

Core Curriculum Student Learning Outcomes

Core Curriculum Student Learning Outcomes

- 1) First Year Seminar
Student will apply academic tools, utilize campus resources, and actively participate in order to successfully transition into and through the first year of college.
- 2) Written Communication
Students will be able to read critically and reflectively, and be able to use writing to communicate effectively with an audience.
- 3) Oral Communication
Students will be able to demonstrate communication skills in argument and reasoning, the analysis and use of evidence, persuasion, and oral presentations.
- 4) Mathematics
Students will be able to use appropriate symbolic manipulation skills and problem-solving methods to model problems and reach logical conclusions, and correctly use the language of mathematics to communicate conclusions and solutions.
- 5) Humanities
Students will be able to understand the basic elements of the humanities and the role that language, literature, and/or history plays in their daily lives.
- 6) Fine Art
Students will be able to demonstrate the ability to analyze or interpret works of fine art using the language of criticism relevant to the form of study or to create works of fine art using the appropriate processes.
- 7) Natural Sciences
Students will demonstrate proficiency with scientific content and data analysis to address real world problems, and recognize the limitations of the scientific process.
- 8) Social Sciences
Students will be able to apply concepts and prevailing theories within the social and behavioral sciences.
- 9) Citizenship
Students will be able to explain the responsibilities of citizens, how to participate in the democratic process, and how to contribute to civil society.
- 10) Global Awareness
Students will develop the awareness and knowledge to understand the complexity of intercultural connections and to live and work in a global society.
- 11) Technology
Students will demonstrate technology skills that will help them in problem solving or decision making.
- 12) Fitness and Well-being
Students will be able to identify the behaviors and skills that lead to physical and psychological health and well-being.
