# It's Open!

The Turley Student Services Center opened its doors to the campus. The official dedication ceremony took place on August 1st, 2013. Vice President of Student Services, Kaye Widney explained, “the building provides a central

location and a ‘one-stop shop’ for services our students need and use the most.” The Turley Student Services Center will house the following departments: Admission/Recruiting, Career Services/Student Employment, Honors Program, International Students, Multicultural Affairs, Retention/Orientation, Enrollment Services, Counseling and Disability Services, Graduation Audits, Advising Center, RBA Program.

## Helping Our Community

Physical Plant employees enjoying helping around campus. You will see our presences at most campus functions. One of the most important events is the Relay for Life. Our employees prepare and take care of every detail. Their hard work has not gone unnoticed. Participants show their appreciation in various ways. As you can see, they even tweet it!

# Working Hard Pays Off

Employees of the Physical Plant come to work daily with the goal of making our campus community a better place. We mow grass, paint walls, replace burnt out lights, fix leaky sinks, sweep floors and other tasks that seem to go unnoticed. So when we receive wonderful letters, like that from Earl McConnell of Pierpont Community & Technical College, we like to share. We appreciate the recognition and positive feedback.

# Updating Feaster Natatorium

Construction of the pool area of the Feaster Center began in August. The restrooms will be getting a facelift. Old fixtures were demoed in preparation for painting and replacement. Exterior work will be done as well to ensure the reinstallation of the windows. Renovation will continue through the semester.

# Reduce - Reuse - Recycle

If everyone in the US was able to reduce their 10.8 pieces of junk mail received each week, we could save nearly 100 million trees each year.

As you look around campus you will see many wonderful things. The beautiful flower beds, litter free facilities, fresh paint, new lighting, and other projects taking place. Just know that the men and women of the Physical Plant have been working extremely hard to make this possible for you. We hope it puts a smile on your face and makes you proud to be part of the Fairmont State and Pierpont community.
