester. Requiring a temporary boiler to be rented. The new boiler will be delivered in December and installed over break.

Reduce - Reuse - Recycle

Recycling one aluminum can saves enough electricity to run a TV for 3 hours.

Happy Anniversary!
 February 14th—Eric Britton

Happy Birthday! 

December 11th—Yvonne Lepock
 December 14th—Dave Glasscock
 December 21st—Zac Hickman
 January 4th—Caitlin Norwish
 January 7th—Jeff Hamrick
 February 4—Juddy McMasters
 February 26—Paul Helms

As you look around campus you will see many wonderful things. The beautiful flower beds, litter free facilities, fresh paint, new lighting, and other projects taking place. Just know that the men and women of the Physical Plant have been working extremely hard to make this possible for you. We hope it puts a smile on your face and makes you proud to be part of the Fairmont State and Pierpont community.
