

Number & Title of Course:

ARCH 1000 Design Fundamentals I, 4 credits

Course Description:

This course addresses the basic graphic communications skills necessary to express architectural form using traditional hand methods. Topics include freehand, multi-view, paraline, perspective, and shade/shadow drawing.

Course Goals:

The goal of the course is to develop the student's basic graphic communication skills used in architectural graphics.

Course Objectives:

- Students will recognize and describe drawing as a tool of representation and abstraction.
- Students will explore and demonstrate architectural drawing conventions.
- Students will understand the role of drawing from observation and technical drawing.
- Students will demonstrate two- and three-dimensional compositional skills.

Student Performance Criterion addressed:

A.1 Professional Communication Skills

Topical Outline:

Graphic Representation (60%)

Accuracy (25%)

Composition (15%)

Prerequisites:

None

Textbooks/Learning Resources:
