Musick Library Elevator Tower

The Ribbon Cutting Ceremony was held on October 15th. The two-stop enclosed elevator opens the pathway to inner campus. The new tower is aesthetically pleasing. The structure blends with the existing building.

Rest and Relaxation

The Physical Plant employees put in many hours a week to help the campus function to its fullest capacity. So once in awhile we take a much needed break. The Physical Plant has made it a goal to gathering for food, fun and fellowship once every three months.

Construction Updates

Contractors are continuing to work on renovations and upgrades on campus. For more information please check out the weekly updates at <http://www.fairmontstate.edu/adminfiscalaffairs/physical-plant/construction-projects> or <http://www.pierpont.edu/adminfiscalaffairs/physical-plant/construction-projects>

Shocking Sensation

The Physical Plant would like to introduce Jeff Hamrick, our new electrician. Jeff has been on campus since the middle of July. You will see him working on small projects on, repair ballasts, resetting elevators, and other helping meet other electrical needs. Please take time to welcome Jeff when you see him around campus.

Reduce - Reuse - Recycle

World-famous chocolate manufacturer, Hershey Chocolate Company, in manufacturing 20,000,000 Hershey's kisses (every day), uses about 133 square miles of aluminum to wrap the chocolates. This aluminum wrap is recyclable, but most of this recyclable aluminum reaches the trash cans instead of recycle bins, because people often enjoy the chocolate but don't think about the recyclable aluminum wrap!

As you look around campus you will see many wonderful things. The beautiful flower beds, litter free facilities, fresh paint, new lighting, and other projects taking place. Just know that the men and women of the Physical Plant have been working extremely hard to make this possible for you. We hope it puts a smile on your face and makes you proud to be part of the Fairmont State and Pierpont community.
