Friday, March 7: Mid Semester
Monday-Friday, March 10-14: Spring Break, No Classes
Monday, March 17: Classes Resume, 8 AM
Monday, March 24 - Thursday, April 17: Advanced Scheduling for Fall Semester
Friday, April 18: Good Friday, No Classes
Friday, May 2: Last Day of Classes
Monday-Friday, May 5-9: Final Exams
Friday, May 9: Residence Halls Close
Saturday, May 10: FSU Commencement
Introduction

Fairmont State University, a comprehensive, multi-site, selective institution offers a quality education in a diverse and supportive learning environment that fosters individual growth, professional and career development, lifelong learning, global understanding, and a commitment to excellence in academic and community pursuits. Serving the citizenry of north-central West Virginia and beyond, Fairmont State University is a student-centered institution of first choice among students who desire a flexible and relevant learning experience. The University provides a well-rounded education, enabling students to gain the knowledge and skills needed for self-fulfilling, responsible citizenship and employability in a rapidly changing global environment.

The University concentrates its energies and resources on its students, many of whom are the first generation of their families to attend college, adults returning to college or enrolling in higher education for the first time, and transfer students from community and technical colleges. The University, therefore, offers its diverse student body a wide range of programs, flexible scheduling, and support services, all designed to foster success in the modern world. To strengthen intellectual development, all students pursuing a degree at Fairmont State University are engaged in a general education program, a body of coursework designed to expand their knowledge of civilization, society, scientific inquiry, and artistic expression while preparing them to think critically and communicate clearly. Through these studies, students also explore the interrelationships among disciplines and prepare for a lifetime of learning.

The University is committed to student learning and focuses its resources on programs that prepare students for careers and advanced education in West Virginia and beyond. Along with its significant history of teacher education, Fairmont State University provides a broad spectrum of degree options in business, fine and liberal arts, and social and natural sciences and offers programs with specialized accreditation in engineering technology and health careers. Fairmont State University provides seamless transitions from public schools or certificate programs or associate degrees to baccalaureate degrees. In keeping with its tradition of academic excellence, the University promotes graduate education by offering select graduate programs and by providing on-campus access to graduate programs of other institutions.

Fairmont State University is closely identified with its community. Partnerships with business and industry, public schools, government agencies and other organizations contribute to the economic, cultural, and social development of the region. Through these community relationships and educational programs, the University fosters enlightened and productive citizenship in its immediate locale, the region, and the world.

MISSION STATEMENT

The Mission of Fairmont State University is to provide opportunities for individuals to achieve their professional and personal goals and discover roles for responsible citizenship that promote the common good.

VISION STATEMENT

Fairmont State University aspires to be nationally recognized as a model for accessible learner-centered institutions that promote student success by providing comprehensive education and excellent teaching, flexible learning environments, and superior services. Graduates will have the knowledge, skills, and habits of mind necessary for intellectual growth, full and participatory citizenship, employability, and entrepreneurship in a changing environment.
PHILOSOPHY AND OBJECTIVES

Fairmont State University considers its broad objective to be the education of its students as intelligent and productive persons, capable of participating in and understanding the world of the twenty-first century. Accordingly, the University seeks to provide a suitable environment for free and responsible inquiry into the nature, sources and implications of human knowledge and culture, and it challenges students to promote their own intellectual, social, and personal development.

The University faculty serves this objective by guiding students in acquiring knowledge and by maintaining a dialogue with them. The University fully supports the ideal of a well-educated society and upholds the academic freedom of its faculty and students, confident that the best interests of the community are served when the search for truth is imaginative and vigorous.

The University follows a liberal policy of student admissions and believes that it can help highly-motivated students to overcome many challenges in their academic preparation. Because its academic standards are high, the Fairmont State University degree represents a level of achievement respected throughout the nation.

The University has a traditional interest in preparing teachers for public schools in West Virginia, as well as in other states. Recognizing the importance of able teachers to a progressive society, it requires outstanding academic performance of its teacher candidates and offers them sound professional training for elementary and secondary teaching.

Drawing many students from its immediate vicinity, the University welcomes the enthusiastic support it receives from Fairmont and surrounding areas. In return it participates actively in community projects, shares its programs and facilities with the public and serves the community as a center of information and culture.

Specifically, the mission of Fairmont State University is to provide programs needed by those in its geographic service area, to the extent permitted by its financial and human resources and its assigned role in the state's system of public higher education. This mission is accomplished by meeting these objectives:

• Offering a broad range of traditional baccalaureate degree programs in the arts and sciences, teacher education, and business administration;
• Providing opportunities for occupationally-oriented baccalaureate study through expansion of existing industrial technology programs and the development of additional career-related curricula;
• Bringing selected study opportunities into communities in the University's service region through the use of the mass media, regional educational centers, external degree programs, and other forms of nontraditional study;
• Encouraging a broad segment of the populace, including various age groups and the economically deprived, to avail themselves of educational opportunities;
• Serving the greatest number of students by holding University costs at the lowest possible level and providing financial support to those who need it to gain equal access to higher education;
• Relating the breadth of the curriculum to the availability of appropriate employment opportunities and the needs of business, industrial and public service agencies in the University’s service area;
• Offering continuing education programs to provide career enhancement, cultural enrichment and personal skill development;
• Providing advisory, counseling, and placement services to enable students to make satisfactory decisions about academic and personal problems and to make successful career and employment choices;
• Offering a variety of cultural, recreational, and social activities to complement academic pursuits.

DESIRED PROFILE OF A FAIRMONT STATE UNIVERSITY UNDERGRADUATE

Students enrolled at Fairmont State University should work to develop the following profile, consistent with the length and focus of their programs.

Students should:

1) Develop competence in the following skills to aid them in making decisions about personal values and career strategies: critical analysis, quantitative literacy, oral and written communication, reading, teamwork, information literacy, problem solving, and technological literacy.
2) Demonstrate proficiency in their major fields of study that will enable them to compete in the global job market and pursue additional levels of formal education.
3) Understand the responsibilities of citizens, participate in the democratic process, and contribute to their society.
4) Embrace and act upon an ethical view that respects the life, property, opinions, and feelings of others.
5) Acquire the knowledge and habits that lead to physical and mental health and well-being.
6) Understand the complementary nature of their liberal and professional studies and develop the capacity for independent, lifelong learning.
7) Acquire an informed appreciation of the arts, the humanities, and the social and natural sciences.
8) Develop sensitivity in matters of local and global social justice, respecting and appreciating differences among individuals and societies.

Our Core Values: SOAR

Scholarship: To celebrate the joy and wonder of discovery.
Opportunity: To grow, learn, engage, and contribute.
Achievement: To reach personal and community goals.
Responsibility: To fulfill obligations to ourselves, the learning community, our society, and the future.
ACCREDITATION

Of great importance to the reputation of a university is how it ranks scholastically with other institutions. Accreditation means that a university has been carefully evaluated and approved in its governance, in each curriculum, in the quality of its faculty, in the adequacy of facilities, library, equipment, and laboratories.

To assure its stature and academic excellence, a university obtains accreditation from both regional and national agencies and joins certain accrediting organizations.

Fairmont State University is accredited by The Higher Learning Commission and is a member of the North Central Association, 230 S. LaSalle Street, Suite 7-500, Chicago, IL 60604-1411, (800) 621-7440 x105, http://www.ncahlc.org.

The Teacher Education program is approved by the West Virginia Board of Education and accredited by the National Council for the Accreditation of Teacher Education. In addition, selected teaching specializations are nationally approved by their respective learned society and/or professional organization.

Selected programs in the Department of Technology are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, Maryland 21202-4012, (410) 347-7700. The following programs are currently accredited by TAC of ABET: A.S. and B.S. Civil, A.S. and B.S. Electronics, and A.S. and B.S. Mechanical Engineering Technology. In addition, the B.S. Occupational Safety program is accredited by ASAC of ABET.

The School of Business is accredited by the Accreditation Council for Business Schools and Programs (ACSBET) 11520 West 119th Street, Overland Park, KS 66213, (913) 339-9356, www.acbsb.org.

The University is also a member of the American Association of Colleges for Teacher Education, National League for Nursing, American Library Association, Public Relations Society of America (PRSA) West Virginia Chapter, and Council for the Advancement and Support of Education (CASE).

MAIN CAMPUS

Fairmont State University is located on a 120-acre main campus in Fairmont, West Virginia. With a population of about 19,000, Fairmont, located approximately 90 miles south of Pittsburgh, Pennsylvania, is the seat of government for Marion County. The University provides students with the opportunity to find their future from associate degrees, bachelor's degrees and graduate programs. Visit us online at www.fairmontstate.edu.

In its overarching desire to help transform lives, FSU values scholarship, opportunity, achievement, and responsibility. The mission of FSU is to provide opportunities for individuals to achieve their professional and personal goals and discover roles for responsible citizenship that promote the common good.

FSU is part of the state’s growing high technology corridor with a metro area of about 50,000 residents. With an enrollment of 4,600, FSU offers more than 80 baccalaureate degrees and graduate programs in business, criminal justice, and education. The main campus is home to the Frank and Jane Gabor West Virginia Folklore Center. FSU also offers classes at a satellite campus in Clarksburg called the Gaston Caperton Center and at the Robert C. Byrd National Aerospace Education Center in Bridgeport.

GASTON CAPERTON CENTER

The Gaston Caperton Center is a satellite campus located at 501 W. Main Street in downtown Clarksburg. Clarksburg, the seat of Harrison County, is approximately 23 miles from Fairmont. The Gaston Caperton Center serves as a site for delivery of a wide variety of courses for students enrolled in Fairmont State University and is open from 8:00 a.m. until 10:00 p.m. Monday through Thursday, and 8:00 a.m. until 4:00 p.m. on Friday. The Center offers classes on Saturdays, but administrative offices are closed.

Students can complete the General Studies requirements for Bachelor of Arts and Bachelor of Science degrees, and all course requirements for the B.S. in Business Administration with an emphasis in General Business. The business common core for all baccalaureate business degrees may also be completed.

The Center comprises a 36,000 square foot, state-of-the-art building boasting the latest in computer connectivity, modern classrooms, computer and natural-science labs, conference facilities, and the Teaching-Learning Commons (formerly the library). The facility has 15 classrooms including three computer classrooms; one life-sciences lab for general biology, anatomy and physiology, etc.; and one physics lab for general physics, electronics and/or other technical courses. In addition to one hundred computers which faculty use for direct instruction or instructional-support activities, the building has a number of courtesy ports which allow students with laptop computers to connect directly into the college's network.

The facility has two multi-purpose meeting rooms that serve as large lecture halls which will seat 54 or 75 people respectively; when combined, the rooms accommodate 200 in auditorium seating or 125 at tables in a single room. Four small conference rooms are also available.

The Teaching-Learning Commons (TLC) houses thirty-four computers in two labs. Students may access the Internet and electronic databases and resources, study, complete homework assignments, and perform email functions in the TLC. The TLC is open and staffed for the same operating hours as the facility. A TLC staff member is available to assist students and faculty with research and library needs.

In addition to various small seating areas in the building, there are two student-lounge areas, one faculty lounge, a portico seating area and an adjacent walled courtyard with bench and wall seating.
The Center is fully accessible to students with disabilities; an elevator serves all three floors, and there are accessible restroom facilities on each floor. The Center has over 200 parking spaces in five separate lots with handicapped parking near the rear entrance.

Students at the Gaston Caperton Center may avail themselves of support services offered in conjunction with the main campus including counseling, financial aid, disability services, food services, and advising.

ALUMNI ASSOCIATION

The Fairmont State Alumni Association, founded in 1873, is the official organization representing graduates of Fairmont State (including Fairmont State Normal School, Fairmont State Teachers College, Fairmont State College, Fairmont State University). The Association is led by an elected, unpaid, volunteer Board consisting of graduates of Fairmont State.

The purpose of the Fairmont State Alumni Association is to unite its members in an effective organization dedicated to the advancement of Fairmont State:

a. strengthening the relationship between the alumni and Fairmont State through effective communication and collaboration about current programs, activities and needs;

b. perpetuating and strengthening the bonds of loyalty and friendship among alumni;

c. supporting Fairmont State-sponsored activities, on and off-campus, that enrich the life of the institutions, their students and community as well as provide incentive for participation;

d. representing the interests of alumni to the institutions, by providing information and making recommendations for action;

e. assisting the institutions, their student body and alumni members with vocational guidance and job placement;

f. taking such other action as may be deemed appropriate for the advancement of the Institutions and the Association.

Contact the Fairmont State Alumni Association through the Director of Alumni Relations and Annual Giving at:

Director of Alumni Relations and Annual Giving

CATALOG POLICY

It is the responsibility of students to be knowledgeable of official FSU policies and to meet all requirements in the Catalog. It provides the best possible current information on practices and intentions of the institution. FSU reserves the right to change provisions or requirements at any time to reflect curricular changes and administrative regulations and procedures. The Catalog is not considered a binding contract between the student and the institution. It is for informational purposes only.

Students should keep informed of current degree, curriculum, and course requirements. The academic advisors and appropriate administrative offices of FSU may be consulted for further information.

A student who enrolls at FSU shall follow the degree provisions of the catalog in use at the time of admission or any subsequent catalog, providing the entire subsequent catalog is adopted.

Students who have interrupted their schooling for more than one semester will become subject to the degree provisions of the current catalog.

Please note that academic policies can change each year and apply to all students regardless of when you begin your studies. Refer to the current catalog each year for academic policies.

EMAIL ACCOUNT POLICY

The FSU e-mail address assigned to a student will serve as the official email address used by the institution for all correspondence including invoices, financial aid notifications, and information from the Student Services Center. Students are responsible for all information sent from these and other official offices of the institution. Failure to read e-mail messages will not constitute an exception. The Admissions Office will send an official admission letter informing students of their email account and Unified College Account (UCA) and how to activate the UCA. The Admissions Office will also formally notify students of our institution’s policies regarding the use of FSU email for all major institutional correspondence. No other email addresses will be included when emails are sent. The parent email address will be collected at Orientation for new students and the first invoice will be sent to those addresses in addition to the student.

POLICY ON EQUAL OPPORTUNITY

AFFIRMATIVE ACTION

Fairmont State University is an Equal Opportunity-Affirmative Action institution. In compliance with Title VI of the Civil Rights Act of 1964, Title VII of the Civil Rights Act, West Virginia Human Rights Act, Title IX (Educational Amendments of 1972), Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, all as amended, and the other applicable laws and regulations, the institution provides equal opportunity to all prospective and current members of the student body, faculty, and staff on the basis of individual qualifications and merit without regard to race, color, gender, national origin, age, height, weight, religion, creed, genetic information, disability,
veteran’s status, sexual orientation, gender identity, and
gender expression/association as identified and defined by
law in employment, admissions, and educational programs
and activities.

Fairmont State University neither affiliates knowingly
with nor grants recognition to any individual, group or
organization having policies that discriminate on the basis
of race, color, gender, national origin, age, height, weight,
religion, creed, genetic information, disability, veteran’s
status, sexual orientation, gender identity, and gender
expression/association as identified and defined by law
in employment, admissions, educational programs and
activities.

Further inquiries may be directed to the Director
of Affirmative Action, who is the Section 504, Title IX
Coordinator, located in Room 324 Hardway Hall, (304) 367-
4386, or the Americans with Disabilities Act Coordinator,
located in the Turley Student Services Center, (304) 367-
4686.

SERVICES FOR STUDENTS WITH
DISABILITIES

FSU is committed to providing educational opportunities
for all students and assisting them in making their educational
experience successful and positive. In compliance with
Section 504 of the Rehabilitation Act of 1973, and the
Americans with Disabilities Act, FSU recognizes a student
with a disability as anyone who has a physical, health, or
mental impairment that substantially limits one or more
major life activities. Student Disability Services coordinates
the provision of reasonable accommodations for students
with disabilities. All reasonable accommodations are
individualized, flexible and confidential, based on the
nature of the disability and the academic environment.
Individuals requesting accommodations must contact the
Office of Disability Services. Office staff and the student
will work on determining appropriate accommodations.
The student will receive letters for the faculty outlining
approved accommodations. It is the student’s responsibility
to provide faculty with this letter. Any faculty member who
has not been provided with an accommodation letter is not
required to provide accommodations. Assistive technology,
auxiliary, and support services are available to students
registered with the Office of Disability Services. For more
information and documentation criteria, please contact
the Office of Disability Services at (304) 367-4686.

THE FAMILY EDUCATIONAL RIGHTS
AND PRIVACY ACT

The Family Educational Rights and Privacy Act of 1974
provides students with the right to inspect and review
information contained in their educational records, to
challenge the contents of their educational records, to have
a hearing if the outcome of the challenge is unsatisfactory
and to submit explanatory statements for inclusion in their
files if they feel the decisions of the hearing panels are
unacceptable. Students wishing to review their educational
records must contact the campus official in charge of the
office in which the records are located. Students may not
inspect records to which they have waived their rights of
inspection and review.

Within the FSU community, only those members,
individually or collectively, acting in the student’s
educational interest are allowed access to student education
records. These members include personnel in the offices of
Admissions and Records, Student Services, Financial Aid,
Business, academic colleges and schools, departments,
academic advisors, and athletic departments.

At its discretion the institution may provide Directory
Information in accordance with the provisions of the Act
to include: student name, address, telephone number, date
and place of birth, major field of study, dates of attendance,
degrees and awards received, the most recent previous
educational agency or institution attended by the student,
participation in officially recognized activities and sports,
and weight and height of members of athletic teams. Students may withhold directory information by notifying
the Student Services Center in writing.

FSU may disclose academic information to parents
of students by having parents establish the student’s
dependency as defined by the Internal Revenue Code of
1954, Section 152. Dependency status may be established
by the presentation of a certified copy of the parents’ most
recent federal income tax form listing the student as a
dependent.

DRUG-FREE AWARENESS PROGRAM

In compliance with the Drug-Free Workplace Act of
1988 and the Drug-Free Schools and Communities Act
Amendments of 1989, Fairmont State University has a
Drug-Free Awareness Program designed to prevent the
unlawful possession, use, or distribution of illicit drugs and
alcohol by students and employees. Further inquiries rising
from employment issues or concerns may be directed to
the Assistant Vice President of Human Resources; student
issues or concerns may be directed to the Vice President for
Student Services.

COMPLIANCE WITH MILITARY
SELECTIVE SERVICE ACT

State law provides that a male person who has attained
the age of eighteen (18) years may not enroll in a state-
supported institution of postsecondary education unless
he is in compliance with the Military Selective Service Act
(50 U.S. Code, Appendix 451, et seq, and the amendments
thereto). Also, a male person may not receive a loan, grant,
scholarship or other financial assistance for postsecondary
higher education funded by state revenue, including federal
funds or gifts and grants accepted by this State, or receive
a student loan guaranteed by the State unless he is in
compliance with the Military Selective Service Act. Selective
Service Act registration information should be available
at all United States Postal Service facilities and may be
available at some high schools. The Selective Service System
also provides information through a web site at http://www.
sss.gov.
Admissions

GENERAL ADMISSION PROCEDURE

Students seeking admission to Fairmont State University must be of the age of compulsory attendance in the state of West Virginia and file an application for admission. Application and supporting credentials must be on file at least two weeks prior to the opening of a semester or term. All credentials submitted in support of an application for admission become the property of the University and will not be returned to the student. Any student admitted upon the basis of false credentials will be subject to immediate dismissal from the University.

Students who fail to register during the semester or term for which they have been admitted must file another application in order to gain admission at a later date. Separate applications for residence halls must be submitted to the Office of Residence Life. Any change in local address of any student at Fairmont State University must be reported to the Registrar.

The application for admission must specify the student’s desired degree or program objective. Admission to Fairmont State University does not guarantee admission to specific programs, which may be restricted due to limitations of staff, physical facilities, and space available for experiential training. The standards and procedures for admission to limited-enrollment programs are presented later in this section.

REQUIRED FORMS AND CREDENTIALS

All students applying for admission to Fairmont State University degree programs are required to complete and submit the following forms and credentials:

1) Application for Admission
2) Official high school transcript or GED sent by high school or Department of Education (not required for transfer students having a 2.0 average and at least 24 hours of completed coursework)
3) Official ACT or SAT scores (not required for students who graduated high school more than 5 years prior to enrollment term or for transfer students having a 2.0 average and at least 24 hours of completed coursework)
4) Transcript of home schooled students to include classes taken, credit hours and grades earned, graduation date and signature of the home school provider (may be submitted in lieu of GED, however the GED may be required for financial aid and scholarships)
5) Official college transcripts (if student has transfer credit)
6) Immunization Records including Measles, Mumps, & Rubella (MMR)(if born after January 1, 1957)

THE AMERICAN COLLEGE TEST/ SCHOLASTIC APTITUDE TEST

Fairmont State University requires the American College Test (ACT) or Scholastic Aptitude Test (SAT) of all applicants unless you have graduated high school or completed GED requirements more than five years prior to seeking admission. ACT or SAT scores are used to determine student placement in English and mathematics courses, for scholarships and loans, and for academic advising purposes. High school students are urged to take the test during their senior year. Financial aid applicants should take the test either during the summer prior to the beginning of the senior year, or on the September or October dates.

For information concerning registration and test dates for the ACT National Exam, please visit the official ACT website, www.act.org. Fairmont State University’s ACT Coordinator, Charley Hively, can also answer questions regarding registration, test dates and ACT residual testing, available for students seeking admission to the University, but have missed the national testing date(s). You can reach him at Charley.Hively@fairmontstate.edu or by calling (304) 367-4617.
IMMUNIZATION REQUIREMENT

All students under the jurisdiction of the Higher Education Policy Commission who were born after January 1, 1957, are required to provide proof of immunity to measles, mumps and rubella. Students are requested to provide proof of immunity on or before the date of enrollment. Meningococcal vaccine is strongly recommended. Other immunizations recommended include: Polio Series, Tetanus-Diphtheria-Pertussis (Td and aP, or Tdap within the past 5 years), Hepatitis A Vaccine, Hepatitis B Series, Varicella Vaccine (or history of chicken pox), and/or Annual Influenza Vaccines. Please contact Student Health Services for information on any of the listed vaccinations and how they may be obtained by calling (304)367-4155.

BACHELOR'S DEGREE PROGRAMS
ADMISSION REQUIREMENTS

Admission to four-year bachelor’s degree programs is open to graduates of approved high schools who have a 2.0 high school (or GED) GPA and a minimum composite score of 18 on the ACT or 870 on the SAT(combination of critical reading and math scores), or at least a 3.0 high school GPA and SAT or ACT test scores regardless of the scores. Exceptions to the above criteria are possible on a case-by-case basis. Applicants must also satisfy the following minimum high school unit requirements prior to admission or within the first 60 hours of college coursework.

REQUIRED UNITS (Years)
4 English (including courses in grammar, composition, and literature)
3 Social Studies (including U.S. History)
4 Mathematics (three units must be Algebra I and higher)
3 Science (all courses to be college preparatory laboratory science, preferably including units from biology, chemistry and physics)
1 Arts
2 Foreign Language (two units of the same foreign language)

STUDENTS SEEKING A SECOND BACHELOR’S DEGREE

Students who have completed a baccalaureate degree from an accredited institution may pursue another degree as a postgraduate student. In order to be admitted, the student must submit an application and all college transcripts to the Fairmont State University Office of Admissions, 1201 Locust Avenue, Fairmont, WV 26554. General Studies, Major, and Minor requirements will be reviewed by the appropriate departments to determine what additional courses must be completed. While credit for the previously earned baccalaureate degree will be posted on the FSU transcript, no individual courses will be translated.

ADMISSION TO TEACHER EDUCATION

Admission to Teacher Education is selective. Please refer to the School of Education “Program of Study” in the catalog for requirements.

ADMISSION TO ASSOCIATE DEGREE IN NURSING

The ASN program is a selective admission program. Applications are accepted on a rolling basis. As one class is filled, students are accepted into the next admission class. Students must first apply and be accepted into FSU. The student then must submit an application to the ASN program along with a $20 nonrefundable application fee. Accompanying the application must be a high school transcript or GED scores, minimal TEAS scores and, as applicable, an LPN transcript and LPN license verification, and college transcripts. In addition, Students must have a minimum 2.0 cumulative GPA and be eligible to enter college level English and math courses.

The credentials are collected by the Office of Admissions and are submitted to the selection committee for consideration. All applicants are notified by letter concerning their admission status to the program.

Selection criteria are based primarily on academic background. Strong math and science background is highly recommended. Application and Admission Resources may be found at http://www.fairmontstate.edu/academics/nursingdept/resources/application/default.asp

ADMISSION TO COLLEGE LEVEL ENGLISH AND MATH COURSES

The West Virginia Higher Education Policy Commission has adopted the following requirements for students before they are permitted to enroll in college-level mathematics and English courses:

ENGLISH

Students may not enroll in English 1104 unless the minimum score prescribed below is earned on at least one of the following tests:

a) A score of 18 or above on the English section of the ACT.
b) A score of 450 or above on the critical reading portion of the SAT-1.
c) A scaled score of 38 on the writing skills test of the ASSET.
d) A score of 71 or above on the writing skills test of the COMPASS.
e) A scaled score of 88 on the Sentence Skills test of the College Board’s ACCUPLACER Testing System.
f) Satisfactory performance on a writing sample administered by the institution.

Students not meeting any one of the above standards must successfully complete ENGL 0097 before enrolling in ENGL 1104.
MATHEMATICS

Students may not enroll in a mathematics course unless the minimum score prescribed below is earned on at least one of the following tests:

a) A score of 19 or above on the mathematics section of the ACT.
b) A score of 460 or above on the quantitative portion of the SAT.
c) A scaled score of 40 on the numerical test and 38 on the elementary algebra test of the ASSET.
d) A scaled score of 59 on the pre-algebra test and a scaled score of 36 on the algebra test of the COMPASS.
e) A scaled score of 85 on the arithmetic test and 84 on the elementary algebra test of the COMPASS.

FSA offers the COMPASS test during semester registration periods on main campus and at several satellite locations. COMPASS testing is free of charge. Students may take a COMPASS test up to two times for placement per semester. A COMPASS score is valid for up to two years after test date. All developmental skills courses (those for math and English courses with course numbers below 1000) must be completed within a student’s first 32 credit hours.

The college offers the COMPASS tests, designed by ACT, free of charge to students who enter with low ACT, SAT, ASSET, or ACCUPLACER scores. These tests are taken on the computer and are multiple-choice and untimed. For more information on COMPASS tests, contact Nancy Parks, Director of Assessment, Pierpont C&TC at (304) 367-4990 or Nancy.Parks@pierpont.edu

Academic Skills Courses

ENGL 0097, Composition Skills
MATH 0080, Developmental Math

ADVANCED STANDING

Based on the high school record and performance on the ACT or SAT, the Registrar will determine eligibility for advanced standing and credit in English and foreign language as follows:

English: Students may receive three hours of college credit in ENGL 1104 and may enroll in ENGL 1108 if they present four units of high school English with no semester grade of less than a “B” and a standard score of 25 or higher on the English section of the Enhanced ACT or 570 on the English part of the recentered SAT.

Foreign Language: Students who present one or more units of high school French or Spanish may enroll in FREN 1102 or SPAN 1102. Students who present two or more units of high school French or Spanish may enroll in FREN 2201 or SPAN 2201.

French or Spanish minor and French major: Students electing a minor in French or Spanish or a major in French may satisfy the elementary level requirement, FREN 1101 and 1102, or SPAN 1101 and 1102, by presenting two or more units of high school French or Spanish. These hours will not be recorded as college credit but will fulfill the requirement for the first six hours of the major or minor.

ADVANCED PLACEMENT EXAMINATION (AP)

Fairmont State University recognizes certain examinations of the College Board Advanced Placement Program. Students who participate in the AP program and wish to have their scores evaluated for credit should have their scores sent to Fairmont State University. The AP examinations are prepared by the College Board, and the papers are graded by readers of the Educational Testing Service, Princeton, NJ 08540. Students cannot receive credit for a score below 3 on any exam. Students who do receive credit will be assigned the grade of CR, which is not calculated into the GPA.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

The College Level Examination Program (CLEP) provides students with the opportunity to demonstrate college-level achievement through a program of exams in undergraduate college courses. Students can reduce their costs in time and money by successfully completing CLEP tests for credit. The CLEP exams are prepared by the College Board and administered by Pierpont Community & Technical College. Students must achieve a minimum score of 50 to receive college credit. For additional information, contact the Center for Workforce Education at (304) 368-7254 or (304) 367-4920.

NON DEGREE SEEKING ADMISSION REQUIREMENTS

NON DEGREE-SEEKING (Nonmatriculant)

Admission to Fairmont State University as a non degree-seeking or nonmatriculant student is open to anyone who has completed fewer than 15 semester hours cumulative at any college or university or high school graduates who have not completed any semester hours. The student must be a high school graduate or a GED recipient. Admission is intended for students registering for occasional college courses with no degree objective. Students may complete up to a cumulative total of 15 hours of college credit. Students must submit the following:

1) Application for admission
2) Official high school transcript/GED scores or college transcript
3) Official final high school transcript or GED scores
4) Official ACT or SAT scores if student has graduated from high school less than 5 years prior to the enrollment term

HIGH SCHOOL STUDENTS

Outstanding high school students may be admitted as non degree-seeking students, either in the summer following completion of the junior year in high school or during the senior year in high school. No more than 15 hours may be earned before admission as a regular student. In addition a student must meet the following criteria:

1) Application for admission
2) Letter of certification from principal granting permission to take transferable class(es) or a college transcript with at least a 2.0 GPA
3) Official high school transcript with 3.0 GPA
4) Permission letter from Parent

TRANSIENT STUDENTS

1) Application for admission
2) Course approval form from home institution granting permission to take transferable class(es) or a college transcript with at least a 2.0 GPA
INTERNATIONAL STUDENTS

Admission file must be complete six weeks prior to the start of the semester. Upon acceptance, information will be entered into SEVIS and an I-20 will be issued for application of F1 Visa. Required application forms and credentials include:

1) Application for admission
2) Official English proficiency scores (TOEFL of 61 or IELTS of 6.0) if your native language is not English
3) Proof of financial support
4) Housing (if applicable)
5) Official high school transcript
6) Official certified course-by-course English translation of high school transcripts (WES or SpanTran is accepted)
7) Official college transcript(s) from all colleges attended
8) Official certified course by course English translation of college transcript (if applicable - WES or SpanTran is accepted)
9) Proof of immunization (measles, mumps, rubella)
10) Proof of health insurance
11) Transfer eligibility form

TRANSFER STUDENTS

Any applicant for admission to Fairmont State University who has attended another collegiate institution will be classified as a transfer student. Every effort will be made to allow credit earned at other accredited colleges and universities to count towards a degree at FSU. Transfer students must meet the previously stated admission requirements of Fairmont State University. They must provide evidence of good standing at the institution last attended and must have maintained a minimum 2.0 GPA.

Credits and grades earned at any public institution governed by the Higher Education Policy Commission shall be transferable to Fairmont State University. Only credit hours transfer from all other accredited schools for eligible courses.

Students transferring fewer than 26 semester hours must provide an official copy of the high school transcript/GED scores and ACT or SAT scores if the student has graduated from high school less than 5 years prior to the enrollment term, along with an official copy of the college transcript. These students must also meet admission requirements of the degree or certificate program into which they are transferring.

TRANSFERRING CORE COURSEWORK

According to Series 17, Policy Regarding the Transferability of Credits and Grades at the Undergraduate Level, students who transfer from one state college or university to another may transfer core coursework that will count toward fulfillment of general studies requirements at the receiving institutions.

Under the terms of the agreement, a student may transfer up to thirty-five credit hours of undergraduate coursework in the areas of English composition, communications and literature, fine arts appreciation, mathematics, natural science, and social science as general studies credits. Copies of the agreement are available in the Student Services Center.

The following is a list of General Studies Requirements that may be fulfilled by comparable coursework at another institution. All other General Studies Requirements must be completed at FSU.

RETURNING STUDENTS

Students who have interrupted their schooling for more than one semester (not including the summer term) must reapply for admission. Any previous holds must be removed before readmission can occur. Students who have attended another institution during this absence are considered to be transfer students and must comply with the requirements listed above.
CONSORTIUM AGREEMENT

The Presidents of Fairmont State University, Pierpont Community & Technical College, Glenville State College, and West Virginia Northern Community College have entered into a collaborative consortium agreement for our students. This agreement acts as a more direct process for transient students at the four institutions, allowing for enrollment to occur at two institutions at the same time. New students need to contact the Office of Admissions for information; current FSU students should contact the Student Services Center.

CREDIT FROM A JUNIOR OR COMMUNITY COLLEGE

The maximum credit accepted from a Junior or Community College accredited by the North Central Association of Colleges and Schools or other regional accrediting association will not exceed 72 semester hours.

SPECIAL EXAMINATIONS FOR COURSE CREDIT

Students may earn course credit by special examination. To apply for permission for such an examination, applicants must be enrolled in the University or must have completed one semester or summer session in Fairmont State University. Applicants must first schedule an interview with the College or School Dean or department representative, who will evaluate the student’s background, experience, and qualifications to establish eligibility and give permission to take the examination. In order to gain college credit by special examination, students must demonstrate better than average proficiency on the examination, as determined by the examiner. Examinations will not be given for college courses in which students have previously received a grade other than “W.”

Applicants must pay a fee of $22.00 per semester credit hour for each special examination. A receipt for the payment of the fee must be obtained from the Student Services Center. No money will be refunded if any examination is failed. No examination may be repeated.

ORIENTATION

Orientation programs occur in the months prior to each academic semester. Each newly admitted student will automatically receive an invitation by mail, which will offer instruction on how to RSVP for the appropriate program. Students attending Orientation can expect to meet with an advisor and schedule classes and will have the opportunity to address any remaining issues with student services, not the least of which includes securing a parking pass and photo ID card. Attendees will also have the opportunity to meet with offices such as Financial Aid and Housing.

For more information, please visit the Orientation website by selection ‘Orientation’ from the Admissions menu on the homepage or, reach out via email to: Orientation@fairmontstate.edu.

GRADUATE STUDIES

Graduate studies at Fairmont State University are designed to give students advanced knowledge in a special field of study, higher levels of professional competence, an understanding of and respect for scholarly research and a sophisticated knowledge of the techniques of continued, lifelong intellectual growth. These goals are achieved through coherent, orderly programs of study, investigation and professionally mentored practical experiences that are carefully planned by each individual student in consultation with his or her graduate faculty adviser.

Fairmont State University currently offers the following graduate degrees:

- Master of Education (M.Ed.), with concentrations in Digital Media, New Literacies and Learning; Exercise Science, Fitness and Wellness; Online Learning; Professional Studies; Reading; Special Education;
- Master of Arts in Teaching (M.A.T.);
- Master of Business Administration (M.B.A.);
- Master of Science (M.S.) in Criminal Justice.

Choosing to pursue a Master’s degree program at Fairmont State University represents a commitment to excellence, personal growth, and lifelong learning. Our graduate programs are committed to a student-centered learning environment that emphasizes concrete experiences, intellectual discourse, and critical reflection. FSU is small enough to allow each graduate student opportunities for interaction with fellow students and distinguished faculty members, yet large enough to provide challenging and diverse areas of study. To better serve graduate students, the university schedules classes at times designed to meet the scheduling needs of part-time as well as full-time students.

If you are interested in learning more about our program or obtaining a specific graduate degree, please consult our web site at http://www.fairmontstate.edu/graduatestudies/default.asp or contact the Office of Graduate Studies at (304) 367-4098 or by email at gradstudies@fairmontstate.edu

GRADUATE TEST SCORES

GRE, or another approved graduate aptitude test, is required for students to apply to graduate school at Fairmont State University. The test results must be submitted as part of a completed graduate school application. Information is available on the FSU web site at http://www.fairmontstate.edu/graduatestudies/admission.asp
Expenses and Financial Aid

PAYMENT OF TUITION AND FEES

Students attending FSU are offered an alternative to payment in full at the time of registration. This payment plan is known as the Financial Installment Plan Service, or FIPS. This allows students to pay their balance in four equal payments. If payment is not received before the due date each month, a $25 late fee will be added to the account. The registration process is not complete until all fees, and any penalties, have been paid in full. Fees can be paid with Visa, MasterCard, American Express and Discover Card. Students receiving financial aid must apply 100 percent of their aid prior to FIPS payments.

Registration is not completed until payment of tuition, residence hall rent, board, and fees has cleared. A late payment charge of $50 will be assessed on the first day of the term; a $15 charge will be assessed on each check returned for “insufficient funds” unless the student can obtain an admission of error on the part of the bank. The Office of Enrollment Services shall declare the fees unpaid and registration canceled until the check has been redeemed and the additional charge paid. Student records will not be released by the Office of Enrollment Services for any student who has a delinquent financial obligation to either institution.

All outstanding amounts resulting from nonpayment of tuition and fees are the responsibility of the student. Withdrawal from school, officially or unofficially, will not cancel any financial obligation already incurred. Additionally, failure to pay all financial obligations may result in debts being turned over to a collection agency.

NOTE: The term “resident” refers to classification for fee purposes only. See end of this section for resident classifications.

All tuition and fees are subject to change. Please see our homepage for the most current tuition and fee information. From the main home page, select Enrollment Center, next select Tuition and Costs to locate this information.

Please note that bills are not sent via mail. Billing information, reminders and important notices are sent to each student’s institutional e-mail address.

REFUND POLICY FOR TUITION AND FEES

A student who withdraws from the institution may arrange for a refund of fees, excluding special fees, in accordance with the following schedule. Refunds are determined from the first day of the school term. The student’s official withdrawal date is certified by the Office of Enrollment Services.

Students who have paid in advance and withdraw prior to the first day of the semester will receive full refunds.

SEMESTER TERMS
Withdrawal during first and second weeks .... 90% refund
During third and fourth weeks..............................75%
During fifth, sixth, seventh, and eighth weeks......50%
Beginning with ninth week .......................No refund

SUMMER TERMS
The first three days of Classes......................... 90% refund
Fourth and fifth day of classes..............................75%
Sixth through tenth day of classes .......................50%
Beginning with eleventh day of classes ...........No refund

ROOM AND BOARD RATES

Room and board must be paid before the first day of classes for all terms. Applicants for on campus housing must pay a deposit at the time the application is filed. The application fee is currently $200.00 (this amount is subject to change at any time). The deposit will be refunded at checkout pending any necessary damage repairs. All unmarried freshman and sophomore students are required to live on campus, excluding the summer term unless the student qualifies for an exemption to this policy.

For applicants deciding not to enroll, written notice of withdrawal must be received by the Residence Life Office by May 31st for the fall semester, and by November 30th for the spring semester. Failure to notify the Residence Life Office in writing by the deadline will result in the forfeiture of the deposit. (Exception: Should the applicant be denied admission to either institution, a full refund will be made without regard to dates.) Students paying on-campus tuition and fees are entitled to participate in all college activities and attend athletic events.

The housing contract is valid for the academic year. Students cannot cancel their housing application to avoid living on campus after the application is filed. Students must submit a contract release request and be approved for a release in order to live off-campus after applying. Releases are not guaranteed. For students residing on campus, contract release requests must be submitted by the deadlines listed above in order to receive a deposit refund if approved. Please contact the Residence Life office if you have any questions concerning this information.

RESIDENCE HALL SEMESTER RATES 2013-2014:

Double Occupancy (Morrow, Pence, Prichard) ... $1,917.00
Bryant Single.......................................................$2,584.00
Bryant Double.......................................................$2,182.00

MOVE-IN COSTS
Application/Damage Deposit...............................$200.00
Meal plan.........................................................varies (see below)

APARTMENT SEMESTER RATES 2013-2014:

1 Bedroom (unfurnished).................................$3,314.00
2 Bedrooms (unfurnished).................................$2,472.00
2 Bedrooms (furnished)......................................$2,720.00
3 Bedrooms (unfurnished).................................$2,533.00

MOVE-IN COSTS
Application/Damage Deposit...............................$200.00

FOOD SERVICE SEMESTER RATES 2013-2014

All residents of Morrow, Prichard, Pence, and Bryant Halls are required to purchase a meal plan for use in the cafeteria or snack bar located in the Falcon Center. Campus Dining Services offers several meal plans.

A. Falcon 19 Plan
(19 meals, 7 days per week)............ $1,831.00 per semester
B. Falcon 15 7 Day Plan
(15 meals, 7 days per week)............ $1,760.00 per semester
C. Falcon 15 Plan
(15 meals, 5 days per week)............ $1,672.00 per semester
D. Falcon 12 Plan
(12 meals, 5 days per week)............ $1,697.00 per semester

Commuter meal plans are available in the Enrollment Services Center.

Financial Aid

Financial aid in the form of scholarships, grants, loans, and employment is available to students who need assistance in meeting their higher education expenses. All funds are administered by the Financial Aid and Scholarships Department in compliance with federal, state, and institutional guidelines.

NEED-BASED AID

FSU’s primary purpose in awarding financial aid is to assist those students who wish to attend college and need financial assistance to do so. A student’s need is determined by the Institutional Cost of Attendance (Budget) less the Expected Family Contribution (EFC) as determined by the Free Application for Federal Student Aid (FAFSA). Students with the greatest need may be awarded Grants,
Scholarships and self-help aid such as Federal Work Study and Student Loans.

By using the available resources, FSU attempts to meet the financial needs of all students. The total financial aid awarded to a student shall not exceed the Institutional Cost of Attendance (Budget) or the student's need, as appropriate.

SCHOLARSHIP AID

It is the intent of FSU, as an institution of higher learning, to foster the highest degree of scholarship among its students. The institution actively recruits students who have excellent academic records and recognize and reward those who continue to excel.

The objective of the scholarship program is to promote the recruitment and retention of a diverse student body with special talents. To accomplish this objective, a variety of merit and need-based scholarships have been developed with special criteria (ex.: Falcon Scholarships, program-specific scholarships, international student scholarships, athletic scholarships, etc.)

FSU is ultimately responsible for final approval of scholarship programs and related policies and procedures. Further, various offices or committees are responsible for segments of the scholarship programs. The Fairmont State Foundation, Inc., through the auspices of the Fairmont State Foundation’s Scholarship Committee, collaborates with the Offices of Admissions and Financial Aid and Scholarships to explore new areas of scholarship development and expansion, and assist those interested in establishing new merit-based scholarships or enhancing currently established scholarship programs for FSU. New scholarship programs are reviewed for consistency with institutional recruitment and retention goals and the scholarship philosophy statement and must be reviewed and approved by the President.

FSU’s Office of Financial Aid and Scholarships also administers scholarship aid delivery for a wide range of externally funded and managed merit- and need-based scholarships received by FSU students.

SOURCES OF FINANCIAL AID

The links for all sources and types of financial aid offered by FSU as well as other aid resources are available on the homepage at http://fairmontstate.edu/finaid/.

DEFINITION OF AN ACADEMIC YEAR

For Pell Grant, Direct Loan processing, and other Title IV aid, the academic year at FSU begins with the fall, continues with the spring, and concludes with the summer term.

PROCEDURES FOR OBTAINING FINANCIAL AID

1. Students must complete and submit an application for admission to the Office of Admissions (new students only).

2. For full consideration of aid based on need, students must complete and submit the Free Application for Federal Student Aid (FAFSA) to the federal processing center by March 1. The FAFSA can continue to be submitted through June 30 of the academic year and must be submitted annually.

3. For consideration of eligibility for academic scholarships, students must apply for admission to FSU by December 15. (Admissions/Recruitment and Academic Scholarships) and prior to February 1 for Financial Aid and Foundation scholarships in addition to submitting a scholarship application by February 1.

4. Students interested in aid for summer must complete a separate application, which is made available in March.

SATISFACTORY ACADEMIC PROGRESS FOR FEDERAL FINANCIAL AID

To receive funds administered by the Office of Financial Aid and Scholarships, students must be making measurable academic progress toward completion of an eligible degree or certificate. Federal regulations require evaluation of both quantitative and qualitative academic progress.

All students enrolling for the first time (including transfers) will be considered to be meeting academic progress in the first semester of enrollment.

Due to recently enacted Federal Regulations, our Financial Aid Satisfactory Academic Progress Policy has changed.

The following guidelines apply:

QUALITATIVE PROGRESS

Undergraduate

Required Cumulative Grade Point Average:

- 01-29 total credit hours...............1.5
- 30-59 total credit hours...............1.8
- 60-above total credit hours.........2.0

Graduate

Must meet the following Cumulative GPA: 3.00

QUANTITATIVE PROGRESS – Pace of Progression and Maximum Time Frame

a) Pace: The calculation of the cumulative number of hours successfully completed divided by the cumulative number of hours attempted. (Note: Grades of “W” count as attempted hours. Transfer hours that count towards the degree program are also included.)

Students must be successfully completing 67% of all hours attempted in order to insure students complete their studies within the maximum time frame shown below. The calculation will be rounded to the closest whole number and applies to the graduate programs as well.

b) Maximum Time Frame: The maximum time allowed to complete your degree (including transfer hours counted towards the degree program) is listed below.

A student must complete his/her program of study within the maximum of 150% of the number of hours required for the degree objective.
Associate program of 60 hours must be completed within 90 attempted hours.
Baccalaureate program of 120 hours must be completed within 180 attempted hours.
Graduate program of 36 hours must be completed within 54 attempted hours.
Post-graduate work (after first bachelor degree) including a second associate or bachelor degree and/or teacher certification must be completed within two academic years of full time study. No further aid will be awarded after 60 hours of post-graduate work.

FAILURE TO MEET STANDARDS OF SATISFACTORY ACADEMIC PROGRESS

Failure to meet the cumulative GPA or PACE at the end of any semester (including summer), will result in the student being placed on “warning” for the next semester.
Failure to complete your graduation within 12 hours of the Maximum Time Frame will result in the student being placed on “warning” for the next semester.
Failure to meet any of the above defined standards at the end of a “warning” semester will result in the student losing financial aid eligibility.

APPEALS PROCESS

A student may appeal their loss of financial aid through the Office of Financial Aid and Scholarships. To appeal, the student must have experienced a special circumstance such as death of a relative, injury or illness, or special circumstances as determined by the Office of Financial Aid and Scholarships. The appeal must include the following:

a. Why student failed to make Satisfactory Academic Progress.
b. What has changed that will allow the student to make Satisfactory Academic Progress at the end of the next semester.
c. Student’s academic plan for meeting Satisfactory Academic Progress.
d. Documentation supporting student’s special circumstance and ability to now succeed.

If the appeal is granted, the student will be placed on Probation for one semester and receive aid during that Probation semester. At the end of the Probation Semester student must:

a. meet the SAP standards at the end of the Probation semester; or
b. meet the academic plan that was developed for the appeal.

Appeals will be reviewed by the Financial Aid Counselors. If denied, the student may request the appeal be reviewed by the Director of Financial Aid and Scholarships.

NEW: If the student does not meet the Standards of Satisfactory Academic Progress or their Academic Plan at the end of the Probation Semester, the student will lose financial aid eligibility. To re-establish financial aid eligibility, the student may take and pay for 6 hours on his/her own until the Satisfactory Academic Progress Standards are met or the progression required by his/her academic plan has been achieved. The student may also do an appeal for one additional Probation Semester.

ACADEMIC FORGIVENESS & FINANCIAL AID

Candidates for academic forgiveness may receive financial assistance during the readmission semester. If student does not meet the Financial Aid Standards of Satisfactory Academic Progress at the end of the readmission semester, they will be placed on Financial Aid Warning or Probation as dictated by the Financial Aid Satisfactory Academic Progress Policy. Candidates must have a signed, written request on file with the Registrar and with the Director of Financial Aid and Scholarships in order for financial assistance to be released.

TITLE IV FINANCIAL AID RETURN OF AID POLICY

Due to recently enacted Federal Regulations effective July 1, 2011, our Financial Aid Return of Aid Policy has changed. Effective Fall 2011:

If a student withdraws from school whether officially (he/she completes the withdrawal form or drop all classes on the web) or unofficially (student stops attending classes) and has been awarded and/or paid Title IV Federal Aid, student is subject to a Return of Title IV Aid calculation. This calculation determines how much aid must be returned to the federal programs in the event of a complete official or unofficial withdrawal prior to completing 60% of the term (see example below).

The calculation determines the amount of federal aid that is considered to be earned and the amount that is considered to be unearned, and therefore must be returned to the Federal programs. State and/or institutional Aid may also be subject to return based on withdrawal date. The earned/unearned amounts are calculated based on the percent of the term completed. The length of the term is defined as the first day of all classes through the last day of all classes (not including a break of 5 days or more and final week).

Students who have been awarded aid that has not disbursed will also be reviewed to determine if they are eligible for a post-withdrawal disbursement. Withdrawn students who have been selected for verification but have not provided the documents necessary for disbursement may be eligible for a post-withdrawal disbursement. Their account will be reviewed and they will be offered a post-withdrawal disbursement if eligible and given 14 – 30 days to return the requested documentation. Students will only be eligible for the percentage of “earned” aid at the time of withdrawal.

Also NEW and effective Fall 2011: A student may be subject to a Return of Title IV Aid calculation if they are enrolled for the entire term and only complete one or more classes that end in the first eight (8) weeks.

WITHDRAWAL EXAMPLE

This example shows what happened when a student withdrew completely on the 21st day of a 108 day semester (70% Tuition refund period). The first table shows how the Return of Title IV calculation applies to this specific student’s situation. Please note that this is only an example; your specific situation may differ. If you are considering withdrawal, we strongly encourage you to consult with
your academic advisor and a financial aid counselor prior to taking any official action.

**EXAMPLE OF RETURN OF TITLE IV CALCULATION**

- Federal Direct Subsidized Loan $1750
- Federal Pell Grant $2675
- Federal SMART Grant $2000

1) Divide number of days attended by number of days in term
   
   Calculation: $21 \text{ days} / 108 \text{ days} = \frac{21}{108}$
   
   Result: Percentage of term completed $19\%$

   Greater than 60% - All aid is earned; no further steps
   
   Less than 60% - Use percent of term completed

2) Subtract percentage completed from 100
   
   Calculation: $100 - 19 = 81\%$

3) Multiply total federal aid by percent of term not completed
   
   Calculation: $5425 \times 0.81 = 4394.25$

4) Multiply total allowable institutional charges by 81% to get amount of unearned aid to be returned by FSU
   
   Calculation: Total fees = $2900 \times 0.81 = 2349$
   
   University returns: $1750 \text{ Direct Subsidized Loan; }$ $599 \text{ Pell Grant}$

5) Subtract unearned aid to be returned by FSU from total unearned aid
   
   Calculation: $4394 - 2349 = 2045$

   Student returns: $2045 \text{ Pell Grant}$

   (All that is left to repay is the amount the University had to repay. Student is not required to repay student portion of either grant program since the total in unearned grants is less than 50% of total federal grants.)

VETERANS’ POLICIES

The following policies and procedures will be observed by FSU for the purpose of determining satisfactory progress for all students receiving veterans’ benefits. The Veterans Administration will be notified of any veteran who is not maintaining satisfactory progress.

CLASS ATTENDANCE

If a student receiving veterans’ benefits withdraws from the University or an individual class and the Veterans Coordinator has no prior notice of irregular class attendance, the official withdrawal date on the withdrawal form completed in the Registrar’s Office will be assumed as the last date of class attendance.

The Veterans’ Certifying Official runs a report to identify these students and notify the Veterans Administration.

MIDTERM REVIEW

The Veterans Coordinator will review the midterm grade report for all students receiving veterans’ benefits and the Veterans Administration will be notified of any irregularities or indication of lack of progress on the midterm grade report.

FINAL GRADE FOR ALL COURSES ATTEMPTED

The final grade policy for all attempted courses applies to all students at FSU, including those receiving veterans’ benefits.

SUSPENSION

The Veterans Administration will be notified immediately at the end of the semester if a student receiving veterans’ benefits is suspended. The Office of the Registrar of FSU supplies the Veterans Coordinator with a list of students suspended. This list will serve as the basis for notification to the Veterans Administration.
SUMMARY

As indicated above, students receiving veterans’ benefits are subject to all institutional policies of grading, attendance, and withdrawal. It is the responsibility of the Veterans Coordinator to administer the procedures listed above and to notify the Veterans Administration, in every instance, indicating lack of satisfactory progress by the student receiving veterans’ benefits. There are no separate policies of attendance, withdrawal, or grade average calculation for students receiving veterans’ benefits. Evidence of unsatisfactory progress during a semester may result in loss of benefits back to the point at which satisfactory progress ceased (i.e., irregular withdrawal from class). It is the veteran’s responsibility to immediately notify the Veterans Coordinator of any changes in their enrollment status. If a change in enrollment status reduces amount of veteran’s benefits, the VA may request restitution from the student or the school. If requested, the school will return that portion of Veterans Assistance received. Student will then be billed for the balance. Collection of that balance will follow normal procedures.

PROCEDURE FOR MILITARY DEPLOYMENT

If you are called to active duty in the military while enrolled at FSU, you will be designated as being on a “Military Leave of Absence.” The following policies and procedures are designed to make your transition from active duty and your return as convenient as possible. Please read the information below and review your choice of options. If you receive any form of financial assistance, it is imperative that you meet with the Office of Financial Aid and Scholarships and Enrollment Services. You must provide Enrollment Services with a copy of your Deployment Papers no matter what option you select.

Option 1

When called to active duty during an academic semester, you may withdraw completely from the semester and receive a full tuition refund. You will also receive a prorated refund for campus housing, meal plan, and parking. After consultation with the Office of Financial Aid and Scholarships and Enrollment Services, your transcript for the semester may show enrolled with “W’s” or you may be completely deleted from that semester. If you choose to have all of your classes deleted, all financial aid received for the semester for those classes must be returned to the Federal, State, and/or Institutional Programs it was awarded from.

This in turn may leave a balance due the school if you have already received a refund check. This balance will be pursued through normal collection procedures.

Option 2

You may contact your individual instructors to determine if you have completed enough work for the semester to receive an incomplete or final grade for the course. The decision rests solely with each faculty member. You should have completed at least three-fourths of the semester before a faculty awards a final grade for a course. If you wish to pursue this option, you will need to contact Enrollment Services. Enrollment Services will discuss the procedure with you and provide a form for Faculty members to sign. Each faculty member must sign the form to indicate that they will give you an incomplete or final grade for the course.

Upon return from active duty, you will have one year to make up your incomplete/s. At the end of the one-year period, the instructor must submit a final grade. If no change is made by the instructor, the grade “I” will be changed to an “F.”

You may also officially withdraw from specific courses that you do not wish to complete. You will receive a prorated refund based upon the number of credit hours you retain. Upon consultation with the Office of Financial Aid and Scholarships and Enrollment Services, your transcript for the semester may show “W’s” for courses in which you officially withdraw or you may be completely deleted from those courses. If you choose to have some of your classes deleted, all financial aid received for the semester for those classes must be returned to the Federal, State, and/or Institutional Programs it was awarded from.

This in turn may leave a balance due the school if you have already received a refund check. This balance will be pursued through normal collection procedures.

Resident Classifications

GENERAL

Students enrolling in a West Virginia public institution of higher education shall be classified as resident or nonresident for admission, tuition and fee purposes by the institutional officer designated by the President. The decision shall be based upon information furnished by the student and all other relevant information. The designated officer is authorized to require such written documents, affidavits, verifications, or other evidence as are deemed necessary to establish the domicile of a student. The burden of establishing residency for tuition and fee purposes is upon the student.

If there is a question as to residence, the matter must be brought to the attention of the designated officer and acted upon at least two weeks prior to registration and payment of tuition and fees. Students found to have made false or misleading statements concerning their residence shall be subject to disciplinary action and will be charged the nonresident fees for each session therefore attended.

RESIDENCE DETERMINED BY DOMICILE

Domicile within the State means adoption of the State as a fixed permanent home and involves personal presence within the State with no intent on the part of the person to return to another state or country. West Virginia domicile may be established upon the completion of at least 12 months of continued residence within the State prior to the date of registration, provided that such residence is not primarily for the purpose of attendance at any institution of
learning in West Virginia.

Establishment of West Virginia domicile with less than 12 months’ residence prior to the date of registration must be supported by proof of positive and unequivocal action, including but not limited to the purchase of a West Virginia home, full-time employment within the state, paying West Virginia property tax, filing West Virginia income tax returns, registering to vote in West Virginia and the actual exercise of such right, registering of motor vehicles in West Virginia, and/or possessing a valid West Virginia driver’s license. Additional items of lesser importance include transferring or establishing local church membership, involvement in local community activities, affiliation with local social, civic, fraternal or service organizations, and various other acts which may give evidence of intent to remain indefinitely within the State. Proof of a number of these actions shall be considered only as evidence which may be used in determining whether or not a domicile has been established.

MINORS

Minors are defined by the West Virginia Code 2-2-10 as persons under 18 years of age. The residence of minors shall follow that of the parents at all times, except in extremely rare cases where emancipation can be proved beyond question. The residence of the father, or the residence of the mother if the father is deceased, is the residence of unmarried and unemancipated minors. If the father and the mother have separate places of residence, minors take the residence of the parent with whom they live or to whom they have been assigned by court order. The parents of minors will be considered residents of West Virginia if their domicile is within the State.

Minor students who are properly admitted to an institution as resident students shall retain that classification as long as they enroll each successive semester.

EMANCIPATED MINORS

Emancipated minors may be considered as adults in determining residence, provided satisfactory evidence is presented that neither of their parents, if living, contributes to their support nor claims them as dependents for federal or State income tax purposes. Emancipated minors assume all of the responsibilities of adults to establish residence for tuition and fee purposes. Proof must be provided that emancipation was not achieved principally for the purpose of establishing residence for attendance at an institution of higher education.

STUDENTS EIGHTEEN YEARS OF AGE OR OVER

Students 18 years of age or over may be classified as residents if (1) the parents were domiciled in the State at the time the students reached majority and such students have not acquired a domicile in another state, or (2) while adults, students have established a bona fide domicile in the State of West Virginia. Bona fide domicile in West Virginia means that students must not be in the State primarily to attend an educational institution and they must be in the State for purposes other than to attempt to qualify for resident status.

Nonresident students who reach the age of 18 years while students at any educational institution in West Virginia do not by virtue of such fact alone attain residence in this state for admission or tuition and fee payment purposes.

Students who are properly classified as residents at the time they reach the age of 18 shall continue to be classified as residents as long as they enroll each successive semester and do not establish a domicile, or legal residence, in another state.

STATE RESIDENTS 65 YEARS OF AGE OR OLDER

Residents of West Virginia who are at least 65 years of age may attend class for credit or no credit if space is available. Eligibility will be determined based on appropriate documents reflecting age and residency. Participants will be admitted according to the process for “Special Students” outlined in the admissions policies. Students may register anytime during or after the preregistration period designated for “All Other Students” and through the Regular and Late Registration periods. Appropriate dates and times will be published in the Schedule of Classes for each term. Participants may register for either on or off-campus courses.

Eligible participants may elect one of two options for enrollment. Participants must identify themselves and choose an option at the time of registration.

No Credit Option: Eligible participants will be assessed fifty dollars ($50) per course plus applicable fees (i.e. technology, laboratory, parking permits) when appropriate.

Credit Option: Participants electing to earn college credit will be granted a waiver of fifty percent (50%) of the normal tuition and fees for courses. Technology, laboratory, parking and other special fees will be charged at the regular student rate.

CHANGE OF RESIDENCE

Adult students who have been classified as out-of-state residents and who seek resident status in West Virginia must prove conclusively that they have established domicile in West Virginia with the intention of making their permanent home in this state. The intent to remain indefinitely in West Virginia is evidenced not only by persons’ statements but also by their actions. The designated institutional officer shall consider actions including but not limited to those described above in Section Two, “Residence Determined by Domicile.” Proof of a number of these actions shall be considered only as evidence which may be used in determining whether or not a domicile has been established. Factors militating against a change in residence classification may include such considerations as the fact that students are not self-supporting, that they are carried as dependents on their parents’ federal or state income tax returns or their parents’ health insurance policy; or that they customarily do not remain in the State when school is not in session.

Students may get the necessary paperwork for a change of residence from the Registrar’s Office.
MILITARY

An individual who is on full-time active military service in another state or a foreign country or an employee of the federal government shall be classified as an in-state student for the purpose of payment of tuition and fees: PROVIDED, that the person established a domicile in West Virginia prior to entrance into federal service, entered the federal service from West Virginia, and has at no time while in federal service claimed or established domicile in another state. Sworn statements attesting to these conditions may be required. The spouse and dependent children of such individuals shall also be classified as in-state students for tuition and fee purposes.

Persons assigned to full-time active military service in West Virginia and residing in the state shall be classified as in-state students for tuition and fee purposes. The spouse and dependent children of such individuals shall also be classified as in-state students for tuition and fee purposes.

ALIENS

Aliens in the United States on a resident visa, or those who have filed a petition for naturalization in the naturalization court and who have established a bona fide domicile in West Virginia, may be eligible for resident classification provided they are in the State for purposes other than to attempt to qualify for residency status as students.

FORMER DOMICILE

A person who was formerly domiciled in the State of West Virginia and who would have been eligible for an instate residency classification at the time of his/her departure from the state may be immediately eligible for classification as a West Virginia resident provided such person returns to West Virginia within a one year period of time and satisfies the conditions of Section Two regarding proof of domicile and intent to remain permanently in West Virginia.

APPEAL PROCESS

The decisions of the designated institutional officer charged with the determination of residence classification may be appealed to the President of the institution. The President may establish such committees and procedures as determined necessary for the processing of appeals.
Campus Life

Social and cultural opportunities are a significant part of a student's educational experience; therefore, Fairmont State University provides many services, activities, and organizations that students may select as they adjust to the college environment. The following section of the catalog describes these opportunities in detail.

Matters concerning student rights, responsibilities, and social conduct can be found in the published Student Handbook and online at http://www.fairmontstate.edu/publications/campushandbooks/studenthandbook/default.asp

WELCOME WEEKEND

Welcome Weekend occurs in August each year and is specifically designed to orient new students to the campus and to college life in general. Programs are offered to make students feel welcome in their new environment and to introduce them to the academic, social, and support services necessary to their persistence and success. [Each student attending the program will be fully oriented to his/her Academic school or College, as well as the broader institution. During the event, new students will participate in the Convocation Ceremony and will attend an event at which local businesses and banks are featured.]

Welcome Weekend occurs the weekend before classes begin. The multi-faceted program includes residence hall move-in and many other components (both educational and social) that assist in each student’s adjustment and transition.

Incoming students will receive an invitation by mail which will include RSVP instructions. For more information, please visit www.fairmontstate.edu/WelcomeWeekend or, contact the Office of Retention at: Retention@fairmontstate.edu

RESIDENCE HALLS AND APARTMENTS

FSU maintains four residence halls which accommodate approximately 900 students. Each residence hall provides a learning environment which is designed to enhance academic and social life. Contracts are for the entire academic year and prices vary by residence hall. For additional information, contact Residence Life at (304) 367-4216.

College Park Apartments accommodates approximately 200 students on the campus. The apartments operate on an 11.5 month schedule and tenants are required to abide by all rules and regulations. Prices vary based on apartment type. For more information, contact Residence Life at (304) 367-4216.

1. All freshman and sophomore students are required to live in campus housing unless approved for an exemption to the residency policy. Approved exemption information is available on the Residence Life website. Admitted students can easily apply for housing or an exemption by using the secure online tool located in myCampus. All students must receive written confirmation of their release from the campus residency requirement before making housing arrangements off-campus. Students requesting exempt status from the residency policy must submit the request at least 30 days prior to the start of the semester indicated in the request.

2. Students must pay an application deposit in order to complete their application and reserve a room. Housing assignments are completed based upon the student’s date of completed application. All residence hall and apartment applications and assignments are made for the entire academic year (College Park Apartments operate on an 11.5 month schedule).

3. At any time after the application is complete, students may request a release from their contract for the following conditions: Graduation, Withdrawal for the
The campus provides a 940-space parking garage for students as well as parking spaces in defined areas throughout the campus. Parking permits are required and are included in tuition; they can be picked up in Room 303 of the Turley Student Services Center.

FALCON CENTER

The student Falcon Center, centrally located on campus, provides an environment where students and employees can comfortably interact with one another while enjoying a variety of fitness and recreation programs, eating areas and study lounges. The campus bookstore, copy center, computer lab, dining services, food court, and much more are available for both students and employees.

Included in the recreation/fitness areas are: 7,000 square feet of fitness equipment with cardio-theater; five multi-purpose courts marked for basketball, volleyball, badminton and indoor soccer; multi-purpose rooms offering a variety of fitness classes; 25-yard fitness/lap pool, jacuzzi, sauna, and outdoor sunning deck; four-lane cushioned jogging/walking track and spacious locker rooms with lockers that may be rented. Throughout the year the Falcon Center offers special events such as health fairs, fitness fest, charitable events, student wellness, and many more. Also, the Falcon Center has a wide range of intramural sports available for students and staff.

BOOKSTORE

The institution’s bookstore, located on the second floor of the Falcon Center, carries all textbooks and school supplies needed for classes and a large selection of FSU apparel and gifts. Other items available include diploma frames, graduation supplies, decorative frames, general reading books, reference and test prep books, blankets, computer cables, blank note cards, school spirit items, plush animals, dorm room supplies, work out items, and much more. Computers and computer software, at educational discounts, are available through the bookstore website. Students may charge textbooks and supplies to their student account, both in-store and online. Clothing and gift items are available for purchase through the online site, as well.

CAFETERIA

Marketplace-style breakfasts, lunches and dinners are served Monday through Friday in the Cafeteria, located on the third floor of the Falcon Center (the student activity center). Brunch and dinner meals are available on weekends and on some holidays. Students on meal plans are to attend meals at this location or may use their Flex Dollars to buy food or groceries at one of the retail venues on campus. Commuter students may also dine in the Cafeteria by purchasing the all-you-care-to-eat option. Commuters have another option - purchasing a "block" of meals, available in blocks of 20, 30 or 50, to be redeemed as the student desires and valid throughout the semester. Every meal plan participant must present his/her student ID card to the cashier to show payment for a meal. To learn more about the dining options and to make suggestions, call the Dining Services office.
THE LIBRARIES OF FAIRMONT STATE UNIVERSITY

HUTCHINS, THELMA J. (2000)

Assistant Librarian

MAZURE, SHARON L. (1997)
Reference and Interlibrary Loan Librarian
Assistant Librarian

Fairmont State University has three libraries that may be used by all students, faculty, and staff. The Ruth Ann Musick Library is located on the main campus. The Teaching & Learning Commons at the Caperton Center in Clarksburg provides library services, and students and faculty may request materials from the main campus, use computers to access the libraries’ electronic materials, and get assistance with technology. The third library is located at the National Aerospace Education Center (NAEC) at Bridgeport. These libraries function at the heart of the institution’s academic programs. Library staff members work closely with students and faculty to develop research skills and to provide a wide range of support services that enhance the learning experience. The libraries’ print and electronic holdings are designed to support the curricular needs of the academic program of study offered and to encourage intellectual and personal growth.

The libraries provide easy access to over 220,000 items including books, magazines and journals, newspapers, government documents, videos, music CDs, and other multimedia, and to over 100 electronic databases. Over 160,000 electronic books are available, full text and online, through the online catalog. More than 67,000 journals, magazines, and newspapers are available and are accessible through online databases. Over 200 print journals are also available.

The libraries have an online, web-based catalog of all holdings, MARLO, available at http://marlo.fairmontstate.edu. This catalog is searchable from any location in the world that has internet access, through the use of a web browser. It also contains the holdings of the public school libraries and the public libraries of Marion County, and of Glenville State College. The Fairmont State Library is a member of WVDLL, a consortium of public and academic libraries providing a wide range of downloadable materials—books, audio, and video, for all library users.

SERVICES

The librarians offer instructional programs and training sessions, including orientation, that explain the use of the library’s resources, methods of dealing critically with available information, and ways in which the library can provide information, both through traditional methods and through the use of newer electronic formats. Training in the use of information gathering on the Internet and through other electronic information resources is available to all users.

The library on the main campus is open over 115 hours a week during fall and spring semesters and over 65 hours a week during the summer sessions. At least one professional librarian is available or on call most hours that the library is open. The librarians provide individualized assistance with projects, research, questions, and papers.

Interlibrary loan is available if students and faculty need research materials that are not available in one of the libraries. Users may place requests online, using ILLIAD. Using a major bibliographic database, OCLC, library staff members handle requests quickly. Articles may be posted online for the requestor to view, or may be electronically transmitted to the requestor.

The librarians maintain the libraries’ web pages at http://library.fairmontstate.edu. These web pages provide access to all resources that are available online for the use of students and faculty. Resources include electronic books, full text journals, journal indexes, videos, encyclopedias,
general and specialized reference works, style manuals, newspapers, government documents, and bibliographic indexes in all areas of the sciences, social sciences, humanities, and technology. Specialized assistance in locating resources is available and students and faculty may phone or email questions to the librarians. Access to library assistance is also available via chat, through LibChat. All online resources are available remotely from any location with Internet access, through the use of the UCA (Unified College Account) username and password.

Student Services

SCHOOL OF ACADEMIC STUDIES

The School of Academic Studies offers courses in developmental mathematics, composition skills, and basic reading and study skills for students who enter college with academic deficiencies and/or low placement test scores in any of those areas. These courses do not apply toward the credit hours required to graduate, but they do provide institutional credit, counting toward a student’s full-time status. The developmental mathematics courses are worth one institutional credit hour each. Please see the Math 0080 course description under Mathematics.

The School of Academic Studies also offers courses in applied mathematics which are worth 3 credit hours toward graduation and are designed to meet the needs of specific programs. Please see the course descriptions under Mathematics.

The Academic Studies Course Support Lab in 200 Jaynes Hall is designed to aid students in the successful completion of their Academic Studies developmental mathematics and English courses. Within the lab, an instructional specialist assists students as they progress their math modules and allows students to take exams. Also, instructors hold their office hours in the lab so that students working in their developmental modules can receive tutoring as needed. For more information, please call 304-367-4596.

CAREER SERVICES

The Office of Career Services provides students and alumni with a variety of benefits, including career exploration, life planning, and job searching assistance. Students can utilize career counseling and online software to clarify their options. An extensive career resource library is also available. Career Services provides the following:

- Assistance in declaring a major through a variety of assessment tools
- Personalized career counseling
- Information on employment trends, outlooks, etc.
- Internship/practical experience opportunities
- Workshops, career/job fairs
- Graduate school information
- College Central: An online resume and job database
- Full and part-time job opportunities
- Assistance with Resumes, Cover Letters, and Interviewing
- Practice interviews (videotaping is available)
- On-campus interviewing
- Career resources library
- Establishment of credential file

All students and alumni are encouraged to take advantage of these resources. The Office of Career Services is located in Turley Student Services Center and is open Monday through Friday, 8:00 a.m. to 4:00 p.m. Evening appointments may be made by arrangement. (304) 367-4214.

COUNSELING SERVICE

The counselors in Student Affairs offer professional assistance with personal problems, problems of social relationships and the understanding of oneself and others. Its staff consists of professionals trained in clinical practice and counseling who are experienced in dealing with issues common to college students. These services are available to all students in the belief that they often find significant benefit in counseling as a means of increasing self-awareness, maximizing potential and making the college experience more productive and meaningful. Contacts with the Counseling Services are held in strict confidence. Appointments may be made by calling 304-333-3661 or in person.

DISABILITY SERVICES

FSU is committed to providing educational opportunities for all students and assisting them in making their educational experience successful and positive. In compliance with Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990, FSU recognizes a student with a disability as anyone who has a physical, health, or mental impairment that substantially limits one or more major life activities. Student Disability Services coordinates the provision of reasonable accommodations for students with disabilities. All reasonable accommodations are individualized, flexible and confidential, based on the nature of the disability and the academic environment. Individuals requesting accommodations must provide current documentation of their disability to the Office of Disability Services, located in Turley Student Services Center. Office staff and the student will work on determining appropriate accommodations. The student will receive letters for the faculty explaining the accommodations. It is the student’s responsibility to provide faculty with this letter. Any faculty member who has not been provided with an accommodation letter is not required to provide accommodations.

Assistive technology and auxiliary, and support services are available to students registered with the Office of Disability Services. For more information and documentation criteria, please contact the Office of Disability Services at (304) 367-4686.
INTERNATIONAL STUDENT SERVICES

The Office of International Student Services offers admissions processing, immigration advisement, support services, counsel, and programming for all international students from applicant through alumni status. A trained staff supports international students as they settle into the community and assists in locating the resources they require to succeed academically. All student applicants who hold a United States visa or who have been educated at the high school or collegiate level outside the United States should contact the Office of International Student Services when seeking admission. All international students must meet with a DSO upon arriving on campus and at the beginning of each semester thereafter to complete immigration procedures with SEVIS prior to the start of classes. International students must bring their passports, I-20’s (Certificate of Eligibility for Non-Immigrant Student Status), and I-94 (Arrival/Departure Record) to each semester meeting. For additional information about the program, call (304) 367-4782 or email fsisc@fairmontstate.edu.

MULTICULTURAL AFFAIRS

The Office of Multicultural Affairs provides multicultural education for all students. Educational programs and activities will assist majority and minority students to identify their commonalities and to understand, accept and value their differences. Students can learn to relate to members of diverse groups, communicate effectively across racial and cultural lines, and transfer these skills to a variety of settings. Multicultural Affairs is committed to developing programs which expand awareness and promote cultural opportunities for all students.

The Office of Multicultural Affairs also promotes systematic change that fosters a multicultural perspective across campus. As change agents, we work with various allies to incorporate diverse perspectives into every facet of the institution, including admissions, hiring practices, administrative policies and procedures, academic curriculum, and co-curricular activities.

Finally, the Office of Multicultural Affairs provides support to underrepresented ethnic groups. This support includes assessment and other functions designed to identify the psychosocial, academic, and other needs of minority students; communication of these needs, along with recommendations for meeting them, to other units of campus; programs and services that enhance students’ personal, social, educational, and cultural development; and efforts to encourage all students to participate in and contribute to the life of the campus. For more information please contact the Director of Multicultural Affairs at (304) 333-3628.

NON-TRADITIONAL STUDENTS

Historically students over the age of 25 have been characterized as “non-traditional”. Today more than 47% of college students fall under this non-traditional classification in U.S. higher education. However, non-traditional students or adult learners might be better defined as students who often exhibit one or more of the following seven characteristics:

- Have delayed enrollment into post-secondary education
- Attend part-time
- Are financially independent of parents
- Work full-time while enrolled
- Have dependents other than a spouse
- Are a single parent
- Lack a standard high school diploma

By using these criteria, the National Center for Education Statistics estimates that over 60 percent of students in higher education could be classified as non-traditional.

Over the past two decades, enrollment of adult learners at Fairmont State University has grown in both absolute numbers and in proportion to total enrollment. With this increase, the college recognizes the need for a proactive approach to meeting the non-traditional student’s individualistic and special needs. The unique circumstances of the non-traditional student requires that the college offer special support services in order for these students to achieve academic success and to enhance the students’ capacities to become self-directed, lifelong learners.

A list of currently active organization, including the Non-Traditional Students Society, can be found online at www.fairmontstate.edu on the Student Life page.

STUDENT HEALTH SERVICES

The Student Health Service is located on the 3rd floor of the Falcon Center. Office hours are Monday through Friday from 8:00 a.m. until 4:00 p.m. A Nurse Practitioner is available to care for students’ needs during those hours.

The service is available only to currently enrolled students with a valid student ID. Summer hours are the same as those of the general institution. Students may visit the office for any reason that may cause them to seek treatment from their general health care provider at home. If care is needed beyond the scope of service the student will be referred to the appropriate facility. Students are encouraged to walk in or call the office at 304-367-4155.

PEER TUTORING PROGRAM

Peer tutoring is available on a “drop-in” basis to all students through the Tutorial Services Center at the Locust Avenue campus only. All full-time and part-time students are entitled to free tutoring. Students with documented disabilities may be eligible for additional support services. Students are encouraged to request tutoring for extra academic support and especially if they are in danger of failing a class. Each semester, peer tutoring is available for most basic required courses and for a variety of other courses. The center has individual tutoring areas equipped with dry erase boards, desks, and computers. Students in good academic standing (sophomores, juniors, seniors) who would like to serve as paid “peer tutors” must complete an
MATH/Writing CENTER

Professional tutors for mathematics offer tutoring for all math courses and math related topics including study procedures, problem solving strategies, and overcoming math anxiety. Professional tutors for writing across the curriculum offer help with all writing assignments including essays, research papers, technical documents, and literary analysis. The services of the Math/Writing center are free and available on a “drop-in” basis for all full-time and part-time students at the Locust Avenue campus (Fairmont, WV), Caperton Center (Clarksburg, WV), MTEC (Morgantown, WV), and Lewis County Center. For hours of availability, check the Professional Math Tutoring Schedule or the Professional Writing Tutoring Schedule on the college website under Tutorial Services or contact the Director of Tutorial Services in the Library, 2nd Level at 304-367-4081.

Student Activities

CLUBS, HONOR SOCIETIES, AND SOCIAL ORGANIZATIONS

FSU students have organized over 60 clubs and honorary organizations for the promotion of interests in various academic fields, the recognition of outstanding achievement in various campus activities, and for general social purposes. A list of currently active organizations can be found online at www.fairmontstate.edu on the Student Life page.

FORENSICS (PUBLIC SPEAKING, ORAL INTERPRETATION, AND DEBATE)

Fairmont State University offers a variety of programs for all students interested in public speaking, oral interpretation and debate. Participation in all of these activities is open to any full-time student in good academic standing at Fairmont State University. All activities operate under the direction of the Communication and Theatre Arts faculty. The Intercollegiate Debate Squad participates annually in six intercollegiate debate tournaments at colleges and universities throughout the East and Midwest.

Students may participate in intercollegiate competitions in oratory, extemporaneous speaking, persuasive speaking, impromptu speaking, after-dinner speaking, prose interpretation, poetry interpretation and dramatic interpretation. All full-time students have the opportunity to participate in the Annual M.M. Neely Oratorical Contest. The contest is a persuasive speaking event which is endowed by the heirs of the late U.S. Senator and Governor of West Virginia, M.M. Neely. All communication majors and minors must compete in the Neely Contest as a final recital presentation.

The FSU Chapter of Pi Kappa Delta, the national forensics honorary, recognizes outstanding students through membership in the local chapter. Fairmont State University is a member of the National Forensic Association.

INTERCOLLEGIATE ATHLETICS POLICIES

The program of intercollegiate athletics at Fairmont State University is supervised by a Director of Athletics, who reports to the University President, the Fairmont State Athletic Association (FSAA), an athletic committee made up of faculty, and the Athletic Affairs committee made up of BOG members. The general objectives of the intercollegiate athletic program at FSU are to teach students the values of sportsmanship, good physical conditioning, and the disciplinary and social values of organized team play. Specific goals include training through participation for prospective coaches and physical education instructors and the acquisition of experiences and skills which may enhance recreational outlets following graduation.

In pursuance of the policies recommended by the North Central Association, the following minimum standards governing intercollegiate athletics are maintained:

• The ultimate responsibility for the conduct of the athletic program rests with the President of the University.
• Students participating in athletics are admitted by the Director of Admissions on the same basis as other students. Athletes are required to maintain the same academic standards as non-athletes.
• The award of scholarships, student loans, and student employment to athletes are made through the same agency of the Institution and on the same basis as grants of aid to all other students. All employed students are required to give full and honest work for pay received.
• All athletic funds are handled by the Business Office. An audit of the receipts and disbursements of these funds is made annually by the Legislative auditors.
• An effort is made to compete only with institutions having similar educational and athletic policies.
• Fairmont State University is a member of the Mountain East Conference and the National Collegiate Athletic Association (NCAA). Athletic participation is regulated and controlled by the eligibility rules of the Conference and the NCAA. Copies of these rules are on file in the Office of the Director of Athletics.

Progress-Toward-Degree Requirements.

To be eligible to represent an institution in intercollegiate athletic competition, a student-athlete shall maintain progress toward a baccalaureate or equivalent degree at that institution as determined by the regulations of that
Fulfillment of Minimum Hours and Grade-Point Average for Student-Athletes.

A student-athlete shall meet the satisfactory completion provision of this requirement by maintaining total hours and grade-point average that places the individual student-athlete in good academic standing, as established by the institution for all students-athletes who are at an equivalent stage of progress toward degree. To fulfill the “satisfactory completion” provisions of this requirement, a student-athlete who first enters a Division II institution after 1988-89 academic year must achieve the following minimum hours passed and cumulative grade-point average (based on a maximum of 4.0) at the beginning of the fall term or at the beginning of any regular term of that academic year, based on the student-athletes earning:

(a) 24-semester or 36-quarter hours: 1.8;
(b) 48-semester or 72 quarter hours: 1.9;
(c) 72-semester or 108 quarters hours: 2.0; and
(d) 96-semester or 144 quarters hours: 2.0.

A student-athlete must meet the minimum cumulative grade-point average at the certifying institution based on the method of calculation used by the institution for calculation cumulative grade-point averages for all students, and the calculations shall include only course work normally counted by the institution in calculating the cumulative grade-point for graduation.

INTERCOLLEGIATE SPORTS

Fairmont State University is a member of NCAA Division II, the Mountain East Conference and sponsors an intercollegiate athletic program of 14 sports: 7 sports for men: football, basketball, baseball, cross-country, golf, tennis and swimming, and 8 sports for women: tennis, golf, basketball, volleyball, swimming, softball, cross-country, and acrobatics and tumbling. A cheerleading spirit squad and a dance team are also offered for women. Fairmont State University provides fine indoor and outdoor facilities and equipment for physical education and recreation. All students are free to participate in intercollegiate sports, intramural sports and in all recreational activities.

INTRAMURAL & CLUB SPORTS

The Intramural program offers a variety of competitive recreational opportunities for students, faculty, and staff. Activities and sports such as flag football, basketball, softball, golf, spades, volleyball, ping pong, and cornhole are just some of the activities offered each semester.

The philosophy of the Intramural program is to provide every student, faculty, and staff not engaged in varsity competition an opportunity to participate in competitive recreational sports in a safe environment; to facilitate the opportunity for camaraderie; and to create opportunities for healthy lifestyles and physical fitness. It is the goal of the department to foster sportsmanship, fair play and respect for competition through a diverse variety of organized sports and recreational activities.

Several Club Sports are organized on the campus and students enrolled in both institutions are eligible to participate. Current clubs include Rugby, Men’s Soccer, Fishing, Cheerleading, Dance, and Men’s Lacrosse. Club Sports are 100% Student supported. For information, please contact the Director of Intramural Sports at (304) 367-4291 or email intramurals@fairmontstate.edu.

MUSIC ORGANIZATIONS

Performing organizations in the Department of Music are open for the participation of all interested and qualified students.

Instrumental organizations include the Fairmont State Marching Band, Wind Ensemble, Jazz Ensemble, and University-Community Symphony Orchestra. Other ensembles include Woodwind Ensemble, Guitar Ensemble, Percussion Ensemble, African Drum Ensemble, and Piano Ensemble and are organized on demand under faculty supervision.

Vocal ensembles include Collegiate Singers and the Chamber Choir. Additional ensembles are organized on occasion under faculty supervision.

All musical ensembles present concerts on and off campus during the school year. Students may receive up to 3 credit hours in the General Studies curriculum by performing in Marching Band, Wind Ensemble, Collegiate Singers, or Orchestra. Interested students should contact the Department of Music, in the School of Fine Arts, for additional information at (304) 367-4166 or email Constance.Edwards@fairmontstate.edu.

PUBLICATIONS

Student publications available on campus include The Columns, the student newspaper; The Mound, the yearbook; and Whetstone, the student art and literary journal, and Tracts, the student scholarly journal.

Staff positions are open to all interested students, with approval of the respective editor and advisor. Application forms are available in 311 or 301 Jaynes Hall. Students participating as staff members may also receive variable course credit for their work. Editors are responsible for staff assignments, and enrollment is by advisor permission (Professor Sharon W. Brescoach for The Columns and The Mound, and Professor Suzanne Heagy for Whetstone). Editor positions for the respective publications are competitive and chosen annually by the Student Publications Board, which governs all student publications.

Student publications allow students to hone their writing, editing, photographic, and graphic-design skills in professional settings, using advanced computer technology. The Columns is published monthly. The Mound and Whetstone are published annually. Whetstone showcases student writing and art and accepts submissions on a rolling basis. Student publications are financed primarily by student fees.
Campus Life

STUDENT GOVERNMENT ASSOCIATION

Student Government actively seeks to supplement the academic atmosphere with intellectual, cultural, and social activities. Student Government members are involved in all aspects of life on campus and work cooperatively with the college administration, alumni, and community.

Every segment of the student body is represented in the Government. Members are elected each spring by the student body and receive special training for their positions. The association comprises a President, Vice President, Secretary, Treasurer, Parliamentarian, representatives of each class (Freshmen, Sophomore, Junior, and Senior), Board of Governor’s Representative, House of Representatives, Statewide Advisory Council Representative, Faculty Senate, Director of Publications, Multicultural Representative, and Residence Hall Representatives. Student Government elects an advisor who must be a fulltime faculty or staff member.

Student Government meets weekly. All meetings are open to the public. Meeting location and times are subject to change; further information can be found on the Student Government website www.fairmontstate.edu/stulife/student-government/student-government.

THEATRE

Fairmont State University offers an active theatre program for the benefit of performers, technicians and the audience.

The Masquers, the official student theatrical organization since 1923, presents annually a season of plays, varied in style and period, usually in Wallman Hall during the fall and spring semesters. The plays are directed by the Communication and Theatre Arts faculty, and designed by faculty or students under faculty supervision. Acting roles and positions on the production crews are open to the student body on a voluntary or course-credit basis. Performances are open to the public. Membership in Masquers is open to the student body and is earned through participation with the theatrical productions.

Since 1960, the Masquers' Town & Gown Players has also presented a season during the summer months. Students enrolled in summer theatre courses work along with the members of the Resident Company (selected students receiving a grant for full-time acting and technical work) and members of the community. The Players bring a season of light theatre fare (comedies, musicals, children's plays) to Northern West Virginia theatergoers and provide a cultural, recreational, and educational outlet for all participants. The plays are directed, designed, and supervised by the professionally trained members of the Communication and Theatre Arts faculty and/or guest artists. Acting roles and positions on production crews are open to the public as well as to the students, faculty, and staff on a volunteer or course-credit basis.

The Studio Theatre presents student-directed and faculty-directed presentations in a studio/experimental setting in Room 314 Wallman Hall. Acting roles and positions on production crews are open to the student body. Students who have demonstrated scholastic and production excellence are offered membership in the Alpha cast of Alpha Psi Omega, the National Dramatic Honorary.
Special Programs

ACADEMIC COMMON MARKET

The Academic Common Market, a program coordinated by the Southern Regional Education Board (SREB), provides students in 16 southern states the opportunity to enroll in selected programs at public institutions in other states and pay in-state tuition. To qualify a student must:

- be a resident of one of the 16 SREB states;
- select a program eligible for residents of his/her home state;
- complete the admission process at the institution offering the eligible Academic Common Market program;
- be certified as a resident of the home state by contacting the ACM coordinator for the student's state of residence.

For more information, contact the Office of the Associate Provost at (304) 367-4098 or visit www.sreb.org.

ADULT LEARNING CENTER

Kay Pitrolo
(304) 367-4873

Support services for the learning needs of all students are available through Pierpont Community & Technical College and the Adult Learning Center. Through the Center, students can receive support services in the following areas:

- Enhance skills in mathematics, oral and written communication, and reading to assist with WorkKeys Skills.
- Study for Civil Service Test Preparation and ACT Test Preparation.
- Study to pass the GED (high school equivalency diploma.)
- Gain skills to meet entrance requirements for vocational and other higher educational placement programs.
- Obtain computer skills needed in today’s information society.
- Complete career interest inventories and learning style inventories.
- Testing for student grade levels in math, reading, and language.

The West Virginia Department of Education recognizes that today’s workplace presents numerous opportunities and challenges for adults in West Virginia. It is our aim to effectively serve the foundational learning needs of diverse groups and provide a learning system that is flexible and responsive to individual needs.

COMMUNITY ART, MUSIC, AND DRAMA PROGRAMS

Art, music, and drama classes and private lessons taught by student and professional instructors are available to community, college, secondary and elementary students for an additional fee. Information may be obtained by contacting the School of Fine Arts office. College credit is not awarded for these courses.

COMMUNITY SERVICE LEARNING

Service Learning is a national movement utilized in a number of colleges and universities in the United States. It is the process of integrating volunteer community service with active guided reflection which enhances student
THE ENGLISH AS A SECOND LANGUAGE (ESL) PROGRAM

The English as a Second Language (ESL) intensive English program is open to non-native speakers of English who have a serious desire to improve their language skills. This challenging ESL program is useful to working professionals and to students preparing for university study or professional programs. The program has been offered since 1989.

The ESL Program offers three sessions yearly and follows the traditional academic schedule. The fall semester runs from mid-August to mid-December, the spring semester runs from mid-January to mid-May, and the summer session runs from mid-May to the end of July. Classes meet four hours daily, five days per week. In order to accommodate varying academic schedules, students may apply at any time.

The course of study is based on an integrated skills approach with listening, speaking, reading, grammar, and writing components. Fluency and accuracy in both spoken and written English are emphasized. Classes average ten students. The small class size allows each participant a maximum amount of individual attention and an opportunity to develop conversational skills.

English as a Second Language classes at any specific level, beginning through advanced, will depend on sufficient enrollment. For more information on the ESL Program, please contact Geneva Hines, Director of International Student Services, at 304-367-4490.

THE FRANK & JANE GABOR WEST VIRGINIA FOLKLIKE CENTER

Dr. Judy P. Byers
(304) 367-4403 or (304) 367-4286
www.fairmontstate.edu/wvfolklife/default.asp

The Frank & Jane Gabor West Virginia Folklife Center is dedicated to the identification, preservation, and perpetuation of our region’s rich cultural heritage, through academic studies; educational programs, festivals, and performances; and publications.

Named to the National Register of Historic Places, 2006, the location of the Folklife Center is an adaptive reuse of historic properties on the west side of campus, formerly known as The Colonial Apartments (c.1941) and The Kennedy Barn site (c.1903) on the original location of the Michael Kennedy Dairy Farm. Mailing Address: 1201 Locust Avenue, Fairmont, WV 26554

ACADEMIC STUDIES

The study of folklore and folklife involves examination and analysis of traditional expressive culture in all its forms, including oral, customary, and material. In every society, agricultural and industrial, rural and urban, folklore is a vital part of life. In higher education, then, since folklore is a study of the humanist expression which is handed down by tradition rather than by writing, it is related to all departments that deal with literature, art, and music. Since folklore also deals with the entire traditional culture of mankind as manifested in customs and beliefs, it has close affiliations with anthropology, psychology, sociology, history, philosophy, linguistics, design and pedagogy.

One of the features of the Gabor WV Folklife Center is a 19-hour interdisciplinary academic minor that can be attached to most liberal arts majors. As an academic program in the Department of Language and Literature of The College of Liberal Arts, a folkloric studies specialization poises the student for graduate studies and professional involvement in such areas as preservation, archiving, teaching, curating, historical parks and museums management, entertainment, and storytelling.

Pierpont Community & Technical College, in association with The Frank & Jane Gabor West Virginia Folklife Center, offers certificate programs in both Museum Studies and Folk Arts & Crafts apprenticeship. In addition, Museum Studies is a concentration option in the Associate of Arts Liberal Studies program.

ARCHIVES

The Gabor WV Folklife Center houses the unpublished folklore estate of Ruth Ann Musick, folk tale scholar, who was the archivist for the WV Folklife Society and editor of WestVirginia Folklore Journal that was published at Fairmont State. Dr. Musick bequeathed to Fairmont State her folklore estate for academic study, programming, and publications.

Various other artifact collections have been placed in the Folklife Center Archives, and resources to properly process and store these artifacts have been obtained. The Gabor WV Folklife Center actively seeks donations of any artifacts that will help interpret West Virginia folklore. This may include photographs, family memorabilia, journals, letters, oral histories and folklore, and any other materials of such nature.
PUBLICATIONS
The Frank and Jane Gabor West Virginia Folklife Center publishes two journals through the Fairmont State Press established in 2004.

- Traditions is a journal of West Virginia folk culture and educational awareness. First published in 1993, this annual periodical emerged from the West Virginia Humanities Summer Seminar for Teachers, Appalachian Culture: Texture, Text, and Context, a Folkloric Approach to Learning. Traditions is the continuation of West Virginia Folklife, published at Fairmont State from 1951 to 1983. Traditions is supported by Fairmont State University, the Gabor WV Folklife Center, and the West Virginia Humanities Council.

- Hillchild is a folklife chapbook about, for, and by children of West Virginia. First published in 2002, it is supported by Fairmont State University, the Gabor WV Folklife Center, and the West Virginia Humanities Council.

In addition to producing Traditions and Hillchild, the Press has published a memoir, The Dulcimer Man: The Russell Fluharty Story and companion CD, Russell Fluharty Playing the Hammered Dulcimer, and From a Place Called Solid: West Virginia and Its Writers, a literary map of West Virginia.

Students pursuing a minor in Folklore Studies assist co-editors Dr. Judy P. Byers and Cultural Specialist Noel W. Tenney with these publications. For more information, telephone Professor Byers at (304) 367-4286, email wvfolklife@fairmontstate.edu or visit www.fairmontstate/ wvfolklife.

SPECIAL PROGRAMMING

Awards
- B.B. Maurer WV Folklife Scholar Award annually honors a person who has made an outstanding contribution to the preservation and perpetuation of our Appalachian cultural heritage, this award is named for Dr. B.B. Maurer (1920 - 2003), considered the “Father of Cultural Studies in West Virginia.”
- The Gabor WV Folklife Center Achievement Award is a special recognition award in an area of folklife studies.
- The Traditions Salute Award is an award that recognizes special commitment towards the enhancement of West Virginia folk culture through education and public resources.

Summer Teacher Institutes in partnership with the West Virginia Humanities Council

Folk Festivals, Summer Celebrations, and Events
Fall and Spring Gatherings: Demonstrations, Exhibits, Presentations
Study Abroad Travel Programs, such as Roads to Appalachia through Scotland and Ireland; Italy; England and Wales; Eastern Europe; Germanic Roots.

FRASURE-SINGLETON STUDENT LEGISLATIVE PROGRAM

The Frasure-Singleton Student Legislative Program provides students the opportunity to observe the West Virginia Legislature for one week during its regular legislative session. Participants are assigned to a legislator who assists in explaining the legislative process. They attend committee meetings and public hearings where legislation and issues are discussed. They sit on the floor during daily sessions, surrounded by legislators with issue research, constituent requests and other legislative tasks. In addition, participants meet with representatives from all branches of state government, lobbyists, reporters, and legislative staffs.

The program is open to full-time college sophomores, juniors, and seniors from all fields of study. Applicants must be in good academic standing and have successfully completed at least one Political Science course. Participants will earn one semester hour of credit.

For more information, contact the Political Science Department at (304) 367-4161 or email aridgway1@fairmontstate.edu.

HERNDON LEGISLATIVE FELLOWS PROGRAM

The primary goal of this program is to instruct selected full-time undergraduates in the theory and operation of legislative bodies in multi-dimensional roles. Participants will be designated as legislative interns and will perform assignments in the West Virginia Legislature for the duration of its session. They will spend a full semester in the study of the operation, role, and functions of legislative bodies.

To be eligible for this program, students must have completed a minimum of 60 undergraduate semester hours or equivalent, with a grade point average sufficient to admit them to the degree program of their choice. At the time of application, students must be enrolled at their home institutions on a full-time basis and cannot be on academic or social probation. Students may not serve as interns if they are subsequently placed on academic or social probation. Students must be in good academic standing and have successfully completed at least one Political Science course. Participants must be juniors, and seniors from all fields of study. Applicants must be in good academic standing and have successfully completed at least one Political Science course. Participants must be juniors, and seniors from all fields of study. Applicants must be in good academic standing and have successfully completed at least one Political Science course. Participants must be juniors, and seniors from all fields of study. Applicants must be in good academic standing and have successfully completed at least one Political Science course. Participants must be juniors, and seniors from all fields of study. Applicants must be in good academic standing and have successfully completed at least one Political Science course. Participants will earn one semester hour of credit.

For additional information, contact the Political Science Department at (304) 367-4161 or email aridgway1@fairmontstate.edu.

THE HONORS PROGRAM

J. Robert Baker, Director
311 Jaynes Hall / (304) 367-4260
JRobert.Baker@fairmontstate.edu

Fairmont State University’s Honors Program identifies and encourages highly motivated, academically superior students. Working within a curriculum that promotes
engagement and participation, these students enroll in Honors sections of general studies classes. The faculty teaching these Honors sections are among the best the University has to offer. Honors sections are designated in the published schedule of courses each semester and noted on students’ transcripts. Additionally, students in the program complete a senior project that may be split into separate, even disparate, parts.

The Honors Program encourages students to work closely with other Honors students and the Honors faculty to explore ideas from various perspectives. Beyond the curriculum, Honors students participate in field trips, lectures, and cultural events.

Honors students may apply to live in the Honors Residence Hall, which offers a supportive community in which Honors students can study and enjoy co-curricular activities with like-minded students. Students also have the benefit of the Honors Faculty in Residence who lives in the Honors Residence Hall and is available for academic advice and support, as well as informal counsel.

Honors courses vary according to the program of study each student designs. Generally, however, students take two Honors courses each semester during their first two years at Fairmont State University. During their senior year, students complete six hours for a senior project linked to their majors. This project allows students to apply their developing intellectual skills in independent research, internships, and creative projects; it is designed also to help prepare students for graduate study or employment. At minimum, students need twenty-five to twenty-six credit hours in Honors courses to complete the Honors Program, but students are encouraged to take more than the minimum in order to deepen their education.

GENERAL STUDIES
Honors Seminar................................................. 1 credit hour
Honors Composition........................................... 3 credit hours
Honors Humanities............................................... 6 credit hours
Honors Fine Arts & Honors
Interdisciplinary and Lifelong Learning........... 3 credit hours
Honors Natural Science................................. 3 - 4 credit hours
Honors Social Science........................................ 3 credit hours

SENIOR PROJECT IN HONORS............. 6 credit hours

LEADERSHIP CERTIFICATION

Fairmont State University provides students with the opportunity to develop their leadership abilities, regardless of their academic major or minor. Leadership Certification is an interdisciplinary humanities program based in the liberal arts and grounded in theory and practical experience. It is designed to enhance a student’s college career by linking leadership to self-awareness, personal growth, organizational theory and practical experience in community service.

Required Courses:
• Leadership Certification...............................10 SEM. HRS.

PRE-PROFESSIONAL AND PRE-PROGRAM STUDIES

Pre-professional and pre-program studies are not academic majors; rather, they are designed to prepare students to apply to a program or school that awards a specific degree. Two distinct types of preparatory studies exist at Fairmont State University.

1) Pre-professional studies prepare students to apply to professional schools at another institution after they have completed specific undergraduate coursework at Fairmont State University. Professional schools include medical, dental, engineering, pharmacy, physical therapy, veterinary or law school. Admission to professional schools is highly competitive and often requires successful completion of standardized tests and other special requirements. All students who plan to apply to professional schools are asked to declare an academic major and pursue a 4-year degree at Fairmont State University while completing the coursework specified by the professional school they desire to attend. Students who indicate an interest in pre-professional study will be given an advisor in the major area and an advisor specific to the pre-professional study they plan to pursue. Students should also carefully consult the catalog of the professional school that they plan to attend.

2) Pre-program studies prepare students to apply to a competitive undergraduate degree program, either at Fairmont State University or at a different institution. Before a student is accepted into the nursing program, for example, he or she will be assigned a pre-nursing advisor and will have no official major. Pre-program status exists for both two-year and four-year programs.

a. Pre-program studies for which a degree program exists at Fairmont State University include pre-education, pre-veterinary technology, pre-physical therapy assisting, pre-medical laboratory technology, pre-health information technology, and pre-emergency medical services.

b. Pre-program studies for which a degree program exists at other institutions, but for which a student can prepare while at Fairmont State University, include pre-radiation technology, pre-respiratory care, pre-medical technology and pre-journalism.

PRE-LAW STUDIES

PUBLIC AFFAIRS INTERNSHIPS

The Political Science Department regularly becomes aware of internship opportunities at the local, state, and federal levels of government. These internships can be with members of the state House of Delegates and Senate, the United States Congress, city managers, public interest groups, or state and federal agencies. Internships can take place during the semester or during the summer months. While most of the internships do not include a salary, academic credit can be earned.

For more information, contact the Political Science Department at (304) 367-4161 or email aridgway1@fairmontstate.edu.

REGENTS BACHELOR OF ARTS DEGREE PROGRAM

Pamela Stephens, Program Coordinator
Turley Student Services Center / (304) 367-4801
Pamela.Stephens@fairmontstate.edu

Janice Watts, Advisor
Turley Student Services Center / (304) 367-4193
Janice.Watts@fairmontstate.edu

The Regents Bachelor of Arts Degree Program (RBA) is a flexible, nontraditional program designed for adults in the belief that they are distinctly different from traditional undergraduates in their needs. The program can be tailored to fit the needs of those who need a degree for career advancement, those who have an associate degree in a field in which there is no corresponding bachelor’s degree available, or those who seek intellectual development and personal fulfillment. The Regents Degree has particular appeal for persons who have completed some college work in past years but did not obtain a degree.

ADMISSION

A student is admitted to the Regents Bachelor of Arts Degree Program by submitting the special application form to Fairmont State University. Admission to this degree program does not provide for automatic admission to other programs at Fairmont State University. Applicants must have graduated from high school at least four years before admission to the program. Persons with high school equivalency certificates may be admitted four years after their high school class graduated. If an applicant has previous college credit, failing grades received four years or more before admission to the program are disregarded. Any academic credit can be earned.

For more information on the RBA program, contact Janice Watts, Advisor, 353 Education Building, (304) 367-4193.

COLLEGE-EQUIVALENT CREDIT

A unique feature of the Regents Degree program is the possibility of obtaining college-equivalent credit. Credit may be awarded for learning which has taken place outside of a college, if the learning is equivalent to that which results from a college course. The learning may have resulted from work experience, on-the-job training, personal study, the pursuit of hobbies, or from a formal vocational program offered outside of a college or university, such as a hospital nursing course or military service training courses. College-equivalent credit is awarded only for the acquisition of knowledge or skills equivalent to the knowledge or skills acquired in college courses. An applicant for college-equivalent credit will prepare a portfolio, which presents in writing a detailed description of the knowledge or skills acquired outside of the college setting. Supporting documents, such as job descriptions and certificates for the completion of training programs, must be included. Directions for portfolio preparation are available for enrolled students in the RBA Office. The portfolio will be reviewed by appropriate faculty members at Fairmont State University or by other experts if a field of study is involved that is not offered by the University. The faculty members will then recommend the hours of credit to be awarded by subject at the upper and lower levels, equating the credit with existing Fairmont State University course offerings. A fee has been established for the assessment process and for the awarding of college-equivalent credit.

For more information on the RBA program, contact Janice Watts, Advisor, 353 Education Building, (304) 367-4193.

ROTC COURSES

Air Force and Army ROTC courses are available to full-time Fairmont State University students at no additional charge by Fairmont State. The Air Force courses are offered on the West Virginia University (WVU) campus in Morgantown and will have a per credit hour charge by WVU; Army ROTC courses are offered on the Fairmont State University campus.

Air Force ROTC Contact Information:
Phone: (304) 293-5421
E-Mail: afrotc@mail.wvu.edu

Army ROTC Contact Information:
Major Mark Hennigan, Phone: (304) 685-7766
E-Mail: mark.hennigan@mail.wvu.edu
STUDY ABROAD PROGRAMS

In keeping with a desire to provide more direct student enrichment programs in international education, Fairmont State University provides Study Abroad opportunities to students enrolled in a formal degree or certificate program. Students may receive collegiate academic credit for study and experience occurring outside the United States by enrollment in

1) ISEP (International Student Exchange Program) www.isep.org;
2) University of Calabria at Rende, Province of Cosenza, Italy;
3) Travel-study programs sponsored by Fairmont State University;
4) a resident study abroad or travel-study program sponsored by FACDIS (The West Virginia Consortium for Faculty and Course Development in International Studies);
5) a program directed by faculty members from other West Virginia institutions;
6) a program sponsored by a US college or university or Consortium with institutional approval;
7) a foreign university as a special student;
8) an accredited US college or university abroad or
9) a program sponsored by an organization other than a college or university, with Fairmont State University’s approval.

Students will be required to obtain prior consent from their academic unit before registering for study abroad programs.

Although such international experience is not required in all programs, study abroad is strongly recommended for students not only in the field of foreign languages but in other fields as well (such as the humanities, social sciences, business, art, etc.). Resident study abroad programs or travel-study programs will be integrated with traditional academic courses offered at Fairmont State University and will become part of the regular institutional curriculum. Study abroad is an important component of a comprehensive studies program which can contribute to the development and growth of the individual student and prepare the student to function more effectively in a global society. Participants in such programs will enhance their preparation for further graduate or professional studies and employment while deriving countless other benefits.

For additional information, visit the Study Abroad LibGuide at http://guides.library.fairmontstate.edu/studyabroad or contact the Study Abroad Advisor, Dr. Erin Hippolyte Erin.Hippolyte@fairmontstate.edu.

THE UNIVERSITY OF CALABRIA EXCHANGE PROGRAM

Fairmont State University offers an exchange partnership in which students may spend a semester or academic year studying abroad at the University of Calabria (UNICAL). Located in southern Italy, the University of Calabria was founded in 1972 as a state-run university and is one of just a few campus universities in Italy. Modeled from British and North-American campuses, the buildings are situated along a suspension bridge, approximately one mile long. Students live in specific residential blocks near the campus. The whole structure is swathed in green hills near Arcavacata di Rende, a small village six miles from Cosenza in the Region of Calabria. Today, UNICAL has a student population of 35,000, many from around the world, preparing for bachelor, master, and doctoral degrees in six faculties (colleges of academic programming): humanities/letters/philosophy, economics, political sciences, engineering, sciences, and pharmacy. Strategically located in the heart of the Mediterranean world, students at UNICAL have many opportunities to travel to other parts of Italy and surrounding countries during the exchange period. Students wanting to participate in the University of Calabria Exchange Program are required to have completed two semesters of Italian or demonstrate the equivalent language proficiency. Classes in elementary and intermediate Italian are offered through the Department of Language and Literature in the College of Liberal Arts at FSU.

In turn, as part of the exchange partnership, FSU is listed as one of the 26 destinations that UNICAL students may consider for their international study abroad experience. Under the direction of the university’s International Relations Unit, called Erasmus, UNICAL students are selected for a study abroad experience of one semester or an academic year through a competitive scholarship process of academic application and review. For additional information about the University of Calabria, visit its website www.unical.it. For more information about the UNICAL Exchange Program contact The Office of the Provost and Vice President of Academic Affairs, Dr. Christina Lavorata Chris.Lavorata@fairmontstate.edu.

THE WASHINGTON CENTER INTERNSHIP PROGRAM

The Washington Center for Internships and Academic Seminars gives students the opportunity to live and work in one of the most important cities in the world, and to experience the professional arena, cultural diversity and educational opportunities of the nation’s capital. If accepted into the program, students are placed with a program manager who helps them obtain an internship in the field of their choice, whether it be for-profit, nonprofit or government work. The Washington Center Internship allows students to:

- Develop professional skills
- Clarify personal goals
- Improve research and communication skills
- Meet people from across the country and the world

The following testing services are available to FSU students at the Center for Workforce Education located at 320 Adams Street, Suite G01, Fairmont, WV 26554 (304) 668-7254 or (304) 367-4920.
• Prepare for life after college
• Give perspective on their studies
• Investigate a profession of interest
• Apply academic learning to the work world

For additional information, contact the Office of Career Services at (304) 367-4214 or email careers@fairmontstate.edu.
ACADEMIC INFORMATION

ACADEMIC ADVISING SYSTEM

Students are assigned academic advisors when they first enroll at Fairmont State University. Those students who are not ready to select a major upon entrance will be assigned to the Academic Advising Center. Students wanting to change their major fields of study must contact the Registrar’s Office; students will then be referred to their major departments to have a new advisor assigned. Students should discuss problems relating to degree requirements, pre-registration, registration, and withdrawals from class or college with their advisors. (See below)

ACADEMIC ADVISING CENTER

(304) 367-4709
advise@fairmontstate.edu

The purpose of the Academic Advising Center is to provide undeclared students with comprehensive advising as well as interpersonal professional support. A concerted effort is made to address any academic concerns that may impede the student’s successful completion of degree requirements and to assist the student in the selection of an academic program.

The Center is located in 317 Turley Student Services Center.

Services:

• Formalized advisor-advisee conferences scheduled throughout the semester for undeclared students.
• Academic assistance and guidance on a drop-in basis for students with general advising concerns or questions.
• Summer advising of all new, transfer, and readmitted undeclared students.
• Freshman Seminar (HUSV 1100) class offered each semester to assist first-year students in developing the skills and habits necessary to succeed in college and in life after college.
• Workshops sponsored by the Center relevant to maximizing academic success and to improving advising processes.
• Referral assistance to campus and community services.

ASSESSMENT OF STUDENT ACADEMIC ACHIEVEMENT

Fairmont State University employs a variety of assessment processes to inform students of progress toward degree, to analyze programs in order to make appropriate curricular changes, and to determine institutional effectiveness. The university follows policies of the Higher Learning Commission of the North Central Association of Colleges and Schools, the WV Higher Education Policy Commission, and its own governing board.

In addition to regular course examinations and presentations, assessments used include field tests of proficiency in the major; electronic portfolios; capstone projects; internships; clinical practice reviews; and juried performances. Some programs, such as nursing and teacher education, also require nationally normed entrance and exit examinations.

All degree programs analyze and review their effectiveness every five years, reporting this information to the WVHEPC and the FSU Board of Governors. The institution reports its overall progress to the HLC every ten years.

College Level Examination Program (CLEP)

Students who wish to obtain credit by examination should check with the Center for Workforce Education for test availability by calling (304) 367-4920 or (304) 367-7254.
Placement Testing

In order for you and your advisors to create a schedule that best meets your academic abilities and prepares you for the academic requirements of your program, you may be required to take certain assessments in up to three areas: math, English, and reading. Your test results may require that you enroll in one or more academic development courses. Completing these required courses in your first semester(s) will help to ensure your greatest chance of success in college. These courses do not count toward earned hours for graduation. All assessments are free of charge, and any required academic development courses will count toward credit hours in your full-time schedule.

For information regarding placement testing, please contact the Academic Advising Center at (304) 367-4709.

Pre-Professional Skills Test (PPST)

Students must earn passing scores on all three sections (reading, mathematics, and writing) in order to be admitted to Teacher Education. Other requirements exist for admission to Teacher Education. Applicants must register for a test administration date online at: www.ets.org/praxis. Information is available in 340 Education Building.

PRAXIS II Specialty Area Exams And Principles Of Learning And Teaching (PLT) Tests

Students graduating with a Bachelor of Arts Degree in Education are required to take these tests and to achieve the minimum acceptable score for each teaching specialization and developmental level in order to be recommended for licensure. Students normally should take the Specialty Area Exams during the semester prior to their student teaching semester. The PLT exam should be taken during the final semester of their senior year. Applicants must register for a test administration date online at: www.ets.org/praxis. Information is available in 340 Education Building.

GRADING SYSTEM

The following system of grading is used at FSU:

A - Superior. Given only to students for exceptional performance
B - Good. Given for performance distinctly above average in quality
C - Average. Given for performance of average quality
D - Lowest passing grade, for performance of poor quality
F - Failure. Course must be repeated if credit is to be received
I - Incomplete, a temporary grade given only when students have completed most of the course, but are unable to conclude it because of unavoidable circumstance. Beginning with courses taken during the first semester, 1975-76, the letter grade “I” will be omitted from the calculation of the grade point average for a period of one year following the issuance of the “I.” For each letter “I,” in a grade report, the instructor must submit a brief description of the course requirements not completed by the student. At the end of the one-year period, the instructor must submit a final grade. If no change is made by the instructor, the grade “I” will be changed to “F.” Students must never register for a course in which they have an incomplete grade.

I - Incomplete, a temporary grade given only when students have completed most of the course, but are unable to conclude it because of unavoidable circumstance. Used only for classes graded with CR/NC.
W - Withdrew
CR - Credit grade of “C” or higher. Does not affect quality points (see below)
NC - No Credit. Does not affect quality points
NCX - No Credit, indicating a significant lack of effort. Does not affect quality points.
NR - Not Reported. Given when instructor has not submitted grade
S - Satisfactory. Given for Continuing Education courses only
U - Unsatisfactory. Given for Continuing Education courses only

QUALITY POINTS

The value of a student’s work is indicated by quality points. Candidates for graduation must have at least twice as many quality points as GPA hours; that is, a point-average of 2.0 on all college work. Quality points for grades A, B, C, D, are computed as follows:

A - Four (4) quality points for each semester hour of credit
B - Three (3) quality points for each semester hour of credit
C - Two (2) quality points for each semester hour of credit
D - One (1) quality point for each semester hour of credit

Students' grade averages are determined by dividing the number of quality points by the number of GPA hours. No quality points are attached to grades of F, but the GPA hours for the courses in which these grades are received will be used in computing grade averages.

In order to graduate, candidates for degrees must maintain a grade point average of 2.0 or better in all college courses and in all credit earned at FSU. An average of 2.0 must also be maintained in the major and minor fields of study. Students in the teacher education program must attain a grade point average of 2.75 overall, in each teaching field and in professional education.

It is the student's responsibility to remain informed of quality point standing. This information can be obtained at any time from the Registrar.

Grades earned in other institutions shall not be used to make up a deficiency of quality points in this institution.

40 Quality Points
16 Semester Hours = 2.5 Grade-Point Average

CREDIT/NO CREDIT OPTION

Any student who has completed 58 or more semester hours of credit may select one course per semester on a credit/no credit basis; such courses are to be considered part of the regularly scheduled load. A maximum of 18 semester hours may be completed with this option.

Students may not choose this option for the following courses:

- a) Major, minor or skill set
- b) Education certification program

Courses taken under this option will be recorded but will not be reflected in the quality point index. Credit courses will count toward graduation.

Selection of a course for credit/no credit must be made at registration with the approval of the student's academic advisor, and may not be changed after the end of the add-drop period.

The grade of CR means C or better.

PRESIDENT’S LIST

Students who register and receive letter grades for 12 or more hours taken at FSU (excluding credit or audit marks) and attain a grade point average of 4.0 join a select group of individuals and are named to the President’s List.

DEAN’S LIST

Students who register and receive letter grades for 12 or more hours taken at FSU (excluding credit or audit marks) and receive a grade point average of 3.4 or better are considered honor students and are named to the Dean’s List.

GRADE REPORTS

Students can access mid-term and final grades by logging on to www.fairmontstate.edu. Select “Enrollment Center” from the “Quick Links” menu on the homepage and enter the Secure Area Log-in.

ACADEMIC PROCEDURES

Auditing Courses:

Students may be permitted to attend classes as auditors if they obtain written permission from their advisor and instructors in the classes they want to audit. A student who enrolls in any class as an auditor may not, in the same semester, be considered as enrolled in the class for the purpose of obtaining credit.

Auditors are required to complete the regular registration process and pay regular fees. The decision to audit a course must be made during the add-drop period.

Classification of Students:

Students are classified according to the number of credit hours earned as follows:

- Freshman 0-29
- Sophomore 30-59
- Junior 60-89
- Senior 90+

Declaring a Major:

All undeclared FSU students must select a major field of study by the beginning of their junior year.

Dropping a Class(es):

Students may drop a course(s) with a “W” being recorded up to the Friday during the:

- a) 10th Week of a Full Semester
- b) 5th Week of the 1st 8 Week Session
- c) 5th Week of the 2nd 8 Week Session
- d) 5th Week of the Weekend College
- e) 3rd Week of the 1st 5 Week Summer Session
- f) 3rd Week of the 2nd 5 Week Summer Session
- g) 8th Week of the 10 Week Summer Session

Students may drop a course by logging on to www.fairmontstate.edu. Select “Enrollment Center” from the “Quick Links” menu and enter the “Secure Area Log-in.”

Excessive Course Withdrawal Fee:

(Effective August, 2006) Students who drop individual classes will be charged a $50.00 fee for each course from which they withdraw or for each course they drop after the allowable maximum. Students may withdraw from a total of eight courses before the fee is charged.

Late Registration:

Late registration fees are assessed in accordance with the fee schedule cited under “Expenses and Financial Aid.” Late registrants often fail to obtain satisfactory schedules; the policy of the institution is to give priority to students who register on time.

Numbering of Courses:

Courses for freshmen (1100 series) and sophomores (2200 series) constitute the lower level of curriculum.
Courses numbered (3300-4499) are primarily for juniors and seniors. Courses numbered 5000 and above are graduate courses. All General Studies requirements consist of lower-level courses which should be completed by the end of the sophomore year.

Students are strongly advised to take at least eight hours of General Studies courses each semester until the requirements have been met.

Repeating a Course (Effective: August 2007)

Fairmont State University enforce Series 22 of the West Virginia Higher Education Policy Commission as follows:

If a student earns a grade of “D” or “F” (including failures due to regular and/or irregular withdrawal) on any course taken no later than the semester or summer term during which the student attempts the sixtieth semester hour, and if that student repeats this course prior to the receipt of a baccalaureate degree, the original grade shall be disregarded and the grade or grades earned when the course is repeated shall be used in determining his/her grade point average. The original grade shall not be deleted from the student’s record. Courses passed with a grade of “C” or better may not be legally repeated.

Grades for courses repeated more than once or repeats of courses attempted in semesters following the one in which the sixtieth hour was attempted will be used in determining grade point average.

Courses completed at FSU with a grade of “D” or “F” may be repeated at any West Virginia public institution, provided the course at the other institution is deemed an equivalent course by FSU and the above stipulations are met. Regularly enrolled students who complete work at another accredited institution must secure written permission from the registrar before attempting such coursework. The transfer grade policy will apply to these grades.

Courses taken at other West Virginia public institutions that are legally repeated at FSU will be a part of the repeat process, provided the course at the other institution is deemed an equivalent course by FSU and the above stipulations are met.

Schedule Changes:

Students may not add new classes to their schedules after registration has ended. However, within the first week of classes, students can drop and/or add classes. Individual classes that are dropped during this period do not appear on students’ transcripts.

Semester Load:

In order to be considered for permission to carry more than 18 hours in a given semester, a student must have an overall GPA of 3.0. In addition, the student must have a 3.0 GPA from the previous term OR be enrolled in the last semester prior to graduation. Student Credit Load Exception forms must be signed by the Dean of the College and Provost if student is taking over 21 hours.

Summer School:

FSU offers a 10-week summer session each year. Courses are offered at a wide variety of times and locations to accommodate both traditional and nontraditional schedules including both day and evening offerings at the Main Campus, the Caperton Center and other off-campus locations. Class terms include two 5-week sessions, a 10-week session and an 8-week Weekend College session. Virtual courses and intensive courses are also available.

The requirements for admission and the character of the work required are the same for the summer session as the regular academic year. All campus activities and facilities are available to students during the summer session.

Withdrawal from FSU:

Students can withdraw from the institution and all classes prior to the last week of classes. Students who fail to follow this procedure will receive grades of “F.” To drop all classes in a semester, follow these links after logging into FELIX: Student and Financial Aid > Class Scheduling > Withdraw from Institution. Students are urged to print a copy of the transaction for their records.

ACADEMIC REGULATIONS

The Student Handbook contains information concerning student rights and responsibilities, attendance, absences, and matters of academic dishonesty. Students are responsible for familiarizing themselves with these policies.

ACADEMIC DISHONESTY

All students and faculty members are urged to share in the responsibility for removing every situation which might permit or encourage academic dishonesty. Cheating in any form, including plagiarism, must be considered a matter of the gravest concern. Cheating is defined here as the obtaining of information during an examination; the unauthorized use of books, notes, or other sources of information prior to or during an examination; the removal of faculty examination materials; the alteration of documents or records; or actions identifiable as occurring with the intent to defraud or use under false pretense.

Plagiarism is defined here as the submission of the ideas, words (written or oral), or artistic productions of another, falsely represented as one’s original effort or without giving due credit.

For the application of the Academic Dishonesty Policy go to http://www.fairmontstate.edu/publications/CampusHandbooks/studenthandbook/default.asp

ACADEMIC FORGIVENESS POLICY

Only students applying for readmission after the effective date of this policy will be eligible for forgiveness under this policy. This policy supersedes all previous Academic Forgiveness Policies at Fairmont State University. Academic Forgiveness only applies to courses taken at FSU.

Academic forgiveness is intended for the student who is returning to college with a grade point deficit and who has not been enrolled as a full-time student (12 or more credit hours) in any institution of higher learning during the four consecutive academic years immediately preceding the readmission semester. A student who does not normally qualify for readmission because of a low GPA may be
admitted and placed on academic probation, unless the student has been placed on academic suspension. When forgiveness is granted, grades of D, F and FIW earned prior to the aforementioned four-year period are excluded from the computation of the grade point average. However, no failing grade will be removed from the permanent record. The academic forgiveness policy may be applied after a student has earned 12 credit hours that apply toward graduation, with a minimum GPA of 2.0.

Academic forgiveness will be granted only once for any student. The Registrar will give consideration to a request for forgiveness when s/he receives a signed, written request from the student which certifies that the student has not been enrolled as a full-time student (12 or more credit hours) in any institution of higher learning during the four consecutive academic years immediately preceding the readmission semester. Should the student have attended any institution of higher education on a part-time basis during the specified four-year period, s/he must have earned at least a 2.0 GPA in all course work attempted. The student’s request for forgiveness must be submitted during the readmission semester, and it must identify the non-enrollment period. If all prerequisite conditions have been met, academic forgiveness will be granted at the time the current GPA is calculated officially by the Registrar upon completion of the readmission semester.

The academic forgiveness policy does not alter, change, or amend any other existing policies at FSU and is formulated to be consistent with Series 20 of the West Virginia Higher Education Policy Commission. This policy pertains only to the calculation of the GPA required for graduation and does not pertain to GPA calculated for special academic recognition (such as graduating with honors) or to requirements for professional certification which may be within the province of licensure boards, external agencies, or the West Virginia Board of Education. The Regents Bachelor of Arts Degree Program is governed by a different forgiveness policy.

FSU is not bound by the decision of any other institution to disregard grades earned in college courses. Similarly, students should be aware that academic forgiveness extended by Fairmont State University may not be recognized by other institutions to which they may transfer.

PROBATION/SUSPENSION POLICY
(Revised March 2006)

Satisfactory Academic Standing
A student is deemed to be in Satisfactory Academic Standing when his/her cumulative grade point average, based upon coursework taken at FSU, is 2.0 or higher.

Unsatisfactory Academic Standing
A student is deemed to be in Unsatisfactory Academic Standing when his/her cumulative grade point average, based upon coursework taken at FSU, is below 2.0.

Academic Probation
1) The status of Academic Probation is automatically applied to a student when the cumulative grade point average, based upon coursework at FSU, falls below 2.0.

2) The status of Academic Probation will be removed only after the cumulative grade point average, based upon coursework taken at FSU, is 2.0 or higher.

3) A student who is placed on academic probation may continue to enroll on a full-time basis, but will be limited to 15 semester hours.

Academic Suspension
The academic records of students on probation will be reviewed at the end of each regular semester with regard to Academic Suspension. The following guidelines will be used in the review.

1) Academic Suspension occurs when a student’s cumulative grade point average, based upon coursework taken at FSU, falls below the minimum required GPA in relation to the overall attempted institutional and transfer hours (listed below).

<table>
<thead>
<tr>
<th>Credit Hours*</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>16-29</td>
<td>1.45</td>
</tr>
<tr>
<td>30-59</td>
<td>1.75</td>
</tr>
<tr>
<td>60+</td>
<td>2.00</td>
</tr>
</tbody>
</table>

*Attempted hours at FSU plus transfer credits.

2) The suspension list will be compiled at the end of the fall and spring semesters.

3) Students will be placed on probation for one semester before they are subject to academic suspension.

4) Students can be placed on suspension if they have been on probation in any previous semester.

5) No student with a current semester GPA of 2.0 or higher will be subject to academic suspension.

6) A student who is academically suspended will not be permitted to enroll in coursework at FSU for the following fall or spring full semester. One full fall or spring semester constitutes the required period of suspension.

7) A student is automatically eligible for readmission after the period of suspension is over, but must reapply through the Office of Admissions to have his/her Academic Suspension hold removed.

8) FSU will not accept credit for courses taken at any institution while a student is suspended.

APPEALS, ACADEMIC SUSPENSION
A student who is suspended may appeal the decision by writing a letter to the Director of the Academic Advising Center, 317 Turley Student Services Center, (304)367-4709.

Note: Suspension and Probation are calculated on work done in your current institution.

GRADUATION INFORMATION
Application for Graduation:
Candidates for graduation must officially apply for a degree in the Office of the Registrar. This should be done one

**English Performance:**

All students who are candidates for degrees must attain a grade of “C” or above in English 1104 and 1108 in order to prove their competence in the use of the English language. This is a requirement for graduation.

**Graduation with Honors:**

Candidates for graduation with an associate’s degree who maintain a grade point average 3.4 or better will receive the designation of “With Honors” on their diplomas and “Honors” on the Commencement program.

Candidates for bachelor’s degrees who have achieved special distinction in academic work will graduate with honors. Honors are determined by the cumulative quality point average of a student’s work at graduation. Three grades of honors are recognized: cum laude for a point average of 3.4-3.69; magna cum laude for a point average of 3.70-3.84; and summa cum laude for a point average of 3.85 or better. Honor designations on diplomas are based upon the entire academic record. Honor designations on the Commencement program are based upon the academic record at the conclusion of the semester prior to Commencement.

**Military Service Credit:**

Students who have completed basic training in military service may be granted a maximum of four semester hours of credit, which may be used to satisfy General Studies physical education and/or elective requirements. It is the student’s responsibility to request this credit and to verify this military experience to the Registrar.

**Minimum Residence Requirements:**

For an associate degree at least one semester’s work (at least 16 credit hours) and at least 8 of the last 16 hours in residence are required.

For a degree, at least one year’s work in residence is required, and one semester of it must be in the senior year. A “year of residence” must represent not less than 32 hours credit, and a semester is defined as a minimum of 16 hours credit. Exception is made in the case of students who have completed three years of required work at Fairmont State University and who decide to complete the senior year by substituting approved credit earned subsequently in a college of medicine or dentistry.

**Transient Credit:**

Regularly enrolled students who complete work at another accredited institution on a transient basis must secure written permission of the Registrar before attempting such course work. Transient credit completed without permission will not be accepted.

**Transcripts:**

Students at FSU are entitled to official transcripts of their record. Students who fail to meet their financial obligations to the institutions or to any of their departments will not be given transcripts.

A request for a transcript of credit should be made in writing and should include name, both maiden and married,
Degree Programs and Requirements

The five baccalaureate degrees granted by Fairmont State University are Bachelor of Science, Bachelor of Science in Engineering Technology, Bachelor of Science in Nursing, Bachelor of Arts, and Bachelor of Arts in Education. For each of these five degrees a minimum of 120 semester hours of credit is required.

UNIVERSITY DEGREE REQUIREMENTS

Candidates for the Bachelor of Arts and Bachelor of Science degrees must complete all major and general studies course requirements as prescribed in their chosen degree program. A minor may be required for some baccalaureate degrees. However, students cannot major and minor in the same program. Each degree program has specific major and general studies requirements. While a complete listing of all general studies courses is listed in a separate section, refer to the respective schools in this catalog for details regarding major and general studies requirements. If a degree program provides some general studies options (provides a choice of courses rather than a specific required course), reference the section with the complete general studies courses listed to see what options are available.

The minimum credit required for graduation is 120 semester hours, with a grade point average of 2.0 in the major and the minor with the exception of a Bachelor of Arts in Education degree, which requires at least a 2.75 in the teaching specialization(s) and overall averages.

Fairmont State University defines a credit hour consistent with the Carnegie Unit: “One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately 15 weeks for one semester hour of credit.”

General studies requirements may also be used to meet major or minor requirements. No course, however, may be counted more than once in meeting the number of semester hours required for graduation. For example, general studies requirements in English will also satisfy requirements for a major or minor in English.

Students are required to complete at least one designated writing intensive course as part of their general studies program or their major field of study. This course will not be in addition to other courses, but rather a course from those approved as general studies or majors courses. Students cannot use ENGL 1104, 1108, 2220, 2221, 2230, or 2231 to satisfy the writing intensive course requirement.

Twelve hours of one foreign language is a general requirement for most Bachelor of Arts degrees. Consult specific programs for details. Upon the presentation of two or more units of high school work in a foreign language currently taught at Fairmont State University, students may have six hours of this requirement at the elementary level waived, provided that they are competent to continue the study of the language in classes numbered 2200 or above. However, students still must complete the required total number of hours for graduation. It is recommended that students begin their requirement in foreign language no later than their sophomore year.

Many major and general studies courses have prerequisites (courses that must first be successfully completed). The catalog section which lists all of the general studies courses also identifies the prerequisites. You can find prerequisite information for ALL courses in the section entitled “Courses of Instruction.”

Students are encouraged to ALWAYS check with their assigned advisor before registering for courses.

All variations from prescribed programs must be approved by the appropriate Dean in the major/minor field before students can qualify for graduation.

Students seeking a second Bachelor’s Degree: See Admissions Requirements in Section 1 of the catalog, “Introduction.”
HOW TO DECLARE A DOUBLE MAJOR

Students considering a double major should first speak with advisors in both majors before making a decision. Once the curriculum requirements for both majors have been discussed and clarified, students need to fill out a “Major Change” form at the Student Services Desk (Turnley Student Services Center). Students with a double major will have an advisor assigned by both departments.

Professor of English
As an academic division of Fairmont State University, the Department of Language and Literature embraces a process of continuous improvement in teaching and learning. To that end, students majoring in programs administered by the Department are required to participate in ongoing assessment activities that may include, but are not limited to, standardized testing at different levels, electronic portfolio evaluation, and both oral and written performance reviews.

ENGLISH

A degree in English Literature (B.A.) opens up an exciting array of career opportunities or graduate and professional studies for students who enjoy the critical study of literature; those who want a career in teaching pursue a major in English Education (B.A. Education). Students with English degrees might choose to explore careers in teaching, journalism, publishing, public affairs, marketing, or editing, to name only a few possibilities. The B.A. in English is most effective for students who wish to pursue a law degree, and, of course, prepares students for graduate study in English at the master’s level.

Within the English Program are composition, literature, and creative and technical writing courses. In addition to the Bachelor of Arts in English and a teaching specialization in English Education, two minors are also available, one in business and technical writing and one in literature. As part of the University’s General Studies requirements the English Program provides instruction in English language and literature. Advanced standing may be available for English 1104 and for foreign language. Students in any major may select from a variety of courses to enhance their English skills and knowledge of English.

FOLKLORE STUDIES

Students interested in the study of folklore and folklife learn to examine and analyze traditional expressive culture in all its forms. In every society, agricultural and industrial, rural and urban, folklore is a vital part of life. Since folklore study deals with so many forms of human expression which are typically transmitted by tradition, it is connected to all disciplines that deal with literature, art, and music, as well as anthropology, psychology, sociology, history, philosophy, linguistics, design, and pedagogy.

A folklore studies specialization prepares the student for graduate studies and professional involvement in such areas as preservation, archiving, teaching, curating, historical parks management, museum interests, entertainment, and storytelling.

This interdisciplinary academic minor can be attached to most liberal arts majors.

MINOR IN FOLKLORE STUDIES.......... 19-22 SEM. HRS.

*Only 3 hours are required in FOLK 4400 that offer the following topics in directed study.

- Appalachian African-American Lore
- Appalachian (Regional/Written) Literature and Film
- Archives/Collection Management
- Arthurian Legend: Comparative Folk Literature Study
- Children’s Folklore
- Culture as Education
- Ethnography and Process and Storytelling
- Folk Arts
- Folk Dance
- Museum Studies
- Rural Education
- Traditional Folk Music, Vocal and Instrumental
- Urban and Popular Culture
- Vintage Clothing Preservation
- West Virginia Literature
- World Tale

* Note: If an existing course is available on campus reflecting any of these topics, a student may opt to take it, with the approval of the Folklore Studies director. The following electives may also qualify:

Folklore Electives

FOLK 3220 THE ART OF STORYTELLING IN THEORY & PRACTICE......3
FOLK 3350 “ROADS TO APPALACHIA STUDY” ABROAD..................3

FRENCH

French is the language of diplomacy and is a common language of education, business, and the arts. It is the official language of the European Union, the second language of the United Nations, and is spoken in 40 countries on all continents. Students taking French courses enroll in a program aimed at developing skills in reading, speaking, listening, and writing the language. At the same time, students develop linguistic proficiency through cultural knowledge of the history, arts and media of the Francophone world. The program is designed to encourage links with other disciplines across campus, and welcomes those preparing for careers in diverse areas.

The program is designed to engage students in a broad scope of activities in and outside the classroom. Coursework is communicative and task-based, and students interact with the instructor in the target language beginning with the first course. An online language lab provides support outside the classroom, and multimedia primary source materials form the basis of class discussions and activities.

French majors are encouraged to spend at least one semester abroad in a French-speaking country, preferably as early as possible in their studies. Study abroad develops important personal, linguistic and cultural skills that prepare students for a global world and workplace.

Advanced placement allows French majors and minors with previous experience in the target language to accelerate their program. A placement exam will determine at what level the student may begin.

JOURNALISM

The Journalism curriculum presents students with a comprehensive academic program and many choices for practical media experience. Students may select from the following Journalism programs:

- Journalism as a minor, compatible with any four-year major in either the B.A. or B.S. degrees.
- The 18-hour minor, applicable to any bachelor’s degree or as preparation for students planning to transfer to a four-year program at another institution.
- The 18-hour Technical Writing Program, applicable also to any bachelor’s degree, for those who want greater focus on writing and more preparation for the variety of commercial and industrial writing and editing careers available to them.
- Journalism, as part of the Regents degree, with a combination of coursework and practical experience, depends upon individual programs and on administrative approval.
- The journalism program has continued to move in the direction of new media in order for students to be prepared for the newest forms of digital media.

As the media landscape has moved largely to digital/electronic formats, the journalism program has adjusted to meet the demands of these workforce needs and to prepare students to work with the newest forms of digital media. Courses incorporate multimedia, digital imaging (photojournalism), participatory (citizen) journalism, social media, and online design for Web pages, blogs, and other new media.

This program provides additional expertise in journalism through staff work on the award-winning student publications – The Columns, campus newspaper; The Mound, yearbook; and Whetstone, student art and literary journal. Students also develop professional skills through the off-campus internship with media professionals. Journalism minors or pre-journalism students must participate actively in the publication of student media.

- Journalism courses are open as electives to students in any field. Specific courses are required, however, of students in Graphics/Fine Arts (Journalism 2245 and 3315) and in English Education (Journalism 3315). Students in these programs should check with the program coordinator about course sequence and prerequisites. Because prospective teachers need to be aware of the impact of mass communications today, students in teacher education programs are encouraged to take one or more of the introductory courses, such as Reporting and Multimedia News Writing, Media Literacy, and History of American Journalism.

As a way of developing the best journalism graduates possible, journalism minors and journalism education majors will be required to produce a final e-portfolio of produced coursework and clippings of campus media work, a comprehensive journalism exam, and an internship.

The journalism program has seven defined learning outcomes for students:

1) History & Society - Compare the development of diverse influences on American journalism from its origins to today and evaluate the media’s continued influences on our democratic society.
2) Legal & Ethics - Develop a working knowledge of First Amendment rights and other models in the continuum of press freedom including issues such as libel, privacy, open records/meeting laws, and copyright.
3) Media Literacy - Relate the study of print and electronic/digital media as sources of information, persuasion, and expression to the effects of all mass media.
4) Design and Production - Demonstrate a working understanding and application of the production methods and software of print and digital media. This includes demonstrating the elements of design and terminology.
5) Reporting & Research - Develop an understanding of and application-level skills relating to researching, document analysis, information gathering, and sources for reporting news.
6) Writing & Style - Develop proper skills associated with writing news stories while adhering to fundamental rules of truth, accuracy, fairness, and ethics.
7) Practicum/Internship - In addition, the student will gain appropriate experience completing both a practicum on-campus and internship at an approved off-campus media outlet.

SPANISH

With more than forty million Spanish speakers, Spanish is now the second most-spoken language in the U.S., and employment opportunities are significantly strengthened for majors. In education, there is widespread need for Spanish teachers at all levels. In many places, Spanish proficiency has become essential for such professions as social work, criminal justice, business and banking, and allied health areas. Spanish courses at Fairmont State University are designed to develop students’ skills in speaking, comprehension, reading, and writing the language. They will also gain an understanding of Hispanic culture both outside and inside the United States. Students preparing to teach Spanish and those wishing to integrate Spanish into their chosen professions will be able to choose from a variety of courses aimed at helping them reach their career goals.

Spanish majors are strongly encouraged to spend at least one semester abroad in a Spanish-speaking country, preferably but not necessarily in their junior year. Students have the option of traveling to a Spanish-speaking country and doing research on an approved topic, for which they will receive 3-6 credit hours (SPAN 4402). Students in approved internships (SPAN 3300) will receive 3-6 upper-division credit hours, depending upon the type and duration of the internship.

Advanced Placement allows Spanish majors and minors with previous experience in the target language to accelerate their program. A placement exam will determine at what level the student may begin.

TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES (TESOL)
(MINOR ONLY)

English is the language of business, diplomacy and science in many parts of the world, and there is a need for those prepared to teach it to speakers of other languages. Completion of this minor will empower future ESL teachers to understand the communication challenges of second-language learners and equip them with best practices and experience in teaching this population. Students completing this minor are encouraged to choose General Studies classes such as HIST 2211, 2212 and 2213 and ENGL 2220 and 2221 to bring them a wider knowledge of world culture along with their linguistic studies and minor electives. While this minor does not yet carry certification for teaching English as a Second Language in the public schools, this credential will make elementary and secondary teaching candidates more attractive to school districts with large non-English speaking populations.

MINOR IN TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES (TESOL) ..................24 SEM. HRS.

Required courses (21 hrs.)

- Language Requirement ........................................6 sem. hrs.
  Students must take 6 credits of a world language other than
  English at the 2200 level or above

CRIMINAL JUSTICE

Criminal Justice examines the structure, functions, and decision-making processes of agencies that deal with crime and criminal offenders. As an independent academic discipline, criminal justice is comparatively new. Interest in criminal justice education was spurred by the "war on crime" during the 1960s and the resulting massive federal funding to upgrade criminal justice agencies, technology, programming and education of criminal justice personnel.

Faculty in this program provide expertise in law enforcement, investigations, corrections, criminal law and theory. The Bachelor of Science in Criminal Justice allows the student to choose an area of concentration, either law enforcement or corrections. Majors are assigned a faculty advisor who will assist in selection of courses relevant to individual interests and career aspirations.

Students with a B.S. degree in criminal justice qualify for employment in city, county, state and federal criminal justice agencies, and in the rapidly-growing private industrial security field. A number of graduates continue their education in graduate programs in criminal justice, criminology or law. The program also offers a Master of Science in Criminal Justice degree.

PRE-LAW STUDIES

Students planning to apply to most law schools may complete a four-year undergraduate degree in any major at Fairmont State University. According to the web site for the West Virginia University School of Law, "Whatever major an applicant decides to pursue should be augmented by a well-rounded variety of course selections that might include philosophy, writing, logic, history, literature, and fundamentals of accounting. The University urges applicants to engage in a curriculum that demands intellectual self-discipline and develops reading, writing, verbal, and analytical skills." Students should carefully consult the pre-law advisor at FSU and the catalog of the law school they plan to attend for more information. Pre-Law Advisor: Charles Shields, 110B Hardway Building, 367-4114, cshields@fairmontstate.edu

**HISTORY**

Every person, every place, everything on earth has a history, a story of its past that can help us understand human existence and human behavior. The History Program’s major and minor draw upon a broad curriculum that encompasses regional, national, and international history, as well as such special topics as the revolutions in history and diplomatic history. The History Program offers two types of majors. The Bachelor of Arts degree has the traditional emphasis on language skills, especially through study of a foreign language. It is a good choice for students thinking about postgraduate study. The Bachelor of Science degree develops basic capabilities in statistics and computer science. It is a good choice for students interested in the modern social science approach to historical understanding.

The great advantages of historical study are:

1. Emphasis on developmental and evolutionary aspects of human experience.
2. Examination of many different fields of human activity.
3. Use of insights and methods of many other fields.

Students completing a bachelor’s degree in history may enter professional practice in academic history (teaching and writing), public history (archives and special research, consultancy) or publishing (print, electronic, film and television documentary). The history major also provides excellent preparation for careers in law, government, politics, foreign service, historical preservation and journalism.

NATIONAL SECURITY & INTELLIGENCE

The National Security and Intelligence Program is designed to provide the necessary background for students to pursue careers in national security and/or intelligence in government agencies and private enterprise.

Students seeking a Bachelor of Arts degree in National Security & Intelligence must apply to the National Security & Intelligence Program Director and successfully complete an interview. To be recommended for graduation, the student must have a 2.7 GPA or a 2.5 GPA with the Program Director’s approval.

The program Director will conduct an annual review of the academic progress of all students enrolled in the Program. Students whose GPA falls below 2.7 or who might otherwise exhibit behavior that is not conducive to ensuring employment in this field will be placed on probation or dropped from the Program depending on the outcome of the review.

PHILOSOPHY
(MINOR ONLY)

Philosophy is neither dogma nor advice for daily living nor a body of truisms. Rather, it examines the premises on which systematic thought may rest; it explores the types of thought that may be produced in such areas of concern as ethics, politics, aesthetics, metaphysics, and epistemology; and it evaluates the advantages and disadvantages inherent in various modes and systems of thought. Thus philosophy encourages the thinking person to develop a sophisticated self-conception and world-view, and to examine his/her values, expectations, commitments and loyalties in a rational and realistic manner.

PHIL 2200 INTRODUCTION TO PHILOSOPHY ....................3
PHIL 2250 GREAT PHILOSOPHERS .................................3

Electives (9 hrs.)

Choose from any of the remaining Philosophy courses available.
POLITICAL SCIENCE

The Political Science curriculum is designed to provide an understanding of the political process in its many manifestations, including the structure of government institutions, the political behavior of individuals and groups, the study of public problems characteristic of modern societies, and a consideration of the interrelationships of institutions at different levels of government.

The principal objectives of the Political Science Program are:

1) To lay the basis for an understanding of governmental and administrative processes for individuals planning public service careers in national, state, or local government
2) To foster an understanding of the substance and methods of the study of government and politics as preparation for graduate work in political science or public administration
3) To provide thorough training for students considering law school.

Courses allow students to concentrate in broad fields and to develop more specialized programs reflecting their particular interests. Generally, 1100-2200 level courses are survey courses and 3300-4400 level courses cover more specific topics. While both the major and minor in political science typically consist of necessary introductory work, the faculty strongly urges students with a minor in political science to take the Seminar in Political Science (POLI 4470). Schedules should be planned in consultation with an advisor, and students are encouraged to explore a variety of courses. Eligible students are also encouraged to intern in Washington, D.C. with the Washington Center for Internships and Academic Seminars (see Special Academic Programs).

SOCIAL STUDIES EDUCATION

The Social Studies 5-Adult Comprehensive Specialization is intended for those students preparing to teach in elementary, middle, or secondary schools. This degree program leads to a B.A. in Education with teacher certification in West Virginia. It provides the interdisciplinary foundation necessary for teaching an integrated social science curriculum. Students desiring to teach a particular subject, such as history, should augment the required courses with appropriate elective hours. Course marked with an asterisk are offered only in the fall semester.

Admission to the program is gained by completing the following requirements: EDUC 2200 with at least a "B" grade; an overall GPA of 2.75 and a Social Studies Curriculum GPA of 2.75; passing grade on the PPST (reading, writing and math); passing a criminal background check; submitting a Declaration of Intent to the Dean of Education; acceptable scores on the ACT or SAT; completion of early field experience (contact the School of Education, Health and Human Performance for more details). Successful completion of PRAXIS (PPST) in Social Studies and Principles of Learning and Teaching is necessary in order to graduate and obtain West Virginia certification.

Electives (6 hrs.)
(Select one of the following options.)

OPTION 1: A second teaching field outside the Social Studies, grades 5-Adult. See School of Education, Health and Human Performance for more information.

OPTION 2: Social and Behavioral Science Advanced Studies
These advanced studies in the Social and Behavioral Sciences allow prospective teachers to explore and understand the state guidelines for teacher education and the corresponding competencies in greater depth. Select 6 hours from any of the following disciplines: Economics, Geography, History, Philosophy, Political Science, Psychology, and Sociology.

• General Studies Requirements .................. 30 SEM. HRS

Note: the following course choices are strongly suggested by the Department of Social Sciences in order to best fulfill the General Studies Attributes and the goals of the BA in Education, Social Studies Concentration, and Grades 5 to Adult.

(When choices are available, see the full General Studies Curriculum in Appendix A.)

GEOGRAPHY

(MINOR ONLY)

The Geography Program strives to create an environment in which the students are challenged to promote their own intellectual, social, and personal development. Course offerings are designed to develop many worthwhile concepts, skills, and attitudes. Students learn the manner in which people from different parts of the world make use of their natural/cultural environments, as well as how life and events in different parts of the world interrelate with one another. A background in geography is appropriate for possible careers in education, agriculture, industry, government, business, community planning, and military service.

Select any other courses in geography, GEOL 1101, or SOCY 2220.

PSYCHOLOGY

Psychology is the science that deals with the study of behavior. The Psychology Program at FSU has been developed to provide a strong foundation of applied and theoretical knowledge for those students anticipating either future graduate training or immediate employment. All Psychology majors are required to complete a minimum of 55 hours, which allows the student to develop a broad knowledge base within the discipline. The psychology curricula are ideal for students anticipating graduate work in various areas of psychology, social work and counseling. Students who are preparing for the areas of medicine and law also utilize the psychology major.

Psychology majors are encouraged to select a number of elective specialized psychology courses that could serve to expand their breadth of knowledge in particular areas of psychological interest. Students with a B.S. degree in psychology are eligible for a variety of entry-level positions in the areas of education, business, management, advertising, government, health-care, criminal justice and sales.

**SOCIOLOGY**

Sociology is the systematic study of society and human activity. The Bachelor of Science degree in Sociology is designed to enhance the student’s ability to understand various forms of social and cultural interaction. With an emphasis on both sociological and anthropological theory and research, the sociology degree is useful preparation for advanced graduate study as well as entry-level employment. The Program will expand a student’s ability to question and understand various forms of social interaction in social and cultural systems. The courses offered here will provide knowledge of the substantive areas of sociology and anthropology, the use of concepts and research techniques of sociological investigation, and background in sociological theory.

Students with a B.S. degree in Sociology frequently find employment in entry-level positions within public administration, advertising, business, social service agencies, health services, community planning and teaching. Many sociology majors also pursue graduate study in such areas as sociology, social work, public administration, anthropology and law.

**GENERAL EMPHASIS PROGRAM**

The General Emphasis Program will expand a student’s ability to question and understand various forms of interaction in social and cultural systems. The course of study will provide knowledge of the theories and constructs in sociology and anthropology, the use of concepts and research techniques in sociological investigation, and background in sociological theory.

PRE-DENTAL CURRICULUM

Students planning to study dentistry should complete basic science courses as well as a broad range of general education courses with better than a “B” average. Students should carefully consult the catalog of the professional school that they plan to attend. At West Virginia University, the School of Medicine requires applicants to have completed at least 36 semester hours of coursework as an undergraduate student (excluding physical education and ROTC courses) for admission. Pre-medical students should work towards fulfilling the requirements for the bachelor’s degree in biology, chemistry, or forensic science. Students selecting other majors will still need to complete the minimum course requirements shown below.

The following courses will meet the minimum requirements for admission to the School of Medicine at West Virginia University:

BIOL 1105, 1106 BIOLOGICAL PRINCIPLES I, II ..................................... 8
CHEM 1105, 2200 CHEMICAL PRINCIPLES I, FOUNDATIONAL BIOCHEMISTRY ................................................................. 9
CHEM 2201, 2202 ORGANIC CHEMISTRY I, II .................................. 8
ENGL 1104, 1108 WRITTEN ENGLISH I, II .......................................... 6
PHYS 1101, 1102 INTRODUCTION TO PHYSICS I, II .......................... 8

Courses in the humanities, social sciences, and advanced courses in biology are also suggested in order to acquire a broadened intellectual background.

PRE-MEDICAL CURRICULUM

Students planning to study medicine or veterinary medicine should complete basic science courses as well as a broad range of general education courses with better than a “B” average. Students should carefully consult the catalog of the professional school that they plan to attend. At West Virginia University, the School of Medicine requires a minimum of 90 semester hours of undergraduate work (excluding physical education and ROTC courses) for admission. Pre-medical students should work towards fulfilling the requirements for the bachelor’s degree in biology, chemistry, or forensic science. Students selecting other majors will still need to complete the minimum course requirements shown below.

The following courses will meet the minimum requirements for admission to the School of Medicine at West Virginia University:

BIOL 1105, 1106 BIOLOGICAL PRINCIPLES I, II ..................................... 8
CHEM 1105, 2200 CHEMICAL PRINCIPLES I, FOUNDATIONAL BIOCHEMISTRY ................................................................. 9
CHEM 2201, 2202 ORGANIC CHEMISTRY I, II .................................. 8
ENGL 1104, 1108 WRITTEN ENGLISH I, II .......................................... 6
PHYS 1101, 1102 INTRODUCTION TO PHYSICS I, II .......................... 8

Six hours of coursework in social or behavioral science is also required, but no particular courses are specified. Additional courses in the humanities, social sciences, and advanced courses in biology are suggested in order to acquire a broadened intellectual background.

PRE-MEDICAL TECHNOLOGY CURRICULUM

Medical Technology is a four-year undergraduate program. The first two years may be taken at Fairmont State University. The entrance requirements of schools of medical technology throughout the nation vary considerably; students should carefully consult the catalog of the school that they plan to attend. Students who have completed 60 semester hours, including the following courses, may be eligible for admission to the third year of the medical technology program at West Virginia University.

ENGL 1104, 1108 WRITTEN ENGLISH I, II .......................................... 6
BIOL 1105, 1106 BIOLOGICAL PRINCIPLES I, II .................................. 8
CHEM 1105, 2200 CHEMICAL PRINCIPLES I, FOUNDATIONAL BIOCHEMISTRY ................................................................. 9
CHEM 2201, 2202 ORGANIC CHEMISTRY I, II .................................. 8
MATH 1112 COLLEGE ALGEBRA ..................................................... 3
MATH 1113 APPLIED STATISTICS .................................................. 4

The other classes should total 21 to 24 hours of core classes. Courses such as microbiology, biochemistry and anatomy should not be taken prior to enrollment in the medical technology program.

Graduates of the Associate of Applied Science degree program in Medical Laboratory Technology (MLT) offered through Pierpont State Community and Technology College are eligible to apply for admission into the WVU Medical Technology (MT) Program. Several courses are waived from the traditional WVU MT Program for Fairmont State University MT graduates.

PRE-PHARMACY CURRICULUM

Many schools of pharmacy offer a doctorate of pharmacy that requires six years of study beyond high school, two years of pre-pharmacy and four years of study in a professional school of pharmacy. Prospective pharmacy students should plan their programs to meet the requirements of the particular professional school of pharmacy to which they plan to transfer. The following two-year preparatory program is suggested for students applying to the WVU School of Pharmacy. Elective slots in the model schedule should be filled with courses that satisfy required general education credits at the pharmacy school. Students without the necessary prerequisites for calculus will be required to take MATH 1115 or 1112 and 1115. The pre-pharmacy advisor should be consulted prior to scheduling each semester.

BIOL 1105, 1106 BIOLOGICAL PRINCIPLES I, II ..................................... 8
BIOL 2205 TECHNICAL MICROBIOLOGY .......................................... 4

PRE-PHYSICAL THERAPY CURRICULUM

This curriculum is designed to satisfy the course requirements for admission to the professional portion of the curriculum in physical therapy offered by the West Virginia University (WVU) School of Medicine. Fairmont State University (FSU) students must select a major and complete a bachelor's degree prior to application for WVU's Doctorate of Physical Therapy (DPT) program. All applicants to the DPT program are required to have a bachelor's degree before admission. Information on prerequisite equivalent coursework is provided below.

Degrees in biology, chemistry and forensic science meet many of these prerequisites. Applicants with degrees in any area (i.e. philosophy, psychology, etc.) are encouraged to apply, as long as the equivalent prerequisite coursework has been completed. A course in medical terminology, such as HLCA 1100, is recommended, but not required.

Students interested in admission to a physical therapy program at an institution other than WVU should consult with the pre-physical therapy advisor for assistance in getting the information about the course requirements at the other institution.

- DPT prerequisite course requirements:

BIOLOGY

Biology, the study of life, is a wide-ranging and rapidly growing discipline. Understanding biology requires a working knowledge of all the sciences, especially chemistry and mathematics. The biology program at FSU strives to provide students with a broad-based education in all fields of biology as well as a fundamental knowledge of chemistry and mathematics. Students are required to complete basic courses in biology designed to provide a comprehensive understanding of living organisms. Electives allow students the flexibility to gain additional knowledge in an area of interest. No minor is required for biology majors.

A four-year B.S. degree in biology will prepare students to compete for entry level jobs such as lab technician, wildlife biologist, research scientist or naturalist, among others.

While a bachelor's degree in biology will help students get a job, many careers require additional education beyond the B.S. degree. Many of our best students compete successfully for admission to graduate study at institutions across the country. A biology degree will also provide pre-professional training required by fields such as dentistry, medicine, pharmacy, and veterinary medicine.

Students who major in biology select one of the following degree programs:

1) the B.S. in Biology degree as preparation for teaching biology in grades 9-Adult. All courses must be completed prior to admission to Secondary Student Teaching/Clinical III.

In addition to meeting the graduation requirements listed for the B.S. in Biology or B.A. in Education degree, students must also:

1) obtain a grade of “C” or better in BIOL 1105, 1106, 2202, and 2203
2) successfully complete an assessment exam during their final year (This exam is given every spring semester.)

The Chemistry program’s mission is to help students gain a fundamental knowledge of modern chemistry, including the ability to apply computer science, mathematics, biology and physics to the field. The program strives to foster excellent oral and written communication skills, and is approved by the American Chemical Society. With small class sizes, innovative teaching approaches, and hands-on access to modern, research-quality instrumentation, students can develop the analytical, problem-solving and teamwork skills necessary to successfully pursue science-based careers. A student completing the B.S. degree with...
a major in chemistry will be competitive for graduate study in chemistry or chemical engineering, laboratory positions in the chemical industry, pharmaceutical industry or government agencies, or application to law school. By electing a few additional biology classes, students completing a B.S. degree in chemistry will be prepared for application to a variety of professional and graduate schools, including medical school, dental school, veterinary school, pharmacy school, physical therapy programs, toxicology, pharmaceutical science and forensic science graduate programs.

Programs available for students who wish to specialize in chemistry include:

1) The B.S. in Chemistry is certified by the American Chemical Society and provides a well-balanced program of courses in the major fields of chemistry, as well as mathematics and physics. A student completing this program will be a competitive candidate for graduate study or positions in industry or government agencies.

2) The B.S. in Chemistry with an emphasis in biotechnology provides chemistry majors with an additional grounding in biology and prepares students for professional schools and graduate study in forensic science and pharmaceutical sciences.

3) The B.A. in Education with a specialization in chemistry equips the graduate to teach chemistry in any secondary school or to pursue graduate studies in science education.

FORENSICS

The Forensics degree consists of a Forensic Science major that includes biology, chemistry, criminal justice, mathematics, physics and interdisciplinary courses, and prepares students for graduate school and/or employment in scientific laboratories. In addition, an emphasis in biotechnology is available. Candidates for the degree must complete the General Studies requirements as described in the Degree Requirements chapter of this catalog. Students completing the requirements for the Forensic Science major will automatically earn a minor in chemistry.

For forensic science majors, the required science courses satisfy the General Studies scientific discovery requirement and the required math course satisfies the General Studies math requirement. Students interested in graduate school will need to complete additional upper-level science courses. ACT prerequisites for required science and math courses are listed in the catalog under the course description for each course. Students entering with an ACT science reasoning score of 21 or better, ACT Math score of 24 or higher, two units of high school algebra, one unit of high school geometry and one unit of high school trigonometry will be prepared for all courses. Students not meeting this list of prerequisites will need to take specific additional courses and should consult with the forensic science advisor immediately.

GENERAL SCIENCE
(Teaching Specialization Only)

A general science specialization for grades 5-adult is offered for the B.A. in Education degree, in conjunction with the School of Education. This specialization is typically chosen to accompany one of the discipline-based science specializations, such as the biology, chemistry or physics specialization.

COMPUTER SCIENCE

Computer Science is the study of the theoretical foundations of computing and their applications in computer systems. It involves the study and implementation of algorithmic processes that describe and transform information. Computer Science is intended for students with career objectives in a wide range of computing and computer-related professions, e.g., computer programmers, system analysts, software engineers, database designers, security analysts, etc. The Computer Science program at FSU offers two majors: one in Computer Science and one in Computer Security. In addition to receiving the necessary skills in computer science, the students also receive a well-balanced mathematics and general studies curriculum.

Computer Science is a broad discipline that encompasses many areas of specialization, with an ever-growing array of
opportunities. The B.S. in Computer Science at Fairmont State University has been designed to provide students with an understanding of the field that is broad enough for them to find employment in a wide spectrum of private companies or government agencies and make them competitive for graduate school and advanced study.

NOTES: It is highly recommended that students attempt to complete COMP 1102, COMP 1108, and MATH 1190 by the end of their freshman year.

PHYSICS
(Minor Only)

The physics program provides students in science, mathematics, technology, secondary education and various pre-professional programs with an understanding of fundamental concepts and principles that govern the physical universe. Physics students utilize mathematical methods, observation and critical reasoning to describe and analyze relationships between properties of matter and the interactions that cause things to change. The physics program’s goal is to provide an environment for the development and application of analytic and problem-solving skills needed for careers and graduate study. Students may earn a minor in physics that complements majors in science, math, computer science and technology. A physics single specialization for grades 9-adult (see below) and a general science specialization (see Department of Biology, Chemistry and Geoscience) for grades 5-adult are also offered for the B.A. in Education degree, in conjunction with the School of Education. The Physics single specialization is a mostly on-line set of courses, making the program easier for nontraditional students or for professionals who need to add a physics specialization.

MINOR IN PHYSICS ..................................................30 SEM. HRS.

Required courses (30 hrs.)
PHYS* 1101/02 INTRODUCTION TO PHYSICS I, II ..............8
PHYS 3310 ELECTRICITY AND ELECTRONICS ..................4
PHYS 3325 ADVANCED PHYSICS I ...................................4
PHYS 3335 ADVANCED PHYSICS II ..................................4
PHYS 3340 SPECIAL PROBLEMS ....................................2
MATH 1185 APPLIED CALCULUS I ..................................4
-MATH 1190 CALCULUS I ..................................................4

Department of Technology

Dr. Anthony F. Gilberti, DTE, Dean
302c Engineering Technology Building / (304) 367-4642
Anthony.Gilberti@fairmontstate.edu

FACULTY

ABBOTT, MELISSA W., CSP (2003)
Associate Professor of Occupational Safety

ALLEN, LARRY C. (2000)
Associate Professor of Electronics Engineering Technology

BOLYARD, JASON (2007)
Assistant Professor of Mechanical Engineering Technology

Professor of Architecture/Civil Engineering Technology

COSTELLO, HUGH M., P.E. (2009)
Assistant Professor of Mechanical Engineering Technology

FREEMAN, PHILIP M. AIA (2003)
Associate Professor of Architecture

GILBERTI, ANTHONY F., DTE (2007)
Professor of Technology Education
Graduate Faculty

MORPHEW, KIRK L. (2000)
Associate Professor of Architecture

MURPHY, KIMBERLY, CSHM, CSP (1991)
Associate Professor of Occupational Safety

POLAND, MICHELLE (2008)
Instructor of Mechanical Engineering Technology

Associate Professor of Civil Engineering Technology

WOLF, MARK (2011)
Temporary Assistant Professor of Technology Education

Associate Professor of Civil Engineering Technology
AVIATION TECHNOLOGY

The Bachelor of Science in Aviation Technology is offered to students whose career objective is the management and operation of airside activities in the aviation industry. The program provides the graduate with technical competence in an aviation-related career as well as the skills needed to assume supervisory responsibilities. There are several areas of specialization in this degree: Aviation Administration (which has a focus on management), Aviation Administration with a Flight option, and Aviation Maintenance Management. All Aviation Technology students are required to take the Aviation Common Core requirements listed below.

- Aviation Common Core .......................... 27 SEM. HRS.
  AVMA 3301 AVIATION HISTORY .................. 3
  AVMA 3302 AVIATION LAW .......................... 3
  AVMA 3303 AIRLINE OPERATIONS ............. 3
  AVMA 3304 AVIATION MAINTENANCE MANAGEMENT .... 3
  AVMA 3305 GENERAL AVIATION OPERATIONS ... 3
  AVMA 3307 AVIATION SAFETY .................. 3
  AVMA 4402 FISCAL ASPECTS OF AVIATION MANAGEMENT ... 3
  MGMT 2299 PRINCIPLES OF MANAGEMENT ... 3
  MGMT 3390 ORGANIZATIONAL BEHAVIOR ... 3

AVIATION ADMINISTRATION .......................... 120 SEM. HRS.
Aviation Admin. Curriculum (see below) ........ 39 SEM. HRS.
General Studies Requirements ................. 39-41 SEM. HRS.
Free Electives........................................ 13-15 SEM. HRS.

This option prepares the student for employment in administrative areas with companies in and related to the aviation industry. Typical positions include airport manager, flight dispatcher, flight scheduler, crew coordinator, air cargo administration, aviation marketing, air traffic controller, and online management. A Flight Option is available within this degree; see details below.

- Aviation Administration Curriculum .......... 33 SEM. HRS.

Required Courses (39 hrs.)
  ACCT 2201 PRINCIPLES OF ACCOUNTING ............. 3
  AVMA 1100 AIRCRAFT FLIGHT THEORY ............. 3
  AVMA 1102 INTRODUCTION TO AIR TRAFFIC CONTROL ... 3
  AVMA 2206 AVIATION SECURITY .................. 3
  AVMA 2210 AVIATION METEOROLOGY .................. 3
  AVMA 2211 AIRPORT MANAGEMENT .................. 3
  AVMA 2213 AIRPORT PLANNING AND DEVELOPMENT ... 3
  BUSN 3310 BUSINESS STATISTICS .................. 3
  MKTG 2204 PRINCIPLES OF MARKETING .......... 3
  SFTY 1100 SAFETY & ENVIRONMENTAL COMP. OF INDUSTRY ... 3
  SFTY 1150 SAFETY MGT. & CONCEPTS IN ACCIDENT PREVENT... 3

Major Electives (Select 6hrs. from the following courses)
  AVMA 4401 AVIATION INDUSTRY RESEARCH .......... 3
  AVMA 4403 AVIATION PROJECT .......................... 1-4
  AVMA 4411 AVIATION INDUSTRY INTERNSHIP .... 3
  AVMA 4498 UNDERGRADUATE RESEARCH ............. 1-6

- General Studies Requirements ............... 39-41 SEM. HRS.
  Attribute IA – Critical Analysis
    ENGL 1108 ............................................. 3
  Attribute IB – Quantitative Literacy
    MATH 1102 or 1112 .................................. 3
  Attribute IC – Written Communication
    ENGL 1104 ............................................. 3
  Attribute ID – Teamwork
    MANF 2250 .......................................... 3

Curriculum (see below) ........................................ 53 SEM. HRS.
General Studies Requirements .......... 39-40 SEM. HRS.
Free Electives ......................................................... 0-1 SEM. HRS.

This option prepares the student for entry-level management positions in the maintenance field with airlines, aviation manufacturers, repair stations, and fixed base operators. All graduates must have obtained their FAA Airframe and Powerplant License. This program is approved by the Federal Aviation Administration and meets the requirements of Federal Aviation Regulation 147.

SCIENCE AND TECHNOLOGY
### PRE-ENGINEERING CURRICULUM

Students planning graduate-level work in engineering should complete the following course work with a B average or better. Students are advised to carefully consult the catalog of the engineering school which they plan to attend, as Fairmont State University does not have an articulation agreement with any school of engineering.

- **MATH 1115** TRIG. AND ELEMENTARY FUNCTIONS .................. 4
- **MATH 1190** CALCULUS I ................................................. 4
- **CHEM 1105, 2200** CHEMICAL PRINCIPLES I,
  FOUNDATIONAL BIOCHEMISTRY ........................................ 9
- **ENGL 1104, 1108** WRITTEN ENGLISH I, II .................... 6
- **PHED 1100** FITNESS AND WELLNESS .......................... 2
- **PHYS 1101, 1102** INTRODUCTION TO PHYSICS I, II ......... 8
- **OR-**
  **PHYS 1105, 1106** PRINCIPLES OF PHYSICS I, II ............ 8
- **SOCIAL SCIENCE ELECTIVE** ....................................... 3
- **MECH 1100** STATICS .................................................. 3
- **DRFT 1100** ENGINEERING GRAPHICS ......................... 3

### ARCHITECTURE

The B.S. in Architecture provides a sound basis for the pursuit of general knowledge and the first phase of a professional education for the general practice of architecture. The four-year program encompasses a foundation core of design, introductory studies in architectural history and theory, and building technology. Advanced design studios address methodology, and technological and theoretical synthesis through applied studies of a wide range of design inquiries and projects. Successful completion of the degree will prepare students to enter the profession at a more advanced level or pursue a graduate degree from an NAAB-accredited school of architecture. Graduates with the baccalaureate degree are qualified for entry-level positions such as designer or architectural technician. They may be employed in architectural offices, engineering offices, corporations or businesses which produce their own in-house construction documents, and construction-related fields.

### ASSOCIATE OF SCIENCE IN ARCHITECTURAL ENGINEERING TECHNOLOGY .......................... 60 SEM. HRS.

The associate degree in Architectural Engineering Technology provides students with a basic understanding of the history of architectural design and the entry-level drafting and communication skills required in order to work in a design/drafting office. Graduates with the associate of science degree are qualified for entry-level technical positions in architectural or engineering offices, firms related to architecture, or other businesses requiring in-house planning and drafting.

CIVIL ENGINEERING TECHNOLOGY

The Civil Engineering Technology program at Fairmont State University prepares graduates to participate in the planning, analysis, design, construction, operation and maintenance of roadways, airports, tunnels, bridges, water supply and distribution systems, waste collection and treatment systems. The curriculum is a highly flexible 2 + 2 design; once the two-year associate's degree is earned, graduates may choose to enter the workforce or continue their education with two more years at the baccalaureate level.

ASSOCIATE OF SCIENCE IN CIVIL ENGINEERING TECHNOLOGY (TAC of ABET Accredited) .................................60 SEM. HRS.

The Associate of Science degree in Civil Engineering Technology provides technical courses in the fundamentals of engineering, surveying, construction materials and methods, computer graphics, civil engineering graphics, construction estimating, structures, and environmental engineering technology. Most of the technical courses provide a combination of lecture and laboratory experiences. In addition, technical courses are underpinned with instruction in mathematics and science, written and oral communication skills, and economics, which are utilized subsequently in the technical courses. Graduates with the Associate of Science degree are qualified for entry-level technical positions in construction, surveying, engineering and architectural firms; local, state and national government,
environmental and public health agencies; state departments of transportation and highways; and private business industry.

The B.S.E.T. degree provides students with a greater emphasis on analysis and design with specialized classes in hydraulics and hydrology, soil mechanics and foundation design, structural analysis and design, water and wastewater systems and construction management, coupled with additional courses in science and mathematics, communication, social science and humanities. This degree is also offered with an environmental emphasis; see details below.

Graduates with the Bachelor of Science degree are qualified for an entry-level position as a Civil Engineering Technologist in construction, surveying, engineering, and architectural firms; local, state, and national government, environmental and public health agencies; state departments of transportation and highways; and private business industry. Baccalaureate graduates are eligible to sit for the Fundamentals of Engineering Exam (FE) in West Virginia, the first step to becoming a professional engineer.

ELECTRONICS ENGINEERING TECHNOLOGY

The Electronics Engineering Technology program at Fairmont State University prepares graduates to work in industries that produce and use electrical and electronic equipment. Graduates are employed by a wide variety of industries, including coal, aerospace, semiconductor, control, utilities, glass, and computer companies. They may be involved in areas such as design, testing, maintenance, production, and supervision. The program is designed as a highly flexible 2+2 curriculum. Once the associate degree is earned, the graduate may choose to enter the workforce or continue studying at the baccalaureate level.

ASSOCIATE OF SCIENCE IN ELECTRONICS ENGINEERING TECHNOLOGY
(TAC of ABET Accredited) .......................59-60 SEM. HRS.

The associate of science degree in Electronics Engineering Technology emphasizes an understanding of basic electronic circuits and devices. Students concentrate on mathematics and science, written and oral communication skills, fundamentals of electronics, and electronic specialization classes that cover transistors, linear and digital circuits, microcomputer systems, AC/DC machinery and controls, industrial systems, communication systems, and programmable logic controllers. Graduates with the associate degree are qualified for entry level technician positions in maintenance, repair and equipment calibration.

**MECHANICAL ENGINEERING TECHNOLOGY**

Mechanical engineering technologists are concerned with the production, transmission and use of mechanical power and thermal energy. They also participate in the general design, maintenance and troubleshooting of mechanical components and assemblies (machines). The Mechanical Engineering Technology program at Fairmont State University prepares graduates for work in industry as an engineering technician or technologist where they may design, build, test, and/or maintain machines and mechanical equipment. The program is designed as a highly flexible 2 + 2 curriculum. Once the two-year degree is earned, the graduate may choose to enter the workforce or continue to study at the baccalaureate level.

**ASSOCIATE OF SCIENCE IN MECHANICAL ENGINEERING TECHNOLOGY**
(Tac of ABET Accredited) .................60 SEM. HRS.

The associate of science degree in Mechanical Engineering Technology emphasizes basic engineering concepts. Students concentrate on mathematics and science, written and oral communication skills, and mechanical specialization classes, including drafting, statics, strength of materials, machine design, fluid mechanics and motors/motor controllers. Many of the technical courses provide a combination of lecture and laboratory experiences. Graduates with the associate of science degree are qualified for entry-level positions as technicians, engineering assistants, and engineering aids. Job responsibilities can include a broad range of duties such as the installation, operation, maintenance, troubleshooting and repair of manufacturing equipment and commercial mechanical products.

**BACHELOR OF SCIENCE IN ENGINEERING TECHNOLOGY:**
**MECHANICAL ENGINEERING TECHNOLOGY**
(Tac of ABET Accredited) .......................120 SEM. HRS.

The Bachelor of Science degree provides students with a greater emphasis on design and analysis, with advanced courses in dynamics, thermodynamics, heat transfer, heating/ventilation/air conditioning systems and mechanical measurements. Special emphasis is placed on the practical industrial applications of basic engineering concepts and principles. Graduates with the Bachelor of Science degree are qualified for positions that range from technician up through mechanical engineer. Our graduates have been employed by a broad range of manufacturing companies including aerospace, automotive, chemical, nuclear, and steel,
mining, as well as telephone, natural gas, and electric utilities. Baccalaureate graduates are eligible to sit for the Fundamentals of Engineering Exam (FE) in West Virginia, the first step to becoming a professional engineer.

**OCCUPATIONAL SAFETY**

The Occupational Safety program prepares competent professionals who serve as valued members of the management, engineering, and business team providing solutions to complex safety/environmental problems. This program focuses on principles drawn from engineering technology, health, physics, math, psychology, language and speech. Hands-on applications of these principles are emphasized through preparatory and professional courses. Preparatory courses include math, chemistry, physics, human anatomy, statistics, speech, written composition and psychology. Professional courses include industrial hygiene and toxicology, safety engineering and design, systems safety, safety and environmental law, fire prevention, ergonomics, environmental hazard control, OSHA compliance, and program management. Computer skills and experiential learning is heavily emphasized, including laboratory activities, industrial projects and/or internships. Internships may be paid or unpaid and can include academic credit.

The curriculum is a highly flexible 2 + 2 curriculum. Once the two-year degree is earned, graduates may choose to enter the workforce or continue their education with two additional years at the baccalaureate level. The need for Safety/Environmental professionals will continue to grow into the next millennium. Major employers of our graduates include insurance companies (Liberty Mutual), government entities, state and local agencies, and businesses (IBM, Mobile Oil), and consulting firms. Increased emphasis on ergonomics, hazardous waste, accident costs, worker's compensation, regulatory compliance and health hazard control will require more Safety/Environmental professionals.

GRAPHICS TECHNOLOGY

The associate’s degree in Graphics Technology provides students with a basic understanding of visual communications and the entry level design and technical skills. The Bachelor of Science degree provides students with a concentration in design theory and proficiency in computer and multimedia technologies that will allow them to enter the profession at a more advanced level.

Graduates with the associate degree are qualified for entry-level positions to work as layout artists, graphic design assistants, or Web design technicians. Graduates with the Bachelor of Science degree are qualified for entry-level positions as graphic designers, art directors, creative directors, Web designers, digital pre-press technicians, technical illustrators, desktop publishing artists or production artists.

TECHNOLOGY EDUCATION

The FSU Technology Education Program is nationally recognized as one of the better undergraduate programs in the country. There is an extremely high demand for FSU graduates, especially in eastern states such as West Virginia, Virginia, Pennsylvania, Ohio, Maryland, North Carolina, South Carolina and Florida. The program’s small classes are a contributing factor to its 100% passing rate on the Praxis II Specialty Area Exam. Students will learn to work directly with their pupils to solve problems, plan projects, select materials, produce projects, use tools and equipment in a safe manner, and properly organize and maintain a technology education laboratory. Students may choose either the comprehensive or single-subject specialization (the latter requires students to choose another specialization in addition, in order to graduate).

Associate Professor of Information Systems Management
Graduate Faculty

MOORE, STEPHEN (2013)
School of Business Learning Coordinator
The School of Business offers Bachelor of Science Degrees in Accounting, Business Administration, and Information Systems Management. Concentrations within the Business Administration degree include: Management, Finance, General Business, Hospitality Management, Marketing and Sport Management.

School of Business Degree recipients are not required to select a minor field of study, but are encouraged to do so. Combinations with regard to major and minor are restricted; students must consult the Catalog or an advisor when selecting a minor. A major and a minor in the same academic field are not permitted. Duplicate credit may be earned only for courses that are specifically required in both the major and minor. Economics 2200 cannot be substituted for Economics 2201 in meeting the School's major, minor or general studies requirements.

Courses offered by the School of Business may be found under the headings of Accounting, Business, Economics, Finance, (Business) Information Systems Management, Management and Marketing. All courses may not be offered each semester; therefore, students are urged to consult with their advisor in course scheduling. Course rotation schedules are available in the Business School office, as well as on its website.

### ACCOUNTING

The accounting curriculum has been designed to offer an integrated educational experience in the sub-disciplines of financial accounting, managerial accounting, taxation, information systems, and auditing. The accounting degree provides students with traditional technical accounting skills, as well as expanded skills in analytical reasoning, problem solving, use of technology, and oral and written communication. Students are prepared to succeed in careers with public accounting firms, corporations, and non-profit organizations.

Individuals applying for licensure in West Virginia must have completed a total of 150 semester hours of post-secondary education and have received a bachelor's degree or higher from a college or university recognized by the West Virginia State Board of Accountancy. The total education program shall include an accounting concentration and business courses defined by the WVSBOA. The 150 credit hour program is available through the School of Business.

Students wishing to become licensed Certified Public Accountants should meet with their advisor early in the program to structure course work in compliance with the WVSBOA requirements.

ACCT 4407 FEDERAL INCOME TAX ACCOUNTING: PARTNERSHIP & CORPORATION .............................................. 3

*ACCT 3302 - Intermediate Accounting II is a prerequisite for this course.

BUSINESS ADMINISTRATION

The Bachelors of Science in Business Administration degree provides the graduate with skills and knowledge for employment in a wide variety of contemporary organizations and/or for further study in their field of concentration. Students may choose an area of concentration from Finance, General Business, Hospitality Management, Management, Marketing or Sport Management.

In addition to their concentration curricula, Business Administration students must complete the business core which provides students with knowledge across several functional areas.

Students augment their Business Administration curriculum through completion of the general studies outcomes by taking courses approved to meet each of the attributes. Though several business core courses enable a student to also meet some of the attributes, students may choose courses of interest to them in completing the remaining attributes.

• Business Core ..........................................................45 SEM. HRS.

ACCT 2201 PRINCIPLES OF ACCOUNTING I ........................................ 3
ACCT 2202 PRINCIPLES OF ACCOUNTING II ........................................ 3

FINANCE

The Finance curriculum is designed to prepare students for a career path in the financial services industries, as well as for careers in corporate finance functions. Students are exposed to the concepts of financial analysis and financial decision making and their application. Students completing the B.S. in Business Administration degree with a concentration in finance will be able to compete with graduates of most colleges and universities for positions as
account managers, bankers, credit directors, equity traders, sales managers, risk managers and financial managers.

**GENERAL BUSINESS**

The General Business concentration is designed to give students a fundamental understanding of the substance and context of business in a world that is continually changing. Students are exposed to a diversified background in the various disciplines necessary for achieving success in the business arena. This concentration is flexible so that students may tailor their programs to particular interests. It gives students a fundamental understanding of the substance and context of business in a highly competitive and dynamic environment. Graduates are prepared to secure positions in insurance companies, banks, retail businesses, personnel and human resource departments, government services, and/or manage their own businesses.

- MKTG 2204 PRINCIPLES OF MARKETING .............3

**MANAGEMENT**

The B.S. in Business Administration management concentration fosters the notion that every organization needs a leader, who is competent and able to make effective decisions concerning organizational resources, goals, and plans. This program is intended to give students the skills necessary to design, operate, and control business systems and procedures. Coursework is geared toward building student understanding of the social, legal, environmental, technological, organizational and international context within which American businesses operate. The numerous management electives allow students to emphasize human resource or business management.

Graduates typically enter an organization in various capacities and eventually move up to middle and top management positions with increasing responsibility. Some of the industries which typically hire graduates with a concentration in management include agriculture, forestry, mining and construction industries, manufacturing industries, transportation, communications and utilities, wholesale and retail trade businesses, state, local and federal governmental units.

### MARKETING

The Marketing program is designed to develop graduates who possess a strong foundation for many career choices, by offering courses in marketing management, advertising, salesmanship, marketing research, consumer behavior, and supply chain management and new product decisions. The program integrates the marketing training with other relevant disciplines (accounting, management, finance, and economics) to assure that students have the combination of skills that meet management requirements for today's marketing activities. Students completing the B.S. in Business Administration with a concentration in marketing will be able to compete with graduates of most colleges and universities for positions in promotion and event management, sales administration, sports marketing, health resorts, wellness centers and country clubs. The sport management concentration consists of a sport management core in addition to the business core.

### INFORMATION SYSTEMS MANAGEMENT

The Information Systems Management degree provides an academic program that balances business management principles and the tools and technologies of computerized information systems. The areas of study include the functional areas of business, computer hardware and operating systems, network architecture and management, programming concepts, database management techniques, e-commerce and web development strategy, systems analysis and design, and project management.

Students completing the B.S. in Information Systems Management degree will be able to compete for positions related to Information Systems (IS), Information Technology (IT), and Business. Specific job titles may include: IS and IT consultants, information systems managers, database and software consultants, logistics managers, system or project managers, and network support services.

### NOTE: The minor in Retail Management cannot be used to fulfill a minor requirement when the concentration is Marketing. 

### SPORT MANAGEMENT

The curriculum of the Sport Management program incorporates not only the principles of marketing and management but also the knowledge of sporting activities. The curriculum focuses on the business of sports and produces graduates who understand sound business principles. Students completing the B.S. in Business Administration degree with a concentration in sport management will be able to compete with graduates of most colleges and universities for positions in promotion and event management, sales administration, sports marketing, health resorts, wellness centers and country clubs. The sport management concentration consists of a sport management core in addition to the business core.

INTRODUCTION

The University believes that adequate preparation for teaching requires a rich and comprehensive experience in general education and a concentration in at least one academic specialization.

The School of Education (SoE) mission is to prepare reflective and responsive educators who possess the knowledge, skills, and dispositions to help all students learn. This mission is integrated across the curriculum, field experiences, clinical practice, and assessments of candidates. The conceptual framework (CF) provides the structure and guiding principles that are necessary to accomplish this mission. The five West Virginia Professional Teaching Standards (WVPTS) and their respective functions undergird the knowledge, skills, and dispositions that candidates must possess in order to facilitate learning for all students. Diversity and technology are included in the CF representing themes that are integrated throughout the unit’s programs. Demonstrated competencies in the standards/functions empower candidates to function as reflective and responsive educators. The CF is based on research about effective teaching and learning best practices that apply to teacher candidates at the initial level as well as accomplished teachers at the advanced level. The CF and the WVPTS also are central guiding elements of the FSU Professional Development School (PDS) Partnership that provides a critical structure and context for teacher education and educator professional development.

DESTINATION EDUCATION PROGRAM

This unique program provides academic and social/emotional support services for first and second year students in the School of Education and Health & Human Performance. This program includes a discipline-specific summer orientation, welcome week group meetings, town meetings, social activities, and creating connections with current students, faculty, and staff. Students are encouraged to participate in this program and other activities that promote their success in college.

Pre-Admission Requirements To Teacher Education

Any student may enroll in EDUC 2200, Introduction to Education, or EDUC 2201, Instructional Technology. While enrolled in EDUC 2200, teacher candidates will complete a “Declaration of Intent” to the Dean of Teacher Education as the initial step in the application process.

In order to be admitted to teacher education a candidate must have:

- Earned passing scores on all three sections of the PRAXIS I Pre-Professional Skills Test (PPST)
- 2.75 overall GPA
• 2.75 education GPA
• 2.75 GPA in each teaching specialization
• Submitted a Declaration of Intent
• Completion of all Early Field Experiences

Students are expected to apply for admission to teacher education when these requirements are met and will be notified in writing of the decision to admit or not admit. The SOE Teacher Education Selection Committee reviews all applications. Applications can be picked up in Room 340 Education Building and must be submitted by either March 1 or October 1.

Field Experience 1 – Pre-Admission Requirements

The Teacher Education Program at Fairmont State University includes an Early Field Experience (EFE) designed to help introduce prospective teacher certification candidates to the teaching profession, work of educators in the school and community settings and program of study. The early field experience is also designed to create a community of pre-education majors by providing increased support, communication, and contact with pre-majors prior to actual admission to Teacher Education.

Focus on Diversity: As much as settings, agencies and contexts for the Early Field Experiences allow, candidates should seek out locations that support interactions, relationship-building and activities with communities who represent diversity. Diversity may represent a broad range of identities, experiences, and lives that include race and ethnicity, class, gender, and special learning needs. At Fairmont State University the School of Education, Health and Human Performance uses CREDE (Center for Research on Education, Diversity, and Excellence) standards to frame how we think about diversity and what it means to be an educator who believes that engagement with and learning for diverse communities is central to being an educator. We believe that experiences such as these for the pre-service teachers are essential to the process of deciding to major in education and becoming a member of the profession. The CREDE standards can be located at http://crede.berkeley.edu.

Potential program candidates will complete three early field experiences between the first day of class freshman year to the last day of class in the semester of admission to Teacher Education (usually second semester sophomore year). All three field experiences must be pre-approved by the teacher education program and include:

• One field experience where the student self-selects a site for the experience. (This could be at home over breaks or summer.)
• A second field experience where the student selects from a list of sites in the Fairmont area.
• A third field experience in a Professional Development School (PDS) site. PDS sites are schools that formally partner with Fairmont State University. (A list of these schools is available on the website for the School of Education, Health and Human Performance.)

The first two experiences are interchangeable in terms of order and may be accomplished in the same semester. However, they must be completed before the PDS-based experience begins (date of the first activity in the PDS experience). A student may use one location for the first two experiences only if approved in advance, and only if the setting is on the list of approved sites/settings. The third experience must be completed during the semester the candidate applies to be a major in teacher education.

The first two experiences must each be a minimum of 15 clock hours scheduled over at least 5 separate visits to the site. The PDS-based experiences must total a minimum of 20 clock hours scheduled over at least 5 weeks. Students will be asked to complete an evaluation of their experience in each setting. The experience completion schedule includes:

• Any early field experience initiated in the fall semester must be completed, and all documentation submitted in TaskStream by the last day of final exams of that semester.
• Any early field experience initiated in the spring semester must be completed, and all documentation submitted in TaskStream by the last day of final exams of that semester.
• Any early field experience initiated in the summer (after the last scheduled exam of the spring semester) must be completed and all documentation submitted by Friday of the first week of class of the subsequent fall semester.

Transfer students must complete this sequence; any substitute experiences completed at another institution must meet the same outcomes as outlined above, and must be approved as having met Fairmont State University program requirements prior to application for admission to Teacher Education.

Note: During the file review period, a request for information on candidates will be sent to all School of Education, Health & Human Performance faculty, staff and administrators. Feedback on a candidate’s “dispositions” is a significant part of this process. According to the National Council for Accreditation of Teacher Education (NCATE) a disposition is defined as those “professional attitudes, values, and beliefs demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues and communities.” Candidates should be aware of how personal and professional behaviors may reflect on their pursuit of a career in Teacher Education.

Policy On Criminal Background Checks And TB Tests

Fairmont State University does not require a criminal background check or TB test for entrance into the teacher education major. However, the State of West Virginia does have policies related to who may enter public schools and work directly with children. Students will be required to provide documentation of these two procedures prior to entering any public school facility for the purpose of field experiences and student teaching. It is important that pre-majors plan on completing the criminal background check and TB test prior to the start of Early Field Experience 3. More information about these requirements can be found on the Fairmont State School of Education web site.
BACHELOR OF ARTS IN EDUCATION

The General Studies requirement for FSU teacher education students differs for elementary and middle/adolescent education programs; however, each consists of a minimum of 42 credit hours distributed over humanities, mathematics, natural sciences and physical education and health. The General Studies requirements for elementary education also fulfill selected requirements for the Elementary/K-6 specializations and are included with the Elementary and the Early/Middle Specialization in determining the 2.75 grade point requirement for eligibility for the Clinical (Student Teaching) component of the program.

To meet the requirements for the Bachelor of Arts in Education, the candidate must:

1) earn a minimum of 128 hours’ credit in approved subjects, with a quality point average of 2.75 or better for all courses attempted;
2) attain a 2.75 average in each teaching specialization and professional education;
3) meet the general and specific requirements set up for the curriculum and teaching specialization(s) elected;
4) achieve acceptable scores on the PPST;
5) achieve a minimum grade of “C” or better in all EDUC classes.

TEACHING CURRICULA

Fairmont State University recommends for professional licensure only those persons who have graduated and have satisfactorily completed a teacher education curriculum approved by the West Virginia Board of Education. Students who satisfactorily complete a teaching curriculum in a given area and achieve passing scores on the PPST, PLT, and appropriate content exams will be recommended for a Professional Certificate in one of the following grade areas:

1) K-6
2) Pre K-Adult
3) 5-9
4) 5-Adult
5) 9-Adult

TEACHING SPECIALIZATION AREAS

Elementary
Optional specializations which may be combined with Elementary Education are as follows:

1) General Mathematics through Algebra I (5-9)
2) Spanish (Pre K-Adult)

Pre-K-Adult Programs (Secondary)

For course requirements in each specialization, refer to the chapter for the desired subject (e.g.: for Business Education, see the School of Business Catalog Section).

Secondary special methods and student teaching are required in all areas in order to be licensed. Secondary and Pre K-Adult specializations are also available via the Master of Arts in Teaching program.

1) Art..............................Pre K-Adult
2) Biology..............................9-Adult
3) Chemistry..............................9-Adult
4) English..............................5-Adult

12) Oral Communication..............5-Adult
13) Physical Education.................Pre K-Adult
14) Physics..............................9-Adult
15) Social Studies.....................5-Adult
16) Spanish.........................Pre K-Adult
17) Technology Education.............5-Adult
18) Technology Education ..........Comprehensive 5-Adult
19) Theatre Education...............Pre K-Adult

*requires second specialization for 5-Adult, 9-Adult, or Pre K-Adult

Special Education: Students at Fairmont State University who are interested in obtaining a degree in Education with certification in Special Education may do so by linking their undergraduate and master’s degrees. Special Education is a graduate degree program at Fairmont State University. Students can complete a bachelor degree in Education with a certification field and complete a Master of Education degree with an emphasis in Special Education. Undergraduate students who are teacher certification majors and interested in pursuing a degree in Special Education have the opportunity to begin the graduate program by enrolling in a limited number of graduate degree courses during their senior year.

Candidates in this sequence will receive a Bachelor of Arts in Education with an initial teaching certification in a content field or Elementary, and an M.Ed. with certification in Special Education. The process takes approximately five years to complete with some summer school enrollment after the B.A. degree.

To find out more information about this option or the graduate degree Special Education program please contact Diana Dunn, School of Education, Health and Human Performance.

FIELD EXPERIENCE 2 & 3 - POST ADMISSION

Fairmont State University adheres to the requirements of WV State Policy 5100. This policy mandates that each teacher candidate:

Is required to have clinical practice at both the elementary and middle or secondary levels.

Field based experiences and/or clinical practice must be completed at a minimum of three different programmatic levels.
The third programmatic level will be determined by the institution of higher education.

This sequence is required for all teacher education candidates. At the present time, placements are made at the Professional Development Schools (PDS), which encompass public schools in a six county area. These schools are sites of “best practice” and are schools who work collaboratively with Fairmont State University to ensure quality teacher education and professional development for practicing teachers. All such experiences are cooperatively arranged by university and public school personnel. All assessments are aligned with the new West Virginia Professional Teaching Standards (WVPTS).

EDUC 2265 FIELD EXPERIENCE ..........................................................1

This is a one-credit-hour lab that must be completed as a clinical experience in the public school setting. This clinical experience will be 30 clock hours and allow the teacher candidate the opportunity to apply and reflect on his/her content, professional and pedagogical knowledge, skills, and dispositions. This is a co-requisite with EDUC 2260 Instructional Design I.

EDUC 3365 FIELD EXPERIENCE ..........................................................2

This is two-credit-hour lab that must be completed as a clinical experience in the public school setting. The clinical experience will be 75 clock hours and allow the teacher candidate the opportunity to apply and reflect on his/her content, professional and pedagogical knowledge, skills and dispositions. In addition, the teacher candidate will be provided with experiences that allow for immersion in the learning community so that s/he is able to demonstrate proficiency in the professional role for which s/he is preparing. This is a co-requisite with EDUC 3340 Instructional Design II and EDUC 3351 Inclusive Practices.

CLINICAL EXPERIENCE – STUDENT TEACHING 16 WEEKS

Student teaching is required in all programs. Students must complete student teaching or comparable experience at state required developmental levels and in all of the teaching specializations for which they expect to be licensed. At the present time, placements are made at the Professional Development Schools (PDS), which encompass public schools in a six county area. All such experiences are cooperatively administered by college and public school personnel. Due to the uniqueness of the off-campus student teaching experience, a candidate may be administratively removed if there is cause.

EDUC 4491 ELEMENTARY STUDENT TEACHING
OR
EDUC 4496 SECONDARY STUDENT TEACHING

Student teaching is comprehensive immersion into the public school setting at two developmental levels. Teacher candidates apply and reflect on content, professional, and pedagogical knowledge, skills and dispositions required of a teacher. During this experience, teacher candidates will design and implement an action research project to demonstrate its effect on student learning. In addition, an electronic showcase portfolio is developed and presented to PDS and university faculty/personnel.

ADMISSION REQUIREMENTS TO STUDENT TEACHING

In order to enroll in Student Teaching, a teacher candidate must complete the Application packet and meet the requirements listed requirements below:

- All general studies requirements of the University as well as the minimum requirements of the teaching specialization must be completed before Clinical III/Student Teaching can be scheduled.
- Be officially admitted to teacher education.
- Complete all required hours with a minimum grade point average of 2.75 overall in education foundation and professional education courses, and each teaching specialization. All courses in the teaching specialization which are marked by an asterisk in this catalog must be completed prior to admission to Student Teaching.
- Be screened through the FBI Sex Offender Registry as per WV State Code 18-5-15C.
- Provide evidence of good moral character and professional dispositions as reflected by positive evaluations from previous field experience evaluations, faculty, advisors, students, and the community.
- Have a grade of “C” or better in all EDUC classes.

PRAXIS II

Successful completion of the appropriate PRAXIS II Specialty Area test(s) and PLT are requirements for licensure. A report of the Specialty Area Test(s) and PLT scores must accompany the application for licensure to the West Virginia Department of Education. If the test scores do not meet the state minimum score, the application must be held pending receipt of acceptable scores. Candidates should keep in mind that a denial of licensure at the time of graduation may subject them to changes in program requirements if they seek licensure later.

Early/Middle Education. Candidates expecting to be licensed for Elementary Education K-6 and an academic specialization must achieve acceptable scores in both areas.

Middle/Adolescent Education. Candidates expecting to be licensed for teaching in grades 5-Adult or 9-Adult must take the Specialty Area Test consistent with the specialization(s) to be named on the license. If they expect to be licensed in two specializations, they must achieve acceptable scores in both specializations.

Pre K-Adult Education. A candidate expecting to be licensed for teaching in grades Pre K-Adult must achieve acceptable scores on the Specialty Area Test consistent with the Pre K-Adult specialization to be named on the license.

In order to identify the appropriate testing dates, times, locations, etc., for any given year, candidates should check the PRAXIS Bulletin for the year in question.
UNIVERSITY RECOMMENDATION
PREREQUISITE TO CERTIFICATION

University recommendation shall take into consideration Chapter 18A, Section 3, Article 1, of the West Virginia School Law, which reads “(1) A certificate to teach may be granted only to any person who is: (A) A citizen of the United States, except as provided in subdivision (2) of this subsection; (B) Is of good moral character; (C) Physically, mentally and emotionally qualified to perform the duties of a teacher; and (D) At least eighteen years on or before the first day of October of the year in which his or her certificate is issued.”

The issuance of an original certificate shall require:

1) The recommendation of the Dean of Teacher Education, in consultation with the supervisor of student teachers and chairperson of the department offering the student’s chosen specialization. This recommendation is expected to reflect, in addition to academic criteria, satisfactory performance on the part of the applicant in a typical classroom situation.

2) An official statement by the Dean of Teacher Education that the approved program has been completed in full.

Programs of Study

ELEMENTARY EDUCATION K-6

Candidates who wish to qualify for teaching in an open or self-contained classroom, grades K-6, shall complete the General Studies Requirements, the Elementary Education Program and Professional Studies courses as outlined below. Subject specializations are NOT required for this degree but students may choose to add them if they wish. Field experiences and student teaching are required in an approved K-6 classroom, and in an approved classroom for each additional specialization. Some combinations may require more than 16 weeks of student teaching. For specific program requirements and additional specializations, see the section of the catalog for the academic school which offers the program. Ex: for Art Pre K-Adult, see School of Fine Arts.

Optional specializations which may be combined with Elementary Education are as follows. See below for requirements.

1) Computer Science (Pre K-Adult)
2) School Library/Media (Pre K-Adult)
3) General Mathematics through Algebra I (5-9)
4) Spanish (Pre K-Adult)

PRE K-ADULT

Candidates who wish to qualify for teaching in an open or self-contained classroom, grades 5-Adult, shall complete the following program. Candidates electing a comprehensive field must include the Methods and Materials course for that comprehensive area. If electing to complete two single-subject specializations, Methods and Materials must be completed for both specializations. The student teaching assignments must also include teaching experience at each developmental level to be named on the license.

BACHELOR OF ARTS IN EDUCATION: PRE K-ADULT
EDUCATION (Hours will vary) ..................128 MINIMUM

I. General Studies Requirements (Hours will vary per content area)
II. Professional Education Courses ..........39 SEM. HRS.
III. Specializations (Hours will vary)

Choose one of the following options.

a) One comprehensive specialization to teach in grades 5-Adult or 9-Adult the related subjects which comprise the comprehensive specialization.

b) Two single-subject specializations for grades 5-Adult

c) One single-subject specialization for grades 5-Adult or 9-Adult and one specialization for grades 5-9

d) One single specialization for grades 5-Adult or 9-Adult and specialization in either Computer Science Education, Physical Education, School Library-Media, or Spanish Pre K-Adult.

• I. General Studies Requirements:

Each content area will have a list of required, recommended or suggested courses to meet the general studies requirements. This information is listed prior to the required program courses for each teaching field.

• II. Professional Education.................................39 SEM. HRS.

MINOR IN EDUCATION FOR B.S., B.A. DEGREE

The School of Education/Health and Human Performance offers a minor for interested bachelor’s degree students. It is a valuable option for students who have an interest in teaching in their major field (e.g., math, biology, etc.) in the future but do not wish to pursue teacher certification at this time. Students can complete their major with an education minor during the normal four-year sequence and then return to complete the requirements for becoming licensed to teach in their respective field(s).

Teacher candidates are advised to complete the appropriate Special Methods course in addition to the minor if available, (e.g., Math 4431 for a Math major, ENGL 4431 for an English major, etc.). All course prerequisites, including formal admission to teacher education, are required for the minor. Interested students should contact the Dean of Teacher Education, who serves as the advisor for the minor.
MINOR IN EDUCATION .................................................24 SEM. HRS.

OTHER PROGRAMS OF STUDY AVAILABLE FROM THE SCHOOL OF EDUCATION

Students interested in the Bachelor of Science degrees listed here must fulfill the General Studies Requirements as outlined in “Degree Requirements” section. Students interested in the Bachelor of Arts in Education programs must fulfill the General Studies Requirements as outlined in this section.

EXERCISE SCIENCE

A Bachelor of Science degree and minor are offered in Exercise Science for students interested in pursuing careers outside teaching.

The Exercise Science major integrates the theories and practicalities of exercise physiology in preparing graduates for a career in this field. This is achieved through an understanding of the science of human movement and physiology, coupled with essential hands-on experiences that culminate in an internship in a health/fitness facility. Graduates of this major are prepared to pursue careers in athletics programs, exercise/fitness centers, hospital wellness programs, corporate fitness programs, rehabilitation centers, and allied health areas. Additionally, the program prepares students for advanced study in related fields such as exercise physiology, physical therapy, occupational therapy, etc. Students also have the opportunity to actively participate in faculty research projects, thus expanding their professional knowledge and abilities.

*This program does not require a minor, but does require an emphasis area consisting of at least 9 credit hours from one of the following: 1) Psychology, 2) Sociology, 3) Nutrition, or 4) Exercise Science. All courses selected must be within the same emphasis area. Pre-requisites are required in three of the four
areas with the exception of nutrition. Listed below are the specific courses related to each of these emphasis areas.

**Psychology:** PSCY 2230 Social Psychology; PSCY 3330 Developmental Psychology (3); PSYC 3370 Theories of Learning (3) OR PSYC 4410 Theories of Personality (3). (PR required: PSCY 1101 – not included in the 9 hours)

**Sociology:** SOCY 2200 Social Problems (3); SOCY 3310 Sociology of the Family (3); SOCY 4450 Minority Groups (3). (PR required: SOCY 1110 – not included in the 9 hours)

**Nutrition:** FOSM 1120 Nutrition in Childhood and Adolescence (3); FOSM 2200 Introduction to Foods (3); FOSM 2250 Applications in Community and Medical Nutrition (3).

**Exercise Science:** PHED 3312 Physiology of Exercise (3); PHED 3316 Fitness Assessment (3); PHED 3317 Clinical Applications in Exercise Physiology (3). (PR required: PHED 2211 – not included in the 9 hours)

**SCHOOL NURSE PROGRAM - NURSING AND ALLIED HEALTH**

The School Nurse program is open to students who currently possess RN licensure (Bachelor’s Degree) or plan to earn it. This option licenses interested parties to serve as a school nurse in a Pre K-Adult setting. Interested persons should contact the Dean of the School of Education or Dean of the School of Nursing and Allied Health. The requirements are as follows.

1) Licensure as a Registered Nurse (Bachelor’s Degree)
2) EDUC 2200 - Introduction to Education
3) Acceptable scores on the PPST Reading, Writing and Mathematics tests
4) Public School Practicum

---

**PHYSICAL EDUCATION**

The Bachelor of Arts in Education degree offers a subject specialization in Physical Education, grades Pre K-Adult.

The Physical Education Program is designed to stimulate the development of competencies in the application, analysis and syntheses of concepts related to effective performance of sport and human movement activities. Teacher candidates must meet all requirements for entry into the teacher education program and achieve a 2.75 GPA in the physical education coursework prior to student teaching.

See the beginning of this chapter for further information on General Studies Requirements for the BA in Education.

SPEARS, SAMUEL (2009)
Assistant Professor of Music

All programs in Art, Music, and Communication and Theatre have a strong performance orientation. Students earning a major in these areas of study must periodically demonstrate, through public performance, or exhibitions, mastery of concepts and content studied.
ADMISSION TO SCHOOL OF FINE ARTS DEGREE PROGRAMS

Entering students in the School of Fine Arts are assigned one of the following major codes:

Pre-Art
Pre-Communication
Pre-Music
Pre-Theatre

For admission to B.A. degree programs in the School of Fine Arts, students must:

• Pass an end of sophomore year jury or portfolio review;
• Maintain a 2.0 overall GPA; and,
• Earn a “C” or better in every course for the major.

Students continuing in School of Fine Arts degree programs have a graduation requirement of a 2.0 overall GPA and, in addition, must earn a “C” or better in all their major courses.

Students applying for admission to Teacher Education must also meet the requirements of the School of Education.

ART

The Fairmont State University Department of Art provides a program of study for the preparation of teachers in the visual arts, leading to the B.A. degree in Education, a B.A. degree in Studio Art, and minors in studio art and art history. The art curriculum and activities are designed to provide the highest level of professional education for the art teacher, the creative artist and the scholar of the arts, and to play a major role in the cultural life of the college campus and the community. Courses marked with an asterisk must be completed before admission to the Initial Performance Practicum.

Entering students in the Department of Art are assigned a Pre-Art major code. For admission to B.A. degree programs in the School of Fine Arts, students must:

• Pass an end of sophomore year jury or portfolio review;
• Maintain a 2.0 overall GPA; and,
• Earn a “C” or better in every course for the major.

Students continuing in the Department of Art degree programs have a graduation requirement of a 2.0 overall GPA and, in addition, must also earn a “C” or better in all their major courses.

Students applying for admission to Teacher Education must also meet the requirements of the School of Education.

### Studio Art

The Studio Art Program is designed for students who wish to concentrate on a specific studio discipline in the visual arts. The program requires a Foundations level of course work, which focuses on skill-building, exposure to various media, and art history. The Foundations level is followed by intense study in the chosen discipline. Three tracks are available: Drawing/Painting; Pottery/Sculpture; and Cross-Media. Additionally, the department offers optional gallery management opportunities. The program is appropriate for students who wish to work as independent artists, those who are interested in the M.A.T. with a concentration in Visual Art, and for those who wish to continue their education in Visual Art at the graduate level. Yearly portfolio reviews are required for acceptance to and continuation in the program.

MUSIC

The Department of Music offers a Bachelor of Arts in Education Degree in Music (Comprehensive Pre K-Adult), a Bachelor of Arts Degree in Music, and a minor in music. The degree programs provide a thorough background for those seeking a career in music. Major applied areas are offered in vocal, instrumental (strings, woodwinds, brass and percussion), piano, and organ.

The department provides excellent musical instruction for its students through a highly qualified professional staff of performing and teaching professors, a constantly improving and varied curriculum, and a series of sequential musical experiences and studies in all music degree programs. The department believes in exposing music students to many new and innovative educational and musical ideas as well as emphasizing the musical heritage of the past. Departmental organizations such as band, orchestra, choir, small ensembles, and jazz ensemble participate regularly in productions, concerts, and activities of the college and have toured in West Virginia, the United States, Mexico and Europe.

Opportunities are provided for music students to attend numerous recitals, productions and other musical events on and off campus. Several professional and fraternal organizations are sponsored by the department, including a student chapter of Music Educators National Conference, American Choral Directors Association, Kappa Kappa Psi, and Sigma Alpha Iota.

The Department of Music is housed in Wallman Hall. It is well-equipped with musical instruments and materials, and its facilities include an electronic piano classroom, theory room, music education room, wired classrooms and a computer lab, instrumental and choral rehearsal rooms, 18 practice rooms with Smartmusic technology, nine studios and Wallman Hall Auditorium.

See the Department of Music Handbook for requirements of concert and recital attendance, applied levels, piano proficiency, ensemble participation, sophomore evaluation policy, senior recital procedure, instrument checkout policy, and model schedules.

Entering students in the Department of Music are assigned a Pre-Music major code. For admission to B.A. degree programs in the Department of Music within the School of Fine Arts, students must:

- Pass an end of sophomore year jury and evaluation;
- Maintain a 2.0 overall GPA; and,
- Earn a “C” or better in every course for the major.

Students continuing in the Department of Music degree program have a graduation requirement of a 2.0 overall GPA and, in addition, must earn a “C” or better in all their major courses.

Students applying for admission to Teacher Education must also meet the requirements of the School of Education.

The Bachelor of Arts in Music degree program offers academic course work in music content areas, balanced with elective and general studies courses selected by individual students based on their career goals. The degree program is organized to provide a thorough background for various careers in music. The department provides excellent musical instruction for its students through a highly qualified professional faculty, a curriculum that includes current trends in the field, and a series of sequential musical experiences and studies. The department believes in exposing music students to many new and innovative educational and musical ideas as well as emphasizing the musical heritage of the past. The B.A. in Music degree requires 120 credit hours for graduation.

MUSI 2206 MUSIC APPREC. FOR MAJORS FALL ......................... 3
MUSI 2245 FUNDAMENTALS OF CONDUCTING FALL ................ 2

Applied Lesson Instruction (4 hrs.)
Four semesters required. Select applied instrument or voice from the following:

MUSI 1107 PIANO .................................................................. 1
MUSI 1141 VOICE .................................................................. 1
MUSI 1175-1198 INSTRUMENT (SEE COURSES OF INSTRUCTION FOR INSTRUMENTS OFFERED) ......................... 1
MUSI 2200 VIOLIN .................................................................. 1

Ensemble Participation (4 hrs.)
Four semesters required. Select from the following:

MUSI 1167 COLLEGIATE SINGERS ................................................. 1
MUSI 1168 MARCHING BAND ....................................................... 2
MUSI 1169 WIND ENSEMBLE ....................................................... 1
MUSI 1172 UNIVERSITY-COMMUNITY ORCHESTRA .................. 1

COMMUNICATION ARTS AND THEATRE ARTS

The Department of Communication Arts and Theatre Arts has designed a program to provide students with a variety of choices for developing their knowledge and skills through study and performance. By building a base of performance experience through classroom exercises, public performances, and competition, students can develop communication expertise which will prepare them to meet the challenges of the future.

Entering students in the Department of Communication Arts and Theatre Arts are assigned a Pre-Communication Arts or Pre-Theatre Arts major code. For admission to B.A. degree programs in the School of Fine Arts, students must:

• Pass an end of sophomore year jury or portfolio review;
• Maintain a 2.0 overall GPA; and,
• Earn a “C” or better in every course for the major.

Students continuing in the Department of Communication and Theatre Arts degree program have a graduation requirement of a 2.0 overall GPA and, in addition, must earn a “C” or better in all their major courses.

Students applying for admission to Teacher Education must also meet the requirements of the School of Education.

A number of program choices are available to students in the Department of Communication Arts and Theatre Arts. Students may choose a degree program in:

1) A Bachelor of Arts major in Theatre Arts;
2) A Bachelor of Arts major in Communication Arts;
3) Bachelor of Arts minors in either Communication Arts or Theatre;
4) Bachelor of Arts in Education, single field, grades 5-12 in Oral Communication;
5) Bachelor of Arts in Education, single field, Pre-K-Adult in Theatre.

In order that a student in any of these programs may be recommended for graduation by the Communication Arts and Theatre Arts faculty, s/he must perform in one or more of the department faculty-directed/sponsored public performance areas listed below. A student must reach a satisfactory level of proficiency in at least one of the performance areas. Each student’s performance and level of proficiency will be periodically appraised by the faculty.
PROJECTED OUTLINE

PERFORMANCE AREAS

Theatre: acting, technical crews, directing, designing, public relations, house management, business management, etc., with Masquers, Town & Gown, or studio theatre presentations.

Oral Interpretation: intercollegiate festivals, contests, and other public performances.

Public Speaking: intercollegiate debate, competitive communication and public speaking events, festivals and exhibitions, organizing and evaluating communication performances and other public speaking presentations.

The co-curricular activities of this department are open to all students. For detailed information, see Forensics and Theatre under Student Services and Organizations in this catalog.

ALLIED HEALTH ADMINISTRATION
(Bachelor of Science)

This is a comprehensive program, which is designed to provide health professionals with the education to become administrators in health care agencies. The curriculum is directed toward developing the management, problem-solving, finance, and interpersonal skills that are necessary for careers in a variety of health care organizations. An
additional intent of the program is to provide career advancement opportunities for those who are already employed in health care organizations.

To be eligible for admission to the Bachelor of Science Program in Allied Health Administration, a student must have an associate degree in a healthcare field from an accredited college. Requirements include General Studies courses, degree requirements, and a core curriculum, which encompasses accounting, management, problem solving, and allied health courses.

Students wishing to enroll in the Allied Health Administration courses are encouraged to complete the General Studies requirements and required support courses prior to enrolling in the ALLH core courses.

Students must earn a grade of "C" or higher in all required courses.

NURSING (Bachelor of Science in Nursing Degree)

The Bachelor of Science in Nursing Program is designed for registered nurses who desire a baccalaureate degree in nursing. It provides career mobility for the associate degree and diploma-graduate nurse. The program is designed to prepare nurse generalists to provide and coordinate care in situations of health promotion, maintenance, and restoration. The program aims to provide a base for graduate study and to prepare graduates to assume accountability for nursing practice in the roles of nurse generalist; care provider, designer, manager, and coordinator; and member of the profession.

The curriculum is individually designed on the basis of the student’s academic background. A minimum of 120 approved credit hours is required. This includes 28 upper division-nursing credits. The program can be completed in two full-time academic years or one accelerated academic year under certain circumstances. Students may enroll on a full-time or part-time basis. Nursing courses will be offered in the evening and/or online when possible. A grade of “C” or above is required in all courses, and students must maintain a 2.0.

The Bachelor of Science in Nursing Program is accredited by the Commission on Collegiate Nursing Education (CCNE). Individuals interested in more information on accreditation may contact: Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036-1120, (202) 887-6791.

All applicants seeking admission to the Bachelor of Science in Nursing Program are required to:

1) Meet the general admission and course placement requirements of Fairmont State University.
2) Hold an unencumbered license to practice as a Registered Nurse in West Virginia.
3) Submit an application for admission, designating the major as Baccalaureate in Nursing, to the Office of Admissions. The following information must also be submitted:
   a. Official college or diploma program transcripts.
   b. Evidence of current CPR certification (must be provided prior to beginning clinical courses).
   c. Completed immunizations (must meet clinical agency requirements).
4) Have any eligible transfer courses evaluated by the Registrar’s Office.

5) Graduates of a diploma-nursing program will receive credit for lower division nursing courses by successfully completing 14 credits in the nursing major with a grade of “C” or better.

6) Have a satisfactory background check prior to admission.

Students interested in the program are encouraged to contact the Department of Nursing for advisement purposes.

The following courses are required for completion of the program. All required courses must be completed prior to or concurrently with Nursing 4440. Active, unencumbered nursing licensure is required for enrollment in NURS 3350 and above.

The Bachelor’s Degree in Nursing offers an option of School Nurse Certification. Education 2200 and the School Nurse Track in Nursing 4440 are required for this certificate. Registered nurses who already have a BSN degree would take Education 2200 and Nursing 4441.

**NURSING (Associate of Science in Nursing Degree)**

The mission of the Associate of Science in Nursing Program is to provide quality nursing education to people in north central West Virginia and beyond. The program is designed to prepare graduates for a challenging and satisfying career as a nurse. The curriculum includes a balance of nursing, General Studies, and support courses. Students have the opportunity to apply nursing theory and skills in the campus simulation laboratories, in clinical settings which may include hospitals homes, a rehabilitation center, schools, clinics, and physicians' offices. Students are expected to provide their own transportation to all clinical experiences.

Fairmont State’s associate degree nursing program is designed to produce a graduate who is able to:

1) Initiate client care using critical thinking skills to make reasoned decisions.
2) Practice social and professional accountability and responsibility.
3) Synthesize knowledge from nursing and the physical, biological, behavioral and social sciences to implement
the nursing process.
4) Establish effective therapeutic communication with clients.
5) Demonstrate competency in therapeutic nursing interventions.
6) Coordinate client care functioning in the multiple roles of care provider, teacher, communicator, manager, and member of the profession.

Applicants are admitted to the nursing major as they complete the admission process and meet the admission requirements of Fairmont State University and the Associate Degree Nursing Program. Accepted students will be admitted into the next admission class for the ASN and LPN-ASN programs. As one class is filled, accepted applicants will be admitted into the next admission class. Application and admission requirements can be found on the website at http://www.fairmontstate.edu/academics/nursingdept/resources/application/default.asp.

To progress in the nursing program, a student must receive a grade of “C” or higher in each nursing and required support course. Failure to meet either of these requirements will result in a student being sequenced in the program according to the Readmission Policy. A student may only be resequenced in the program one time. To graduate from the nursing program, a student must have a grade of “C” or above in every nursing course and a cumulative 2.0 grade point average.

Graduates of the program are eligible to take the National Council Licensing Examination for Registered Nurses (NCLEX-RN) for licensure as a Registered Nurse. For licensure in West Virginia, candidates must meet the following legal requirements delineated in the West Virginia Code, Chapter 30, Article 7, Section 11. WV Code 30-7-11. Denial, revocation or suspension of license; grounds for discipline.

The Board shall have the power to deny, revoke or suspend any license to practice registered professional nursing issued or applied for in accordance with the provisions of this article, or to otherwise discipline a licensee or applicant upon proof that he or she:
(a) Is or was guilty of fraud or deceit in procuring or attempting to procure a license to practice registered professional nursing; or
(b) Has been convicted of a felony; or
(c) Is unfit or incompetent by reason of negligence, habits or other causes; or
(d) Is habitually intemperate or is addicted to the use of habit-forming drugs; or
(e) Is mentally incompetent; or
(f) Is guilty of conduct derogatory to the morals or standing of the profession of registered nursing; or
(g) Is practicing or attempting to practice registered professional nursing without a license or registration; or
(h) Has willfully or repeatedly violated any of the provisions of this article.

The nursing program is accredited by the West Virginia Board of Examiners for Registered Professional Nurses (WVBOERPN) and the National League for Nursing Accrediting Commission (NLNAC).
WVBOERPN
101 Dee Drive, Suite 102
Charleston, WV 25311-1620
(304) 558-3596

NLNAC
3343 Peachtree Road NE, Suite 850
Atlanta Georgia 30326
(404) 975-5000

Associate Degree Nurses are qualified to work in hospitals, nursing homes, physicians’ offices and clinics. Graduates may also continue in higher education toward Bachelor’s and Master’s degrees in nursing and related fields.

Required General Studies and Support Courses...............................20 SEM. HRS.

- General Studies and Support Course Requirements
- Required Nursing Courses

LPN TO ASN ACCELERATED TRACKS

Once admitted to the Associate Degree Nursing Program, Licensed Practical Nurses are eligible for one of two matriculation processes.
1.) LPN students can choose to matriculate through the program with the generic students starting in the spring semester of the first year of the ASN program. LPN students receive credit for NURS 1101 (5 credits) based on possessing a current and unencumbered LPN license. Thus, the nursing courses can be completed in 3 full-time semesters with a one hour on-line Transition for Licensed Practical Nurses, NURS 1102,
and Introduction to Therapeutic Communication and Assessment, NURS 1100 taken the semester prior to beginning the spring semester nursing courses. General Studies and support course requirements will need to be taken prior to and/or concurrently with the nursing courses.

-OR-

2.) Once admitted to the Associate Degree in Science Nursing Program, the LPN can choose the Accelerated Non-Traditional Track. The LPN student starts the program in the summer semester and takes evening and weekend classes and clinicals. The student can complete the program in 12 months by completing most of the General Studies and support course requirements prior to starting the summer session.

    HLCA 1170/71, Anatomy and Physiology; FOSM 1110 Nutrition; and NURS 1109 Maternal & Newborn Nursing may be taken for credit hours or the credit hours may be awarded by competency examinations.

    Licensed practical nurses who are interested in the Associate Degree Nursing program should review the application process on the School of Nursing & Allied Health Administration Academic home pages at http://www.fairmontstate.edu/academics/nursingdept/resources/application/default.asp

TRANSFER STUDENTS

    Students wishing to transfer into the ASN Program, must first be accepted into the incoming first year class. Only the support Courses, General Studies Courses and Fundamentals of Nursing course will be accepted as transfer credits. All other core nursing courses must be completed at FSU.

TRANSPORTATION

    As most of these programs require considerable student attendance at off-campus locations, it is the student’s responsibility to provide transportation to all clinical affiliates. The utilization of car pools, when appropriate, is encouraged to help meet the expense of those providing transportation.

LIABILITY INSURANCE

    Group liability insurance is provided to the students in Nursing and Allied Health Administration programs; the liability insurance is handled by the State of West Virginia. Students are not obligated to maintain any other liability insurance.

WOMEN’S STUDIES (Minor Only)

The Women’s Studies minor provides students with an avenue to explore contemporary and historical women’s issues as they relate to traditional academic disciplines and human life. Awareness of women’s issues has become an asset in any profession. Students wishing to elect this minor will need to work closely with their advisor. Most importantly, all component course selections must be made from the approved list of courses published each semester by the Women’s Studies Coordinating Committee.

The general studies curriculum ensures that students possess a wide range of skills and knowledge to enhance their lives after graduation. The knowledge, skills, and abilities obtained through general studies transcend specific disciplines and are valued by employers at all levels and by society in general. Fairmont State University supports a general studies curriculum so that our students appreciate the diversity of disciplines as they discover possibilities in their interdependence.

The skills and knowledge obtained by completing general studies courses provide students with the necessary tools to be productive employees, leaders, and citizens. The categories were designed to incorporate the foundational knowledge and skills that have enduring societal value and to prepare students to survive and thrive in a complex, diverse, and dramatically changing world. A large portion of the skills and knowledge Fairmont State University expects its students to have when they graduate comes from general studies courses.

Students must complete at least one course in each of the following general studies categories:

- Critical Analysis (I.A.)
- Quantitative Literacy (I.B.)
- Written Communication (I.C.)
- Teamwork (I.D.)
- Information Literacy (I.E.)
- Technology Literacy (I.F.)
- Oral Communication (I.G.)
- Citizenship (III.)
- Ethics (IV.)
- Health and Well-being (V.)
- Interdisciplinary and Lifelong Learning (VI.)
- Fine Arts (VII.A)
- Humanities (VII.B)
- Social Sciences (VII.C)
- Natural Sciences (VII.D)
- Cultural Awareness and Human Dignity (VIII.)

- Students must complete at least 30 hours of coursework outside of their major as determined by the course prefix. Academic units may select courses for majors to fulfill certain categories as long as the 30 hours of coursework outside of the major is achievable.
- Students may use a single course to satisfy no more than 2 categories.
- Students must complete 6 hours of Written English (ENGL 1104 and ENGL 1108). These courses may also be used to fulfill any additional category for which they have been approved.
- Students must complete 3 hours (single course or multiple courses) to fulfill Attribute VIIA – Fine Arts.

Students should choose courses to fulfill categories by using knowledge of any program requirements and course prerequisites.

Students are encouraged to ALWAYS check with their assigned advisor before registering for courses.
## GENERAL STUDIES COURSE LIST

WRITING INTENSIVE COURSES (WIC)

The Fairmont State University General Studies Curriculum indicates that “Students will be required to complete at least one designated writing intensive course as part of their general studies program or their major field of study. This course will not be in addition to their other courses, but rather a course from those approved as General Studies or majors courses.”

Rationale for WiC
Writing intensive courses benefit students by:
1) improving writing skills as a means of self-expression.
2) increasing knowledge and understanding of course content.
3) enhancing critical thinking skills
   • Evaluation
   • Analysis
   • Interpretation
   • Inference
   • Explanation
   • Self-regulation

Courses of Instruction

PR = Prerequisite. These courses must be passed before enrollment in the course in question.

CR = Co-requisite. Must be taken concurrently with the course in question.

S-C&TC = Shared course, coordinated by Community & Technical College.

S-FSU = Shared course, coordinated by University.

ACADEMIC DEVELOPMENT CENTER

ACCS 1110 Online Tutorial Practicum ......................... 1 hr.
This course is designed to equip tutors with the necessary skills to effectively communicate with students in an individual and group setting. The course entails an orientation to tutorial procedures and assignments that emphasize specific skills such as tutoring special populations, tutoring study skills, and recognizing diverse response styles. The course is a requirement for all new tutors; instructor permission is required for registration.

ACCOUNTING

ACCT 2201 S-FSU Principles of Accounting I............ 3 hrs.
This course covers fundamental accounting theory and procedures: organization of accounts, the accounting cycle, working papers and the preparation of financial and operating statements for proprietorships.

ACCT 2202 S-FSU Principles of Accounting II........... 3 hrs.
The second semester of this course is a further study of the accounting process as applied to various business organizations. The two semesters of this course are designed to give students an adequate understanding of the recording, classifying and summarizing of business transactions in order to proceed with the interpretation and analysis of accounting data. This is a basic course for accounting majors, majors in other areas of business administration, and those whose major interest is in economics, political science, law or other professional areas. PR: ACCT 2201.

ACCT 3301 Intermediate Accounting I.................... 3 hrs.
Primarily the study of general financial accounting theory as it relates to balance sheet items. Included is a brief review of the accounting cycle and income recognition theory. Current tax regulations are considered where applicable. PR: ACCT 2202, BISM 2200, COMM 2202.

ACCT 3302 Intermediate Accounting II.................... 3 hrs.
A continuation of ACCT 3301, to include the study of corporate ownership equity and the analysis and interpretation of accounting data. PR: ACCT 3301, MATH 1112, ENGL 1108.

ACCT 3303 Accounting Internship ......................... 3 hrs.
The internship course is designed as a learning experience which requires the integration of accounting theory with actual job experience in an accounting, industrial, or governmental organization. To be eligible for this experience, the student must be enrolled in the 4-year accounting program. The employer is responsible for evaluating and reporting the development of the student. This is a Credit/No Credit course. PR: ACCT 3302

ACCT 3350 Accounting Information Systems ............. 3 hrs.
This course is designed to introduce students to accounting information systems. It focuses on understanding the different types of accounting systems, their internal controls (including security issues), development, and information systems auditing concepts. PR: ACCT 2202.
ALLH 1199  Special Topics in Allied Health..................1-12 hrs.

Studies in special selected topics, to be determined by the instructor and approved by the School's dean. Credits earned will be applicable as free electives in degree and certificate programs. Course is offered as needed.

ALLH 2110  Pharmacology II.................................1 hr.

The second course of three is designed to introduce the basic concepts of classification, action and implications related to the administration of medications within the context of the body's organ systems. Content to be emphasized, but not limited to, include drugs used for problems with mental health and the nervous, musculoskeletal, respiratory, cardiac and renal systems. PR: Admission to the ASN program.

ALLH 2210  Pharmacology III.................................1 hr.

The third course of three is designed to introduce the basic concepts of classification, action and implications related to the administration of medications within the context of the body's organ systems. Content to be emphasized, but not limited to, include the use of medications in critical and complex situations and with children. PR: Admission to the ASN program.

ENGL 1108, ACCT 3325, ACCT 4405.

This course is designed to provide stimulus for critical analysis of accounting, finance, and ethics problems. Emphasis is placed on research, organization of data, critical analysis, communication of conclusions, and presentation skills. Through case studies, students will enhance their problem-solving skills by formulating solutions to problems which are encountered in accounting environments. PR: ENGL 1108, ACCT 3325, ACCT 4405.

This course covers preparation of income tax returns from the accounts of an individual; exclusions and inclusions for gross income, capital gains and losses, business expenses, and other deductions. PR: ACCT 4406.

ACCT 4410  Case Studies in Accounting.................................3 hrs.

Writing Intensive

This course is designed to provide stimulus for critical analysis of accounting, finance, and ethics problems. Emphasis is placed on research, organization of data, critical analysis, communication of conclusions, and presentation skills. Through case studies, students will enhance their problem-solving skills by formulating solutions to problems which are encountered in accounting environments. PR: ENGL 1108, ACCT 3325, ACCT 4405.

ACCT 4408  Income Tax Return Preparation.................................3 hrs.

Students will participate in the Volunteer Income Tax Assistance (VITA) program as administered through the Internal Revenue Service. Students must successfully pass the IRS certification exam. Once certified, students will prepare income tax returns primarily for low income and elderly taxpayers who cannot afford to pay for professional tax assistance. This course requires participation at various off-campus locations during arranged hours. This course may be repeated for credit. PR: ACCT 4406.

ACCT 4599  Undergraduate Research.................................0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.
During the practicum experience the students will further develop management and leadership skills while interacting with middle managers in their selected fields and by conducting a change project within their agency. This Writing Intensive course includes journaling, online discussions, research papers, and powerpoint poster presentation. Last semester of program. Spring semester only. PR: ENGL 1108 and have completed an associate degree in a healthcare related field or instructor permission.

**ALLH 4998  Undergraduate Research ......................... 0-6 hrs.**
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

### APPLIED DESIGN

**APPD 1103 S&C&TC Clothing and Culture ...................... 3 hrs.**
This course is a cross-cultural study of clothing for the individual, family, and special needs groups. The course will cover fashion trends, fashion terminology, clothing and behavior, color and computer-aided body analysis, professional dress and management, and socio-psychological aspects of clothing.

**APPD 1116 S&C&TC History of Contemporary Fashion ........... 3 hrs.**
The study of historical costume from ancient times through modern costume will be covered to understand the impact of historical costume on contemporary design. Students will participate in restoration and display of period garments from the Masquers Historical Costume Collection.

### ARCHITECTURE

**ARCH 1000  Design Fundamentals I ............................ 4 hrs.**
This course addresses the basic graphic communications skills necessary to express architectural form using traditional methods. Topics include freehand, multi-view, paraline, perspective and shade/shadow drawing.

**ARCH 1150  Design Fundamentals II ............................. 4 hrs.**
The focus of this class is on digital media in architectural. Principles of digital image manipulation, composition and Building Information Modeling (BIM) will be introduced. PR: ARCH 1000

**ARCH 1199  Special Topics in Architecture .................. 1-6 hrs.**
Studies in special selected topics, to be determined by the instructor and approved by the department chairperson. Credits earned will be applicable as free electives in degree and certificate programs. Repeatable.

**ARCH 2010  Architectural History I ............................ 3 hrs.**
This course covers architectural history from prehistoric times through the Gothic period. The emphasis will be on the historical, social and technological factors behind the structures discussed.

**ARCH 2020  Architectural History II ............................ 3 hrs.**
This course is a continuation of architectural history, covering the Renaissance period to the present. The emphasis will be on the historical, social and technological factors behind the structures discussed.

**ARCH 2000  Design I: Foundation ............................. 4 hrs.**
Introduction to basic principles of architectural design. Areas to be explored include: design theory, methods and processes; presentation drawing techniques; fundamentals of model making; and the application of the above to actual design projects. PR: ARCH 1050, CR: ARCH 2060

**ARCH 2050  Design II: Foundation ............................ 4 hrs.**
A continuing study of design methodology as applicable to the design of simple structures. Emphasis on tectonic, as well as the nature of materials and the site. Further development of sketching, graphic and modeling skills as students learn to understand, interpret, and represent spaces and receive further training in presentation skills. Students will develop a first-year design portfolio. PR: ARCH 2000

**ARCH 2060  Building Technology I ............................ 4 hrs.**
Students will study practices utilized in the erection of residential buildings including architectural materials, methods and use, and structural, mechanical, and electrical systems. CR: ARCH 1000

**ARCH 3000  Design III: Site .................................... 6 hrs.**
This course is a continuation of the design sequence, emphasizing synthesizing pragmatic issues of the site, context, and envelope with basic design theory. PR: ARCH 2050, ARCH 2020

**ARCH 3050  Design IV: Urban ................................. 6 hrs.**
This course explores architectural design within the urban setting. Topics Include urban design, historic preservation and the social impact of the built environment. PR: ARCH 3000

**ARCH 3060  Architecture Portfolio ............................ 3 hrs**
This course explores the methodology of creating professional and academic portfolios for Architecture students.

**ARCH 3399  Special Topics in Architecture .................. 1-6 hrs.**
This course provides students with further opportunities to study principles and concepts in selected areas of specialization, to be determined by the instructor and to be approved by the department chair. Credits earned will be applicable as free electives in degree and certificate programs. Repeatable.

**ARCH 4000  Design V: Technology ............................. 6 hrs.**
This course encompasses integrated design, synthesizing building systems, sustainable principles and a more complete approach to planning and design of commercial buildings. PR: ARCH 3050

**ARCH 4430  Mechanical and Electrical Systems ............... 4 hrs.**
This course is an introduction to the variety of principles and systems at work in a building. Topics emphasized: environmental resources, environmental control, life safety. CR: ARCH 4050

**ARCH 4450  Design VI: Build ................................. 6 hrs.**
This course examines the relationship between the design process and the act of building. Concept and reality are studied, resulting in a built architectural object. PR: 4000

**ARCH 4060  Building Technology II ........................... 4 hrs.**
This course investigates the building envelope, and select building systems explored through the creation of a set of working drawings for a commercial building. PR: ARCH 2060, CR: ARCH 4000

**ARCH 4998  Special Topics in Architecture .................. 0-6 hrs.**
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.
ART 1120 S-FSU Art Appreciation .......................... 3 hrs.
This introductory course is a study of art of the Western and non-Western worlds. It explores the emergence of new forms and salient factors contributing to changes in art from prehistoric Europe to the contemporary West. The works of art are presented within their historical contexts.

ART 1140 S-FSU Design I: 2D ................................... 3 hrs.
The elements and principles of two-dimensional design are explored in this Foundations course. Students learn the vocabulary of two-dimensional design, and apply scholarly responses to visual images. Students explore, through visual problem-solving, issues of space, inherent properties of materials, and content in the three-dimensional realm. Students work with a variety of two-dimensional media in this studio course. Reading and writing assignments accompany studio coursework.

ART 1141 S-FSU Design II: 3D ................................. 3 hrs.
The elements and principles of three-dimensional design are explored in this Foundations course. Students learn the vocabulary of three-dimensional design, and apply scholarly responses to visual images. Students explore, through visual problem-solving, issues of space, inherent properties of materials, and content in the three-dimensional realm. Students work with a variety of three-dimensional media in this studio course. Reading and writing assignments accompany studio coursework.

This introductory course focuses on the traditions of drawing. Space, form, value, proportion, and composition are emphasized for the development of the beginning student’s ability to perceive and record forms on a two-dimensional surface. Students use a variety of drawing media as they work toward an understanding of the technical, expressive, and conceptual possibilities of mark-making.

ART 1199 Special Topics in Art .............................. 1-12 hrs.
Studies in selected areas of specialization, to be determined by the instructor and approved by the School’s Chair. Credits earned will be applicable as free electives in degree or certificate programs. Three hours maximum credit per semester.

ART 2230 Gallery Management ............................. 3 hrs.
Gallery Management is a course designed to teach students the basic techniques and practices of a gallery curator or museum assistant. All phases of planning and implementing an exhibition, or a series of exhibitions, will be considered. Students will be involved in all aspects of the day-to-day management of the Brooks Gallery. May be repeated once. Offered Fall and Spring.

ART 2241 S-FSU Drawing II: Drawing from Life ........... 3 hrs.
Drawing from the posed model, accompanied by analytical studies of anatomy. PR ART 1140 and 1142. Spring semester only.

ART 2245 E. Foundations ...................................... 3 hrs.
This course is designed to introduce students to the elements and principles used in the production of contemporary works of art. Electronically based programs will be explored in conjunction with theories and practices of selected contemporary artists. Offered Fall and Spring.

ART 2261 S-FSU Painting I: Foundations of Painting ............ 3 hrs.
Painting I is an introductory course in oil painting. Materials, tools, techniques, and stretcher construction are emphasized. Students explore the relationships among paint application, color, theory, design elements, representation, and expressive intent. PR ART 1140 and 1142.

ART 2262 Painting II: Intermediate Painting .................. 3 hrs.
Painting II continues concepts taught in Painting I, while utilizing the posed model as a subject. Students work to solve the complex expressive and formal problems that are present in painting the human figure. PR ART 2241 and ART 2261. Studio Art, Art Education or CFAT majors only. Spring semester only.

This introductory course in sculpture explores materials, tools, techniques and design principles related to the creation of three-dimensional objects. PR ART 1141.

ART 2284 Sculpture II ............................................. 3 hrs.
Advanced work in various sculptural media: metal casting, carving, constructions, etc. PR: ART 2283.

ART 3341 Printmaking I ......................................... 3 hrs.
Printmaking I is an introductory course in printmaking in which students learn to use basic tools, techniques, and equipment in the studio. Students explore the possibilities and limitations of the medium while applying design theory to serve an expressive intent. PR ART 1140 and 1142. Spring semester only.

ART 3342 Printmaking II ........................................... 3 hrs.
Printmaking II is an intermediate to advanced level printmaking studio course in which students utilize skills and processes learned in Printmaking I to further develop images in various media. PR: ART 3341.

ART 3345 E. Intermediate ....................................... 3 hrs.
This course is designed around the knowledge learned in E. Foundations and is applied at an intermediate level. Students will be expected to use artistic approaches to electronic media and contemporary theory to solve studio problems. Class time will be given to the design and creation of original works of art. PR: ART 2245.

ART 3350 Elementary Art Education ........................... 3 hrs.
An introduction to teaching art in the elementary classroom, the course focuses on fundamental principles of artistic development in children, and within that context, provides rationales and methodology for recognizing, creating and utilizing quality art curricula in elementary classrooms. National Standards in Art Education are used as the framework for content, skills, and materials utilized and applied in the course.

ART 3355 Problems in Teaching Art I ........................ 2 hrs.
The student will define art problems, describe the teachable aspects of art, examine what motivation is in art and in connection with particular art problems and produce some art objects utilizing media and materials generally obtainable in most elementary schools. Pre-Art and Art Majors only.

ART 3356 Problems in Teaching Art II ........................ 2 hrs.
The student will define art problems on the secondary level, examine how skill and success are related in studio art, utilize historical art examples, observe how art and society are related, define what is teachable in art and select specific art problems in conjunction with the age level and interests of secondary students. PR: ART 3355. Pre-Art and Art Majors only.

ART 3360 Early and Middle Methods and Materials ............. 4 hrs.
Students will utilize current Art Education methodologies to examine the use of motivators, technology, management, assessment, and historical art examples in the Art classroom. Quality art lessons and objects will be produced with consideration to media and materials suitable to elementary and middle school situations. Pre-Art and Art Majors only.

ART 3361 Painting II: Intermediate Landscape Painting ........... 3 hrs.
Students explore the traditions of landscape painting as well as contemporary issues and forms related to land. Students may work in oil or acrylic for this intermediate level course. PR 2261, 2262. Spring semester only.
<table>

<tbody>
<tr>
<td>ART 3362</td>
<td>Painting IV: Intermediate Figure Painting</td>
<td>3 hrs.</td>
<td>Students explore the traditions of figure painting as well as contemporary issues and forms related to the body. Students may work in oil or acrylic for this intermediate level course. PR: ART 2262. Spring semester only.</td>
</tr>
<tr>
<td>ART 3363</td>
<td>Intermediate Water Media I</td>
<td>3 hrs.</td>
<td>Students use watercolor as the primary medium in this intermediate level course. Materials, techniques, and traditions of the medium are employed as students solve visual problems. Contemporary and traditional uses for water media are explored. PR: ART 1141, 2241 Fall semester only.</td>
</tr>
<tr>
<td>ART 3364</td>
<td>Advanced Water Media II</td>
<td>3 hrs.</td>
<td>Students experiment with technical processes of acrylics and other water media as they develop a series of works that are researched and developed individually. PR: ART 3363 Fall semester only.</td>
</tr>
<tr>
<td>ART 3374</td>
<td>Art History from Prehistory to 1450</td>
<td>3 hrs.</td>
<td>Writing Intensive The major movements and periods of the history of art will be discussed within their historical and cultural contexts, from prehistory to the end of the Middle Ages. Students will be expected to understand the religious, political, and technical concepts which underpin these ideas as they relate to Western and non-Western cultures. Offered once every year. PR: ENGL 1108.</td>
</tr>
<tr>
<td>ART 3376</td>
<td>Art History from 1450 to 1750</td>
<td>3 hrs.</td>
<td>Writing Intensive The major movements and artists associated with the Renaissance, Baroque and Rococo movements will be investigated within their historical and cultural contexts. Students will consider the theory and criticism appropriate to these periods, together with primary texts produced by the artists. Offered once every year. PR: ENGL 1108.</td>
</tr>
<tr>
<td>ART 3378</td>
<td>Art History from 1750 to 1950</td>
<td>3 hrs.</td>
<td>Writing Intensive This course will consider the major movements and artists from the Neo-Classical through the Modern periods. The monuments will be examined within the context of their historical, political and cultural milieu, with the theory and criticism of the various movements given serious study. Offered once every year. PR: ENGL 1108.</td>
</tr>
<tr>
<td>ART 3380</td>
<td>Art History since 1950</td>
<td>3 hrs.</td>
<td>Writing Intensive The major movements and artists associated with the developments of European and American art since 1950 will form the basis for the course. The issues will be set within their historical, aesthetic and critical contexts. Both the history of art and of theory will be considered. Offered once every year. PR: ENGL 1108.</td>
</tr>
<tr>
<td>ART 3383</td>
<td>Pottery I</td>
<td>2-3 hrs.</td>
<td>Introduction to basic ceramic techniques such as hand construction, the potter's wheel, and glazing.</td>
</tr>
<tr>
<td>ART 3384</td>
<td>Pottery II</td>
<td>2-3 hrs.</td>
<td>Advanced work in ceramics, glaze theory, and kiln firing. PR: ART 3383.</td>
</tr>
<tr>
<td>ART 4445</td>
<td>E. Advanced</td>
<td>3 hrs.</td>
<td>An advanced E. Media class intended for students to continue ideas conceived in ART 3345 E. Intermediate and culminating in the creation of a body of work for studio or commercial purposes. PR: ART 3345.</td>
</tr>
<tr>
<td>ART 4461</td>
<td>Painting V: Advanced Landscape Painting</td>
<td>3 hrs.</td>
<td>Development of individual creative expression in oil or acrylic, working with the landscape. PR: ART 3361. Studio Art, Art Education or CFAT majors only.</td>
</tr>
<tr>
<td>ART 4462</td>
<td>Painting VI: Advanced Figure Painting</td>
<td>3 hrs.</td>
<td>Development of individual creative expression in oil or acrylic while working with the live figure. PR: ART 3362. Studio Art, Art Education or CFAT majors only.</td>
</tr>
<tr>
<td>ART 4463</td>
<td>Advanced Painting Concepts</td>
<td>3 hrs.</td>
<td>This advanced course gives students the opportunity to explore subjects and forms that they select. Students work with the professor in the studio to solve technical and formal problems, develop ideas, and research content. This is one of the preparatory courses for students who will be creating a body of work for their senior exhibits and graduate school portfolios. PR: ART 2262. Instructor approval required. Studio Art, Art Education, and CFAT majors only.</td>
</tr>
<tr>
<td>ART 4464</td>
<td>Pottery III</td>
<td>3 hrs.</td>
<td>The student is permitted to select the medium and then explore all the technical and creative possibilities that it permits. PR: ART 3384.</td>
</tr>
<tr>
<td>ART 4465</td>
<td>Sculpture III</td>
<td>3 hrs.</td>
<td>The student is permitted to select the medium and then explore all the technical and creative possibilities that it permits. PR: ART 2284.</td>
</tr>
<tr>
<td>ART 4466</td>
<td>Area Studies I</td>
<td>3 hrs.</td>
<td>Area Studies is an independent study course with options in Drawing, Painting, Ceramics, Sculpture, and Cross Media. Students meet with mentor professors regularly to discuss works. Mandatory critiques are held with a group of art faculty. PR: Completion of at least one 3000 level course in the medium that the student selects. Instructor approval required. Studio Art, Art Education, and CFAT majors only.</td>
</tr>
<tr>
<td>ART 4467</td>
<td>Area Studies II</td>
<td>3 hrs.</td>
<td>Area Studies is an independent study course with options in Drawing, Painting, Ceramics, Sculpture, and Cross Media. Students meet with mentor professors regularly to discuss works. Mandatory critiques are held with a group of art faculty. PR: Completion of at least one 3000 level course in the medium that the student selects. Instructor approval required. Studio Art, Art Education, and CFAT majors only.</td>
</tr>
<tr>
<td>ART 4468</td>
<td>Area Studies III</td>
<td>3 hrs.</td>
<td>Area Studies is an independent study course with options in Drawing, Painting, Ceramics, Sculpture, and Cross Media. Students meet with mentor professors regularly to discuss works. Mandatory critiques are held with a group of art faculty. Completion of 3000 level courses in the medium that the student selects. May be taken twice for credit. Instructor approval required. Studio Art, Art Education, and CFAT majors only.</td>
</tr>
<tr>
<td>ART 4469</td>
<td>Area Studies IV</td>
<td>3 hrs.</td>
<td>Area Studies is an independent study course with options in Drawing, Painting, Ceramics, Sculpture, and Cross Media. Students meet with mentor professors regularly to discuss works. Mandatory critiques are held with a group of art faculty. Completion of 3000 level courses in the medium that the student selects. May be taken twice for credit. Instructor approval required. Studio Art, Art Education, and CFAT majors only.</td>
</tr>
<tr>
<td>ART 4470</td>
<td>Senior Exhibit</td>
<td>1 hr.</td>
<td>Required of art majors whose catalogs date prior to 2009-2010 to be taken in place of ART 4471. The course prepares students to organize and present a formal gallery exhibition of pieces selected from their college work. Digital images of this exhibition are to be retained in the Art Department's archives. Instructor approval required. To be taken in the final semester before graduation or student teaching. Studio Art and Art Education students only.</td>
</tr>
</tbody>
</table>
| ART 4471   | Capstone Experience in Art                                           | 3 hrs.  | This course is required of Studio Art and Art Education majors during their senior year. Students organize and present a formal exhibition of selected recent work. For Studio Art majors, research is related to studio practice and preparation of materials for promotion and discussion of their body of work. Art Education majors may select a project based on education theory and studio practice or possible collaboration with a PDS, as appropriate to college courses and experience. Digital images of this work will be retained in the
Art Department's archives. Studio Art and Art Education majors only. Instructor approval required.

**ART 4472 Virtual Exhibition** ........................................ 3 hrs.
Virtual Exhibition is the capstone experience for Contemporary Fine Arts in Technology and Cross-Media majors. Students research current trends in digital media, and present an exhibition of their most recent electronic and/or cross media or multi-media work. Digital images of all work submitted for exhibition will be retained in the Art Department’s archives. CFAT and Cross-Media Studio Art majors only. Instructor approval required.

**ART 4998 Undergraduate Research** ................................. 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Art and Studio Art Majors only. Instructor approval required.

**AVIATION**

**AVMT 1101 Introduction to Aviation Maintenance** ........ 3 hrs.
A study of the fundamentals of Aviation Maintenance. Topics include: aircraft familiarization, nomenclature, materials, hardware used on aircraft, theory of flight, and basic physics. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 1102 Aircraft Regulations & Publications** .......... 3 hrs.
A study of federal aviation regulations, maintenance publications, weight and balance, technical drawings, charts and graphs. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 1103 Aviation Shop Practices** ............................ 3 hrs.
A study of the use of basic hand tools and power equipment, shop safety, aircraft fluid lines and fittings, aircraft cleaning and corrosion control. The use and care of precision measuring equipment and the use and interpretation of various non-destructive inspection methods. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 1105 Aircraft Utility Systems** ............................ 3 hrs.
This course covers the areas of airframe ice and rain control systems, fire protection systems, (airframe and engine), and fuel systems (airframe and engine). Also included are transport aircraft systems including doors, lavatory systems, galleys, passengers, service units, windows, emergency equipment, and cargo loading systems. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 1109 Aviation Electronics** ................................. 3 hrs.
This course examines the fundamental principles of electronics as applied to aircraft electrical systems. Specific topics covered include AC/DC, series-parallel circuits, circuit analysis theorems, transistors, digital theory and devices. Meets FAR 147 requirements. CR: AVMT 1101, AVMT 1103. Must have a “C” grade or better to pass.

**AVMT 1199 Special Topics in Aviation** .................. 1-12 hrs.
Special topics will be studied, to be determined by the instructor and approved by the school’s dean. Credits earned will be applicable as free electives in degree and certificate programs.

**AVMT 2201 Reciprocating Engines and System** ....... 3 hrs.
This course is a study of the theory of operation of reciprocating engines and their systems. The course emphasizes the principles of operation, nomenclature, construction and system design. PR: AVMT 1101, 1102. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2202 Aircraft Sheet Metal Structures** .............. 3 hrs.
This course covers all aspects of sheet metal structures and aircraft welding. A strong emphasis is placed on acquiring hands-on skills. PR: AVMT 1102, 1103. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2203 Reciprocating Engine Maintenance and Return to Service** .................................................. 5 hrs.
This course emphasizes the hands-on maintenance and overhaul of piston engines. Topics include engine removal, replacement, troubleshooting, inspection, engine maintenance and overhaul, system component repair, inspection, and troubleshooting. PR: AVMT 1101, 2201. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2204 Aircraft Propeller and Control Systems** .... 3 hrs.
A detailed study of propellers, their components, operation and maintenance. PR: AVMT 1101, 2201. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2205 Turbine Engines and Systems** .............. 3 hrs.
A study of the theory of operation of turbine engines and their systems. This course emphasizes the principles of operation, nomenclature, construction and system design. PR: AVMT 1102, 1103. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2206 Aircraft Fluid Power and Landing Gear Systems** .................................................. 3 hrs.
A detailed study of aircraft hydraulic, pneumatic and landing gear systems. This includes a study of wheels, tires and brakes found in aircraft landing gear systems. The course will cover many aircraft systems from small general aviation aircraft up to and including transport category aircraft. PR: AVMT 1103 or Instructor Approval. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2207 Turbine Engine Maintenance and Inspection** .................................................. 3 hrs.
This course emphasizes the hands-on maintenance, overhaul, repair, troubleshooting, and inspection of turbine engines and their systems. PR: AVMT 1103, 2205. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2208 Cabin Atmosphere Control Systems** ........ 3 hrs.
This course is a detailed study of aircraft heating, oxygen, air conditioning, and pressurization systems. Large airliner systems will be covered. PR: AVMT 1103, 1109. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2209 Airframe Inspection and Flight Control Systems** .................................................. 3 hrs.
A detailed study of aircraft control surfaces, including operation, assembly and rigging. Airframe inspection procedures are also covered. PR: AVMT 1105, 1109. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2210 Non Metallic Structures** ......................... 3 hrs.
A study of wood, fabric, composite and plastic aircraft structures; also covered is the finishing of these structures. PR: AVMT 1101, 1103. Meets FAR 147 requirements. Must have a “C” grade or better to pass.

**AVMT 2211 Aircraft Avionics and Information Systems** .................................................. 3 hrs.
This course will provide an overview of the communications, navigation, and instrument systems of the aircraft and power plant. Course outcomes will equip aviation maintenance technicians with the necessary knowledge, skills and work practices to positively impact their knowledge in advanced avionics and information systems. PR: AVMT 1109. Must have a “C” grade or better to pass.

**AVMT 2215 FAA Certification Review** ....................... 3 hrs.
The FAA Certification Review is an optional course for students offering a compilation and review of the areas of knowledge required for successful completion of the Federal Aviation Administration...
(FAA) written, oral, and practical examinations which culminate in the issuance of an FAA Airframe certification, Powerplant certification or a combined Airframe and Powerplant certification. This course is designed to accommodate students who have completed FAA approved formal classroom training requirements or have been approved by the FAA based on practical Industry or military experience. Instructor approval required.

AVMA 1189 Guided Experience................................. VAR 1-4 hrs.

This course will be a guided experience for community college students to explore topics of interest in their field through research, field experience, presentation, computer applications, lab experience, or other project agreed upon between the student and the supervising faculty and is submitted to the director in a written contract. Credits earned may be applied as free electives in degree or certificate programs. May be repeated for up to 4 hours. Instructor approval required.

AVMA 1199 Special Topics.................................1-12 hrs.

A study of special topics of educational, technical or industrial concern. Must have a “C” grade or better to pass.

AVMA 2201 Instrument Pilot Technology ..................... 3 hrs.

The course is designed to provide successful Instrument Pilot candidates with the basic skills and knowledge necessary for certification as Instrument rated Private Pilot in accordance with the minimum requirements as set forth in Part 141, Appendix C, of the Federal Air Regulations. The course will consist of approximately 45 contact hours of classroom based instrument ground school instruction. Students will be expected to immediately take the FAA approved Instrument Pilot Airman Knowledge Test upon completion of their Instrument Ground School component.

AVMA 2204 Instrument Pilot Technology Lab. .............. 3 hrs.

The lab portion of this course is designed to provide successful Instrument Pilot candidates with the basic skills and knowledge necessary for certification as Instrument rated Private Pilot in accordance with the minimum requirements as set forth in Part 141, Appendix C, of the Federal Air Regulations. Students are required to have a minimum of 35 hours of logged instrument flight training (total flight hours may vary depending on individual student ability). Fourteen hours of the instrument flight training may be conducted in a Flight Training Device (FTD). Students will be signed-off to take the Instrument Pilot Practical Flight Exam required for FAA certification upon successful completion of all flight requirements. PR: Private Pilot certification. Must have a “C” grade or better to pass.

AVMA 2206 Aviation Security ................................. 3 hrs.

This course is designed to provide the beginning student with a basic understanding of the history of aircraft security in the aviation industry. The changing nature of aviation security over the years and how it has impacted society will be discussed. It will discuss and analyze the different methodologies of aviation security both in domestic and foreign methodologies. The course will also examine the industries responses to the changes in aircraft security in both general, corporate, and transport aviation. It will also address the needs of aviation personnel for security both in the air and on the ground. PR: Major in Homeland Security or Pre-Homeland Security. Must have a “C” grade or better to pass. Aviation or Homeland Security majors only.

AVMA 2207 Aviation Safety...................................... 3 hrs.

This course introduces the student to various aspects of aviation safety, including flight safety, ground safety and management and planning for safety in aviation. Case studies of individual aviation incidents, safety studies and accidents will be presented. The course is also listed as AVMA 3307 for Baccalaureate majors.

AVMA 2210 Aviation Meteorology ............................. 3 hrs.

A survey of the basic concepts and processes of atmospheric phenomena and their relation to aeronautical conditions. Must have a “C” grade or better to pass.

AVMA 2211 Airport Management............................. 3 hrs.

This course presents a study of airfield operations, and management with a focus on the role of the airport manager, the role of the airport in the community, budgeting, marketing and tenant relationships. Must have a “C” grade or better to pass.

AVMA 2213 Airport Planning and Development............. 3 hrs.

The principles of airport system planning and airport master planning will be studied. Airport design standards, historical evolution of airports, key airport legislation and environmental impact planning for airports are key course topics. Must have a “C” grade or better to pass.

AVMA 2214 Advanced Air Traffic Control Procedures .... 3 hrs.

This course is designed to prepare the student to successfully complete the FAA Air Traffic Controller screening exams. Topics
covered include: Tower procedures, aircraft separation, departures/arrivals, and special procedures. Must have a "C" grade or better to pass.

AVMA 2225 Airline Transport Security ......................... 3 hrs.
This course is designed to provide the beginning student with a basic understanding of the airline transport security system currently in use at major airports around the world. The student will be trained in security considerations at both the airport terminal and in the air. The student will be familiar with security requirements as set by the Transportation Security Administration. The student will demonstrate knowledge of security responsibilities of screeners and other security personnel, submission to screening and inspection, procedures security and handling of interference with screening personnel, carriage of weapons, explosives, and incendiaries by individuals. The student will demonstrate knowledge of security of a secured area, security of the air operations area, security of the security identification display area, access control systems, and Law enforcement support. The student will be trained in procedures currently in place to provide in-flight safety of the crew and airline passengers. Must have a "C" grade or better to pass. Aviation or Homeland Security majors only.

AVMA 2230 Certified Flight Instructor ......................... 3 hrs.
This course provides the Pilot Technology students the basic knowledge required to pass the FAA Fundamentals of Instruction and Flight/ Ground Instructor knowledge exam. Furthermore this course will increase your knowledge of flight operations and allow you to master new skills. The student will gain understanding of the fundamentals of instruction, the Federal Aviation Regulations as well as the principles of teaching, private, commercial, and instrument students.

AVMA 2231 Certified Flight Instructor Lab ..................... 3 hrs.
This course lab provides the Pilot Technology students with the basic knowledge required to pass the FAA Fundamentals of Instruction and the Flight/Ground Instructor knowledge exam. Furthermore this course will increase your knowledge of flight operations and enable the student to master new skills required by the Federal Aviation Administration (FAA). The student will gain an understanding of the fundamentals of instruction, the Federal Aviation Regulations as well as the principles of teaching, private, commercial, and instrument students. This course may be taken after completion of CFI Certification by FAA.

AVMA 2289 Guided Experience II .........................VAR 1-4 hrs.
This course will be an advanced guided experience for community college students to explore topics of interest in their field through research, field experience, presentation, computer applications, lab experience, or other project agreed upon between the student and the supervising faculty and is submitted to the director in a written contract. Credits earned may be applied as free electives in degree or certificate programs. May be repeated for up to 4 hours. Instructor approval required.

AVMA 2299 Special Topics................................. 1-12 hrs.
A study of special topics of educational, technical or industrial concern. Must have a "C" grade or better to pass.

AVMA 3300 Commercial Pilot Technology .................. 3 hrs.
The course is designed to provide successful Commercial Pilot candidates with the advance skills and knowledge necessary for certification as Commercial Pilot in accordance with the minimum requirements set forth in Part 141, Appendix D, of the Federal Aviation Regulations. The course will consist of approximately 45 contact hours of classroom based Commercial Pilot Ground School instruction. Students will be expected to immediately take the FAA approved Commercial Pilot Airman Knowledge Test upon completion of their Commercial Pilot Ground School component. PR: Private Pilot and Instrument Pilot certifications or Instructor approval required.

AVMA 3301 Aviation History........................................ 3 hrs.
This course traces man’s effort to achieve and sustain flight, from early mythology to the present. Special emphasis is given to the evolution of the airplane from balloons to space exploration vehicles.

AVMA 3302 Aviation Law........................................... 3 hrs.
A study of the legal issues and case law/decisions affecting the aviation industry. Topics covered include contracts, liabilities, rights of operators, criminal statutes and the U.S. legal system, as applied to aviation.
Course also listed as AVMA 2202 for Homeland Security Aviation Track Majors.

AVMA 3303 Airline Operations.................................. 3 hrs.
A study of the administrative aspects of airline operation and management, including a detailed study of airline organization, structure and operational issues. Topics to be covered include airline history, economics, pricing, marketing, fleet planning and labor relations. A case study approach will be used to study individual airlines and/or airline-related issues. Course also listed as AVMA 2203 for Homeland Security Aviation Track Majors.

AVMA 3304 Aviation Maintenance Management........ 3 hrs.
This course provides instruction concerning the functions and responsibilities of the aviation maintenance manager. Maintenance management in general aviation, regional airlines and major and national airlines will be studied.

AVMA 3305 General Aviation Operations.................... 3 hrs. Writing Intensive
A study of the general aviation industry, including general aviation instructor rating rules, part 91, maintenance, fixed-base operations and corporate flight departments. A basic definition of general aviation, its role and major components will be covered. The course also has a business development assignment during which the students develop and present a business plan for a proposed aviation company. The course is also listed as AVMA 2205 for Homeland Security Aviation Track Majors. PR: ENGL 1108 or ENGL 1109.

AVMA 3306 Commercial Pilot Technology Lab. ........ 3 hrs.
The lab portion of this course is designed to provide successful Commercial Pilot candidates with the basic flight skills and knowledge necessary for certification as Commercial Pilot in accordance with the minimum requirements set forth in Part 141, Appendix D, of the Federal Aviation Regulations. Students are required to have minimum of 120 hours of logged Commercial Pilot Flight Training (total flight hours may vary depending on individual student ability). Twenty-Five hours of the Commercial Pilot flight training may be conducted in a Flight Training Device (FTD). Students will be signed-off to take the Commercial Pilot Practical Flight Exam for final FAA certification upon successful completion of all flight requirements. PR: Private Pilot and Instrument Pilot certifications or Instructor approval required.

AVMA 3307 Aviation Safety.......................................... 3 hrs.
This course introduces the student to various aspects of aviation safety, including flight safety, ground safety and management and planning for safety in aviation. Case studies of individual aviation incidents, safety studies and accidents will be presented. Baccalaureate majors only. The course is also listed as AVMA 2207 for Homeland Security Aviation Track Majors.

AVMA 3399 Special Topics........................................ 1-12 hrs.
A study of special topics of educational, technical or industrial concern. PR: Instructor approval required.

AVMA 4401 Aviation Industry Research and Analysis...... 3 hrs.
This course presents an analysis of selected contemporary issues, problems and trends facing various segments of the aviation industry (manufacturers, airlines, general aviation and government). Students will apply previously learned principles to practical problems in the aviation industry. PR: Instructor approval required.

AVMA 4402 Fiscal Aspects of Aviation Management...... 3 hrs.
This course will provide an introduction to financial management problems encountered in aviation management. Topics include basic accounting, financial management principles, cash flow analysis, budgeting, and financial statement analysis.
AVMA 4403  Aviation Project  1-4 hrs.
Independent study, primarily for seniors who wish to pursue further studies in special areas. Subject must be arranged with the instructor before enrolling in the course.

AVMA 4404  Advanced Composite Structures  3 hrs.
An in-depth study of the inspection and repair of aircraft composite structures. Baccalaureate majors only.

AVMA 4405  Advanced Non-Destructive Testing  3 hrs.
A detailed study of non-destructive testing methods used on aircraft. This course prepares the student for ASNT Level I certification. Baccalaureate majors only.

AVMA 4411  Aviation Industry Internship  3 hrs.
An aviation industry internship is a real-world learning activity that provides an opportunity for the student to engage in aviation industry activities in an area of concentration that may assist them in their future career development activities. These activities in their major discipline under the guidance of a senior aviation faculty member will develop a program of study that will acquaint them with industry trends and processes that will be beneficial in their new career plans. The primary goals for this class are to experience the aviation industry on a first hand basis and then shared those experiences in an appropriate venue with their assigned faculty mentor. This class should only be scheduled by juniors or seniors close to graduation after completion of a majority of their core classes. Instructor approval is required and the internship must be scheduled before the start of the semester the student plans to complete the course requirements. Junior or Senior Level attainment. Instructor approval required.

AVMA 4499  Special Topics  1-12 hrs.
A study of special topics of educational, technical or industrial concern. Instructor approval required.

AVMA 4998  Undergraduate Research  0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

BIOLOGY

BIOL 1104  Biosphere  4 hrs.
This course, designed for teacher education candidates, focuses on Earth's living systems. The major topics to be explored include biodiversity and populations (including evolution and systematics), ecosystems (nutrient cycles, trophic levels, biomes) and organisms (including life cycles, genetics, cells, and adaptations). The course includes integration of basic chemistry and atmospheric science. 4 hours of lecture/discussion/activities per week. PR: Elementary Education majors only.

BIOL 1105  S-FSU Biological Principles I  4 hrs.
This introductory course in population biology explores the organization and function of populations, including reproduction and transmission genetics, patterns and mechanisms of evolutionary change and the fundamental concepts of ecology. 3 hours of lecture and one 3-hour laboratory per week. PR: A score of 21 or better on the ACT Science Reasoning section or SCIE 1100 with a C or better or BIOL 1106 with a C or better. Fall semester only.

BIOL 1106  S-FSU Biological Principles II  4 hrs.
This introductory course in cellular biology emphasizes the organization and functions common to all living cells. The major topics to be explored include cell organelle structure and function, the molecular basis of cell energetics, the cell cycle and basic molecular biology of the cell. 3 hours of lecture and one 3-hour laboratory per week. PR: A score of 21 or better on the ACT Science Reasoning section or SCIE 1100 with a C or better or BIOL 1105 with a C or better. Spring semester only.

BIOL 1199  Special Topics in Biology  1-4 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the department chair. Credits earned will be applicable as free electives in degree and certificate programs.

BIOL 2202  General Botany  4 hrs.
The first part of this course will consist of a survey of the plant kingdom, including the fungi kingdom and selected groups of plant-like protists and bacteria. In the second part, the structure, development, and physiology of angiosperms will be examined. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 1105 and 1106 with a C or better. Spring semester only.

BIOL 2203  General Zoology  4 hrs.
A survey of the animal kingdom, this course emphasizes selected invertebrates and vertebrates. The focus will be on diversity and the significance of evolutionary changes. Students will investigate the basic concepts of morphology, anatomy, physiology and behavior as they affect the ecology of the animal. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 1105 and 1106 with a C or better. Fall semester only.

BIOL 2205  S-FSU Technical Microbiology  4 hrs.
Designed for the Allied Health Programs, this course emphasizes the history of microbiology, microbial morphology and structure; microbial growth and physiology; environmental effects on bacteria; inhibition and killing of bacteria; virulence, pathogenicity, and invasiveness of microbes; modes of disease transmission; resistance and immunity; techniques of isolation; handling, culturing, identifying bacteria and the inhibition of bacteria. Safety, cleanliness, and responsibility are taught in the laboratory. 3 hours of lecture and one two-hour lab per week. This course is designed for the Allied Health Program Majors, Nursing, Vet Tech and Pre-Pharmacy. BIOL 2224 will not substitute for BIOL 2205 or vice versa. Spring semester only.

BIOL 2224  Microbiology  4 hrs.
In this course, microorganisms (primarily bacteria) will be viewed from several perspectives; as pathogens, as components of ecosystems, and as components of industrial processes. Techniques for culturing and identifying bacteria will be presented. The course includes opportunities for students to design and conduct laboratory exercises. 3 hours of lecture and one 3-hour laboratory session per week. PR: BIOL 1105 and 1106 with a “C” or better, and CHEM 1105. Offered on rotation. See Biology program website for rotation schedule.

BIOL 3306  Fundamentals of Ecology  4 hrs.
This course explores the fundamental principles of modern ecology: the patterns and processes operating in populations, communities and ecosystems. Population growth and regulation, energy flow, population interactions and nutrient cycling will be emphasized. Students will learn quantitative methods, use field techniques, and practice the scientific method. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 2202 and 2203, with a C or better, and CHEM 2200. Fall semester only.

BIOL 3312  Advanced Botany I  4 hrs.
This course provides an in-depth study of the plant kingdom. Primary emphasis is placed on the flora of WV, with an understanding of the structural characteristics, evolutionary relationships and ecological distribution of plants. 3 hours of lecture and one 3-hour laboratory per week. Lab activities include several off-campus field trips and each student will be required to complete a plant collection project for the FWVA Herbarium. PR: BIOL 2202 with a C or better. Offered on rotation. See Biology program website for rotation schedule.
BIOLOGY

BIO 3315 Invertebrate Zoology ......................... 4 hrs.
This course surveys the invertebrate phyla as they have evolved from single cell protists to multicellular organisms focusing on the Hexapods. Also considered are the attributes of these organisms that have allowed them to radiate from aquatic to terrestrial environments. As part of the course students are required to collect insects during the summer preceding the course. The course has 3 hours of lecture and 1 three hour lab per week. PR: BIOL 2202 and 2203 with a C or better, and CHEM 2200. Offered on rotation. See Biology program website for rotation schedule.

BIO 3316 Vertebrate Zoology ......................... 4 hrs.
An in-depth investigation of vertebrates, this course focuses on the evolutionary relationships among the major vertebrate groups, with an emphasis on physiological, morphological and behavioral adaptations, especially as they influence the ecology of the animal. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 2203 with a C or better. Offered on rotation. See Biology program website for rotation schedule.

BIO 3330 Aquatic Ecology ............................... 4 hrs.
This course focuses on physical and biological aspects of freshwater lakes and streams, emphasizing the application of ecological theory. Lectures will cover lentic (lake) and lotic (stream), wetlands and groundwater ecology. The laboratories are field-oriented and allow students the opportunity to use state-of-the-art instrumentation while applying lessons learned in the classroom. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 3306 with a C or better. Offered on rotation. See Biology program website for rotation schedule.

BIO 3331 Terrestrial Ecology ......................... 4 hrs.
This course will start with the foundation from Fundamentals of Ecology and examine more closely the relationships between organisms and their terrestrial environment. A number of different ecological sampling and research methods will be studied and utilized. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 3306 with a C or better. Offered on rotation. See Biology program website for rotation schedule.

BIO 3360 Biochemistry ................................. 4 hrs.
A study of general principles of biochemistry. Topics include structure and function of proteins, DNA, and RNA, enzyme kinetics, regulation, carbohydrates, lipids, membranes and metabolism. 3 hours lecture and one 3-hour laboratory per week. PR: CHEM 2201, MATH 1185 or 1190. Spring semester only.

BIO 3366 Animal Physiology ........................... 4 hrs.
This course explores the fundamental functional processes of animals. Major topics may include energetics, digestion, nutrition, endocrinology, immunity, muscle physiology, circulatory physiology, respiratory physiology, osmoregulation and thermoregulation. The emphasis will be on the investigation of physiological processes as evolutionary adaptations. Students will cooperatively design and complete research projects. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 2203 with a C or better, CHEM 2200. Offered on rotation. See Biology program website for rotation schedule.

BIO 3370 Plant Physiology .............................. 4 hrs.
Plant physiology is the study of how plants function. Major topics will include transpiration, plant nutrition, photosynthesis, hormone regulation of plant development, plant movement and responses to environmental stresses. Students will be expected to design and complete physiology research projects. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 2202 with a C or better, and CHEM 2200. Offered on rotation. See Biology program website for rotation schedule.

BIO 3380 Genetics ........................................... 4 hrs.
This course builds upon genetic principles introduced in Biology 105 and 106. Topics covered include extensions of Mendelian genetics, gene mapping, chromosomal structure and mutation, DNA replication, mutation and repair and gene expression and its regulation. 3 hours of lecture and one 3-hour laboratory session per week. PR: CHEM 2200, BIOL 1105 and 1106. Fall semester only.

BIO 3390 Molecular Biotechnology .................. 4 hrs.
Writing Intensive
This course is a study of the theoretical basis of techniques used in biotechnology, and the application of these techniques to biological research in academic and industrial settings. 3 hours of lecture and one 3-hour laboratory per week. PR: ENGL 1108, BIOL 3380, CHEM 2201, and either MATH 1185 or MATH 1190. Spring semester only.

BIO 4420 Developmental Biology .................. 4 hrs.
This course contains a detailed study of gametogenesis, fertilization and embryonic development patterns of organisms. The role of gene expression in these events will be emphasized. 3 hours of lecture and one 3-hour laboratory per week. PR: BIOL 2202 and 2203 with a C or better. Offered on rotation. See Biology program website for rotation schedule.

BIO 4485 Senior Seminar ............................... 2 hrs.
This culminating experience requires students to utilize their knowledge of biology, as well as their analytical and critical thinking skills, to explore important topics in the biological sciences in a cooperative learning environment. Students will be expected to read, interpret, moderate discussions and formally present information from current research and review papers to an audience of their peers and biology faculty. Two hours of class meeting per week. PR: Senior standing. Spring semester only.

BIO 4495 Problems in Biological Sciences ........ 2 hrs.
This course is designed for students who have interest in a specific problem in biology. It should not be used as a means of meeting requirements but rather as a research course that goes beyond the usual courses in developing the student's body of knowledge. PR: 20 hours of biological courses and Instructor approval required.

BIO 4998 Undergraduate Research .................. 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

(BUSINESS) INFORMATION SYSTEMS MANAGEMENT

BISM 1200 Introduction to Computing .............. 3 hrs.
This course provides an overview of the current state of computing and its social implications. This is intended to be used as a breadth-first introductory course for majors and non-majors. Topics include organization of a computer system, examination of computing disciplines, social implications of computing, problem solving using productivity software applications, and investigations of emerging areas in information systems.

BISM 2200 Business Information Tools .............. 3 hrs.
This course focuses on fluency in computerized information systems technology along with how information is collected, stored, organized, and managed to facilitate effective decision-making. Students will create and use databases and spreadsheets to assist in the setup and resolution of business problems. The functionality within Microsoft Excel will be used to carry out “what-if” scenarios, sensitivity analysis, statistical analysis, and graphic displays. Microsoft Access will be utilized to design, create, implement, and query databases. PR: BISM 1200, and Math ACT score of 19 or MATH 1100 or instructor permission.
BISM 2400  Operating Systems Concepts Across the Enterprise 3 hrs.

This course explores hardware and software configurations as integrated systems and provides a basic understanding of what an operating system is and how it works in a client/server and Mainframe environment. Fundamental concepts such as computer architecture are presented along with the execution concepts related to multiple operating systems. Operating systems, such as MS-DOS and Windows, UNIX, Linux, and System Z, z/VM, and the z/OS Enterprise System will be examined. PR: BISM 1200

BISM 2600  Introduction to Networking Administration 3 hrs.

This course examines detail issues and techniques in computer networking. Emphasis is placed on local area networks, internetworking via TCP/IP and the Internet. The OSI reference model and the TCP/IP protocols form the framework. Topics include the key aspects of networking, interoperability, LAN strategies, WLAN strategies and standards such as shared and switched Ethernet, Token Ring and FDDI internetworking using bridges and routers; routing strategies and congestion in networks along with how data passes through layers. PR: BISM 2400

BISM 2800  Corporate Communications and Technology 3 hrs.

Writing Intensive

This course will focus on applying technology to support technical writing, oral presentations and online communications. This includes conducting research using the online library resources, developing reports using advanced word processing report features, integrating spreadsheet and database applications within the word processing document to automate data updates, using online document sharing applications for concurrent reviews and configuration management, and preparing and giving formal presentations. In addition, the course will introduce teamwork concepts and online networking in the context of business communications. PR: BISM 1200 and ENGL 1108

BISM 3000  Business Programming Logic 3 hrs.

This course introduces problem-solving and programming logic for business applications. Students will learn fundamental problem-solving techniques that are necessary to develop computer applications to solve business problems. Students will also be introduced to the Visual Basic programming language. PR: BISM 2200 and BISM 2800

BISM 3200  Management Information Systems 3 hrs.

This course focuses on the fundamentals associated with the management of information systems and technology in a dynamic business environment. Special emphasis is placed on management issues that are relevant to selection, application, and usage of computerized information systems in a business enterprise. Topics covered include the MIS framework, ethics, technology, information systems collaboration, decision-making, competitive advantage, telecommunications, databases, data communication, E-commerce, Supply Chain, and information systems management. PR: BISM 2200

BISM 3400  Database Design and Development 3 hrs.

This course covers information systems design and implementation within a database system environment. Students will be introduced to relational database technology through the use and application of terminology, technical concepts, data modeling, structured query language (SQL), and database implementation. The course includes hands-on experience with data modeling and working database management systems. PR: BISM 2200 and BISM 2800

BISM 3600  E-commerce and Web Development Strategy 3 hrs.

This course covers emerging online technologies and trends and their influence on the electronic commerce marketplace. Students will learn building blocks of web technology and various revenue models and their application in a variety of sectors and industries. This course will also explore current issues surrounding electronic commerce and electronic business including security, privacy, and search engine optimization. Finally, students will learn how to plan for electronic commerce. PR: BISM 3000, BISM 3200, BISM 3400

BISM 3800  Object-oriented Business Applications 3 hrs.

This course introduces multitier programming in Visual Basic. Students will apply object-oriented programming techniques for developing the presentation, business, and data tiers for database application projects. The emphasis of projects is on business applications. PR: BISM 3000, BISM 3400

BISM 4000  Global, Economic, Ethical, and Social Information Systems 3 hrs.

Writing Intensive

This course explores the tools students will need when confronted with ethical decisions in their role as global technology professionals. Students will address a variety of economic, ethical, and social frameworks in a global context. Case studies are used to foster discussions on subjects specifically related to computers and information systems. The course explores information technology in its social, economic, ethical, and global contexts. The student will be required to participate in class discussions, cases studies, and present a research paper on the issues surrounding computing and a national and international society. PR: BISM 2800, BISM 3200

BISM 4200  Systems Analysis and Design 3 hrs.

Students are introduced to the theory and application of systems analysis and design techniques for computerized information systems. Topics covered include requirements collection and analysis, logical and physical information flow modeling, a variety of system development methodologies, data modeling, object-oriented analysis and modeling, prototyping, project control, sampling techniques, project feasibility, cost/benefit analysis, time value of money, and the hands-on application of systems design techniques through a course project. PR: BISM 2600, BISM 3600, BISM 3800

BISM 4300  Business Intelligence 3 hrs.

This course is an overview of the business intelligence process including information collection, intelligence analysis, and intelligence process assessment. According to the Gartner Group, “In a data-rich world, businesses are inundated with information. Yet used strategically, it can guide decision making and boost performance. That’s why Business Intelligence is on every CIO’s must-have list.” This course is not based merely on learning concepts, but also applying those concepts to facilitate business processes in a team effort. PR: Instructor Approval

BISM 4400  Current Topics in Information Systems 3 hrs.

This course investigates current topics in information systems. Current and future topics of interest in information systems will be selected by the instructor and approved by the department. Examples of topics include telecommunications, grid computing, health informatics, data visualization, etc. PR: BISM 3200

BISM 4800  Information Systems Project Management 3 hrs.

This course explores best practices in formal project management concepts and techniques. Students will learn the Project Management process areas and Knowledge Management areas as defined by the Project Management Body of Knowledge (PMBOK). The project outputs and required documentation for each process area are emphasized. The project management concepts and techniques presented in the course will be applied to group projects. Students will apply project management software to manage an information systems-related project. PR: BISM 4200

BISM 4900  Internship in Information Systems 3 hrs.

This internship course is designed as a learning experience which requires the integration of information systems theory with actual job experience. The student must be enrolled in the Information Systems Management program. The employer will be responsible for evaluating and reporting the performance of the student. PR: Instructor Approval

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

This course allows the student to integrate the concepts and principles offered in the various disciplines of study within the School of Business. Through the process of case analysis, students will enhance their analytic and problem-solving skills by formulating the policies and strategies that are used in modern business organizations. PR: ACCT 2202, FINC 2201 and senior standing.
BUSN 4420  Business Ethics and Corporate Accountability .................................... 3 hrs.

The course will explore business ethics emphasizing a responsible decision-making approach in personal and professional contexts to best prepare students for ethical challenges and issues of contemporary corporate accountability. Topics to be addressed include: personal integrity; philosophical ethics; corporate culture and social responsibility; governance and conflicts of interest; workplace, marketing and employment ethics; sustainability and environmental responsibilities. PR: BUSN 3320, BISM 3200.

BUSN 4431  Methods and Materials in Teaching Business Education .................................... 3 hrs.

This course addresses teaching strategies for communication-related, computation-related, information-processing and basic business skills. The course offers a brief overview of business education at all levels and the professional role of the business teacher. Fall semester only. Students are advised to take BUSN 4431 the semester before Clinical 111/Student Teaching. PR: Successful completion of PPST PRAXIS TEST.

BUSN 4440  Hospitality Management Internship .......................... 3 hrs.

This internship course is designed as a learning experience which integrates food service and business theory with actual job experience in a hospitality management-related work environment. The student must be enrolled in the four-year Hospitality Management program. The employer is responsible for evaluating and reporting the development of the student. PR: Instructor approval required, with approval of School Dean. Graded Credit/No Credit.

BUSN 4450  Business Internship .................................................. 3-6 hrs.

This business internship is designed to provide the business major with supervised work experience in a sponsoring organization. The student is expected to complete a minimum of 200 hours in a meaningful and challenging position. PR: Instructor approval required, with approval of School Dean. Graded Credit/No Credit.

BUSN 4998  Undergraduate Research ....................................... 0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

CHEMISTRY

CHEM 1101  S-FSU General Chemistry .......................... 4 hrs.

A study of the theoretical concepts needed to understand typical chemical phenomena. The course addresses the nature of science, matter and measurements, the stoichiometry of chemical reactions, solutions and the calculation of concentration, energy relationships in chemistry; modern atomic theory, chemical bonding and molecular structure and the classification of reactions. 3 lectures and one 3-hour laboratory per week. PR: ACT math score of 19; or SAT Math score of 460 or Compass score of 36 or Elementary Algebra 0095.

CHEM 1102  S-FSU General Chemistry II .......................... 4 hrs.

This course is an extension of CHEM 1101. It covers acid-base theory, chemical equilibrium, oxidation-reduction and an introduction to organic chemistry which includes the various classes of organic compounds, their nomenclature, structure, properties and reactions. The synthesis of polymers and their uses are included. The course consists of 3 hours of lecture and one 3-hour laboratory per week. PR: CHEM 1101. Spring semester only.

CHEM 1105  S-FSU Chemical Principles I ............................ 5 hrs.

This course constitutes an introduction to modern chemistry and its applications to society, including structure, nomenclature, properties and simple reactivity of inorganic chemicals, spectroscopy, stoichiometry involving solids, gases and solutions, chemical equilibrium, introductory kinetics and thermodynamics, electrochemistry and nuclear chemistry. CHEM 1105 and CHEM 2200 satisfy the first-year chemistry requirements for science majors and students pursuing pre-professional studies (e.g., pre-medical, pre-dental, pre-pharmacy, etc.). 4 hours of lecture and one 3-hour laboratory per week. PR: ACT math score of 20; SAT Math 480, Compass score of 42 or CHEM 1101 with a grade of C or better. Fall semester only.

CHEM 1199  Special Topics in Chemistry ............................ 1-12 hrs.

Studies in special selected topics, to be determined by the instructor and approved by the department chair. Credits earned will be applicable as free electives in degree and certificate programs.

CHEM 2200  Foundational Biochemistry ............................. 4 hrs.

An introduction to biochemistry with emphasis on the role of basic general chemistry principles, including molecular structure and intermolecular forces, periodic properties, acid-base chemistry, diffusion and osmosis, kinetics and energetics, structural models and visualization. Introduces biochemical reaction mechanisms, cell components and their functions, and a chemical view of proteins, lipids, and cell membranes. CHEM 1105 and CHEM 2200 satisfy the first-year chemistry requirements for science majors and students pursuing pre-professional studies (e.g., pre-medical, pre-dental, pre-pharmacy, etc.). 3 hours of lecture and one 3-hour laboratory per week. PR: CHEM 1105. Spring only.

CHEM 2201  Organic Chemistry I .................................... 4 hrs.

This course presents an overview of the properties and reactivity of all major classes of organic compounds and functional groups. Selected reactions and mechanisms, particularly those with a biochemical connection, are also discussed. 3 hours of lecture and one 3-hour laboratory per week. PR: CHEM 2200. Fall semester only.

CHEM 2202  Organic Chemistry II .................................... 4 hrs.

This course builds on the foundation from CHEM 2201 to provide a systematic study of the structure and reactivity of all major classes of organic compounds and functional groups with an emphasis on synthesis, mechanisms and structural relationships. 3 hours of lecture and one 3-hour laboratory per week. PR: CHEM 2201. Spring Semester only.

CHEM 2205  Analytical Chemistry .................................... 4 hrs.

Classical methods of chemical analysis, with an emphasis on quantitative techniques and statistical analysis. Topics include error propagation, median, mean and standard deviation, t-test, q-test, hypothesis testing, linear regression analysis, creation of appropriate graphs and use of calibration curves, equilibrium, precipitation, acid-base theory, acid-base and redox titrations, activities, electrochemistry and potentiometry. 3 hours of lecture and one 3-hour laboratory per week. PR: CHEM 1105. Spring semester only.

CHEM 3301  Physical Chemistry I .............................. 4 hrs. Writing Intensive

A systematic treatment of chemical kinetics and thermodynamics, based on calculus and physics. The application of partial differentiation and mathematical software to chemical problems is specifically addressed. This course serves as an introduction to writing in the discipline, particularly in the laboratory component. 3 hours of lecture and one 3-hour laboratory per week. PR: CHEM 2200, ENGL 1108, MATH 1185 or 1190, PHYS 1101 or 1105. Fall semester only.

CHEM 3304  Inorganic Chemistry .................................... 4 hrs.

This course covers the synthesis, reactions, and properties of elements and inorganic compounds. Topics include atomic and molecular structure; ionic bonding, crystals, and intermolecular forces; redox chemistry; acids, bases, and nonaqueous solvents; the main group elements; the transition metals; structure, bonding, synthesis and reactions of coordination compounds. 3 hours of lecture and one 3-hour laboratory per week. PR: CHEM 2200. Fall semester only.
CHEM 3315 Instrumental Analysis......................... 4 hrs.
Basic concepts of instrument design and construction, operation
of chemical instrumentation, use of standard procedures of
analysis (including forensic and environmental methods), and
method development for specific analyses. Spectroscopic and
chromatographic methods of analysis are emphasized. The course
consists of two hours of lecture and one four-hour laboratory per
week. PR: CHEM 2200, 2205, PHYS 1102 or 1106. Fall semester only.

CHEM 4401 Independent Study............................ 1-3 hrs.
Students elect to learn about a topic in greater depth than usual,
or one not covered in the regular curriculum, under the supervision
of a faculty member. PR: Instructor approval required.

CHEM 4402 Internship........................................ 1-3 hrs.
Students undertake a practical work experience with oversight
from the chemistry department. At least two hours work experience
is expected for every credit. A paper describing the experience is
required. PR: Instructor approval required.

CHEM 4403 Independent Research......................... 1-3 hrs.
Independent research under the direction of a faculty member.
The course is repeatable up to three times. At least two hours in the
laboratory are expected for every credit. A paper describing the
research is required. PR: Instructor approval required.

CHEM 4404 Synthetic Methods and Materials ............. 4 hrs.
This laboratory-intensive course is a study of synthetic methods
and materials used in organic and inorganic chemistry, including
green approaches to synthesis. Topics include organometallic
compounds, metal catalysis, inert gas techniques, characterization
techniques including electrochemistry, and the synthetic chemical
literature. 2 hours of lecture and one 4-hour laboratory per week. PR:
CHEM 2202, CHEM 3304. Fall semester only, even years.

CHEM 4412 Physical Chemistry II........................... 4 hrs.
This heavily web-supported course deals with the development of
quantum chemistry and its applications to spectroscopy. Elements
of linear algebra, differential equations and mathematical software
will be applied to chemical problems. 3 hours of lecture and one
3-hour laboratory per week. PR: CHEM 3301, MATH 1186 or 3315,
PHYS 1102 or 1106. Spring semester, even years only.

CHEM 4998 Undergraduate Research...................... 0-6 hrs.
Undergraduate research is an experiential learning activity that
provides an opportunity for a student to engage in the scholarly
activities of their major discipline under the guidance of a faculty
mentor who will work in close partnership with each student in
his or her formulation of a project, the development of a research
strategy, and the assessment of a student’s progress. The primary
goal is for each student scholar to conduct an inquiry or investigation
that makes an original, intellectual or creative contribution to their
discipline and which is shared in an appropriate venue. Sophomore-
Senior Level, Repeatable. Instructor approval required.

CIVIL ENGINEERING TECHNOLOGY

CIVL 1100 – Introduction to Civil Engineering Technology .... 1 hr.
This course is designed to expose the students to the broad field of
Civil Engineering Technology and the various options at their
disposition during their academic tenure, and after graduation. It will
explore the many design tools required, and writing techniques
necessary to foster academic success, and provides an introduction
to professional societies, internships, and their role as professionals
in the work force. It is highly recommended students take this course
freshman year. PR: None. CR: CIVL 2210.

CIVL 1199 Special Topics in Civil Engineering
Technology .................................................... 1-12 hrs.
Studies in special selected topics, to be determined by the
instructor and approved by the department chairperson. Credits
earned will be applicable as free electives in degree and certificate
programs.

CIVL 2200 Introduction to Surveying....................... 3 hrs.
Topics in this course include theory of linear distance measurement,
proper note keeping, transit/tape surveying techniques, leveling
procedures, measurement of horizontal and vertical angles, stadia,
bearings and azimuths, rectangular coordinates, topography and
mapping techniques. Students will learn to use all types of surveying
equipment, including levels, transits, theodolites, total stations, and
Electronic Distance Measurements (EDM) devices. PR: MATH 1101.

CIVL 2210 Light Construction............................... 4 hrs.
Students will be instructed in practices utilized in the erection of
residential and industrial buildings, with technical information
involving problems from ground to roof.

CIVL 2220 Construction Materials and Methods .......... 4 hrs.
Identification, properties and standard test methods for steel,
cement, timber, masonry products, bituminous products, soils and
aggregate. Heavy construction methods are also discussed. PR: CIVL
2210, MATH 1101.

CIVL 2230 Construction Estimating........................ 3 hrs.
This course covers construction cost-estimating techniques for
various types of construction projects. Included are certain related
topics such as production, bidding and specifications as they affect
the contractor during the cost estimation process. PR: CIVL 2220,
INFO 1100.

CIVL 2240 Construction, Land and Route Surveying .... 3 hrs.
This course will cover horizontal and vertical control, building
location and layout, pipeline layout, construction staking procedures,
earth quantity measurements, triangulation, horizontal and vertical
curves, plan and profile, area and cross sections, volume calculations,
mass diagrams, boundary control and deed descriptions. PR: CIVL
2200, INFO 1100.

CIVL 2275 Civil Engineering Graphics...................... 3 hrs.
This course will provide students with an introduction to
computer-assisted civil engineering drafting and design. Includes
coverage of graphics techniques, drawing organization,
dimensioning, orthographic projection, and specific applications of
civil engineering drafting and design. Typical applications include
coordinate geometry, contours, topics in highway design, concrete,
stee and structural wood drafting. PR: DRFT 2200.

CIVL 2280 Environmental Engineering Technology I ....... 3 hrs.
This introductory course will provide an overview of the
environmental field, including laws and regulations, water quality,
hydraulic and hydrologic fundamentals, water and wastewater
treatment, groundwater contamination, and solid waste
management. PR: CHEM 1101. CR: TECH 2290 or MATH 1185,
or MATH 1190.

CIVL 2290 Introduction to Structures..................... 3 hrs.
This is an introductory course focusing on the analysis and design
of structures. It will provide an elementary overview of the analysis,
design, and detailing of both steel and wood structures, with primary
emphasis on steel. Course coverage will include design of beams,
columns and connections. PR: MECH 2200.

CIVL 3305 Hydraulics and Hydrology...................... 3 hrs.
Topics in hydraulics will include closed conduit flow, networks,
reservoirs, hydraulic machinery, pumps in series and parallel and
hydraulic structures. Topics in hydrology will include statistics and
probability, hydrologic cycle and data, open channel flow, flood
control and discharge, and culvert and detention pond design. PR:
INFO 1100, TECH 2290 or MATH 1185 or MATH 1190, CIVL 2280.

CIVL 3340 Introduction to Soil Mechanics................. 4 hrs.
This course covers soil origin and composition, index properties
and classification, permeability, capillary, seepage, drainage, frost
heave, combined stresses, total and effective stresses, compressibility
and consolidation. PR: MECH 2200.

2013-2014 Catalog  Courses of Instruction / 149
### COMMUNICATION

**COMM 1105** Voice & Diction .........................3 hrs.

This course covers the theory and practice of speech science, provides the basic information necessary for further speech and drama study and helps students improve their speaking skills. Open to communication and theatre students and music students only. Fall semester only.

**COMM 1171** Mass Communication .....................3 hrs.

This course is a survey of the mass communication industry and its role in today's society. Students will discuss historical developments and current responsibilities of those working in the various areas of mass communication. Special emphasis will be given to the ever-changing nature of mass communication, including the computer and Internet as new tools. Fall semester only.

**COMM 1199** Special Topics in Speech Communication ................1-12 hrs.

Studies in special selected topics, to be determined by the instructor and approved by the School's Dean. Credits earned will be applicable as free electives in degree and certificate programs. Maximum credit allowed is 3 hours per semester, up to 12 hours total.

**COMM 2200** S-FSU Introduction to Human Communication ................3 hrs.

Examines the theoretical foundations of human communication through definitional analysis and examination of communication models, code elements and ethical considerations pertinent to communication in our society. This course provides the opportunity for each student to participate in interpersonal and public speaking presentations to develop his/her skills in interacting with others in both the personal and professional arenas. This course satisfies the General Studies oral communication requirement. PR: Completion of ENG 1104 with a "C" or better grade or a Verbal ACT score of 21 or higher. (Previously SPCH 1100)

**COMM 2201** S-FSU Introduction to Group Discussion ................3 hrs.

This course focuses on the theories, concepts and skills necessary to function effectively in a variety of group settings. Students will use research, organization, critical thinking and presentational skills when participating in groups to investigate social problems and create potential solutions for those problems. Topics include group norms, rules, roles, conflict management, leadership, problem solving, decision-making and team building. This course satisfies the General Studies oral communication requirement. PR: Completion of ENG 1104 with a "C" or better grade or a Verbal ACT score of 21 or higher.

**COMM 2202** S-FSU Introduction to Communication in the World of Work ................3 hrs.

This course focuses on personal and professional communication. It examines the nature of communication in the world of work. Students will examine and practice individual, group and presentational communication skills necessary to work effectively with peers, supervisors, supervisees and constituents. Topics addressed will include interpersonal communication, socialization, organizational dynamics, leadership, power and status, meeting facilitation, problem solving, presentation research, organization and delivery. This course satisfies the General Studies oral communication requirement. PR: Completion of ENG 1104 with a "C" or better grade or a Verbal ACT score of 21 or higher.

**COMM 2213** Intro to Communication Theory and Research Practices

*Writing Intensive*

This course provides an overview of the concepts and methods used to design, conduct, interpret and evaluate communication research. The aim of the course is for students to become informed consumers of research as well as producers of it on a basic level. The course will develop the skills necessary to design, organize, conduct, report and present research competently and ethically. In order to satisfy the Writing Intensive requirement, students will be required to complete a comprehensive written literature review analyzing the work of other researchers on a chosen topic related to communication theory. PR: ENGL 1108.

**COMM 2219** Language in Communication ..................3 hrs.

A study of verbal coding for communication, this course focuses on the function of language in oral communication, theories of oral language acquisition and behavior and the special problems involved in oral language coding for audiences. PR: COMM 2200, 2201, or 2202. Spring semester only.

---

### COURSES OF INSTRUCTION

**CIVL 4400** Highway Design and Transportation (WIC) 4 hrs.

This course addresses basic transportation theory and design, traffic flow, capacity analysis, level of service, flexible and rigid pavement design, and geometric design. A Writing Intensive capstone experience is included in this course, aligned with the general transportation planning model, which includes industry collaboration. PR: CIVL 3340, ENGL 1108, TECH 2290 or MATH Equivalent. Baccalaureate majors only.

**CIVL 4410** Advanced Structural Analysis ....................3 hrs.

This course provides an analysis of structures including cables, beams, columns, trusses and frames. Also included are buckling, shear, moment and deflection in statically-determinate structures. PR: CIVL 2290, TECH 3300 or MATH 1186 or MATH 3315. Baccalaureate majors only.

**CIVL 4420** Construction Planning and Administration .....................3 hrs.

Introduction to construction management. Topics include construction planning and scheduling, economics, contracts, administration, health and safety, productivity and performance. PR: CIVL 2230.

**CIVL 4440** Structural Design ....................3 hrs.

A continuation of CIVL 2290, with more in-depth design of reinforced concrete and steel structures. PR: CIVL 2290.

**CIVL 4450** Structures ....................3 hrs.

Introduction to the structural design of typical building components using steel, timber and concrete. The course will include design of laterally supported and unsupported beams, one and two-way slabs, columns, beam-columns, tension members, connections and wall and column footings. PR: CIVL 2220, MECH 2200.

**CIVL 4460** Environmental Engineering Technology II ................3 hrs.

This course will cover theories and practices in water and wastewater treatment systems, including physical, chemical and biological treatment processes. Other topics include surface water quality characteristics, modeling and permitting. PR: CIVL 2280 and TECH 3300 or MATH 1186 or MATH 3315. Baccalaureate majors only.

**CIVL 4470** Advanced Soil Mechanics and Foundation Design ....................3 hrs.

This course is a continuation of CIVL 3340 and includes shear strength, laboratory and field test methods and their use in design. It also provides an introduction to shallow and deep foundations, including bearing capacity and settlement analysis, the study of earth pressure for use in design of retaining walls, sheet piles, and excavating bracing, and an introduction to earth structure design and slope stability analysis. PR: CIVL 3340. Baccalaureate majors only.

**CIVL 4998** Undergraduate Research ......................0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.
COMM 2235 Interpersonal Communication ........................ 3 hrs.
A study of communication in dyadic settings, with an emphasis on increasing understanding of the theories, concepts and principles related to human interaction. Focus is on improving skills in interpersonal communication. PR: COMM 2200, 2201, or 2202. Fall semester only.

COMM 2241 Argumentation & Debate .............................. 3 hrs.
A study of the principles of argumentation, logic and reasoning, evidence and decision-making. A practical application of these principles is emphasized through the study of current controversies and oral class debates. PR: COMM 2200, 2201, or 2202. Fall semester only.

COMM 2249 Intercollegiate Debate I-IV ........................... 1-4 hrs.
This course provides training for and participation in intercollegiate debate tournaments at colleges and universities throughout the eastern United States. Credit is also given for researching the intercollegiate debate proposition for the current academic year. Maximum credit in any one semester is one hour. Open to freshmen and sophomores. (Juniors and seniors, see COMM 4449.) PR: COMM 2241.

COMM 2250 SOPHOMORE SEMINAR 1 hrs.
In this course, students will explore the role of the communication professional in a variety of fields such as media, non-profit, government, business, and health. Students will participate in a mid-program review with communication faculty and the class will culminate in a paper/presentation on a communication profession or field of study. PR: Pre-Comm or Comm major.

COMM 3300 Intercultural Communication ....................... 3 hrs.
This course examines the meaning, significance and impact of intercultural communication as it applies individually, nationally and globally as well as in groups and organizations. The course will explore the meaning of “culture” and its effects on perception and understanding. Both macro and micro cultural differences will be examined and the danger of cultural misunderstanding will be explored. The course will also examine the ever growing need for intercultural communication competence and introduce ways to increase that competence. PR: COMM 2200 or 2201 or 2202.

COMM 3320 The Art of Storytelling in Theory and Practice .............................. 3 hrs.
The emphasis of the course will be on both the theory and research related to storytelling and the art of storytelling as performance. In this performance-based course, students will select, craft, rehearse and perform stories suitable to a variety of audiences. Students enrolled in this course are required to attend the National Storytelling Festival in Jonesborough, Tennessee. Also listed as FOLK 3320 and THEA 3320.

COMM 3337 Persuasive Communication ........................... 3 hrs.
This course is an in-depth study of the speaker, audience and environmental factors influencing the persuasive process. It is designed to give advanced speech communication students training in the preparation, presentation and critical analysis of persuasive speeches. Various delivery styles, including impromptu and extemporaneous, will be used. PR: COMM 2241. Fall semester only.

COMM 3345 Oratory .................................................... 3 hrs.
Students will study the role of rhetoric/public discourse as an agent of change in a free society, and prepare a persuasive manuscript to be delivered to a public audience. This class prepares students for participation in the M. M. Neely Persuasive Speaking Contest. PR: COMM 3337. Spring Semester only.

COMM 4420 Contemporary Storytelling .......................... 3 hrs.
This course is an introduction to the study of images as a communicative phenomenon and ethnographic storytelling. Students will explore the use of digital images to communicate specific information in a variety of contexts such as public relations, journalism, or web-based publication and the use of ethnographic research as a tool for audio documentary. PR: COMM 2241 and BISM 2800.

COMM 4431 Methods and Materials in Teaching Speech Communication and Theatre .............................. 3 hrs.
This course covers the philosophy, methods, and materials of teaching forensic communication and theatre as well as directing the speech communication and theatre co-curricular and extra-curricular activities in the secondary schools. Fulfills Professional Block requirement for those with a single teaching field in Oral Communication. Fall semester only.

COMM 4439 Public Speaking Practicum I-VIII ..................... 1-8 hrs.
Preparation for and participation in public performances and intercollegiate competitions in public speaking, i.e., after-dinner, extemporaneous, oratory, etc. Maximum credit in any one semester is one hour. Open to juniors and seniors. (Freshmen and sophomores, see COMM 2249.) PR: COMM 2241.

COMM 4449 Intercollegiate Debate I-IV ........................... 1-4 hrs.
This course provides training for and participation in intercollegiate debate tournaments at colleges and universities throughout the eastern United States. Credit is also given for researching the intercollegiate debate proposition for the current academic year. Maximum credit in any one semester is one hour. Open to juniors and seniors. (Freshmen and sophomores, see COMM 2249.) PR: COMM 2241.

COMM 4491 Directed Study in Speech Communication .............................. 1-4 hrs.
The student may elect to do an in-depth study of speech communication which is not treated in the speech course offerings. Coursework is designed by the student and selected faculty, with approval of the School’s Dean. Maximum credit earned in any one semester is one credit hour. PR: Instructor approval required.

COMM 4496 Communication in Practice: Internship .................. 3 hrs.
The communication internship is designed to provide students with a supervised opportunity to apply their communication skills in a business or organization. Students are expected to complete a minimum of 100 hours in a meaningful and challenging placement. This placement should be made in cooperation with a member of the communication faculty or a faculty member teaching in a communication track. Students will attend course orientation sessions at the beginning of the semester and course reflection and evaluation sessions at the end of the semester. The final reflection will include a portfolio presentation that demonstrates students’ understanding of communication in theory and practice as well as their own strengths and weaknesses as a communicator. This placement, the reflection, and the portfolio presentation make up the capstone experience for students majoring in communication arts. PR: COMM major.

COMM 4998 Undergraduate Research .............................. 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

COMPUTER SCIENCE

COMP 1100 Introduction to Computing .............................. 3 hrs.
This course provides an overview of the current state of computing and its social implications. This is intended to be used as a breadth-first introductory course for majors and non-majors. Topics include organizations of computer system, discussion of a broad range of software systems, problem solving, database systems, networking, computer security, ethical issues, and emerging areas in computer science.
COMP 1101  Applied Technical Programming ............... 3 hrs.
This course provides an introduction to the Visual BASIC programming language. Students are introduced to computer organization, data representation, the software development cycle, and program concepts including data types, input/output, control structures, functions, and text file processing. Programming projects in Visual BASIC are assigned to provide students with experience in program development. PR: MATH 1101.

COMP 1102  Principles of Programming I ............... 3 hrs.
This course provides an introduction to computer organization, data representation, the software development cycle, and program concepts including data types, input/output, control structures, functions, and text file processing. Programming projects in Visual BASIC are assigned to provide students with experience in program development. PR: MATH 1101.

COMP 1108  Principles of Programming II ............... 3 hrs.
This course provides an overview of computer organization, topics include assembly language, data representation, subroutine calling conventions, the OS kernel, interrupt handling, and an introduction to digital logic. Programming projects are assigned to exemplify the topics covered in class. PR: COMP 1102.

COMP 2200  Object-Oriented Programming ............... 3 hrs.
This course covers concepts of object-oriented programming using the Java programming language. Topics include objects and classes, encapsulation, inheritance, polymorphism, generic programming, exception handling, graphical user interface, and event-handling. PR: COMP 1108.

COMP 2201  Machine Organization ......................... 3 hrs.
This course provides an overview of computer organization, topics include assembly language, data representation, subroutine calling conventions, the OS kernel, interrupt handling, and an introduction to digital logic. Programming projects are assigned to exemplify the topics covered in class. PR: COMP 1108.

COMP 2220  Fundamentals of Computer Security ....... 3 hrs.
Topics to be covered in this course include access control, hacking, malicious code, intrusion detection, countermeasures, firewalls, network security, cryptography, forensic, ethical issues and other current issues. The course consists of three hours of lecture per week. PR: COMP 1100 or 1102 or BISM 1200.

COMP 2230  Network Programming ......................... 3 hrs.
This course covers the design and implementation of software applications in a networked environment. Topics include a broad overview of network technology, the OSI model, socket programming, multithreading, and web programming. PR: COMP 2200.

COMP 2270  Data Structures ........................................ 3 hrs.
This course covers linear and non-linear data structures and their associated algorithms. Topics include analysis of algorithms using Big-O notation, linear data structures (linked lists, stacks, and queues), non-linear data structures (trees and graphs), and hash tables. PR: COMP 1108.

COMP 3300  Computer Graphics .......................... 3 hrs.
This course provides an introduction to interactive graphics programming. Topics include algorithms for generating graphics output primitives, two- and three-dimensional geometric transformations, drawing windframe and solid objects in a three-dimensional scene, line and polygon clipping, and basic animation techniques. PR: COMP 2270 and MATH 1190.

COMP 3310  Artificial Intelligence .......................... 3 hrs.
This course provides an introduction to the fundamental topics in artificial intelligence as well as application of artificial intelligence in real-world problems. Topics include intelligent agents, problem solving using searching, game playing, knowledge representation and reasoning, uncertainty and probabilistic reasoning, and learning. PR: COMP 2270 and MATH 2210.

COMP 3330  Analysis of Algorithms .......................... 3 hrs.
This course covers complexity of algorithms and algorithm design techniques. Topics include analysis of algorithm correctness, analysis of algorithm efficiency using asymptotic notations, algorithm design techniques including brute-force, divide-and-conquer, greedy, and dynamic programming approaches. PR: COMP 2270 and MATH 2216.

COMP 3340  Operating Systems .............................. 3 hrs.
This is an introduction to historical and current operating systems' principles and operation. Topics include the function and operation of the major areas of the operating system such as user interfaces, process control, concurrent processes and synchronization, primary and secondary memory management, file systems, I/O, and security issues. PR: COMP 2201 and COMP 2270.

COMP 3380  Cryptography in Computer Security .......... 4 hrs.
This course provides an introduction to cryptography. Topics to be covered include the history of cryptography, symmetric and public key encryption. Students will develop various cryptographic applications implementing or using digital certificates, digital signatures, IPSec, Kerberos, PGP, PKI, Rijndael, secure e-mail, SSL, and TLS. The course consists of four hours of lecture per week. PR: COMP 2270 and MATH 2216.

COMP 3390  Network Security Technology ................ 4 hrs.
This course combines classroom and laboratory work to explore network security attacks and solutions. Commercial-Off-The-Shelf (COTS) network devices such as servers, routers, bridges, switches, hubs, firewalls, scanners and intrusion detection systems will be configured to demonstrate network security solutions for selected real-world scenarios. The course consists of three hours of lecture and two hours of lab per week. PR: COMP 3340, and INFO 2250.

COMP 3395  Ethical Issues in Computing .................... 3 hrs.
This course provides an introduction to various legal and ethical issues in computing. Topics to be covered include privacy rights, intellectual property rights, electronic transactions and liabilities, hacking, computer crime, encryption policies, offensive speech, anonymity, employee monitoring and e-mail policies, censorship, AI/ expert systems, codes of ethics (ACM, IEEE, ISC(2) and NSPE) and political freedom. PR: COMP 1100 and ENGL 1108.

COMP 4400  Automata and Language Design ............... 3 hrs.
This course covers the theoretical foundations of computer science and the abstractions of computational processes in programming languages. Topics include formal languages, grammars, automata, parsing machines, programming language paradigms, data types, expressions, control structures, binding strategies, run-time environments, compilers, and interpreters. PR: COMP 2270 and MATH 2216.

COMP 4410  Database Management .......................... 3 hrs.
Students will develop familiarity with database terminology and will study database design and implementation. The primary focus will be on the relational model, relational algebra and SQL, and application development. Issues of functional dependencies, normal forms, indexing, and query optimization will also be discussed. PR: COMP 2270.

COMP 4415  Vulnerability Assessment ...................... 4 hrs.
This course provides theoretical and practical instruction for assessing computer vulnerabilities and countermeasures. Topics to be covered include firewalls, hacking, intrusion detection, incident response, penetration testing and security policies. The laboratory portion of the course will provide hands-on experiments connected with the topics discussed in class.
with various vulnerability assessment and countermeasures topics. The course consists of three hours of lecture and two hours of lab per week. PR: COMP 3390.

COMP 4420 Selected Advanced Topics ......................... 3 hrs.
This course will address current topics of interest in computer science, to be determined by the instructor and approved by the department chair. PR: COMP 3330.

COMP 4421 Computer Science Special Project ................ 3 hrs.
Each student enrolled in this course will develop an independent project under supervision of the instructor. The project will be a practical application of computer science. The student and instructor will agree on the nature of the project necessary to satisfy the course requirement. PR: Instructor approval required.

COMP 4440 Software Engineering ......................... 4 hrs.
This course covers the key aspects of software engineering principles and practice. Topics include software life cycle/process models, software requirements, software design, software testing, team management, and project management. This course also provides a capstone experience, integrating the knowledge students have acquired in previous courses, as they work on a team-based software development project. PR: COMP 2200 and COMP 2270.

COMP 4495 Computer Security Internship .................. 3 hrs.
This course allows students to obtain real-world computer security work experience through an internship with either a government agency or local high technology company. PR: COMP 3395 and COMP 3390.

COMP 4998 Undergraduate Research ......................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

CRIMINAL JUSTICE

CRIM 1100 Introduction to Criminal Justice ................ 3 hrs.
This course introduces the student to the three principal components of the criminal justice system: law enforcement, the judiciary and corrections. It will examine the history, structure, functions and issues of each component, and introduce the student to the measurement of crime, criminological theories, criminal law, justice perspectives and the juvenile justice system.

CRIM 1101 Police Operations ......................... 3 hrs.
The student will be introduced to the day-to-day duties of a police officer. Emphasis will be placed on community and human relations, patrol and traffic functions, order maintenance, report writing, investigations, communications, interviewing, search and seizure and arrest. Police stress and survival skills will also be discussed.

CRIM 1199 Special Topics in Criminal Justice .......... 1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the School's Dean. Credits earned will be applicable as free electives in degree and certificate programs. PR: CRIM 1100.

CRIM 2202 Principles of Criminal Law .................... 3 hrs.
Structure, definitions and interpretations of criminal statutes of particular interest. The course will cover the scope, purpose and definition of criminal law in general, including the study of crimes against individuals and property and other offenses.

This course provides an overview of computer crime and procedures which forensic computing specialists, law enforcement investigators and prosecutors must invoke to successfully prosecute computer criminals.

CRIM 2205 Natural Resources Laws ....................... 3 hrs.
This course involves a study of the state Natural Resources Laws dealing with the objectives of the Department of Natural Resources, the meaning of these various laws and regulations and the authority granted officers in their enforcement. PR: CRIM 1100.

CRIM 2206 Introduction to Corrections .................... 3 hrs.
A survey of the current correctional process in America, including the origin and legal procedures of the present system and its effects on the individuals as well as on our society. Special emphasis is given to current theories of rehabilitation in the institution and in probation and parole. Students will also be introduced to the administration of the adult and juvenile institutions and the alternatives to and future of the present system.

CRIM 2209 Firearms 3 hrs.
This course addresses safety precautions, legal provisions, moral aspects, principles of decision shooting and restrictions in the use of firearms. Nomenclature and the firing process of the sidearm and shotgun will be demonstrated. PR: CRIM 1100.

CRIM 2212 Deviant Behavior ......................... 3 hrs.
A study of the recognition and handling of abnormal persons with emphasis on those mental conditions most often encountered by the criminal justice practitioner. Methods of crisis intervention, basic conflict management and referral and diversion will also be discussed.

CRIM 2215 Introduction to Private Security ................ 3 hrs.
This course will analyze the evolution, philosophy, responsibilities and functions of the private security industry. It will include risk management, occupational safety and health, public relations and loss prevention measures. The student will examine similarities and differences between private security and public policing. PR: CRIM 1100.

CRIM 2218 Police Administration ......................... 3 hrs.
A survey of public police administration, this course covers political influences and controls, principles of leadership, interpersonal and organizational communication, human resource management, labor relations, information systems and applications, planning and decision making, financial management, measurement of productivity and organizational change. PR: CRIM 1101.

CRIM 2220 Juvenile Justice Process ....................... 3 hrs.
This course addresses definitions of delinquent behavior, contributing social problems, adolescence as a subculture, the philosophy and practice of adjudication process for juveniles and treatment procedures.

CRIM 2226 Crime Scene Investigation .................... 3 hrs.
This course will examine all aspects of performing a thorough and methodical crime scene investigation. This course will address a variety of crime scenes ranging from crimes of violence to property crimes. Various types of physical evidence such as latent prints, trace evidence, biological fluids will be examined. The methods and procedures utilized for the collection of evidence will be demonstrated and examined. PR: CRIM 1100.

CRIM 2236 Criminal Investigation ....................... 3 hrs.
This course will survey the fundamental techniques of criminal investigation. Students will be exposed to the history of criminal investigation and criminology, interviewing and interrogation, physical evidence, crime scene procedures, crime analysis, investigation techniques, report writing, case preparation and courtroom testimony. PR: CRIM 1100.

The course will examine issues concerning women within the contemporary criminal justice system. Students will explore theories and current research of the historical role of women as practitioners, offenders and victims.

The objective of this course is to provide materials that will allow students to understand and respect the institutions and procedures of other countries, and to familiarize them with international efforts to control and investigate crime. The study of other countries’ criminal justice systems will also provide students with a foundation of knowledge that will lead to an understanding of foreign visitors’ and immigrants’ world view based on their experiences of criminal justice systems and procedures prior to their arrival in the United States.

This course will introduce students to the forensic process and how to handle it properly. Students will be introduced to the forensic process so that they understand the importance of proper evidence processing and procedures.

The study of deviant behavior as it relates to the definition of crime. Topics include crime statistics theories of crime causation and crime typologies.

This course is designed to introduce the student to the concepts of law related to the rights of the accused and convicted in the corrections environment, both pre-conviction and post-conviction. Topics include the constitutional rights of pretrial detainees and prisoners, remedies available for the violation of such rights, potential liability (civil and criminal) of corrections officials for violation of such rights and some practical applications of such principles. The course will utilize the case study method in combination with lectures and readings to achieve the stated goals.

This course will examine all aspects of performing a thorough and methodical death investigation. The course will address the initial arrival, securing the scene, forensic evidence, follow-up, causes and motives. Suicides, accidental deaths, natural causes, homicide, serial and mass murder will also be examined. Students will learn about the importance of latent prints, blood spatters, rigor mortis, livor mortis, entomology, bite marks, interrogations and current software to aid in an investigation.

This course will examine all aspects of performing a thorough sex crime investigation. The course will also examine sexual behavior, theories of sexual deviance, nuisance sex behavior, incest, pedophilia and dangerous sex practices. The student will be further exposed to investigative issue such as: bite marks, latent prints, interrogation, and profiling.

This course introduces the student to ethical decision making. The student will analyze the major ethical perspectives and then incorporate them into the social and criminal justice context as it relates to law, police, courts, and corrections. The course also addresses the future development of ethics in everyday life.

Students will study the scientific approach to collecting and analyzing physical evidence. The course will expose the student to the procedures of searching and processing crime scenes such as fingerprints, body fluids, glass, fibers, tool marks, ballistics, footprints and tire impressions. The student will be instructed in the proper methods of preserving and shipping criminal evidence for analysis, the various laboratory techniques used in analyzing criminal evidence and how expert witness testimony is prepared and presented in court.

This course will deal with constitutional law relating to the police function. Focus will be on the Fourth, Fifth, Sixth and Fourteenth Amendments, which include reasonable suspicion and probable cause, warrant requirements and exceptions, field stops and interviews, interrogations, right to counsel, pretrial identifications, the exclusionary rule and due process. There will be detailed discussion on the reasons for constitutional protections to engender an understanding of and respect for the rights of all people involved in the criminal justice process.

This course will introduce students to the forensic examination of computers and digital and electronic media. This course will explore the file systems with a focus on the FAT file system and Windows Operating Systems. The emphasis is how to use forensically-sound methodologies to acquire admissible electronic evidence with coverage of computers.
CRIM 3350  Group Techniques ........................................... 3 hrs.
This course is designed to instruct the student in the principles of group interactions. This information will directly apply to groups within a prison population, with specific information regarding a variety of criminal personalities. PR: CRIM 2212.

CRIM 3355  Analysis of Correctional Operations ........... 3 hrs.
Topics include problems of management in the correctional process; programming, security, information systems, reports, case management and evaluation progress; custody and discipline as they relate to rehabilitative efforts; community adjustment facilities; and problems of probation and parole. PR: CRIM 2206.

CRIM 3360  Community-Based Corrections ..................... 3 hrs.
This course is designed to instruct the student in the study of diversion, pretrial release programs, probation, restitution, community service programs, temporary release programs, halfway houses and parole. Emphasis will be placed upon the special problems and needs of females, juveniles and drug-and-alcohol-abusing offenders. The preparation of the pre-sentence investigation report will also be covered. PR: CRIM 2206.

CRIM 3365  Licit and Illicit Drugs................................. 3 hrs.
This course is designed to instruct the student in the understanding of street drugs and their effects on the individual. The course will also examine specialized techniques in drug investigation and the legislation that applies directly to the defenses. PR: CRIM 1100.

CRIM 3370  Economic Crime.......................................... 3 hrs.
The course content will provide students with an overview of economic/white-collar crime in America. Students will examine definitional problems, difficulties in establishing the scope and extent of economic crime, theories of causation, law enforcement effectiveness, efforts of technology, and a number of related topics.

CRIM 3399  Special Issues in Criminal Justice ............... 3-9 hrs.
Forum for special course offerings, focusing upon special issues in criminal justice, by visiting instructors or regular faculty.

CRIM 4401  Independent Study..................................... 1-6 hrs.
Students involved in this course will conduct surveys and applied research projects as approved and supervised by a Criminal Justice faculty member. Junior or Senior status.

CRIM 4405  Terrorism ................................................ 3 hrs.
A course designed to promote understanding of the problem of terrorism and political violence. The course will define terrorism; examine its origins, characteristics, nature and trends; analyze in detail various terrorist organizations and address selected problems in the response to terrorism. (Credit in Criminal Justice or Political Science)

CRIM 4410  Research in Criminal Justice...................... 3 hrs.
Writing Intensive
Students will explore the interaction of theory, research, and practice in the criminal justice process; the purposes and limits of research; introduction to research design, data collection, analytic techniques, data processing resources and preparation of research reports. PR: ENGL 1108. Junior or Senior status.

CRIM 4411  Field Practicum ........................................ 3-12 hrs.
A supervised professional study conducted in the criminal justice field setting. Junior or Senior status and a 2.5 GPA.

CRIM 4415  Community Policing ................................... 3 hrs.
This course provides a detailed analysis of community policing, which is the dominant philosophy for providing police services in the twenty-first century. Topics include the history of community policing, definitions of “community,” current strategies for the implementation of this philosophy and the impact community policing will have on crime, disorder and fear. Also included in the course will be a thorough description of the new role of a police officer as a Community Policing Officer and the requirements for success. PR: CRIM 1101. Junior or Senior status.

CRIM 4420  Legal Research......................................... 3 hrs.
This course is designed to introduce students to the process of legal research, and to aid the student in attaining proficiency in finding, interpreting according to established legal principles, and applying the law to a given set of facts and circumstances. The goals of the course will be achieved through successful completion of a series of research projects and assessments of fundamental knowledge. Junior or Senior Status.

CRIM 4425  Evaluation of the Criminal Justice System ....... 3 hrs.
Writing Intensive
This is the capstone seminar in criminal justice, with a focus on policy analysis. Students in this course will examine controversial criminal justice issues. Topics of study will vary according to the interests of the instructor and students, but may include capital punishment, gun control, drug policy, crime myths, racism and discrimination in the justice process, white collar crime and corruption. Students will be required to write a major research paper. PR: ENGL 1108, CRIM 1100, 2206. Junior or Senior status.

CRIM 4430  Computer Forensics II .............................. 3 hrs.
This course is designed to foster a more advanced understanding of computer file systems. This course provides the data structures associated with volume and file systems. Students will begin utilization of some automated forensic tools to assist in the examination of digital evidence. PR: CRIM 3315 and 3345.

CRIM 4440  Internet Forensics...................................... 3 hrs.
This course will examine technologies and data recovery techniques concerning criminal activity on the internet. The course will explore how to identify and analyze criminal activity on the internet including email messages, web pages and web servers. PR: CRIM 3345.

CRIM 4445  Advanced Computer Forensics Investigations Seminar ............................................. 3 hrs.
The discussion of specific digital forensics and cybercrime topics are emphasized in this course. Students focus on developing digital forensic and cybercrime projects. It is specifically designed to promote the application of the material students have learned related to digital evidence and cybercrime. PR: CRIM 2250.

CRIM 4998  Undergraduate Research.......................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

DANCE

DANC 1100  S-C&TC  Introduction to Social Ballroom Dancing......................................................... 2 hrs.
This course will introduce students to the study of basic figures of the American Style of waltz, foxtrot, swing, tango, cha cha, and mambo in accordance with the DVIDA bronze level syllabus. Students will also be introduced to the character of each dance, as well as how to recognize the music. This course will enable the student to participate in social occasions requiring ballroom dancing skills, such as weddings and formal social and business parties, as well as informal occasions.

DANC 1107  Introduction to Dance.............................. 2 hrs.
This course will be an introduction to basic movement techniques and skills in ballet and various modern and jazz dance styles. Introduction to the fundamentals of improvisation and composition will be covered. Utilizing rhythm and movement as dimensional elements of this space-time art. Students with previous dance
experience may receive credit through examination.

DANC 1110  Ballroom Dancing Culture and Repertoire ........................................... 2 hrs.

This course will introduce students to the history, etiquette, and rhythm of ballroom dancing. Course content will include how each dance has evolved through history and cultural influence. Students will learn how to display proper etiquette in dance, and become aware of this influence personal lifestyle. The study of music and its rhythm as it applies to each dance style will also be a focus.

DANC 1115  Physical Conditioning for Ballroom Dance ............................................. 1 hr.

This course is designed to introduce students to the good health needs required of professional dancers. Students will be introduced to a variety of activities including proper eating habits, exercise, muscle building, and flexibility programs intended for healthy living. In addition, students will practice techniques as the dance instructor, on how to best assist their future students.

DANC 1117  Ballroom Fun Dancing ................................................................. 1 hr.

In this eight-week course, students will explore the more “relaxed” dances of ballroom dancing. These dances may include club dances such as salsa, merengue, hustle, and the west coast swing. They will also study the character of each dance, as well as how to recognize the music. This course will enable students to dance through entire songs at parties and weddings. This is an eight-week course and is a free elective open to all students.

DANC 1189  Guided Experience I .......................... VAR 1-4 hrs.

This course will be a guided experience for community college students to explore topics of interest in their field through research, field experience, presentation, computer applications, lab experience, or other project agreed upon between the student and the supervising faculty and is submitted to the dean in a written contract. Credits earned may be applied as free electives in degree or certificate programs. May be repeated for up to 4 hours. Instructor approval required.

DANC 1199  Special Topics in Ballroom Dance ............... 1-12 hrs.

Special topics will be studied, to be determined by the instructor and approved by the school’s dean. Credits earned will be applicable as free electives in degree and certificate programs.

DANC 1995  Ballroom Dancing Instruction Practicum .............................................. 1-3 hrs.

This course will enable the student to learn and practice ballroom dancing teaching skills at the college, schools and other venues such as youth and community groups. Must be taken during three separate semesters at two or three different venues. PR: DANC 1100.

DANC 2201  Bronze Waltz/ Rumba ..................................................... 2 hrs.

In this course, students will complete the fifteen (15) figures that compose the DVIDA Bronze syllabus in the American style of waltz and rumba plus variations. Students will polish technique and should feel comfortable dancing with partners of multiple levels in these two dances at the end of the course. In addition, this course will provide an opportunity for students to test and receive the DVIDA Bronze certification for American style waltz and rumba at the end of the semester. PR: DANC 1100.

DANC 2202  Bronze Foxtrot/Swing ..................................................... 2 hrs.

In this course, students will complete the fifteen (15) figures that compose the DVIDA Bronze syllabus in the American style of foxtrot and east coast swing plus variations. Students will polish technique and should feel comfortable dancing with partners of multiple levels in these two dances at the end of the course. In addition, this course will provide an opportunity for students to test and receive the DVIDA Bronze certification for American style foxtrot and east coast swing at the end of the semester. PR: DANC 1100.

DANC 2203  Bronze Tango/Cha Cha ................................. 2 hrs.

In this course, students will complete the fifteen (15) figures that compose the DVIDA Bronze syllabus in the American style of tango and cha cha plus variations. Students will polish technique and should feel comfortable dancing with partners of multiple levels in these two dances at the end of the course. In addition, this course will provide an opportunity for students to test and receive the DVIDA Bronze certification for American style tango and cha cha at the end of the semester. PR: DANC 1100.

DANC 2204  Bronze Viennese/Bolero/Mambo ............. 2 hrs.

In this course, students will complete the ten (10) figures that compose the DVIDA Bronze syllabus in the American style of Viennese waltz and bolero and the fifteen (15) figures that compose the DVIDA Bronze syllabus in the American style of mambo plus variations. Students will polish technique and should feel comfortable dancing with partners of multiple levels in these three dances at the end of the course. In addition, this course will provide an opportunity for students to test and receive the DVIDA Bronze certification for American style Viennese waltz, bolero, and mambo at the end of the semester. PR: DANC 1100.

The emphasis of this course is on identifying and responding to appropriate business, ethical, promotional, and creative challenges that happen when managing/owning a performing arts studio. Topics include (but not limited to) studio site selection, curriculum development, client services, creative marketing/promotion, staff development, and industry outlets for advancement. Students are expected to analyze examples via news articles and multi-media, discussing ethical issues, developing appropriate courses of action. Course assessments will include individual research and reporting on current trends and creating a mock studio profile.

DRAFTING

DRFT 1100  S-C & TC Engineering Graphics ................. 3 hrs.

This introductory course covers basic drawing processes and techniques, including freehand lettering, geometric construction, sketching, multi-view and pictorial drawing, dimensioning and sheet layout. Tools, drawing surfaces, computer graphics, and projection theory will be stressed throughout the course.

DRFT 1189  Guided Experience I .......................... VAR 1-4 hrs.

This course will be a guided experience for community college students to explore topics of interest in their field through research, field experience, presentation, computer applications, lab experience, or other project agreed upon between the student and the supervising faculty and is submitted to the dean in a written contract. Credits earned may be applied as free electives in degree or certificate programs. May be repeated for up to 4 hours. Instructor approval required.

DRFT 1199  Special Topics in Drafting ....................... 1-12 hrs.

Special topics will be studied, to be determined by the instructor and approved by the school’s dean. Credits earned will be applicable as free electives in degree and certificate programs.

Studies in special selected topics, to be determined by the instructor and approved by the School Dean. Credits earned will be applicable as free electives in degree and certificate programs.
curriculum. The major focus of the course will be interactive technology via the computer, although other forms of technology will be explored. Special emphasis will be placed on customizing instruction to meet learning styles of a diverse student population and evaluation of current software applications.

EDUC 2203  S-FSU  Human Development, Learning & Teaching ................................. 3 hrs.

This course is an analysis of human development from birth through adolescence. Students will examine the influence of heredity and environment on the development of personality and behavior and their implications for educators. Admission to Teacher Education.

EDUC 2206  S-C&T  Instructional Support Strategies ................................................. 3 hrs.

This course will cover legislation affecting special education laws and the learning experience, the difference between mainstreaming and inclusion, the IEP and the self-contained classroom for the paraprofessional. Students will also learn about implementation of effective classroom management. Behavioral support in a positive learning environment and the role of the family, for encouraging and including parental input in an educational plan, will be included.

EDUC 2220  S-FSU  Introduction to Special Education .................................................. 3 hrs.

This course is a guided survey of the areas of exceptionality in the field of Special Education (emotionally/behaviorally disturbed, physically handicapped, speech and language, visually impaired, hearing impaired, mentally impaired, gifted, and learning disabled), and the historical, philosophical, political and sociological foundations related to exceptional children. The laboratory component of the course is designed to provide experience in the areas of exceptionality through observation and limited participation in these areas.

EDUC 2225  Computer Education .......................................................... 3 hrs.

In this course, students study the history of computers in society and education. The focus of the course is on understanding the theories supporting computer use in schools, the ways computers are used, and the effects of computer-based instruction on student learning. Admission to Teacher Education.

EDUC 2226  Technology in Instruction ......................................................... 3 hrs.

This course prepares the pre-service teacher to fully plan, implement and evaluate statewide technology plans. Content includes technology standards, resources, and planning; online education and curriculum integration and design. Admission to Teacher Education.

EDUC 2240  High Incidence Disabilities for Educators ........................................... 3 hrs.

This course is a survey course designed to provide teacher education majors with an understanding of the areas of exceptionality with an emphasis on the inclusion of students with high incidence disabilities such as mild mental impairments, learning disabilities, ADHD, and behavior disorders in the regular classroom. The historical, philosophical, political and sociological foundations of the education of students with exceptional learning needs will be presented, as well as current best practices and instructional approaches for each of these high incidence categories within the regular classroom. Students will gain an introductory understanding of the role of the regular educator in the IEP process and co-teaching within the inclusive classroom. Admission to Teacher Education.

EDUC 2260  Instructional Design I ............................................................. 3 hrs.

This course is designed to integrate the theory and practice of how planning, instruction, assessment, and management are synthesized to address Pre K-Adult student learning. Teacher candidates will be provided opportunities to design instructional materials and activities that address differences in learning styles, socio-economic, cultural, and developmental characteristics. The use of media and information technologies to design and deliver instruction that promotes self-direction, problem solving, and collaboration are emphasized. At the end of this course, teacher candidates will understand and apply the learning theories that underpin their instructional choices and understand the importance of using a variety of assessments for learning and of learning. The content of the course is organized to reflect and reinforce the WV Professional Teaching Standards, which are built on expectations of practice by organizations such as National Board, Charlotte Danielson's Framework for Teaching, NCATE, INTASC, and ISTE standards. PR: Admission to Teacher Education. CR: EDUC 2265

EDUC 2265  Field Experience 2  ....................................................... 1 hr.

This field-based semester long experience must be completed in a Professional Development School / public school setting. This field experience will allow the teacher candidate the opportunity to apply and reflect on his/her content area as well as pedagogical knowledge, skills, and dispositions in a classroom setting with a certified teacher. This experience will allow for immersion in the learning community so the teacher candidate can demonstrate proficiencies in the role for which s/he is preparing which includes: observing, assisting, tutoring, instructing, collecting and using assessment data to inform teaching decisions in the classroom setting. CR: EDUC 2260; PR: EDUC 2203 & EDUC 2240

EDUC 2995  S-C&T  Behavior Support Strategies .................................. 3 hrs.

This course presents basic principles and practices in the use of applied behavior management with both normal and exceptional learners for the paraprofessional. Students will gain firsthand experience in using behavior analysis and other behavioral support strategies in field settings. Capstone course.

EDUC 3307  Instructional Technology II .................................................. 3 hrs.

This course prepares the pre-service teacher to utilize school-wide classroom technology applications. Hardware, software, advanced applications, computer lab operations and school-wide assistance are the major areas of intent in the course. Admission to Teacher Education.

EDUC 3330  The Reading Process .............................................................. 3 hrs.

Writing Intensive

This course examines the components of reading, with emphasis placed upon word attack skills, reading comprehension and factors which affect reading progress. Admission to Teacher Education. PR: ENGL 1108.

EDUC 3331  Reading in the Content Areas .................................................. 3 hrs.

Writing Intensive

This is a reading methods course designed to provide content teachers with background information and instructional competencies necessary for teaching the reading and study skills essential to learning other subjects. This course also provides a rationale and practical applications for integrating instruction in the reading process across all content areas. Admission to Teacher Education. PR: ENGL 1108.

EDUC 3332  Pedagogy of Literacy (Reading and Language Arts Methods) ................................ 3 hrs.

Designed to address the curriculum, content, methods, materials, and assessment of effective literacy and language arts instruction in the elementary classroom. This course emphasizes analysis of developmentally appropriate standards and objectives, instructional models, active learning strategies, and evaluation methods for reading, handwriting, grammar, spelling, writing, oral communication, and listening. Attention is given to lesson and unit planning, selection of materials and resources needed to implement those plans, and assessment of learning at the age and grade level appropriate to the learner. PR: Admission to Teacher Education, EDUC 3330, or taken concurrently and EDUC 3331.

EDUC 3340  Instructional Design II ............................................................. 3 hrs.

This course is designed to prepare teacher candidates to articulate and apply the standards of good assessment, design accurate assessments and be able to communicate results that maximize student learning success. The use of media and information technologies are emphasized to design learning activities/lesson plans, assessment tools and the management of assessment data. Teacher candidates will understand the importance of using a variety of assessments for learning and of learning. This course integrates
theory and practice in designing sequenced learning activities that address differences in learning styles, socio-economic, cultural, and developmental characteristics from Pre-K to adult student learning. Students will understand the basic tenets of positive intervention and supports in maintaining a safe and orderly classroom. The content of the course is organized to reflect and reinforce the WV Professional Teaching Standards, which are built on expectations of practice by organizations such as National Board, Charlotte Danielson’s Framework for Teaching, NCATE, INTASC, and ISTE standards. PR: EDUC 2260, CR: EDUC 3365

EDUC 3350 Elementary Social Studies Methods ............ 3 hrs.
This is a methods course in which prospective K-6 teachers translate content specific skills to the developmental levels, intellectual, emotional and social needs and learning styles of students. Activities focus on the acquisition of knowledge, skills, and dispositions through practice in selecting appropriate content, goals, and strategies for K-6 students and designing effective teaching and evaluation procedures. PR: Admission to Teacher Education and EDUC 2260.

Writing Intensive
This course is designed to prepare teacher candidates with a foundation for educating students with special needs in inclusive public school settings K-12. It provides information about the spectrum of students: those considered low and high incidence disabilities, those from culturally diverse backgrounds, and those at risk for school failure. It presents strategies for differentiating instruction, instructional adaptations and approaches to responding to students’ behavior, and building social relationships. Approaches to analyzing, assessing and evaluating student needs and learning are addressed. Admission to Teacher Education. Must be taken the semester prior to Clinical III. PR: ENGL 1108.

EDUC 3365 Field Experience 3 ................. 2 hrs.
This course builds on cumulative experiences in previous field-based practica and is a semester long experience which must be completed in a Professional Development School / public school setting. The third clinical experience will allow the teacher candidate the opportunity to apply and reflect on his/her content area as well as pedagogical knowledge, skills, and dispositions in a classroom setting with a certified teacher. This experience will allow for immersion in the learning community so the teacher candidate can demonstrate proficiencies in the role for which s/he is preparing which include: assisting, tutoring, instruction and classroom management. The teacher candidate will identify and develop a focus, review the literature and explore the context for the action research project that will be implemented in the student teaching clinical experience. CR: EDUC 3340 & EDUC 3351

EDUC 4485 Action Research ........................................ 1 hr.
This course is taken concurrently with student teaching and consists of completing a capstone action research project. During the course, students will finalize a proposal for their project and implement their approved action research in the public school setting. At the completion of implementation, the teacher candidate will provide a final comprehensive analysis of the data, write and submit final reports, prepare and present the presentation of the project to peers and faculty. PR: EDUC 3365, CR: EDUC 4491 or EDUC 4496

EDUC 4486 Portfolio ............................................ 1 hr.
This course is taken concurrently with student teaching and consists of creating a five-part portfolio which showcases the students’ best work based on the WV Teaching Standards. There is an emphasis on authentic artifacts that show evidence that the student can collect and select standard-based artifacts, and reflect on his/her professional growth in order to improve teaching practice and student learning. The teacher candidates will present the portfolio to peers and faculty. PR: EDUC 3365, CR: EDUC 4491 or EDUC 4496

EDUC 4491 Elementary Student Teaching ............. 10 hrs.
Full-time involvement in the teaching/learning process in a Professional Development School/public elementary school setting at the PreK-4/PreK-6 level is required for successful completion of this course. Student teachers will observe, assist, teach and manage a classroom under the supervision of a host public school teacher and college liaison. PR EDUC 3365, CR: EDUC 4485 & EDUC 4486

EDUC 4496 Secondary Student Teaching ............... 10 hrs.
Full-time involvement in the teaching/learning process in a Professional Development School/public school setting at the PreK-Adult level is required for successful completion of this course. Student teachers will observe, assist, teach and manage a classroom under the supervision of a host public school teacher and college liaison. PR: EDUC 3365, CR: EDUC 4485 & EDUC 4486.

EDUC 4998 Undergraduate Research ....................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

ELECTRONICS ENGINEERING TECHNOLOGY

ELEC 1100 Circuit Analysis I....................................... 3 hrs.
Introduction to the concepts of voltage, current, resistance, capacitance and inductance. Also covered are Kirchoff’s Laws, with applications in basic DC-AC, series-parallel circuits. Basic electromechanical devices and transformers are studied. CR: MATH 1101 or 1115.

ELEC 1199 Special Topics in Electronics Engineering Technology ......................... 1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the department chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

ELEC 2200 Shop Practices ........................................... 3 hrs.
The student will learn to breadboard fundamental circuits, which is a building block for all subsequent lab based courses. Breadboarding will be accompanied with voltage, current, resistance measurements using a multimeter. An introduction to oscilloscopes and function generators is also included. Note: Extra costs are associated with this course, as the student will be purchasing equipment that will be used in several subsequent courses. CR: ELEC 1100.

ELEC 2210 Circuit Analysis II ...................................... 3 hrs.
Continuation of ELEC 100, including the theory and application of circuit analysis theorems. Also covered are nonsinusoidal waveforms, three-phase circuits and the use of computers in solving problems. PR: ELEC 1100, CR: MATH 1102.

ELEC 2215 Basic Transistors ....................................... 3 hrs.
Devices studied will include rectifiers, zeners, filters, bipolar transistors and field-effect transistors. The circuitry will include power supplies, the basic amplifier types, multistate amplifiers, power amplifiers, switching circuits and oscillators. PR: ELEC 2200. PR or CR: MATH 1102, ELEC 2210.

ELEC 2220 Linear Electronics ....................................... 3 hrs.
Study of the basic concepts of linear integrated circuits, including OP amps, regulators, comparators, timers and phase-locked loops. PR: ELEC 2210, 2215.
ELEC 2230  Digital Electronics ........................................ 3 hrs.
Theory and experimentation with SSI, MSI, and LSI devices and systems, including such basic components as gates, flip-flops, counters, decoders, timers, displays, memories, etc., and such systems as thermometers, tachometers, meters, etc. PR: ELEC 2210, ELEC 2215.

ELEC 2240  Industrial Electronics ............................... 3 hrs.
Study of the operation of industrial power control systems, including power devices and control circuits. Power devices covered include relays, contactors, transistors, SCRs and TRIACS. Control circuits include LUTs, PUTs, DIACs, photo-devices, timers and control ICs. PR: ELEC 2220, 2250.

ELEC 2250  AC-DC Machinery and Controls ..................... 3 hrs.
Practical aspects in the use and maintenance of AC-DC machinery and power distribution, including motors, generators, starters, speed controllers, breakers, transformers, etc. PR: ELEC 2220, MATH 1102.

ELEC 2260  Communication Systems ............................ 3 hrs.
Theory, operation, and maintenance of AVMA, FM, PM and digital communications systems. PR: ELEC 2220, 2230.

ELEC 2270  Microcomputers ........................................... 3 hrs.
Project based learning using the Parallax 80x85 microcontroller and the Boe-Bot. Students will learn by going through several guided activities and then develop their own projects based on the skills learned. PBASIC is the high level computer language used for programming. PR: ELEC 2230, COMP 1101.

ELEC 2280  Programmable Controllers ............................ 3 hrs.
An introduction to programmable controllers and their application to sequential process control. Topics include basic operating characteristics, relays, timers, counters, sequencers, editing and on-line data control. Practical laboratory experiences will be provided in controller applications, programming, installation and maintenance. PR: COMP 1101, ELEC 2230.

ELEC 3300  Advanced Linear Electronics ........................ 3 hrs.
Study of linear devices including OP, AMPS, comparators, PLLs, timers, audio ICs, voltage references and current references. The course will include analysis and design concepts for the circuits studied. PR: ELEC 2260, 2270, CR: TECH 3300 OR MATH 1186 or MATH 3315.

ELEC 3310  Advanced Microcomputer Systems .................. 3 hrs.
Continuation of ELEC 2270, using the Parallax propeller 8 core microcontroller. Students will work through guided activities, and then develop their own projects. The high level computer language used is Spin, which is an object oriented programming language. PR: ELEC 2270.

ELEC 4400  Senior Electronics Project ............................. 3 hrs.
Writing Intensive
Instructor-approved project integrating concepts from previous courses. This course will allow the student to pursue specialized interests and show that s/he can complete an individual project. Baccalaureate majors only. PR: ENGL 1108; ELEC 3300 and 3310. Instructor approval required.

ELEC 4410  Data Acquisition and Control Systems ............ 4 hrs.
Theory and use of data acquisition and control systems, including transducers, signal conditioning circuits, multiplexing, A/D and D/A converters, computers and control devices. Baccalaureate majors only. PR: ELEC 2240, and 3300.

ELEC 4998  Undergraduate Research ............................. 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

ENGLISH

ENGL 0092  S-C&TC Basic Reading and Study Skills .......... 3 hrs.
English 0092 emphasizes basic reading techniques and study skills necessary to succeed in college-level courses. It is recommended for students scoring below a 17 on the Reading portion of the ACT and 75 on the COMPASS test or who have difficulty with academic tasks in general. The course offers individualized and group instruction for college-level reading tasks, including word recognition, vocabulary and comprehension skills, and for study skills, including time management, textbook comprehension, note-taking, study techniques, and test preparation. Incoming basic literacy is assumed. Credit hours will not apply toward hours required for graduation.

ENGL 0097  S-C&TC Composition Skills ......................... 3 hrs.
English 0097 is required of ALL students scoring below an 18 on the English portion of the ACT, below 450 on the SAT (Critical Reading) verbal section, or below 71 on the writing portion of the COMPASS test. This computer-enhanced course focuses on improving skills in written composition to help students develop the skills necessary to earn a “C” or better in English 1104. The course emphasizes the generation of a series of multi-paragraph essays. According to state college system mandates, to earn a Credit in the class and move on to college-level writing, students must be able to write an essay that demonstrates the following characteristics:
- a central idea or thesis;
- an introduction/body/conclusion;
- paragraphs with topic sentences and supporting details;
- complete, grammatical sentences with some variety in syntax;
- appropriate word choice;
- clear flow of ideas from one part to another;
- proficient use of standard English punctuation and spelling.

This course offers institutional credit only. Credit hours will not apply toward hours required for graduation. This course must be completed in the first 32 hours of work in a student’s program of study.

ENGL 0098  S-C&TC Composition Skills Lab ................. 0 hrs.
This lab will be taken concurrently with a designated section of English 1104. This is a Credit/No-Credit course that fulfills requirements for English 0097 for students scoring between 60-70 on the English COMPASS exam or 17 on the English ACT. This computer-enhanced lab focuses on improving skills in written composition to help students develop the skills necessary to earn a “C” or better in English 1104. The lab emphasizes honing the necessary skills to generate multi-paragraph essays. According to state college system mandates, to earn a Credit in the lab, students must be able to write an essay that demonstrates the following:
- a central idea or thesis;
- an introduction/body/conclusion;
- paragraphs with topic sentences and supporting details;
- complete, grammatical sentences with some variety in syntax;
- appropriate word choice;
- clear flow of ideas from one part to another;
- proficient use of standard written English, punctuation, and spelling.

This course offers institutional credit only. Credit hours will not apply toward hours required for graduation. It must be taken concurrently with a designated section of English 1104, and be completed within the first 32 hours of work in a student’s program of study.

ENGL 1104  S-C&T C Written English I ....................... 3 hrs.
This course offers a process-oriented practice in drafting, revising, and editing texts. Students learn the principles of expository writing, thesis formulation, organization, paragraph development, audience analysis, appropriate diction, and sentence structure. The course also includes an introduction to reading for content in texts selected from across the disciplines. PR: Minimum scores of 18 (English) on the ACT, 450 on the SAT-Critical Reading, 71 on the COMPASS test,
or successful completion of an appropriate basic writing class (e.g., English 0097). NOTE: English 1104 is a prerequisite for enrollment in all other English courses. A "C" in English 1104 is a graduation requirement for all degrees.

ENGL 1108 S-FSU Written English II ......................... 3 hrs.
A continuation of Written English I that provides experience in analyzing and writing argument and persuasive prose. A central feature of the course is a library research project that is intended to develop familiarity with reference sources and skill in summarizing the diverse points of view of multiple sources. PR: A C or better in ENGL 1104. NOTE: the grade of "C" or better in ENGL 1104 and 1108 is a graduation requirement for all degrees.

ENGL 1109 S-C&TC Technical Report Writing .............. 3 hrs.
This course provides practice in writing expository documents and technical reports. In addition to scientific/technical reports and proposals, students also write business letters, memoranda, and other types of written communication common to the industrial and business worlds. PR: "C" or better in English 1104 (Written English I). A grade of "C" or better in English 1109 is required for graduation when English 1109 is required in the student's program of study.

ENGL 2007 Shakespeare Road Trip .............................. 1 hr.
The Shakespeare Road Trip provides students with a critical introduction to productions of plays by Shakespeare and others. Fees for tickets and travel expenses will apply. This course may be repeated for credit. PR: ENGL 1108.

ENGL 2220 S-FSU World Literature I: Origins to 1650 ......... 3 hrs.
A survey of literary masterpieces from around the world. Readings will include religious texts (such as the Bible, the Koran and the writings of Confucius); the epic (Gilgamesh, Homer and Dante); poetry (Li Po, Ovid and Petrarch); drama (Sophocles, Shakespeare and non-Western traditions such as Japanese Noh theater); and narrative fiction (tales from The Thousand and One Nights, The Tale of Genji and Don Quixote). PR: 1108 or 1109.

ENGL 2221 S-FSU World Literature II: 1650 to the Present .... 3 hrs.
English 2221 offers a study in literary masterpieces, some in translation, from around the world, including satire (works by authors such as Moliere, Swift and Voltaire); drama (K’ung Shan-Jen, Ibsen, Chekhov, and Al-Hakim); poetry (Basho, Keats, Dickinson, and Eliot); the short story (Flaubert, Ichiyo, Lu Xun, and Gordimer); and the novel (Tasuani, Achebe and Desai). PR: 1108 or 1109.

ENGL 2230 S-FSU Introduction to Literature I: Prose Narratives ............. 3 hrs.
A study of narrative art both in fictional forms (the short story, the novel, allegory) and non-fictional forms (autobiography, personal essay), with readings from many cultures within a world context, giving substantial exposure to important works written in the last 100 years and to those written by women and minorities. PR: 1108 or 1109.

ENGL 2231 S-FSU Introduction to Literature II: Poetry & Drama ............. 3 hrs.
A study of the forms and conventions of the genres through close reading, discussion, and written response. Students will survey representative works from fifth-century Athens to the most contemporary voices. Relevant exposure will be given to poems and plays by and about women and minorities. PR: 1108 or 1109.

ENGL 2251 Introduction to Literary Studies .................. 3 hrs.
An introduction to the formal study of literature focusing on reading and interpretation of texts from a variety of analytical approaches. The course highlights the wide range of literary critical methodologies and challenges students to articulate and reflect upon their own critical assumptions.

ENGL 3301 Theories of Language and their Application to English I............. 3 hrs.
This course covers the linguistic subjects of syntax, morphology, phonology, semantics and pragmatics, which provide concepts and techniques for understanding languages, with special emphasis upon English. Topics will include descriptive versus prescriptive grammar, dialect and register, synchronic and diachronic language variation, the history of English, language acquisition, the leading theories of language, language theory and the art of composition. Required of all prospective teachers of English; to be taken before Clinical III. PR: ENGL 1108.

ENGL 3302 Theories of Language and their Application to English II ......... 3 hrs.
Continuation of ENGL 3301, emphasizing practical applications to teaching writing and grammar in grades 5-12. Required of all prospective teachers of English; to be taken before Clinical III. PR: ENGL 3301.

ENGL 3303 Survey of Amer Lit I: Beginnings to the 1850s .................. 3 hrs.
Writing Intensive
A study of American literary traditions, from the poets, diarists and chroniclers of the seventeenth and eighteenth centuries to the writers of imaginative and autobiographical prose and poetry of the early/mid 1800s. PR: ENGL 2220.

ENGL 3304 Survey of Amer Lit II: The 1850s to the Present .................. 3 hrs.
Writing Intensive
A study of America’s literary traditions from the 1850s to the present, including the poets, “local color” writers, naturalists and realists of the late 1800s; the experimental poetry and fiction of the early 1900s; the major dramatists; and a large sampling of the writers from the last half of the century. PR: ENGL 2221.

ENGL 3313 Survey of British Literature I ......................... 3 hrs.
Writing Intensive
This course offers a study of British literature beginning with Beowulf and continuing through the eighteenth century, including Chaucer, Shakespeare, Donne, Milton, Swift, and Pope. Recent recovery of female writers such as Lanyer, Cavendish, Whitney, and Behn and scholarship on them is also reflected in the design of the course. PR: English 2220.

ENGL 3314 Survey of British Literature II ...................... 3 hrs.
Writing Intensive
This course offers a study of British literature from the early Romantic period through the present day, including such writers as Blake, Wordsworth, Austen, Tennyson, Dickens, Yeats, Shaw, Woolf, Joyce, Eliot, Beckett, and Auden. The purpose of this course is to give students an overview of the major literary and historical movements in Britain and its colonies in the last two hundred years, while introducing students to a basic vocabulary of literary terms and critical theory. PR: English 2221.

ENGL 3320 Literary Criticism ..................................... 3 hrs.
A study of past and present critical methods and of the theoretical assumptions upon which they are based. PR: ENGL 3303 or 3313.

ENGL 3332 Narrative and Descriptive Writing ................... 3 hrs.
Writing Intensive
Narrative and Descriptive Writing provides intensive practice in narrative and descriptive techniques in fictional, non-fictional, dramatic and poetic modes of writing. Utilizing a workshop format promotes reciprocity in the classroom between professor and students and among students. The course does not require experience in writing creatively but rather provides instruction and practice in the craft of writing. Students work in several creative modes for different audiences and purposes. PR: ENGL 1108.

ENGL 3333 Writing Non-Fiction .................................. 3 hrs.
Writing Intensive
Study and practice of the various kinds of expository writing. PR: ENGL 1108.

</table>

A study of the major texts in 20th-century British literature that reflect the cultural, social and literary issues of the time. Among the writers who may be studied are poets, from Yeats and Eliot to Heaney and Larkin, playwrights such as Beckett and Stoppard and fiction writers, from Joyce and Waugh to Fowles and Drabble. PR: ENGL 3314.

This course offers a study of the enduring accomplishments of the novelists of Europe, Latin America, and other regions. Novels to be read may include those of Cervantes in the 1600s, Voltaire and Goethe in the 1700s, Flaubert, Tolstoy, and Dostoevsky in the 1800s, and Kafka, Camus, Kundera, and Marquez in the 1900s. PR: ENGL 2220.

In this course we will study the evolving epic tradition, covering 4000+ years of history, and draw our reading selections from a wide range of places, cultures, and perspectives. Our focus will be on the canonical western tradition (Homer, Virgil, Milton, et al.) but we will also make forays into the literatures of the Near East, India, and Africa. PR: ENGL 2220 or ENGL 2221.

This course surveys Arthurian literature from its 12th-century origins to the present day. It will include analysis of the archaeological evidence for a historical Arthur, as well as the Celtic background from which the legends spring. PR: ENGL 1108.

This course focuses on the literary history, interpretation and genres of the Bible, as well as significant biblical tropes, metaphors and narratives. PR: ENGL 2220 or ENGL 2221 or ENGL 2230 or ENGL 2231.

This course is an analysis of the components and genres of oral folk literature through poetry (the folk song, ballad and instrumentation), narrative (myths, legends, folktales, fables, morals, anecdotes, personal narratives and other forms of folk narrative), and language (verbal lore, such as dialect/accents, beliefs and superstitions, proverbs, sayings, riddles and jokes) within the contextual process of perpetuation (storytelling) and preservation (collecting and documenting). Emphasis will be placed on the Appalachian cultural perspective. A field study will be part of the course. Also listed as FOLK 3300. PR: ENGL 2220.

A study of classic texts in women's literature, including such works as A Room of One's Own, "Tell Me A Riddle," Jane Eyre, Orlando, The Awakening and Adrienne Rich's work. Students will also study the works of such contemporary female writers as Caryl Churchill, Marilyne Robinson, Margaret Atwood, Gloria Naylor, Toni Morrison, Rachel Ingalls and Maxine Hong Kingston. PR: ENGL 2220 or ENGL 2221 or ENGL 2230 or ENGL 2231.

A study of a historical and critical study of significant British novels of the eighteenth, nineteenth, and twentieth centuries. PR: ENGL 3313 or 3314.

This course offers a study of the enduring accomplishments of the novelists of Europe, Latin America, and other regions. Novels to be read may include those of Cervantes in the 1600s, Voltaire and Goethe in the 1700s, Flaubert, Tolstoy, and Dostoevsky in the 1800s, and Kafka, Camus, Kundera, and Marquez in the 1900s. PR: ENGL 2220.

This course surveys Arthurian literature from its 12th-century origins to the present day. It will include analysis of the archaeological evidence for a historical Arthur, as well as the Celtic background from which the legends spring. PR: ENGL 1108.

This course offers a critical study of this art form based upon the work of authors from around the world. PR: ENGL 2221.

This course focuses on the literary history, interpretation and genres of the Bible, as well as significant biblical tropes, metaphors and narratives. PR: ENGL 2220 or ENGL 2221 or ENGL 2230 or ENGL 2231.

This course surveys Arthurian literature from its 12th-century origins to the present day. It will include analysis of the archaeological evidence for a historical Arthur, as well as the Celtic background from which the legends spring. PR: ENGL 1108.

In this course we will study the evolving epic tradition, covering 4000+ years of history, and draw our reading selections from a wide range of places, cultures, and perspectives. Our focus will be on the canonical western tradition (Homer, Virgil, Milton, et al.) but we will also make forays into the literatures of the Near East, India, and Africa. PR: ENGL 2220 or ENGL 2221.

This course surveys Arthurian literature from its 12th-century origins to the present day. It will include analysis of the archaeological evidence for a historical Arthur, as well as the Celtic background from which the legends spring. PR: ENGL 1108.

A cross-cultural study of cosmic myth, investigating explanations offered by various peoples to questions that have been asked since the dawn of time. The course includes mythological traditions such as Greco-Roman, Norse, Mesopotamian, African, Celtic, Indian, Chinese, South American and Native American. PR: ENGL 2220.

By comparing literary texts to cinematic versions of those texts, this class explores the differences between the modes of verbal and visual representation. The selection of texts will focus on an author or theme selected by the professor, such as Shakespeare, Jane Austen, London, the Western Hero, or Desiring Women. PR: ENGL 2220 or ENGL 2221 or ENGL 2230 or ENGL 2231.

Studies in special selected topics, to be determined by the instructor and approved by the chairperson. Credits earned will be applicable as free electives in degree and certificate programs. PR: ENGL 1108.

This advanced course will introduce English majors to the rigors of graduate-level work. The subject matter, which will vary, will be tightly focused on a specific area of study. Students will use advanced research skills and demonstrate a thorough understanding of the relevant scholarship in the field. Because the subject matter will change from semester to semester, this course may be taken more than once. PR: ENGL 3320.

Study and practice in the techniques of teaching the fundamentals of grammar, mechanics, composition and the varied types of literature, taken as part of the Initial Performance Practicum. PR: ENGL 3355 and 3374.

The student may conduct an independent investigation in any area of interest and represent the results in one or more research papers. Instructor approval required.

The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

This course provides the student with the necessary techniques and tools to evaluate the financial condition and operating performance of a modern business. It will cover the terminology of financial analysis, horizontal and vertical analysis, financial ratios, pro-forma statements, funds flow analysis, break-even analysis and other analytical tools. PR: ENGL 1108, FINC 2201, BISM 2200.

Advanced course is designed to extend the coverage of the field of corporate finance, with emphasis on capital budgeting, risk, capital structure and dividend policy and financing decisions. Special topics covered will include mergers and acquisitions, financial distress and international corporate finance. PR: BUSN 3310, FINC 3385, FINC 3350.

This course is designed to enable students to master the concepts and techniques of corporate finance using PC applications. The course will be taught in the computer lab, making extensive use of spreadsheet models and templates. The effect of policy will be measured and analyzed, and problems solved through the use of multiple case studies. Topics to be covered include financial analysis, financial forecasting and planning, capital budgeting and cost of capital. PR: BISM 1200, FINC 4410.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

This course is an introduction to conceptual foundations in folklore, such as its social base, tradition, folklore and cultural history, folklore as projection, genre, function, structure, text and context, through a historical and philosophical survey of approaches to folklore topics. Emphasis will be placed on the Appalachian cultural perspective. A field study lab of one hour will accompany this course.

This lab must be taken along with Introduction to Folklore before any of the other courses in the program. It is a study of the theories, techniques and procedures of field research as they apply to all folk study genres, along with the legal and ethical considerations, uses and planning of local oral history projects.

This course is an analysis of the broad field of oral folklife through poetry (the folk song, ballad and instrumentation), narrative (myths, legends, folktales, fables, morals, anecdotes, personal narratives and other forms of folk narrative), and language (verbal lore, such as dialect/accent, beliefs and superstitions, proverbs, sayings, riddles and jokes) within the contextual process of perpetuation (storytelling) and preservation (collecting and
FOLK 3301 Material Culture..................................................3 hrs.
A study of the tangible evidence of civilization, through the perspective of the Appalachian culture. Material culture is presented within the context of folk life and traditional craftsmanship, including crafts, art, traditional foodways, clothing, tools and technology. Students will examine the study of material folk culture from various methodological and theoretical perspectives, including artifactual analysis and fieldwork.

FOLK 3302 Regional Cultural Geography and History .................................................3 hrs.
A study of regional personality through the relationship and attitudes of people to land and land use, along with migration patterns, archaeological perspectives, behavior and popular customs. In a field study, archival techniques and research will be examined.

FOLK 3320 The Art of Storytelling in Theory and Practice ..............................................3 hrs.
The emphasis of the course will be on both the theory and research related to storytelling and the art of storytelling as performance. In this performance-based course, students will select, craft, rehearse and perform stories suitable to a variety of audiences. Students enrolled in this course are required to attend the National Storytelling Festival in Jonesborough, Tennessee. Also listed as THEA 3320 and COMM 3320.

FOLK 3350 Roads to Appalachia Study Abroad ........................3 hrs.
"Roads to Appalachia Study Abroad" is one of our primary educational programs that offers college students, educators, and community members opportunities to study and travel to parts of the world from which the populations of Central Appalachia has taken its cultural roots. "Roads to Appalachia" has featured research, study, and travel to such areas as Scotland and Ireland, Italy, England and Wales, Eastern Europe, and the Germanic Regions of Belgium/Southern Germany/Northern Switzerland. "Roads to Appalachia Study Abroad, FOLK 3350, is a course designed to support an approximate two-week travel study to a selected cultural region. The course will study the historical and cultural context, geographical / geological and natural features, architectural landmarks and historical monuments, regions and cities, museums and galleries. Cultural and historical awareness (classical and traditional) will be emphasized through the study of the selected countries' folklore / folk life; regional, social, political, and religious history; geography, folk arts and crafts; costumes and dress; traditional life living museums; sources of the folk tales; architecture; traditional food; and folk music (song, instruments, and dance). Study will rely on texts, films, guided discussions, guest lectures, culinary tastings, and student research and presentations.

FOLK 4400 Directed Folklore Study ..............................................3-6 hrs.
This course provides intensive study, reading, and research of a folklore topic selected by a student with an opportunity to mentor with a specialist in the field. Topics will be interdisciplinary, such as the following: Appalachian (Regional/Written) Literature, Ethnography and Process of Storytelling, Urban and Popular Culture, Children’s Folklore, Traditional Folk Music (Vocal and Instrumental), Appalachian African-American Lore, Rural Education, Arthurian Legend: Comparative Folk Literature Study, and Vintage Clothing Preservation. Note: If an existing course is available on campus reflecting any of these topics, a student may opt to take it, with the approval of the Folklore Studies advisor. The West Virginia Folklife Center at Fairmont State and the Folklore Studies advisor will also help students to network with specialists in the community. This course is for seniors only.

FOLK 4401 Folklore Applications ..................................................3 hrs.
An analysis of the various areas of folklore application, ranging from teaching/pedagogy, museum interpretations, and publications to the care, interpretation and presentation of artifacts. An internship and/or individual project will conclude the course. PR: All other courses in the minor program. This course is for seniors only.

FOLK 4998 Undergraduate Research ..............................................0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

FOOD SERVICE MANAGEMENT

FOSM 1100 ServSafe® ........................................................................1 hr.
Students will master multiple modules relating to topics on food service sanitation. Upon completion of the course, students will be prepared to successfully take the ServSafe® exam.

FOSM 1110 S-C & TC Nutrition ..........................................................3 hrs.
This course is a study of the nutrients, their sources, and their relationship to body functions. Each stage of the life cycle will be studied as it relates to changing nutritional requirements for individuals and family groups of varying cultural and economic levels. Students will evaluate their daily nutritional intake against recommended daily allowances.

FOSM 1119 Intro to the Food Service and Hospitality Industry ......................3 hrs.
This course is an overview of all aspects of the hotel, foodservice, restaurant, and travel and tourism businesses, including operations, marketing, and sales. Trends in this rapidly changing industry will be stressed.

FOSM 1120 Nutrition in Childhood & Adolescence ........................................3 hrs.
This course will provide an overview of basic nutrition as well as nutrient standards used to evaluate nutrition status among Americans. Specific focus will include nutrition needs from pre-pregnancy through adolescence. Students will evaluate the new dietary guidelines and food pyramid system and complete a menu planning assignment and a computer-aided diet analysis for an individual between the ages of 2-18.

FOSM 1121 Food Service Facilities & Equipment ........................................3 hrs.
The emphasis is on food service equipment selection and layout in relation to production and workflow. Specifications, energy sources, use and care of food service equipment will be included in the course. Students will demonstrate the utilization and care of selected food service equipment in a laboratory setting.

FOSM 1122 Safety & Sanitation ..................................................................2 hrs.
This course is a look at the latest information in the science of food safety along with appropriate principles to maintain food safety in an operation and to protect against food borne illness. This course incorporates the National Restaurant Association’s certification curriculum. Students completing the final certification exam with a minimum score of 75% will be issued a certificate of completion.

FOSM 1130 Basic Baking ..................................................................3 hrs.
This course applies the fundamentals of the baking science to the preparation of a variety of pastry and baking products. Will include the use and care of equipment normally found in a bakeshop or baking area. PR or CR: FOSM 1121, FOSM 1100 or FOSM 1122. Majors only.

FOSM 1140 Food Service Cost Analysis and Management .......................3 hrs.
This course will enable students to perform basic cost analysis related to food service operations. The student will perform calculations associated with food costs, labor costs, menu pricing, and other pertinent management functions.
FOSM 1150  Sports Nutrition .................................3 hrs.
This course will provide an introduction to sports nutrition including definitions of sports nutrition and general nutrition concepts, a review of digestion and energy metabolism, a thorough explanation of macronutrients, micronutrients, and water as they relate to athletic performance. The course will also review the most current research as it relates to the energy systems and specific nutrition needs of athletes in three categories - endurance, strength/ power, and team sports.

FOSM 1155  Cafeteria Management in Schools ..............3 hrs.
This course will provide an overview of basic child nutrition operations as well as managerial skills and knowledge of managing child nutrition programs. Course outcomes will equip cafeteria managers with the necessary knowledge, skills and work practices to positively impact their programs and improve work practices to support program changes that address the many health issues confronting our children. PR: Successful completion of the Cafeteria Manager’s Institute (a 3-day training session provided by the WVDE) is required as a prerequisite to enrollment.

FOSM 1189  Guided Experience I ............................VAR 1-4 hrs.
This course will be a guided experience for community college students to explore topics of interest in their field through research, field experience, presentation, computer applications, lab experience, or other project agreed upon between the student and the supervising faculty and is submitted to the dean in a written contract. Credits earned may be applied as free electives in degree or certificate programs. May be repeated for up to 4 hours. Instructor approval required.

FOSM 1199  Special Topics in Food Service ..................1-12 hrs.
Special topics will be studied, to be determined by the instructor and approved by the school’s dean. Credits earned will be applicable as free electives in degree and certificate programs.

FOSM 2200  Introduction to Foods ............................3 hrs.
This course is a study in the selection, storage, preparation, and presentation of food. This three credit hour course will investigate each of the following categories of food and apply knowledge gained to laboratory applications: Milk & Dairy Products; Meat, Poultry & Shellfish; Fruits & Vegetables; Grains & Starches; Breads; Desserts; & Beverages. Emphasis will be placed on meal planning, food safety, nutrient value, and quality in taste and appearance.

FOSM 2201  Principles of Food Selection & Preparation .........3 hrs.
This course provides a study of the selection, storage, preparation, and presentation of food. Students will investigate each of the following categories of food and apply knowledge gained to practical applications in the laboratory setting: Stocks and sauces, soups, meat and game, poultry and game birds, fish and shellfish, vegetables, potatoes and starches, salads and salad dressings, sandwiches, breakfast preparation, and dairy products. Emphasis will be placed on ensuring food safety, nutrient value, and quality in taste and appearance. FOSM majors only. PR: To be taken concurrently with FOSM 2203.

FOSM 2202  S-C&TC Principles of Quantity Food Production .................3 hrs.
Principles and techniques of quantity food preparation will be covered. Emphasis will be given to menu planning, use of standardized recipes, and quantity food production techniques. PR: FOSM 2201. To be taken concurrently with FOSM 2204.

FOSM 2203  S-C&TC Principles of Food Selection & Preparation Lab ........................................ 1 hr.
Students will apply basic principles of food selection and preparation in a controlled lab setting. Labs will include application of basic food science and food evaluation techniques. PR or CR: FOSM 1121, FOSM 1100 or FOSM 1122. Course must be taken with FOSM 2201. Majors only.

FOSM 2204  S-C&TC Principles of Quantity Food Production Lab .................................1 hr.
Students will apply principles and methods of quantity food production using institutional equipment and evaluate food with consideration given to quality control and cost control. PR or CR: FOSM 2203. Must be taken with FOSM 2202. Majors only.

FOSM 2209  Food Specialties - Garde Manger II ................3 hrs.
This course is the advanced garde manger techniques including aspic pates, sauces, terrines, and garnishes. The manipulation of special tools used in this type of food preparation is stressed. Buffet table arrangement, food display, and organization are studied. PR: FOSM 2203. Majors only.

FOSM 2210  Culinary Competitions ................................1-12 hrs.
Students will produce innovative, competition quality food. Students will use advanced culinary techniques to showcase their creations for constructive critique. Students should expect to practice on their own a minimum of two hours for every one hour in class. PR or CR: FOSM 2203. Majors only.

FOSM 2220  S-C&TC Diet Therapy ...............................3 hrs.
This course discusses the nutritional needs of different age groups, the special nutritional requirements in various diseases and the planning of menus to meet these various nutritional needs. PR: FOSM 1110.

FOSM 2224  Purchasing and Receiving ...........................3 hrs.
Includes factors to consider in selecting, purchasing, receiving, and storing various foods. Emphasis is given to the development of purchasing policies, procedures, inventory control and storage. Computer application is included in the course.

FOSM 2225  Resort & Hotel Management ........................3 hrs.
Students will study four primary areas of the resort and hotel lodging businesses; service and guest services, housekeeping, catering and banquet operations. Students will focus on the revenue and cost centers associated with hotel industry. Emphasis will also be placed on management of rooms, food and beverage, marketing, engineering, accounting, human resources, and security.

FOSM 2227  Food and Beverage Merchandising ...............3 hrs.
This course discusses catering for different types of social functions, dining room arrangement, and service to gain customer satisfaction. It also deals with purchase specifications, management and quality as applied to tableware, furnishing, equipment, and supplies.

FOSM 2228  Food Service Organization and Management ........3 hrs.
The students will analyze the organization and management of various types of food service programs. Special emphasis is placed on personnel, operating systems, budgeting, purchasing, work schedules, and supervision.

FOSM 2230  Advanced Baking ....................................3 hrs.
Students will develop skills in advanced baking techniques, bread making, pastries, and cake decorating. The class will also include information on the corollary business aspects, such as calculating size and determining costs. PR or CR: FOSM 1130. Majors only.

FOSM 2232  Pastry & Confections ..............................3 hrs.
Students will develop skills in advanced decorating techniques and more complex preparations of pastry, confections, and dessert products. Students will also be introduced to candy, pastillage, sugar, and chocolate work. PR: FOSM 1130. Majors only.

FOSM 2250  Applications in Community & Medical Nutrition ...............................3 hrs.
This course will provide students with methods and practices necessary to access nutritional needs in client-centered dietetic systems and community-oriented nutrition programs. Students will apply nutrition knowledge to the following: patient education, screening for nutritional risk, determining nutrient requirements
across the lifespan, translating nutritional needs into food and menu choices, calculating body composition, and calculating diets for specific health conditions. PR: FOSM 2220.

FOSM 2255 Management & Regulation of Child Nutrition Programs in Schools ......................... 3 hrs.

This course will provide knowledge and application practices related to management principles, regulatory requirements, best practices, and current issues related to school nutrition programs. The following aspects of school nutrition program management will be covered: menu planning, procurement, financial management and accountability, food production, record keeping, food safety, training and nutrition education. Management practices will be incorporated throughout the class. PR: Successful completion of a 4-day session seminar provided by the WVDE is required as a prerequisite to enrollment. Seminar sessions will consist of lectures and program applications delivered by state-level coordinators, topical concurrent sessions related to course outcomes, activities and resources. Students will fulfill remaining course requirements through on-site application assignments.

FOSM 2260 Seminar in Dietary Management .......... 2 hrs.

This course will focus on the dietary management profession by looking at legal issues, professionalism, certification and licensing, preparation of resume, etc. PR: Special Approval. FOSM majors only.

FOSM 2289 Guided Experience II .......................... VAR 1-4 hrs.

This course will be an advanced guided experience for community college students to explore topics of interest in their field through research, field experience, presentation, computer applications, lab experience, or other project agreed upon between the student and the supervising faculty. The course is designed to engage students in the scientific study of collecting and analyzing physical evidence. The course will focus on the dietary management profession by looking at legal issues, professionalism, certification and licensing, preparation of resume, etc. PR: Special Approval. FOSM majors only.

FOSM 2299 Food Service Practicum .......................... 2-15 hrs.

A supervised work experience conducted in an assigned food service operation. Course may be repeated for up to 15 hours of credit based on emphasis area. Capstone course.

FREN 1101 S-FSU Elementary French I .................. 3 hrs.

This introductory course covers pronunciation, oral comprehension and speaking, reading and written drill and composition and elements of grammar. Laboratory.

FREN 1102 S-FSU Elementary French II .................. 3 hrs.

Continuation of 1101, completing the basic grammatical principles. PR: FREN 1101.

FREN 1199 Special Topics in French ...................... 1-12 hrs.

Studies in special selected topics, to be determined by the instructor and approved by the chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

FREN 2201 S-FSU Intermediate French I .................. 3 hrs.

A course designed to reinforce and increase knowledge of vocabulary and grammar. The course consists of extensive reading, review of grammar and continued attention to pronunciation and speaking. Engaging reading materials, such as short stories, are emphasized. Laboratory. PR: FREN 1102.

FREN 2202 S-FSU Intermediate French II ............... 3 hrs.

The continuation of FREN 2201. PR: 2201.

FREN 2220 Intermediate Topics in French ............... 3 hrs.

A diversified study of the daily life and environment of present-day France and French-speaking peoples, placed in relation to the language. Emphasis is on a realistic, practical approach to language use. Work is individualized to fit the language-level and interest of the student.

FREN 3310 Advanced Topics in French ................. 3 hrs.

Supervised independent study reflecting the student's needs and interests.

FREN 3311 French Composition and Conversation I ................. 3 hrs.

This course covers writing, conversation and aural comprehension, with extensive use of audio-visual aids. Emphasis on practical proficiency, grammar, vocabulary building, and phonetics. PR: FREN 2202.

FREN 3312 French Composition and Conversation II ................ 3 hrs.

Parallel course to FREN 3311, with content emphasizing French civilization and culture. PR: FREN 2202 or equivalent. Note: 3311 and 3312 may be taken in any order.

FREN 3314 French Civilization and Culture ................ 3 hrs.

A study of France’s basic historical development and significant contributions to civilization, its outstanding figures, its geography, traditions, contemporary social patterns, legends, songs, and

CRIMINAL JUSTICE, BIOLOGY, CHEMISTRY, MATHEMATICS AND PHYSICS COURSES

FORS 2201 Introduction to Forensic Science ........... 4 hrs.

This activities-based course is designed to engage students in the scientific study of collecting and analyzing physical evidence. Students will be involved in 3 hours of lecture/discussion and a 3 hr lab session each week. Students will experience a variety of comparison science procedures to analyze such things as fingerprints, blood, ink, soils, textiles, glass, drugs, tool marks, and ballistics. The culminating experience will engage students in solving a mock crime using techniques learned during the course. PR: CHEM 2220, BIOL 1106. Fall semester only.

FORS 2225 Forensic Microscopy and Spectroscopy .... 3 hrs.

This course is an introduction to the microscopy and spectroscopic techniques employed by forensic scientists to analyze trace evidence including hairs, fibers, paint chips, glass fragments, etc. The course will consist of two hours of classroom instruction and two hours of laboratory each week. PR: CHEM 2200, MATH 1115 or higher. Spring semester of even years.

FORS 4401 Capstone Seminar in Forensic Science ....... 3 hrs.

Designed to help students synthesize and apply, in a forensic science context, the approaches, knowledge and skills acquired in forensic science, criminal justice, biology, chemistry, mathematics and physics courses. The course structure consists of student-driven case studies and discussions from recent literature, student presentations describing internship experiences and an explicit formal introduction to established professional and laboratory practices in forensic sciences, including ethics. PR: INTR 4411.

FORS 4411 Forensic Science Internship ..................... 2 hrs.

This course provides a practical experience for junior or senior forensic science majors who are planning on careers in forensic science or related fields. The internship program offers the student an opportunity for observation of practitioners at work, as well as involvement in the day-to-day operation of a forensic science agency. Students participate in guided observation and activities and complete a reflection paper and log of the internship hours as well as other course requirements. Students will be engaged for a minimum of 85 hours with the participating agency that has been approved by the Forensic Science Program Coordinator. PR: Junior status or Senior status.
influence on the United States. The instructional method emphasizes French conversation and extensive use of tapes, slides, and motion pictures. PR: FREN 2202.

FREN 3321 Contemporary Literature ......................... 3 hrs.
This course focuses on outstanding writers of the twentieth century, such as Camus, Ionesco, Proust and Sartre. Emphasis is on reading comprehension. PR: FREN 2202.

FREN 4411 Advanced French Composition and Conversation .............................................. 3 hrs.
Writing Intensive
In this course, students will develop writing and conversational skills and aural comprehension on an advanced level, with extensive use of audio-visual aids. Emphasis is on attaining a high level of proficiency in grammar, vocabulary and pronunciation. This should be taken as late as possible in the sequence of courses. PR: ENGL 1108, FREN 3312.

FREN 4426 Main Currents of French Literature and Culture ............................................. 3 hrs.
A coordinated study of French literature and culture from a thematic and unitary standpoint. The main and unique currents of French contribution to cultural civilization are distinguished. Texts are taken from the Middle Ages to the Modern period, with selections from all genres. PR: FREN 2202.

FREN 4431 Methods and Materials in Teaching French ...................................................... 3 hrs.
Study and practice in teaching French language and literature, grades 5-Adult.

FREN 4998 Undergraduate Research ..................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

GEOGRAPHY

GEOG 1199 Special Topics in Geography .................. 1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

GEOG 2210 S-FSU Introduction to Geography .......... 3 hrs.
An introduction to the physical and cultural elements of geography, with a study of major geographical regions of the world.

GEOG 3305 Economic Geography .............................. 3 hrs.
A geographic study of the production, consumption and exchange of goods by people throughout the world. Consideration is also given to spatial variations and influences of the natural environment and culture.

GEOG 3315 Urban Geography ................................ 3 hrs.
A study of urbanization process, including origin, growth, function, spatial patterns, structure and hierarchical arrangement of urban centers. Students will also examine urban problems, with special references to American cities.

GEOG 3330 Geography of North America ............... 3 hrs.
A course in regional economic geography, primarily of the United States and Canada, from the standpoint of humanities activities in relation to their natural surroundings and resources.

GEOG 3340 Geography of Europe .............................. 3 hrs.
A study of the important geographic concepts concerning man’s activities in Europe and their importance to the United States and the rest of the world. A general overview will be made of Soviet European geography.

GEOG 3370 Geography of Asia ................................. 3 hrs.
The study of Asia for the purpose of understanding the various Asian nations, their economic-geographic regions, major commodities, industry, commerce and major problems.

GEOG 3399 Maps and Diagrams ............................. 3 hrs.
This course covers the application of statistical data through different kinds of diagrams, such as bar, pie, ring, and block diagrams and graphs; the preparation and understanding of maps and introduction to the application of computers for maps and diagrams.

GEOL 1101 S-FSU Physical Geology ....................... 4 hrs.
This course is an introductory study of the materials, structures and forces in the earth. Topics include weathering, hydrology, glaciers, earthquakes, landslides, and volcanoes; students will also examine the physical and chemical processes that contribute to the earth's changing form and shape. Both surface and internal processes are covered, with emphasis on the interaction between these processes, including the theory of plate tectonics. Three hours of lecture and two hours of lab per week. Lab includes field trips.

GEOL 1102 S-FSU Historical Geology ..................... 4 hrs.
An introduction to the history of the earth from its origins to the present day. The evolution of the earth's oceans, ocean basins, atmosphere and life forms are also studied. The study of past life and continental position in geologic time is based on the interpretation of fossils, rocks, continental drift and plate tectonics. Three hours of lecture and two hours of lab per week. Lab includes field trips. PR: GEOL 1101.

GEOL 1103 S-FSU Introduction to Environmental Geology ............................................. 4 hrs.
This course explores the practical application of elementary geologic principles to everyday environmental problems. It also covers hazardous earth processes, including landslides, volcanoes, and earthquakes, as well as geologic aspects of human-induced problems such as mining, mineral production, subterranean waste disposal, and water and land use. Three hours of lecture and two hours of lab per week. Lab includes field trips. PR: GEOL 1101.

GEOL 1199 Special Topics in Geology ..................... 1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the department chair. Credits earned will be applicable as free electives in degree and certificate programs.

GRAPHICS TECHNOLOGY

GRAP 1100  S-C&TC Graphics Communications Processes ............................................. 3 hrs.
An introduction to and a survey of the discipline of graphics design and technology. The topics include a survey of the graphics industry, the knowledge base and history of graphic design, and an examination of graphics technologies and careers as well as an overview of available resources for study and research in computer graphics.

GRAP 1125 Multimedia Concepts ............................ 3 hrs.
Basic techniques of computer presentation and multimedia will be covered. Students will use introductory software for the creation of digital animation, motion, and multimedia. Activities include exercises using Microsoft PowerPoint, Apple QuickTime, and still and motion digital video capturing.

<td>VAR 1-4 hrs.</td>
<td>This course will be an advanced guided experience for community college students to explore topics of interest in their field through research, field experience, presentation, computer applications, lab experience, or other project agreed upon between the student and the supervising faculty and is submitted to the dean in a written contract. Credits earned may be applied as free electives in degree or certificate programs. May be repeated for up to 4 hours. Instructor approval required.</td>
</tr>
<tr>
<td>GRAP 2290</td>
<td>S-C&amp;TC Image Editing</td>
<td>3 hrs.</td>
<td>Students will learn the properties of various digital image files and their use in both internet and print applications. Using an industry standard image editing program, students will learn various image manipulation techniques. Copyright issues, ethical usage of images on the Web, and explanation of the different resolution requirements between Web and print images will also be discussed. PR: GRAP 1150.</td>
</tr>
<tr>
<td>GRAP 2299</td>
<td>Special Topics</td>
<td>1-12 hrs.</td>
<td>This course will provide an opportunity for students to further their study of principles and concepts in the field and to apply their knowledge in a variety of applications both in the traditional classroom setting and in work/job related experiences. The class will be an individualized, arranged course, with learning outcomes determined by the instructor in consultation with the student and permission of the school’s dean.</td>
</tr>
<tr>
<td>GRAP 2995</td>
<td>S-C&amp;TC Graphics Practicum</td>
<td>3 hrs.</td>
<td>This is a capstone course in which the student participates in an internship in the graphics field with a cooperating business. Capstone internships consist of a minimum of 10 hours of service per week or a total of 150 hours. Students must have completed a minimum of 45 hours of course work and the internship must be approved by the course instructor and department coordinator before registering. In addition to the hours of service, daily work logs, participation in online discussions and an 8-10 page final written report as well as an oral presentation approved by the instructor are required. PR: Instructor permission. Capstone course.</td>
</tr>
<tr>
<td>GRAP 3330</td>
<td>Branding and Identity Design</td>
<td>3 hrs.</td>
<td>Through lectures, demonstrations and studio work students are introduced to all aspects of Branding and Identity design from its historical precedents to its current use. Creative thinking is encouraged, along with prescribed techniques and media. Course activities include Branding and Identity Design projects. PR: OFAD 2250.</td>
</tr>
<tr>
<td>GRAP 3336</td>
<td>Motion Graphics</td>
<td>3 hrs.</td>
<td>This course introduces the fundamentals of motion graphics, including graphics and promos for television networks and film titles and logos for advertising. The focus is on design presentation and development, screen composition, graphic transitions, typography, and content. PR: GRAP 2230.</td>
</tr>
<tr>
<td>GRAP 3370</td>
<td>Career and Portfolio Development</td>
<td>3 hrs.</td>
<td>This course explores the dynamics involved in the preparation of a professional portfolio for employment of for transfer to another course of study; emphasizes revision, discussion, and analysis of student work under consideration for inclusion into the portfolio. This course includes interview preparation.</td>
</tr>
<tr>
<td>GRAP 4410</td>
<td>Advanced Topics in Graphics</td>
<td>3 hrs.</td>
<td>Writing Intensive This self-paced course is an opportunity to investigate and produce a senior project in a field not included in the regular listing of graphic communications courses, or in greater depth in an area currently offered. Baccalaureate majors only. PR: ENGL 1108. Instructor approval required.</td>

</table>
HEALTH EDUCATION

HLTA 1100  S-FSU Personal Health ............................. 2 hrs.
This course examines the meaning and significance of the physical, mental, social and environmental factors of health and safety as related to the individual and to society. Students will focus on important phases of related national problems, with an emphasis on college students and their current needs.

HLTA 1150  S-FSU Introduction to Health Education ............................. 3 hrs.
This course provides an in-depth study of the varied content areas relating to health, contemporary health problems and reciprocal relationships involving man, disease and the environment focusing on developing the future health professional's ability to meaningfully convey it. Students will explore the significance of the physical, intellectual, social, emotional, spiritual, and environmental domains of health.

HLTA 1199 Special Topics in Health ............................. 1-12 hrs.
Special topics will be studied, to be determined by the instructor and approved by the School's chairman. Credits earned will be applicable as free electives in degree and certificate programs.

HLTA 2202 Community and Environmental Health ............................. 3 hrs.
This course focuses on current environmental health issues such as population dynamics and interventions designed to modify the environment in order to improve human health in schools and communities as well as the impact of humans on their environment. An examination of the ramifications of decisions regarding management of environmental resources (i.e. air, water, forests, etc.), their impact on quality of life and the role of organizations/governmental agencies involved with pollution control will be undertaken.

HLTA 2203 Contemporary and Drug Behavior Issues ............................. 3 hrs.
This course covers the identification, analysis, and evaluation of the most critical health problems confronting our society, including drug abuse and addiction. Writing Intensive.

HLTA 2210 Disease Etiology ............................. 3 hrs.
This course is designed to provide students with knowledge about causes of disease and relationship to health. Disease types, diagnosis, methods of transmission, prevention, and treatment will be introduced. PR: HLTA 1150, FOSM 1120 or FOSM 1110.

HLTA 3310 School Health Content, Curricula & Programming ............................. 3 hrs.
This course facilitates development of health education lesson building skills based on sound curricular design, contemporary needs and issues. Health education's diverse pedagogical content areas will be investigated; instructional strategies will be rehearsed. Development and expansion of students' professional health education teaching philosophy will include the impact of Coordinated School Health Program implementation in the school setting. PR: HLTA 2202, HLTA 2210, and Admission to Teacher Education.

HLTA 3315 Healthy Sexuality ............................. 3 hrs.
This course is designed to help students examine the many facets of human sexuality including the design and physiology of the human reproductive systems and the biological and emotional motivations associated with the sexual aspects of life. Learning opportunities will require students to consider the sociological factors involved in defining and adopting sex-roles, there relationship and impact on marriage and family planning, and trends, issues, and content necessary to effectively evaluate and utilize sexuality education methods and materials. PR: HLTA 1150, sophomore standing or instructor approval.

HLTA 3320 Behavior Change Theory ............................. 3 hrs.
Students in this course will examine theories, models, and constructs related to personal, environmental, and population-based health risk and health enhancing behaviors. PR: HLTA 2210.

HEALTH CAREERS

HLTA 1100  S-C&TC Medical Terminology ............................. 3 hrs.
This course is a study of the structure of medical words and terms. Emphasis is placed on spelling and defining commonly used prefixes, suffixes, root words, and their combining forms. Anatomy and physiology terms as they relate to the root words, combining forms, prefixes, and suffixes are stressed. Terminology and medical abbreviations relating to several allied health occupations acquaints students with an overview of the medical language. This course is offered as an online course as well as the traditional classroom.

HLTA 1170 Human Anatomy and Physiology ............................. 3 hrs.
A single semester examination of the architecture and function of cells, tissues, organs, and organ systems of the human being. This examination will include an intensive and detailed study of the integumentary, skeletal, muscular, cardiovascular, lymphatic, digestive, respiratory, urinary, nervous, reproductive, and endocrine systems as well as their interactions with each other. Three hours lecture per week.

HLTA 1171 Human Anatomy and Physiology Laboratory ............................. 1 hr.
Complementary to HLTA 1170, the laboratory focuses on the anatomical study of the human form, including microscopic examination of cells and tissues, and gross examination of organs and organ systems (skeleton, muscles, blood vessels, nerves, and internal organs). Physiological exercises are also included, such as real-time examination of electrocardiograms, heart sounds, peripheral circulation, blood pressure, reflexes, electromyograms, electroencephalograms, lung volume, and breathing patterns, to supplement the material covered in HLTA 1170. Prerequisite or corequisite: HLTA 1170.

HEALTH EDUCATION

HLTA 1100 S-FSU Personal Health ............................. 2 hrs.
This course examines the meaning and significance of the physical, mental, social and environmental factors of health and safety as related to the individual and to society. Students will focus on important phases of related national problems, with an emphasis on college students and their current needs.

HLTA 1150 S-FSU Introduction to Health Education ............................. 3 hrs.
This course provides an in-depth study of the varied content areas relating to health, contemporary health problems and reciprocal relationships involving man, disease and the environment focusing on developing the future health professional's ability to meaningfully convey it. Students will explore the significance of the physical, intellectual, social, emotional, spiritual, and environmental domains of health.

HLTA 1199 Special Topics in Health ............................. 1-12 hrs.
Special topics will be studied, to be determined by the instructor and approved by the School's chairman. Credits earned will be applicable as free electives in degree and certificate programs.

HLTA 2202 Community and Environmental Health ............................. 3 hrs.
This course focuses on current environmental health issues such as population dynamics and interventions designed to modify the environment in order to improve human health in schools and communities as well as the impact of humans on their environment. An examination of the ramifications of decisions regarding management of environmental resources (i.e. air, water, forests, etc.), their impact on quality of life and the role of organizations/governmental agencies involved with pollution control will be undertaken.

HLTA 2203 Contemporary and Drug Behavior Issues ............................. 3 hrs.
This course covers the identification, analysis, and evaluation of the most critical health problems confronting our society, including drug abuse and addiction. Writing Intensive.

HLTA 2210 Disease Etiology ............................. 3 hrs.
This course is designed to provide students with knowledge about causes of disease and relationship to health. Disease types, diagnosis, methods of transmission, prevention, and treatment will be introduced. PR: HLTA 1150, FOSM 1120 or FOSM 1110.

HLTA 3310 School Health Content, Curricula & Programming ............................. 3 hrs.
This course facilitates development of health education lesson building skills based on sound curricular design, contemporary needs and issues. Health education’s diverse pedagogical content areas will be investigated; instructional strategies will be rehearsed. Development and expansion of students’ professional health education teaching philosophy will include the impact of Coordinated School Health Program implementation in the school setting. PR: HLTA 2202, HLTA 2210, and Admission to Teacher Education.

HLTA 3315 Healthy Sexuality ............................. 3 hrs.
This course is designed to help students examine the many facets of human sexuality including the design and physiology of the human reproductive systems and the biological and emotional motivations associated with the sexual aspects of life. Learning opportunities will require students to consider the sociological factors involved in defining and adopting sex-roles, there relationship and impact on marriage and family planning, and trends, issues, and content necessary to effectively evaluate and utilize sexuality education methods and materials. PR: HLTA 1150, sophomore standing or instructor approval.

HLTA 3320 Behavior Change Theory ............................. 3 hrs.
Students in this course will examine theories, models, and constructs related to personal, environmental, and population-based health risk and health enhancing behaviors. PR: HLTA 2210.
HLTA 4450 Field Practicum in Public Health..........................4 hrs.

Provides experience in field practice in public health for one semester under supervision of public health professionals. Spring only.

HLTA 4998 Undergraduate Research.........................0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

HISTORY

HIST 1107 S-FSU United States History I .................3 hrs.

Examines the major developments in American history, from pre-Columbian native American cultures to the end of the Civil War, with emphasis on the Colonial, Revolutionary, Early Republic and Civil War eras.

HIST 1108 S-FSU United States History II................3 hrs.

Examines the major developments in American history, from Reconstruction to the present with emphasis on the political, social, cultural, economic and diplomatic forces that contributed to America’s emergence as the world’s leading industrial democracy.

HIST 2211 S-FSU World Civilizations I .................3 hrs.

An intermediate-level survey of worldwide historical developments, emphasizing major civilizations in pre-historic times, ancient empires and the early Middle Ages. Recommended for sophomores and well-prepared freshmen.

HIST 2212 S-FSU World Civilizations II .................3 hrs.

An intermediate-level survey of worldwide historical developments, emphasizing major civilizations from the Middle Ages to the social, political, and industrial revolutions of the eighteenth century. Recommended for sophomores and well-prepared freshmen.

HIST 2213 S-FSU World Civilizations III .................3 hrs.

An intermediate-level survey of worldwide historical developments from the French Revolution of 1789 to the present era, emphasizing major civilizations and the modern growth of global interdependence. Recommended for sophomores and well-prepared freshmen.

HIST 3301 History of Intelligence and National Security.................................3 hrs.

An intermediate-level course on the origins, developmental milestones, important events and policies that shaped the United States’ intelligence infrastructure. There will be discussion of national security policy and actions that have been implemented, and analysis of their effectiveness. This course will develop skills in research, editing, writing and presentation. Students will be required to research assigned topics, collect documentation, edit references, write an analysis of a proposed course of action, and support a recommended course of action in an oral briefing with graphic slides. The format of this course is designed to acquaint the student to the time-sensitive and volatile nature of collection, analysis, production and dissemination of intelligence information.

HIST 3302 West Virginia.................................................3 hrs.

This course covers West Virginia history, government and geography from the first settlements to the present time. PR: History 1107, 1108.

HIST 3310 Diplomatic and Military History of the United States.................................3 hrs.

Addresses the relations between the United States and other countries, and the development of basic American foreign policies from the colonial background to the super-power status of the present day. Students will pay special attention to war and its foreign-policy consequences. PR: History 1107, 1108.
HIST 3315 Colonial America ................................. 3 hrs.
Covers the American colonies from their beginnings to the end of the Revolutionary War. PR: History 1107.

HIST 3316 The Early Republic ................................. 3 hrs.
Covers United States history from the Revolutionary War to the close of the Mexican War. PR: History 1107.

HIST 3317 Civil War and Reconstruction ....................... 3 hrs.
This course examines the myriad causes of the Civil War, the social, economic, and political changes in the North and the South during the war, highlights key battles and campaigns, and explores the complex and difficult reunification and reconstruction of the Union and the defeated Confederacy following the war. PR: History 1107.

HIST 3318 The Gilded Age to the Great Crash ...................... 3 hrs.
A history of the U.S. from 1877 to the attack on Pearl Harbor. Major topics include the Industrial Revolution, the labor movement, the New South, the Old West and Native Americans, the spoils system, populism, progressivism, World War I and the League of Nations, the Roaring Twenties, the Great Depression, the New Deal and the diplomatic crises of the inter-war years. PR: History 1108.

HIST 3319 Recent America Since 1941 ............................. 3 hrs.
Examines America’s emergence as the leading world power. Topics to be explored will include World War II at home and overseas, the origins, rise and fall of the Cold War, the rise and fall of the liberal consensus, civil rights, feminism, Vietnam War and the anti-war movement and the new conservatism of the post-Nixon years. PR: History 1108.

HIST 3333 History of the American Woman ..................... 3 hrs.
An examination of women’s changing roles and contributions to American society. PR: History 1107 or 1108.

HIST 3344 African-American History and Culture ................ 3 hrs.
A survey of African-American experience in the United States, from the African cultural background and slavery through the present-day urban experience. PR: 1107 or 1108.

HIST 3351 History of England .................................... 3 hrs.
This course covers England’s history from Roman rule to the present day. PR: 2211 or 2212 or 2213.

HIST 3352 History of Russia ...................................... 3 hrs.
Development of the Russian people from the time of their appearance as a national entity, through the tsarist, imperial, revolutionary and Soviet eras to the present. PR: 2211 or 2212 or 2213.

HIST 4405 History of Africa ..................................... 3 hrs.
Survey of African history from prehistory to the present, with emphasis on the medieval, colonial, and modern periods. PR: 2211 or 2212 or 2213.

HIST 4410 History of Asia ......................................... 3 hrs.
An intensive survey of Asian cultural developments from prehistory to the present, with special emphasis on the impact of the West on Asian nations. PR: 2211 or 2212 or 2213.

HIST 4420 History of Latin America ............................... 3 hrs.
T opics include conquest and colonial developments in South America, from Columbus to Latin America’s role in contemporary perspectives. PR: 2212 or 2213.

HIST 4425 Medieval Europe ...................................... 3 hrs.
This course covers formative development in intellectual, social, economic, and political history of medieval Europe, beginning with the fall of Rome. PR: 2211 or 2212.

HIST 4428 Renaissance and Reformation .......................... 3 hrs.
This course will comprehensively survey the political, economic, Military, social and cultural, artistic and architectural history of Europe, from the late 5th century through the end of the 13th century, beginning with the formation and the rise of the national monarchies of France, England, Spain and the fragmented and inchoate Holy Roman Empire and the fractious Italian city-states. Major conflicts such as the Franco/Spanish invasions of Italy, investiture conflicts between the Papacy and the French and German Monarchs, and the portentous Babylonian Captivity of the Church and the ensuing Great Schism, will be covered in detail. Medieval painting, architecture in the form of the gothic cathedral, sculpture and engraving will be integrated within the framework of each region producing such as masterworks. A major component will be the eras of the Crusades, from the first in 1095 through the fourth in 1204, and every effort will be made to relate these Christian expeditions to the current 21st century military campaigns in the Middle East, the Christian vs. the Muslim world, the clash of cultures, and the resultant failures of the West to prevail in the long run, both in the 11th, as well as in our present century. A second major component will be the Commercial Revolution of the 10th through the 14th centuries, with the emergence of the famous Hanseatic League, the rise and expansion of the Ottoman Empire and its impact on Europe, and the concomitant necessary to find an all-water route to the Far East which led to the discovery of America. PR: HIST 2211 and 2212.

HIST 4429 Age of Absolutism .................................... 3 hrs.
The Age of Absolutism will cover in depth the history of Europe from the Wars of Religion climaxing in the Peace of Augsburg (1555) through the 16th, 17th, and 18th centuries climaxing in the French Revolution. Emphasis will be on the development of Absolutism in France, Germany, Austria, and Russia, and the contrast with England, where monarchy is unable to fully develop due to the British historical tradition, the Civil War and Glorious Revolution. PR: HIST 2212.

HIST 4430 19th Century Europe ................................... 3 hrs.
19th Century Europe will treat in depth the political, economic, military, intellectual, cultural, and geographic evolution of modern Europe from the Battle of Waterloo in 1815 to the outbreak of the Great War in 1914. Emphasis will be on the formation of national states, the significant revolutions throughout Europe in 1848, the growth of liberalism, socialism, communism, and the emergence of nationalism as ideological forces shaping the modern world. Highlights will be on the national unification movement of Germany and Italy, and the creation of European alliance systems which brought about the World War. PR: HIST 2213.

HIST 4431 Recent Europe .......................................... 3 hrs.
A study of problems of readjustment in the 20th century: the League of Nations, fascism and Communism, the World Wars, the Cold War, and the European community. Spring semester only. PR: HIST 2213.

HIST 4455 Revolutions in History ................................. 3 hrs.
A study of revolutionary thought and action as a force in world history since ancient times. Major topics include the American and French Revolutions of the eighteenth century, the Chinese and Russian Revolutions of the early twentieth century, and a sampling of more recent revolutionary movements in representative regions of the world. PR: 2211 or 2212 or 2213.

HIST 4475 Philosophy of History ............................... 3 hrs.
A survey of the philosophical systems, both speculative and analytical, that have been advanced to evaluate humanity's historical experience. Credit in either philosophy or history. PR: 2211 or 2212 or 2213 or Philosophy 2200.

HIST 4498 Senior Seminar .......................................... 3 hrs.
An identification, review, and historically-oriented synthesis of major concepts in the fields of geography, history, political science, psychology, sociology and economics. Required of history and Social Studies Comprehensive Education majors, but open to all. PR for history majors: senior standing. Fall semester only.

HIST 4499 Selected Topics ......................................... 3 hrs.
Advanced study of topics specially selected by members of the history faculty according to student demand. PR: Sophomore Standing and one (1) of the following courses: HIST 1107, 1108, 2211, 2212, or 2213.
HIST 4998 Undergraduate Research ....................... 0-6 hrs.
Undergraduate research is an experiential learning activity that
provides an opportunity for a student to engage in the scholarly
activities of their major discipline under the guidance of a faculty
mentor who will work in close partnership with each student in
his or her formulation of a project, the development of a research
strategy, and the assessment of a student’s progress. The primary
goal is for each student scholar to conduct an inquiry or investigation
that makes an original, intellectual or creative contribution to their
discipline and which is shared in an appropriate venue. Sophomore-
Senior Level, Repeatable. Instructor approval required.

HONORS

HONR 1100 Honors Seminar .............................. 1 hr.
This seminar introduces students to critical thinking in a number
of disciplines and initiates them into the standards required by the
Honors Program.

HONR 3301 Honors Study/Travel .......................... 3 hrs.
The Honors study-travel course offers students the study of
one of the world’s great cities with a week-long immersion in that
city. Topics vary by instructor, but the course aims to show students
the interconnections of art, language, literature, theatre, history,
geoigraphy, geology, music, and economics that have contributed to
the life and culture of the city. In class, students study the history,
culture, and mass transit system of city. In city, they see plays and
concerts, visit museums and historic sites, and learn to navigate their
way through the city. The course helps students to see the influence
of the past on the present and the evolving future. It seeks to develop
in them skills they will need in order to explore first-hand cultures
and civilizations outside their own. It encourages teamwork among
those taking the course as they explore the city.

HUMAN SERVICES

HUSV 1100 S-FSU Freshman Seminar ..................... 3 hrs.
This course is designed to acquaint entering freshmen with
various academic, economic, and social aspects of college life and
to teach students the skills necessary to succeed in college. In addition,
this course would focus on building genuine relationships with
people on campus by providing opportunities to engage in various
college activities and to work with a Freshman Seminar facilitator,
peer leaders and mentors.

HUSV 1103 S-FSU Community Service Learning ...... 1 hr.
Community Service Learning provides opportunities for students
to perform meaningful service to the community while engaging in
conscious reflection and critical analysis activities which meet service
learning objectives. Students are required to complete a minimum
of 20 hours of quality service for a non-profit agency. The hours are
completed over the course of the semester with credit given for 2
hours a week. The course is based upon an experiential learning format
which includes the college, the student, and the community.

Students may enroll in Community Service Learning three
semesters, completing a total of 3 credit hours toward graduation
requirements. Three sections of Community Service Learning
are offered. Enrollment in the general section does not require
instructor permission; however, enrollment in the honor’s section
and the America Reads and Counts’ sections do require instructor
permission.

HUSV 1199 S-FSU Special Topics in Human
Services ................................................ 1-12 hrs.
Students in special selected topics. The topic to be studied will be
determined by the instructor and approved by the School’s chairman.
Credits earned will be applicable as free electives in degree and
certificate programs.

INTERDISCIPLINARY STUDIES

INTR 1120 S-FSU Experiencing the Arts ............. 3 hrs.
Introduction to appreciation of the arts through lectures/
demonstrations by teachers in the visual arts, music and theatre.
Organized thematically, the course offers an opportunity to explore
relationships between various artistic media, as well as their
relationships with other disciplines. The course will also consider the
circumstances which have shaped these relationships and the ways
in which contemporary culture conditions how we respond to and
interpret art and performance today.

INTR 1150 S-FSU Women’s Studies Colloquium 1.3 hrs.
The Women’s Studies Colloquium introduces students to issues and
concerns surrounding women and women’s studies through talks by invited experts on a broad range of topics. Repeatable for credit.

INTR 2200 S-C&TC Race, Class and Gender in
Popular Culture .................................... 3 hrs.
This course examines the role and function of consumer and
leisure life in the construction, interaction, and management of
race, class, and gender identities within the United States. By
identifying and analyzing how race, class, and gender positions
inscribe and inform the values, ideas, and beliefs embodied by pop
Cultural productions and their consumption, students will learn to
recognize and critique the politicized features that impact such
everyday phenomena as TV shows, films, commercials, videogames,
music videos, sports spectacles, magazine advertisements, fashion,
boys, and the Internet. This course, therefore, will enable students
to understand with greater clarity why we make the choices we do
when acting as consumers of popular culture and how these choices
reflect the race, class, and gender identities and values we knowingly
or unknowingly ascribe to ourselves and others. PR: ENGL 1104
(with a grade of a “C” or better).

INTR 2201 S-FSU Introduction to Women’s
Studies ........................................ 3 hrs.
This interdisciplinary course focuses on a variety of topics in
women’s studies, such as gender and science, the body, reproductive
technologies, public policy and feminist theory. Class discussions
will examine positions among feminist ethicists on the implications
of gender definition and explore the construction of gender in our
society.

INTR 2280 S-C&TC Empowering Leadership ........ 3 hrs.
The purpose of this course is to help prepare students to assume
increasingly responsible leadership roles of empowerment in their
personal, professional and academic lives. This interdisciplinary,
student-centered course focuses not only on significant theories of
empowering leadership and their applicability to leaders of the past
and present, but also includes substantial hands-on, experiential
learning opportunities in which students practice empowering
leadership. PR: ENGL 1104 (with a grade of a “C” or better).

INTR 2281 S-C&TC Great Ideas of Leaders ............ 3 hrs.
This interdisciplinary humanities course explores some of the
most significant ideas of leaders and the questions they have posed
to humankind. Topics include the intersection of leadership with the
heroic myth, the nature of government, justice, wealth, culture, the
mind, poetics, ethics, good and evil, power and authority, concepts of
nature, issues of faith and values-based leadership. PR: INTR 2280.

INTR 2995 S-C&TC Interdisciplinary Practicum ...... 3 hrs.
This course will provide opportunities to observe and interact in
appropriate work environments at specific sites in each of the core
disciplines: Aviation, Criminal Justice, EMS, and Safety. Sites to be
included will be chosen by the program coordinators of the various
disciplines, and may vary from time to time. PR: Major in Homeland
Security or Pre-Homeland Security. Required core class for the
Homeland Security Degree Program. Capstone course.

INTR 4402 Seminar in Women’s Studies ............ 3 hrs.
This is a capstone course designed as an interdisciplinary
overview of topics that may range from a general survey of gender

Courses of Instruction / 173
Courses of Instruction

**Italian**

ITAL 1101  Elementary Italian I  3 hrs.
- This course is designed for students who have no previous instruction in Italian. The course focuses on enabling students to communicate effectively in Italian and to develop an appreciation of the Italian culture.

ITAL 1102  Elementary Italian II  3 hrs.
- This course is a continuation of Italian I, completing the basic grammatical principles of that language and concentrating on enabling students to speak in formal and informal contexts.

ITAL 2201  Intermediate Italian I  3 hrs.
- This course focuses on enabling students to communicate effectively in Italian, by consolidating and expanding the vocabulary and grammar they learned in Italian 1101 and 1102, as well as introducing more sophisticated grammatical structures. The course emphasizes language as a means of understanding culture in the increasingly global world. The course also seeks a heightened understanding of everyday Italian life. The course will be taught in Italian. PR: ITAL 1102.

ITAL 2202  Intermediate Italian II  3 hrs.
- This course is a continuation of Italian 2201. Students actively use language and conversational skills acquired in 2201 as they examine Italian housing, environment, music, theater, art, and literature. The course will be taught in Italian. PR: ITAL 2201.

**Journalism**

JOUR 1199  Special Topics in Journalism  1-3 hrs.
- Studies in special selected topics, to be determined by the instructor and approved by the chairperson. Credits earned will be applicable as free electives in degree and certificate programs. PR: ENGL 1108.

JOUR 2245  Reporting and Multimedia News Writing  3 hrs.
- This course teaches students the basics of news reporting and writing for a variety of media forms. Students will review basic grammar, learn AP Style, and learn how to apply them to news writing for media from print, broadcasting, and online forums. PR: ENGL 1108.

JOUR 2275  Media Literacy  3 hrs.
- *Writing Intensive*
- This course teaches students not only the historical background of media, but to critically analyze media content and how it affects society as a whole. Issues addressed are media conglomerations and deregulation, media bias, stereotypes in the media, media as it relates to democracy, as well as other major concepts in the field. PR: ENGL 1108.

JOUR 2280  History of American Journalism  3 hrs.
- *Writing Intensive*
- This course offers a comprehensive chronological presentation of the development of American mass media, by showing the relationship of the past to the events of today and delineating their impact on the American way of life. Examines the American press from the seventeenth century to date and freedom of press and its present implications. PR: ENGL 1108.

JOUR 3315  Multimedia Publishing  3 hrs.
- This course will teach students the basics of digital media design. It will familiarize students with a variety of software related to print design, photography, logo design, and web design. Terminology related to all forms of media will be addressed. PR: ENGL 1108.

JOUR 3330  Writing for Multimedia  3 hrs.
- This course provides students the skills to write in a variety of media formats as well as to create other multi-media projects. In addition to writing for websites, students will learn to embed video, audio, animation, and other platforms as their stories are published.

JOUR 3335  Photojournalism and Digital Imaging  3 hrs.
- Students will not only be taught the basics of photography, but will also learn the ethical conflicts and often the dangers facing photojournalists. Since film is no longer used, students also learn how to upload and manipulate photos digitally.

JOUR 3343  Journalism Internship  3 hrs.
- This is the capstone course of the journalism major and minor programs. In this course, students are required to perform on-the-job duties during a 100-hour internship, gaining experience in a particular area of journalism, in accordance with the stated goals of the journalism program. Assessment of student achievement of these goals will occur through both a submitted portfolio and the employer’s report on the quality of the intern’s work. Seniors only. Instructor approval required.

JOUR 3344  Publications Practice  1-3 hrs.
- This course provides experience with student publications. Students can work on the student newspaper, the yearbook, or the student literary and art journal.

JOUR 3350  Participatory Journalism and Social Media  3 hrs.
- This course develops students’ abilities to report stories in a professional journalistic manner for use on the electronic media sites, including social media, blogs, and new mobile media applications. Students will learn to incorporate user-generated content (UCG).

JOUR 3390  Multimedia Ethics and Law  3 hrs.
- This course provides a comprehensive overview of legal and ethical issues pertaining specifically to journalism and media. In addition to case studies, students will be asked to critically analyze “real-world” dilemmas using legal and philosophical concepts.

**Teaching English to Speakers of Other Languages (TESOL)**

LANG 3300  Intercultural Communication  3 hrs.
- This course examines the meaning, significance and impact of intercultural communication as it applies individually, nationally and globally as well as in groups and organizations. The course will explore the meaning of “culture” and its effects on perception and understanding. Both macro and micro cultural differences will be examined and the dangers of cultural misunderstanding will be explored. The course will also examine the ever-growing need for intercultural communication competence and introduce ways to increase that competence. Also listed as COMM 3300. PR: COMM 2200 or 2201 or 2202.
LANG 3301  Theories of Language and their Application to English I................................. 3 hrs.

This course covers the linguistic subjects of syntax, morphology, phonology, semantics and pragmatics, which provide concepts and techniques for understanding languages, with special emphasis upon English. Topics will include descriptive versus prescriptive grammar, dialect and register, synchronic and diachronic language variation, the history of English, language acquisition, the leading theories of language, language theory and the art of composition. Required of all prospective teachers of English; to be taken before Clinic III. Also listed as ENGL 3301. PR: ENGL 1108.

LANG 3302  Theories of Language and their Application to English II............................. 3 hrs.

Continuation of ENGL 3301, emphasizing practical applications to teaching writing and grammar in grades 5-12. Required of all prospective teachers of English; to be taken before Clinic III. Also listed as ENGL 3302. PR: ENGL 3301.

LANG 4431  Teaching English to Speakers of Other Languages......................................... 3 hrs.

The study and practice in teaching the English language to non-native speakers, grades 5-Adult. Also listed as FREN 4431 and SPAN 4431. PR: FREN 2202 or SPAN 2202 or ITAL 2202 and LANG 3300 and 3302.

LANG 4432  Teaching English to Speakers of Other Languages Practicum................................ 3 hrs.

Student will prepare lessons and teach English to speakers of other languages under the supervision of college personnel for a minimum of 60 hours. Emphasis will be on speaking, reading, writing, and listening skills. PR: LANG 4431.

MANAGEMENT

MGMT 2209  S-FSU  Principles of Management................................................................. 3 hrs.

The emphasis in this course is on the modern approach to the field of management. Theoretical and practical approaches are presented, along with analytical techniques that are applicable in the various management and production areas.

MGMT 3308  Human Resource Management................................................................. 3 hrs.

A study of the field of personnel management and industrial relations, including its background, development and modern practices. PR: MGMT 2209, BUSM 2800.

MGMT 3370  Compensation and Benefits................................................................. 3 hrs.

A comprehensive exploration of all forms of employee compensation management and benefit plans, including the various types of benefits and compensation devices found in the business, labor, government and academic communities. Focus areas include pay structures, internal and external pay equity, compensation packages and designing and planning well-conceived, efficient employee benefits. PR: MGMT 3308, BUSN 3319.

MGMT 3371  Employee Relations................................................................. 3 hrs.

This course examines the dynamics of employee-management relations, with emphasis on unions. Emphasis on methods of reducing employee-management conflict, understanding the grievance process and the role of arbitration and the role of government in the employee-relations process. PR: MGMT 3308, BUSN 3319.

MGMT 3372  Human Resource Selection and Evaluation................................................. 3 hrs.

An in-depth study of legal, methodological, and substantive issues related to selection and performance appraisal of employees. Focus areas include concepts of job analysis, validation, test development and administration, adverse impact analysis and affirmative action. PR: MGMT 3308, BUSN 3319.

MGMT 3390  Organizational Behavior................................................................. 3 hrs.

The purpose of this course is to introduce the student to the problems of human behavior in the organizational setting and the approaches available for solving these problems. Students will examine theories of individual, interpersonal and group behavior in organizations, and will follow this with considerations of how organizations may be designed to utilize the talents of the individuals, and how managers may make use of the theories of motivation, communication and interaction in accomplishing the objectives of the organization. PR: MGMT 2209, BISM 2800.

MGMT 4400  Organizational Theory and Design.................................................................. 3 hrs.

This course is designed to provide students with an awareness of how organizations are designed and structured. Emphasis is placed on structural characteristics of organizations, how to shape those characteristics and understanding their influences on the organization. PR: MGMT 2209.

MGMT 4402  Organizational Change and Development.................................................. 3 hrs.

The course uses an experiential learning approach that provides potential and practicing managers with behavioral science, intervention theory and methods for improving organizational performance. The students’ work will focus on planned change of organizational cultures and processes such as communication, team building, roles, conflict and structure, with the aim of enhancing management behavior, human resources and productivity. PR: MGMT 3308, MGMT 3390.

MGMT 4405  Operations Management.............................................................................. 3 hrs.

This course introduces students to various elements in the field of operations management. It covers the most common production and operations concepts encountered in modern production systems. Students will learn certain quantitative and statistical techniques that help evaluate the management of the firm’s operations and performance. PR: BUSN 3310, MGMT 2209.

MGMT 4409  Quantitative Management............................................................................ 3 hrs.

A study of the quantitative techniques which have been incorporated into the business environment in recent years. Menu-driven software is used to find solutions to problems associated with the more popular management science techniques. PR: BUSN 3310, BISM 2200.

MGMT 4998  Undergraduate Research............................................................................0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

MANUFACTURING ENGINEERING TECHNOLOGY

MANF 1100  Materials and Processes................................................................. 3 hrs.

This course covers the scientific concepts underlying the basic, procurement, process, fabrication and finishing industries while studying the physical and chemical properties of the organic and inorganic materials utilized in today’s industrial complex.

MANF 1199  Special Topics in Manufacturing Engineering Technology............................................. 1-12 hrs.

Studies in special selected topics, to be determined by the instructor and approved by the department chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

MANF 2205  Engineering Economy............................................................................. 3 hrs.

Techniques of engineering economy as related to cost, design and selection of materials. PR: MATH 1102.
MANF 2250 Total Quality & SPC .............................. 3 hrs.
The purpose of this course is to introduce students to concepts related to total quality management and statistical process control. Topics include the total quality concept, the contributions of W. Edwards Deming, quality and competitiveness, establishing a customer focus, leadership and teamwork, decision-making and problem solving, foundations of statistical process control and continuous improvement.

MARKETING

MKTG 2204 S-FSU Principles of Marketing ............... 3 hrs.
A study of those business activities that direct the flow of goods and services from producers to consumers.

MKTG 2205 Salesmanship and Sales Management .............. 3 hrs.
This course is a study of techniques appropriate to personal selling and managing salespeople, both retail and contract. Students are given opportunities to construct and give presentations. PR: MKTG 2204, COMM 2202.

MKTG 3305 Supply Chain Management .................. 3 hrs.
The purpose of this course is to help students understand specific issues involved in distribution and logistics management. Systematic approaches to the formulation of distribution and logistical strategies will be discussed. PR: MKTG 2204, BISM 2800.

MKTG 3310 Consumer Behavior .......................... 3 hrs.
A study of the activities, behaviors and processes exhibited by consumers, directly involving the selection, procurement, consumption and disposition of products and services. PR: MKTG 2204, BISM 2800.

MKTG 3320 Advertising and Sales Promotion ............ 3 hrs.
This is a survey course of social, psychological and some technical aspects of advertising and sales promotion for both business and journalism students. PR: MKTG 2204, BISM 2800.

MKTG 3340 Marketing Research .......................... 3 hrs.
This course is designed to introduce students to the nature and scope of market research and its role in designing and implementing successful market programs. Among the topics covered are the market research process, research design, data collection and analysis. Basic and advanced statistics techniques will be discussed in detail, with emphasis on explaining the procedures, interpreting the results and uncovering the managerial implications. PR: BUSN 3310, MKTG 2204.

MKTG 3399 Special Topics in Marketing ................ 1-6 hrs.
This is an advanced studies course in special select marketing topics, to be determined by the instructor and approved by the Dean. PR: 12 credit hours in Marketing.

MKTG 3500 New Product Decisions ....................... 3 hrs.
This course is designed to introduce students to the issues, strategies, and approaches related to developing, evaluating, and introducing new products (goods and services). Among the topics covered are: identifying and evaluating market opportunities, assessing the values of products to potential customers, forecasting market demand, and preparing new product launch strategies and plans. PR: MKTG 2204.

MKTG 4450 Marketing Management ....................... 3 hrs.
This course is designed to provide a more in-depth study of marketing theory and processes. Emphasis will be placed on the analysis and decision-making processes required of marketing managers. PR: MKTG 3310, MKTG 3320, MKTG 3340.

MKTG 4998 Undergraduate Research ..................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

MASTER OF BUSINESS ADMINISTRATION

(MASTER OF BUSINESS ADMINISTRATION)

MSBA 5000 MBA Essentials ........................................ 3 hrs.
The MBA Essentials is designed as an efficient method to convey core business concepts and to begin a team-building process among the MBA students that will continue throughout the program. Essentials will be an intensive, one-semester, three credit-hour experience that mixes internet and in-class learning of core business concepts and terminology. Students will use knowledge from the core areas to integrate their prior learning and business experience, and develop the cross functional approach to business problem solving that is required for the 21st century. (Prerequisite Course ? Graded on a Credit/No Credit basis)

MSBA 5100 Personal Development Workshop ............ 3 hrs.
The course focuses on self-assessment, development and actualization issues. Autobiography and biographic exercises will be used to explore the self. Also, topics such as work-life balance, personal financial management, career planning will be discussed. (Elective Course)

MSBA 5110 Leadership Workshop .......................... 3 hrs.
The class will examine human behavior in organizations at the individual, interpersonal and group levels. The interplay of human, technological, and structural factors in organizations will be examined. Important issues to be considered will also involve motivation theories, communication, and group decision theories for managerial applications. The class will look at how we can design jobs and organizational structures and techniques to be used for evaluating and rewarding performance. Similarly, the class will look at techniques for the development of team building, leadership and conflict resolution skills. Focus is given to leadership approaches, job enrichment, quality of work life and employee attitudes and achievement. (Core Course)

MSBA 5120 Tactical Human Resources Practices ......... 3 hrs.
Students will learn about the four primary functions of HRM ? staffing, training and development, motivation and maintenance. Students will also learn how to apply the tactics in each of these functions in a legal, practical and ethical manner in the workplace. This course will combine lecture and case study methodology. (Elective Course)

MSBA 5130 Labor Relations and Dispute Resolution ........ 3 hrs.
This course will focus on labor-management relations in the U.S., particularly in a unionized environment. The course will begin by covering the history of labor-management relations as well as the major legislation and court precedents that govern labor relations in the U.S. The main emphasis of the course will be on understanding dispute resolution processes and emerging issues in dispute resolution through a heavy reliance on case study analysis. (Elective Course)

MSBA 5140 Strategic Human Resources Management ............ 3 hrs.
Students will learn to apply Human Resource practices in a strategic manner and also to balance their role as strategic business partner and employee advocate in today’s dynamic business environment. This course will be delivered primarily in a case study method. (Elective Course)

MSBA 5200 Management Information Systems ............. 3 hrs.
This course addresses three major computer issues. First, this course examines the business aspects of computer information
systems, with a focus on hardware, software, and computer systems management. Second, it introduces business productivity software. In particular, it explores presentation and spreadsheet programs providing the students with considerable hands-on experience. Third, the course offers a case-oriented study of statistical data analysis for business decision making. Here, topics include: data summary measure, methods, population and sample characteristics, and linear regression, all implemented using the spreadsheet technology. (Core Course)

MSBA 5300 Managerial Economics.............................3 hrs.
Managerial Economics deals with a diversity of issues. For instance, the class will discuss ways of directing scarce resources in an efficient manner so as to attain managerial goals defined by the firm. To this end, students will learn to apply economic ideas, theories, and methodologies in a strategic manner to enhance corporate performance. Students will also analyze organizational structures in order to maximize corporate behavior in the multitude of industrial and service sectors in which firms operate. Discussion of additional pertinent topics will provide students with further ways of using managerial economics, tools and procedures in the modern business environment. (Core Course)

MSBA 5400 Business Environments.............................3 hrs.
This course is designed to introduce current developments involving societal and ethical challenges modern society presents to the corporate environment. Emphasis will be placed on areas such as stakeholders, corporate citizenship, social responsibility, globalization, and ethics. (Core Course)

MSBA 5550 Financial Reporting and Analysis ..................3 hrs.
Through the concentration on the accounting side of financial statements, students gain a basic understanding of GAAP and the accounting model in order to recognize the limits of financial reports while evaluating liquidity, debt, and profitability. The course will combine ethics, financial theory, case studies and internet based projects. (Core Course)

MSBA 5600 Marketing for Managers.............................3 hrs.
The course will introduce marketing research and consumer behavior to the students. Topics such as product policy, pricing, promotion and distribution will be discussed. Case studies will be used to apply the concepts of marketing in the class. (Core Course)

MSBA 5610 Supply Chain Management..........................3 hrs.
The course will cover the topics of logistics and distribution management. Topics such as inventory management, transportations, warehousing, procurement, location analysis, electronic data interchange, web applications in B-B transactions, etc. will be discussed. (Elective Course)

MSBA 5700 Quantitative Analysis...............................3 hrs.
This class will cover descriptive and inferential statistics. Concepts such as probability, distribution, estimation, hypothesis tests, correlation and regression, Chi-square tests as well as nonparametric methods will be stressed. Emphasis will be on quantitative analysis for managerial decision-making. (Core Course)

MSBA 5710 Operations Management.............................3 hrs.
The purpose of this course is to provide students with a sound conceptual understanding of the role that management science plays in the decision-making process. The focus is on the part of management science referred to as quantitative approaches to decision making. This course will cover several quantitative techniques that are used in decision making processes such as linear programming, transporting problems, project management, inventory models, waiting line models, decision analysis, and forecasting. (Elective Course)

MSBA 5800 Knowledge Management............................3 hrs.
This online course will provide students with a background in the development of Knowledge Management, KM models, how to capture, codify, and share knowledge within the organizational culture, various strategies and metrics, the KM Team, and future challenges for KM. It is a course based on not merely learning concepts, but also applying those concepts to facilitate business processes in a team effort. (Elective Course)

MSBA 5810 Project Management.................................3 hrs.
The course introduces the concepts of operations research, scheduling, optimization and network techniques. The course will also cover on contract management especially with a focus on the government sector. Contract bidding, specifications compliance and other topics related to the industrial and government projects will be discussed. (Elective Course)

MSBA 5820 Advanced Project Management.....................3 hrs.
Students will learn the how to initiate, plan, execute, control, and close projects. This course builds on the foundation knowledge gained in the Introduction to Project Management course. This is an in-depth focus on the practical application of project management skills. The course format will combine lecture and case study methodology. (Elective Course)

MSBA 5850 Project Management Capstone.......................3 hrs.
This course allows students to gain comprehensive project management knowledge. The content addresses detailed coverage of the nine Knowledge Area and five Process Groups identified by the Project Management Institute and contained in A Guide to the Project Management Body of Knowledge (PMBOK Guide). It also exposes students to best practices required to pass national certifications in project management and offers tips for passing the exam. Course time and material aligns with the area of emphasis of the PMP exam in five process groups: Project Initiation, Project Planning, Project Execution, Project Monitoring and Control, Project Closure, Professional Responsibility. (Elective Course)

MSBA 6000 Strategic Management..............................3 hrs.
This course will enable students to identify, comprehend and appraise an organization’s strategies and policies. Topic will include industry and competitive analysis, corporate and competitive strategies, competing in global, fragmented and integrated industries. The course provides students with the methodology to formulate and implement strategy, and to analyze possible consequences of strategic and policy actions. This course is designed to offer a capstone experience in which students will assimilate the various methods, concepts, and leadership tools offered throughout the MBA program. (Core Capstone Course)

MSBA 6010 Managerial Practicum...............................3 hrs.
Students will work with a regional organization (i.e. business, non-profit, health care, etc.) to solve real world problems in the role of an independent consultant. Students will work with the employer to identify the managerial issues and will apply learning from their coursework to solve these issues. Students will make a presentation to the local employer and will submit a written case analysis of their project. (Elective Course - Graded on a Credit/No Credit basis)

MSBA 6020 Global Experience....................................3 hrs.
This course is designed to expose students to international markets. It is intended to provide students with an understanding of the short-run and long-run decisions that managers of multinational business must make in the context of foreign markets and implementing specific business plans, along with an in-depth exposure to the techniques and tools that are available for use by international managers. This course may involve an international study tour abroad. (Elective Course)

MATH 0030 Developmental Math..............................1-8 hrs.
Students will register for MATH 0080, the course shell that contains the MATH 0081-0088 Developmental Mathematics Modules, based on their COMPASS score. Student transcripts will reflect the MATH 0081-0088 courses as described below.

Students will need computer access to use the online homework system required in the class. Approximately three additional hours per week should be expected using My Labs Plus to complete online homework and tutorial programs. This course offers institutional

To meet Mathematics minimums students must complete MATH 0081-0088; students requiring MATH 1101 must complete MATH 0081-0088.

MATH 1100 S-C&T C Intermediate Algebra .......................... 3 hrs.

This is a course in techniques for performing operations on polynomial, exponential and rational expressions and subsequently solving linear and quadratic equations and inequalities. The course will also cover equations and inequalities using absolute value and function notation. This course cannot be used as mathematics credit toward certification for teaching mathematics or for the General Studies requirement in mathematics. Students will need computer access to use the online homework system required in the class. Approximately three additional hours per week should be expected using My Labs Plus to complete online homework and tutorial programs. Students in this course may be required to attend the Tutoring Centers for additional instruction and skill-building exercises. PR: MATH ACT score of 19 or MATH SAT of 460 or COMPASS score of 36 or MATH 0095.

MATH 1101 S-FSU Applied Technical Mathematics........................... 3 hrs.

This course is an introduction to fundamental mechanics and techniques for performing operations with algebraic expressions, and subsequently solving linear equations, systems of linear equations and quadratic equations. The course also introduces trigonometric functions and is designed to develop methods of solving right angles and oblique triangles using trigonometry. PR: MATH ACT score of 19 or MATH SAT of 460 or COMPASS score of 36 or MATH 0095 or MATH 0088. MAJOR RESTRICTION – MAJORS in the College of Science and Technology.

MATH 1102 S-FSU Applied Technical Mathematics II .......................... 3 hrs.

This course is a continuation of Math 1101. Topics include solving radical equations and polynomial equations, complex numbers, exponential and logarithmic functions, inequalities and trigonometry. PR: MATH 1101 with a “C” or better. MAJOR RESTRICTION – MAJORS in the College of Science and Technology.

MATH 1107 S-FSU Fundamental Concepts of Mathematics........................ 3 hrs.

This introductory math survey course is specifically developed to fulfill the General Studies requirements for quantitative literacy. It is designed to strengthen computational skills while focusing on real-world problems. Topics may include critical thinking skills, sequences, set theory, logic, probability, statistics, and consumer mathematics. This course does not serve as a pre-requisite for any higher level mathematics course. PR: MATH ACT score of 19 or MATH SAT of 460 or COMPASS score of 36 or MATH 0095 or MATH 0086.

MATH 1112 S-FSU College Algebra ...................................... 3 hrs.

This course includes a review of real numbers, complex numbers, algebraic expressions, equations and inequalities of non-linear functions, functions and function operations, composition of functions, inverse functions, graphing and transformations of non-linear functions, exponents and radicals, exponential functions, logarithms, and applications. PR: MATH ACT score of 21 or MATH SAT of 500 or COMPASS score of 49 or MATH 1100.

MATH 1113 S-FSU Applied Statistics.................................... 3 hrs.

This course is an introduction to statistics with appropriate applications. Topics covered include descriptive statistics, probability, binomial distribution, normal distribution, sampling, hypothesis testing and regression and correlation. A problem-solving approach and modern software will be used. PR: MATH ACT score of 21 or MATH SAT of 500 or COMPASS score of 49 or MATH 1102 or MATH 1112.

MATH 1115 S-FSU Trigonometry and Elementary Functions ................. 3 hrs.

This course includes a study of circular and trigonometric functions and applications, trigonometric identities, equations and graphs of circular functions, exponential and logarithmic functions, complex numbers, functions and inverse functions and other
related topics. PR: MATH ACT score of 23 or MATH SAT of 540 or COMPASS score of 63 or a C or better in MATH 1112.

MATH 1125  FSU Math Reasoning: Reading and Writing .................................3 hrs.
This course includes topics to prepare students for mathematical reasoning by reading and writing using technical mathematics terminology and valid reasoning methods. In addition, it will prepare students for the rigor of mathematical proof in 2000 level math classes. Topics to be covered include the role of definitions in proofs, how to write definitions, the role of the conditional statement in a proof, proofs based on algebraic and trigonometric properties, two-column geometry proofs, and induction. PR: MATH 1115 or MATH ACT 24 or (MATH 2251 and MATH 2252). Fall Semester Only.

MATH 1170  S-FSU Introduction to Mathematical Analysis .............................4 hrs.
This course is designed to help those students pursuing a degree in mathematics (who have not had five years of high school mathematics) gain the experience required for courses at the calculus level and beyond. Topics include an introduction to formal logic and set theory, the principle of mathematical induction, properties of real and complex numbers with proofs, general functions and related notions, sequences and series. PR: MATH ACT score of 23, or MATH SAT 540 or COMPASS score of 63 or MATH 1115.

MATH 1185  S-FSU Applied Calculus I ..................................................4 hrs.
A study of calculus with an emphasis on its applications to science, business, technology and social science. Topics covered using the derivative consist of functions and their graphs, max/min problems, related rates, approximation of change and curvilinear motion. Topics covered using the integral consist of area, volume and accumulation functions. Graphing calculators and mathematical software will be introduced and used throughout the course. PR: MATH ACT score of 26, or MATH SAT 560 or COMPASS score of 67 or MATH 1115 or MATH 1102 with "B" or better.

MATH 1186  S-FSU Applied Calculus II .............................................4 hrs.
A continuation of the study of calculus as applied to science, business, technology and social science. The integral will be further studied, including applications of area, volume, accumulation functions, curvilinear motion, solutions to some simple differential equations and other applications chosen from a variety of disciplines. Students will examine sequences and series involving convergence and divergence, power series and Taylor polynomials and series. The calculus of vectors and multivariable functions will be introduced and partial derivatives and multiple integrals will be used to study applied problems from a variety of disciplines. Graphing calculators and mathematical software will be used throughout this course. PR: MATH 1185. Spring semester only.

MATH 1190  Calculus I .................................................................4 hrs.
This course is the calculus of one variable, beginning with an intuitive study of limits and a geometric interpretation of the derivative. Topics include differentiation of functions and the application of the derivative to graphing functions, approximating functions, solving max/min problems and related rate problems, anti-differentiation and its link to the signed area under a curve, the fundamental theorem of calculus and applications of the definite integral. PR: MATH ACT score of 25, or MATH SAT 570, or COMPASS 73, or MATH 1115 or MATH 1170 or MATH 1186.

MATH 1199  Special Topics in Mathematics ......................................1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the department chair. Credits earned will be applicable as free electives in degree and certificate programs.

MATH 2200  Mathematical Logic .....................................................3 hrs.
This course covers sentential and general theory of inference, theory of proof and definition and elementary intuitive set theory. PR: MATH 1115 or MATH 1170 or MATH 1185 or MATH 1190. Spring semester only.

MATH 2206  Introduction to the Theory of Numbers .....................................3 hrs.
Topics include prime numbers, the unique factorization theorem, congruencies, Diophantine equations, primitive roots and the quadratic reciprocity theorem. PR: MATH 1190. Spring Semester Even Years Only.

MATH 2212  Sets, Relations and Functions ........................................3 hrs.
Topics to be studied are those related to sets, relations and functions which are common to most upper-level mathematics courses. PR: MATH 1170 or (MATH 1125 and MATH 1190). Fall semester only.

MATH 2216  Introduction to Discrete Mathematics ..................................3 hrs.
This course is designed to provide a survey of the reasoning and objects of study found in discrete mathematics. Topics considered include sets, relations, functions, combinatorics, graphs, trees, discrete probability and recurrence relations. Interspersed throughout the course will be material on the nature of proof and analysis of algorithms. PR: MATH 1115 or MATH 1170 or MATH 1185 or MATH 1190. Fall semester only.

MATH 2251  Structure of the Real Numbers ........................................3 hrs.
This course starts with basic concepts of sets and continues with properties of operations and a logical development of the set of real numbers. Beginning number theory concepts and an introduction to probability are also included. This course connects structure to prior math knowledge and real-world applications. PR: MATH 1112 or MATH ACT of 23 or Math SAT of 540 or Compass score of 63, and admission to Teacher Education.

MATH 2252  Data Analysis and Geometry ........................................3 hrs.
This course offers an introduction to data analysis and statistics and the study of geometry. Included is descriptive statistics, standard and non-standard measurement, a formal and informal approach to geometry, van Hiele levels, and the use of dynamic geometry software. PR: Math 1112 or Math ACT of 23 or Math SAT of 540 or Compass score of 63, and admission to Teacher Education.

MATH 3315  Calculus II ........................................................................4 hrs.
This course is a continuation of MATH 1190. Topics include applications of the definite integral, exponential and logarithmic functions, inverse trigonometric functions, techniques of integration, conic sections, plane curves and polar coordinates, limits involving indeterminate forms, improper integrals, sequences, and infinite series. Spring semester only. PR: MATH 1190.

MATH 3316  Calculus III ......................................................................4 hrs.
This course is a continuation of MATH 3315. Sequences and series will be followed by a study of calculus of two and three variables. Topics include vectors, dot product, cross product, lines, planes, vector functions and their derivatives and integrals, the study of quadratic surfaces, partial differentiation, gradient and double and triple integrals. PR: MATH 3315 or (MATH 1186 and MATH 1190) Fall Semester Only.

MATH 3325  Probability and Statistics ..................................................3 hrs.
Course topics include sample spaces, events as subsets, probability axioms, finite sample spaces and equiprobable measure as special case, binomial coefficients and counting techniques applied to probability problems, conditional probability, independent events, Bayes' formula, random variable, probability functions, density and distribution functions, special distributions, independent random variables, Poisson and normal approximation to the binomial and some statistical applications. Students will also learn estimation and sampling, point and interval estimates, hypothesis-testing, power of a test and regression. PR: MATH 1113, and MATH 3316 or concurrent enrollment in MATH 3316. Spring Semester Only.

MATH 3342  Numerical Analysis .........................................................3 hrs.
In this course, students will investigate solutions of equations, functional iteration of equations, iterative methods for solving equations, analysis of special methods such as the methods of false position and of Newton, iteration for systems of equations, reduction to first order systems, Gaussian elimination and some iterative methods for inversion. PR: COMP 1102 and CR: MATH 3316. Fall Semester Odd Years Only.
MATH 3353  Math Methods for Elementary Teachers ............................................. 3 hrs.

This course is designed to prepare pre-service elementary school teachers to teach mathematics. Students will study tools for teaching mathematics, math teaching strategies, current topics in math education, problem solving and reasoning, and assessment. Numerous laboratory experiences are required such as tutoring, micro-teaching, and construction of a NCTM Standards-based unit. PR: Math 2251 and Math 2252 with a C or better in each and admission to Teacher Education.

MATH 3361  Abstract Algebra ................................................ 3 hrs.

Writing Intensive

Topics include sets, relations, functions, operations, algebraic systems such as integers, rationals and matrices, isomorphism and examples. Students will examine equivalence classes, groups, subgroups, cyclic groups, basic theorems, Lagrange's theorem, homomorphism, normal subgroups, quotient group, the isomorphism theorems, rings, integers, matrices, polynomials, integral domains, fields and quotient field. The course will also cover ideals, residue class rings, unique factorization domains, Euclidean domains, integers, polynomials over a field, division algorithm, highest common factor and unique factorization in Euclidean domain. PR: ENGL 1108, MATH 1190 and MATH 2212. Spring Semester Only.

MATH 3362  Linear Algebra ..................................................... 3 hrs.

This course covers vector spaces abstractly defined, linear dependence and independence, bases and subspaces, dimension of linear space, linear mappings, kernel and image of maps, rank of maps, linear maps as vector spaces, composition of mappings and multiplication of matrices, the relation between linear mappings and systems of linear equations, row reduced echelon matrix, invertible matrices, calculation of inverse, linear inequalities and half spaces. PR/CR: MATH 3315. Fall Semester Only.

MATH 3372  Modern Geometry .................................................. 3 hrs.

A brief review of informal Euclidean geometry, including areas and volumes. The course will also include a formal development of Euclidean geometry, utilizing concepts such as incidence, convexity separation, distance functions and angular measurement functions. Other geometric topics such as topology, non-Euclidean geometry, finite geometries, projective geometry and transformational geometry are briefly introduced. PR: MATH 1125 and MATH 1190. Fall Semester Even Years Only.

MATH 3375  Topology ............................................................... 3 hrs.

This course consists of the study of topological spaces and notions, including continuity, convergence, separation, compactness and connectedness. PR: MATH 2212 and 3316. Spring Semester Odd Years Only.

MATH 3391  Real Analysis ........................................................ 3 hrs.

Covers real numbers, topology of the reals, infinite series, continuous functions, sequences and series of functions, differentiation, integration and power series. PR: MATH 2212 and MATH 3316. Spring Semester Even Years Only.

MATH 4400  Seminar ............................................................ 1-3 hrs.

PR: Instructor approval required.

MATH 4401  Differential Equations ........................................... 3 hrs.

MATH 4431  Methods and Materials in Teaching Mathematics ................. 3 hrs.

This course is designed for senior education majors with a math teaching specialization in either grades 5-Adult or 5-9. Mathematics curricula and methods at the middle and high school levels are studied. Numerous laboratory experiences such as microteaching and math tutoring are required. 5-9 and 5-Adult must complete this course prior to enrolling in Secondary Student Teaching/Clinical III. Fall Semester Only. Must be admitted to Teacher Education to take this course.

MATH 4998  Undergraduate Research ........................................... 0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

MECHANICAL ENGINEERING TECHNOLOGY

MECH 1100  Statics ......................................................... 3 hrs.

The study of force systems that act on rigid bodies in static equilibrium. Topics of study include the analysis of coplanar and noncoplanar force systems using analytical and graphical methods. PR: MATH 1102, or 1115, or CR: MATH 1102.

MECH 1199  Special Topics in Mechanical Engineering Technology ............ 1-12 hrs.

Studies in special selected topics, to be determined by the instructor and approved by the department chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

MECH 2200  Strength of Materials ........................................... 4 hrs.

The analysis of stress and deformation of deformable bodies under the action of forces. Students will examine the design and selection of tension and compression members, shafts and beams, stress and strain, Hook's Law, mechanical properties of engineering materials, torsion, bending and buckling theory. PR: MATH 1102 and MECH 1100 with a C or better in both.

MECH 2211  Thermodynamics I .............................................. 3 hrs.

An introduction to the thermodynamic laws of conservation of mass and energy. Students will explore applications in the analysis of energy sources, transformations and utilizations. PR: MECH 1100 with a C or better.

MECH 2220  Fluid Mechanics .................................................. 3 hrs.

A study of the mechanics of fluid systems. Topics include fluid statics and dynamics, dimensional analysis and similarity, steady flow of incompressible fluids in pipes, ducts, and open channels, steady flow of compressible fluids over surfaces and about immersed bodies and turbomachinery. PR is one of the following: PR: MECH 2200, TECH 2290 or MATH 1185 or MATH 1190.

MECH 2240  Machine Design .................................................. 3 hrs.

Application of the principles of mechanics to the design and selection of machine components. Topics of study include beams, columns, shafts, gears, bearings, belts, brakes, and springs. Design projects will be assigned and computer solutions will be utilized. PR: MECH 2200, COMP 1101 and either TECH 2290 or MATH 1185 or MATH 1190. The class will be an individualized, arranged course, with learning outcomes determined by the instructor in consultation with the student and permission of the school’s dean.

MECH 3300  Thermodynamics II .............................................. 3 hrs.

A continuation of the study of thermodynamics, with special emphasis on equations of state, calorimetry, processes, heat engines and the Second Law of Thermodynamics. Topics include PVT relationships of pure substances, caloric equations of state, properties of multi-phase substances, processes of compressible and incompressible gases, liquids, solids, and multi-phase substances, the Carnot heat engine, entropy, refrigeration and heat pump cycle, the Third Law of Thermodynamics and the analysis of Carnot cycles. PR: MECH 2210.

**Notes**

- A study of Newtonian dynamics of particles and rigid bodies in plane motion. Topics include Kinematics, Newton’s Laws, work and energy principles and impulse momentum. Baccalaureate majors only. PR: MECH 1100 and TECH 3300 or MATH 1186 or MATH 3315.

- This course is designed for current music majors to give a basic laboratory-style overview of music technology and computer-aided instruction that can be used in the public school classroom. It is conducted in a lecture/laboratory workshop setting so that students can gain the maximum exposure to music technology in a practical setting. Topics of discussion include: The need for music technology in the classroom; Software programs for elementary general music, Programs for secondary choral music classrooms, Programs for secondary instrumental music classrooms, Miscellaneous Music Education software programs, Music Administration software, and recording technology. Required for all music majors. Elective for music minors with permission of instructor. Spring semester only. Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Pre-Music or Music majors only. Fall semester only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1102 or instructor approval required.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104. Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.

- This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 1104, Pre-Music or Music majors only.
Courses of Instruction

MUSI 1112 Piano Ensemble .........................1 hr.
Open to students with some piano experience, this course is designed to provide students an opportunity to play in a small ensemble setting. Students will experience a wide variety of styles of literature including arrangements of historically well-known and contemporary orchestral and vocal pieces for keyboard ensemble. Ensemble meets on a regular rehearsal schedule under faculty direction. Repeatable. Instructor approval required.

MUSI 1113 Theory I ...........................................3 hrs.
This course will review music fundamentals including fluency in treble and bass clef, major and minor scales, key signatures, time signatures, and intervals. The class will then focus on the principles of voice leading, harmonic progression, melody harmonization, non-chord tones, cadences, and simple tonal analysis. This course will run concurrently with MUSI 1114, Aural Skills I. Fall semester only.

MUSI 1114 Aural Skills I .................................1 hr.
This course will introduce students to the fundamentals of aural skills including solfège singing in major and minor, simple rhythm chanting in duple and compound meters, interval recognition from major and minor scales, triad and seventh chord recognition, and melodic dictation. Specific emphasis is placed on proper intonation. This course uses a moveable “do” solfège system. This course will run concurrently with MUSI 1113, Theory I. Fall semester only.

MUSI 1115 Theory II ...........................................3 hrs.
This course is a continuation of MUSI 1113. Students will briefly review skills learned in MUSI 1113 and then continue their studies of tonal music with a focus on triad inversions, seventh chords, applied/secondary chords, and introduction to chromaticism in tonal analysis. Students will also compose simple pieces in the common practice style utilizing techniques learned in class. This course will run concurrently with MUSI 1116, Aural Skills II. Spring semester only. PR: MUSI 1113 and MUSI 1114 with a grade of “C” or higher.

MUSI 1116 Aural Skills II ...............................1 hr.
This course is a continuation of MUSI 1114. Students will briefly review skills learned in MUSI 1114 and then continue to expand their skills in melodic dictation, harmonic dictation, solfège signing, and error detection. Students will also use their aural skills to criticize and react to professional music recordings. This course will run concurrently with MUSI 1115, Theory II. Spring semester only. PR: MUSI 1113 and MUSI 1114 with a grade of “C” or higher.

MUSI 1117 Rhythmic Reading (on demand) ..........1 hr.
This course is designed for all students to improve reading rhythms in music. Spring semester.

MUSI 1120 S-FSU Music Appreciation .................3 hrs.
An introduction to Western music, the music of other cultures and styles of popular music. Students are encouraged to develop their own perspectives, talents, listening/critical skills, and appreciation for the musical interests of others. Sound and video recordings of music will play an integral part in the class. Attendance at live performances outside of class time will be required.

MUSI 1139 S-FSU Voice Class (first semester) ........1 hr.
A study of the fundamentals of voice production: breathing, resonance, articulation, and style. Fall semester only.

MUSI 1141 Voice I-IV; 3341 Voice I-IV (last 4 semesters) 1-2 hrs.
Open to students who have sufficient musical background and vocal quality to merit individual instruction. The principles of proper vocal production are stressed, with later emphasis upon solo repertoire in English, Italian, German, and French. Section 1 - Music Majors, Section 2 - Open, Section 3 - Theatre Majors. PR: Permission of Instructor.

MUSI 1167 S-FSU Collegiate Singers ..................1 hr.
A large mixed chorus open to all students. The Collegiates perform literature from the Renaissance to modern and popular styles. Activities include one or two performances per semester and a spring tour. Repeatable.

MUSI 1168 S-FSU Marching Band ......................2 hrs.
Open to students who play a band instrument or have the necessary skills to participate in one of the auxiliary units such as flags, rifles, or twirlers. The Marching Band performs at all home football games during the fall semester and at various marching band activities such as parades and festivals. Repeatable. Fall semester only.

MUSI 1169 S-FSU Wind Ensemble ......................1 hr.
The Wind Ensemble is a group of wind and percussion students performing the highest quality literature for the wind band medium in order to develop individual aesthetic sensitivity and awareness. Emphasis is on the development of individual and ensemble musicianship and performance skills through the study of diverse and fine literature for wind instruments. Wind Ensemble is a one-credit course and performs two concerts a semester. Open to all students. Repeatable. Spring semester only.

MUSI 1172 S-FSU University-Community Symphony Orchestra 1 hr.
Open to all students and members of the community who can play an appropriate orchestral instrument, space permitting. This course is designed to present the study and performance of orchestral literature appropriate to the ability of its members. Repeatable. Admission is by audition at the discretion of the director.

MUSI 1175 Guitar I-IV; 3375 Guitar I-IV (last 4 semesters) 1-2 hrs.
2hrs. Music majors in guitar only. Audition required. 1 hr. Prerequisite ? MUSI 1106 or Pre-Music/Music majors only.

MUSI 1176 Guitar Ensemble ..............................1 hr.
This is the chamber ensemble for music majors and minors in guitar. Repeatable. Admission is by audition at the discretion of the director.

MUSI 1177 Percussion I-IV; 3377 Percussion I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1179 Saxophone I-IV; 3379 Saxophone I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1181 Flute I-IV; 3381 Flute I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1183 Clarinet I-IV; 3383 Clarinet I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1185 Oboe I-IV; 3385 Oboe I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1187 Bassoon I-IV; 3387 Bassoon I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1189 Trumpet or Cornet I-IV; 3389 Trumpet or Cornet I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1191 Baritone Horn I-IV; 3391 Baritone Horn I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1193 French Horn I-IV; 3393 French Horn I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.

MUSI 1195 Trombone I-IV; 3395 Trombone I-IV (last 4 semesters) 1-2 hrs.
Pre-Music or Music majors only.
MUSI 1197 Tuba I-IV; 3397 Tuba I-IV (last 4 semesters) .........................1-2 hrs.
Pre-Music or Music majors only.

MUSI 1198 Organ I-IV; 3398 Organ I-IV (last 4 semesters) ...................1-2 hrs.
The program of study will be fitted to the individual needs of the subject. Pre-Music or Music majors only.

MUSI 1199 Special Topics in Music ..............................................1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the School's chairman. Credits earned will be applicable as free electives in degree and certificate programs.

MUSI 2200 Violin I-IV; 3300 Violin I-IV (last 4 semesters) ..................1-2 hrs.
Pre-Music or Music majors only.

MUSI 2201 Viola I-IV; 3301 Viola I-IV (last 4 semesters) ..................1-2 hrs.
Pre-Music or Music majors only.

MUSI 2202 Cello I-IV; 3302 Cello I-IV (last 4 semesters) ..................1-2 hrs.
Pre-Music or Music majors only.

MUSI 2203 Bass Violin I-IV; 4403 Bass Violin I-IV (last 4 semesters) .........1-2 hrs.
Pre-Music or Music majors only.

MUSI 2204 Functional Piano III ................................................1 hr.
This course is required of all students majoring or minoring in music. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Fall semester only. PR: MUSI 1105.

MUSI 2205 Functional Piano IV ................................................1 hr.
This course is required of all students majoring or minoring in music. Successful completion is required to pass the piano proficiency requirement for music education and the music minor. Piano majors and minors with a piano emphasis may substitute Keyboard Accompanying or other applied electives. Spring semester only. PR: MUSI 2204.

MUSI 2206 Music Appreciation for Majors ..................................3 hrs.
A survey of the history and literature of music, designed for the music major and minor. The study of the various styles and forms of western art music, world music, and popular music will include regular use of sound and video recordings. The purpose of the course is the development of a greater depth of understanding and appreciation of music. Spring semester only. Pre-Music or Music majors only.

MUSI 2211 String Class I-II .................................................1 hr.
This course is open to all students with sufficient background in music. A working knowledge of string instruments is attained through class instruction.

MUSI 2213 Brass Class I-II ................................................1 hr.
This course is open to all students with sufficient background in music. A working knowledge of brass instruments is attained through class instruction. Fall semester only.

MUSI 2215 Woodwind Class I-II ................................................1 hr.
This course is open to all students with sufficient background in music. A working knowledge of woodwind instruments is attained through class instruction. Spring semester only.

MUSI 2217 Percussion Class ..................................................1 hr.
Open to all students with sufficient background in music. A working knowledge of percussion instruments is attained through class instruction. Spring semester only.

MUSI 2219 Guitar Class for Music Majors ..................................1 hr.
This course is in the fundamentals of playing the guitar. It designed to address the needs of the music education major. Music education majors only.

MUSI 2223 Theory III ..........................................................3 hrs.
This course is a continuation of MUSI 1115. Students will briefly review skills learned in MUSI 1115 and then delve into the chromatic harmonies of common practice music. Topics will include secondary function chords, Neapolitan chords, augmented sixth chords, and modulatory techniques. Students will analyze longer musical excerpts and be expected to compose pieces in the common practice style utilizing techniques learned in class. Fluency in alto and tenor clef will also be a requirement. This course will run concurrently with MUSI 2224, Aural Skills III. Fall semester only. PR: MUSI 1115 and MUSI 1116 with a grade of "C" or higher.

MUSI 2224 Aural Skills III ..................................................1 hr.
This course is a continuation of MUSI 1116. Students will briefly review skills learned in MUSI 1116 and then continue advancing their skills in solfege singing, dictation, and aural analysis. Chromaticism, including applied and borrowed chords, will be added to the expectations of students along with simple modulation. This course will run concurrently with MUSI 2223, Theory III. Fall semester only. PR: MUSI 1115 and MUSI 1116 with a grade of "C" or higher.

MUSI 2225 Theory IV ..........................................................3 hrs.
This course is a continuation of MUSI 2223. Students will briefly review skills learned in MUSI 2223 and then finish their studies in chromatic harmony as exemplified by composers from the end of the Romantic era. Students will then begin to learn 20th century techniques of composition and analysis including extended tertian harmony, atonality, twelve-tone theory, pitch-class technique, exotic scales, and minimalist technique. The class will conclude with a survey of contemporary music composition practices including postmodernism, postminimalism, and neoclassicism. Students will be expected to compose short pieces in various contemporary styles to learn these techniques. This course will run concurrently with MUSI 2226, Aural Skills IV. Spring semester only. PR: MUSI 2223 and MUSI 2224 with a grade of "C" or higher.

MUSI 2226 Aural Skills IV ..................................................1 hr.
This course is a continuation of MUSI 2224. Students will briefly review skills learned in MUSI 2224 and then continue advancing their skills in solfege singing, dictation, and aural analysis. Students will sing simple octatonic, exotic scale, and atonal melodies. Students will also chant rhythms in mixed or asymmetric meters, polyrhythms, mixed beat divisions, and perform simple metric modulations. This course will run concurrently with MUSI 2225, Theory IV. Spring semester only. PR: MUSI 2223 and MUSI 2224 with a grade of "C" or higher.

MUSI 2227 SFSU Jazz Ensemble ............................................1 hr.
Open to saxophonists, trombonists, trumpeters, percussionists, guitarists, bassists and pianists regardless of academic major. The ensemble involves study, rehearsal, and performance of selected literature of all styles and more specifically explores a variety of big-band, jazz, jazz-rock, Latin, funk and other styles of jazz music. The jazz ensemble works with a variety of soloists from vocalists to instrumentalists. Jazz combos may be selected from the Jazz Ensemble membership. The ensemble performs a minimum of two concerts per year. Repeatable. Admission is by audition at the discretion of the director.

MUSI 2244 Advanced Woodwind Ensemble ................................1 hr.
Open to advanced woodwind students. Includes various Woodwind ensembles. Repeatable. Audition or admission at the discretion of the director.
MUSI 2251 Instrument Repair and Maintenance .......... 2 hrs.
A survey of the simple instrument repair problems that are commonly encountered in a school music program. Practical repair experiences are included where appropriate. Offered on demand.

MUSI 2277 S-FSU Chamber Choir ......................... 1 hr.
Open to all students. Designed to give students experience in small ensemble participation. This group performs a wide variety of a cappella music. Repeatable. Audition at beginning of each semester.

MUSI 3328 Elementary Music Methods and Materials for the Pre-K-8 grade level. PR: MUSI 1110, 1139 or 1141. Fall semester only.

MUSI 3330 Music in the Elementary Classroom ........... 3 hrs.
This course investigates fundamentals of music which can be utilized by the non-music teacher. The goal is to present pedagogical techniques that develop singing, listening, rhythm, movement, and other musical skills. The course will equip future elementary teachers with the skills to apply a variety of musical techniques in the classroom, both to teach musical content and to enhance other subject matter. Required for all Elementary Education majors. PR: Admission to Teacher Education.

MUSI 3347 Advanced Conducting ............................ 2 hrs.
This course is a continuation of the techniques studied in MUSI 2245, with an emphasis on refinement of the manual technique as well as basic analytical and marking techniques required for score preparation. Fall semester only. PR: MUSI 2245.

MUSI 3348 Advanced Percussion Ensemble .................. 1 hr.
Open to advanced percussion students and students with percussion experience. Designed to give students experience in small ensemble participation. Groups meet on a regular rehearsal schedule under faculty direction. Repeatable. Audition or admission at the discretion of the director.

MUSI 4434 Composition Workshop .......................... 2 hrs.
Students in this course will learn advanced and practical applications of instrumental conducting techniques, methods, administration and materials used in teaching instrumental music in the secondary schools. Pre-Music or Music Majors only.

MUSI 4435 Music Production Workshop ..................... 1-3 hrs.
A laboratory experience in music theater. The course culminates in a public presentation of opera or musical comedy. PR: Instructor approval required.
MUSI 4437 Area Studies in Music Literature I ........... 1-3 hrs.
Concentrated study of selected areas of music, to be determined by the instructor. Instructor approval required.

MUSI 4440 Senior Recital ........................................... 1 hr.
See Department of Music Handbook. All music majors are required to present a senior recital or its equivalent before the faculty jury or public.

MUSI 4442 & 4443 Theory Workshop (on demand) ...... 2-3 hrs.
Identification of suitable materials for the teaching of theory in the high schools, as well as methodology and pedagogical procedures for theory instruction. May be repeated for additional credit, with a maximum of six hours.

MUSI 4444 Elementary Workshop (on demand) ...... 1-2 hrs.
Identification of suitable materials for the teaching of elementary music, as well as new and innovative methodology. May be repeated for additional credit, with a maximum of four hours. PR: MUSI 3328. Instructor approval required. Offered on demand.

MUSI 4998 Undergraduate Research ........................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in the high schools, as well as methodology and pedagogical procedures for theory instruction. May be repeated for additional credit, with a maximum of six hours.

NATIONAL SECURITY AND INTELLIGENCE

NSIS 3301 Intelligence Research ................................ 3 hrs.
This course will integrate lecture and applications designed to develop basic skills in writing, research, analytical and presentations skills. The course will include lectures, discussions, and computer research design projects.

NSIS 3302 National Security and Intelligence Field Experience Practicum .................................. 1-12 hrs.
A supervised professional study conducted in the National Security and Intelligence field setting. Instructor approval required.

NSIS 4450 National Security and Intelligence Senior Seminar / Project ........................................... 3 hrs.
A capstone course which requires students to explore in depth case studies related to national security and intelligence in the areas of national security, intelligence, law enforcement, industrial security, and cyber (information technology) security. Students will be required to collect information, assess vulnerabilities, develop sources, analyze data, write reports, maintain case files, prepare and give oral briefings, and defend recommended courses of action. Students will be supervised in the performance of a directed research project in conjunction with field work at a sponsoring agency. The objective will be an individual project which leads to a publishable intelligence product, enhances intelligence skills, or provides a unique service to a project mentor or organization. Student performance will be evaluated by a committee of faculty members. Input regarding the student's performance will be invited and encouraged from the sponsoring agency, Senior standing or Instructor approval required.

NSIS 4499 Special Topics in National Security and Intelligence ..................................................... 1-12 hrs.
Studies in special selected topics to be determined by the instructor and approved by the program advisor. Individual students with specific interests work on a tutorial basis with an appropriate professor.

NSIS 4998 Undergraduate Research ........................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for students to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

NURSING

NURS 1100 Intro to Therapeutic Communication and Assessment .................................................. 1 hr.
This course is designed to introduce the beginning student to the fundamentals of therapeutic communication and health assessment. Technical skills necessary to patient assessment will be covered. Factors, such as developmental levels, sociocultural differences, mental and emotional status, which influence the techniques of communication and health assessment, will be explored. Emphasis will be placed on integrating appropriate communication techniques with assessment skills in various patient scenarios. (5 hour class, 1.5 hours lab per week). PR: admission to the ASN program. PR: FOSM 1110, HLCA 1170, HLCA 1171 or may be taken concurrently. Fall semester only.

NURS 1101 Fundamentals of Nursing .......................... 6 hrs.
This course is designed to introduce the beginning student to the nursing process, its application in clinical practice, and the role of the nurse as care provider. The lecture portion presents those concepts essential to the practice of nursing. The laboratory and simulated experiences involve the implementation of nursing, assessment, and communication skills related to basic needs and life processes of individual clients (4 hours class, 6 hours lab per week.) PR: Admission to the ASN program. CR: NURS 1100. Fall semester only.

NURS 1102 Transition for Licensed Practical Nurses .... 1 hr.
This course introduces the concepts and processes necessary to nursing practice. A major focus is on the nurse’s role and the transition from licensed practical nurse to registered nurse. PR: Admission to the ASN Program at Fairmont State University, and status as a Licensed Practical Nurse or a graduate of a practical nursing program.

NURS 1108 Nursing Care of Adults I ........................... 6 hrs.
This course is designed to assist students to gain knowledge of common health problems of adults and to use the nursing process, and the nursing roles of care provider, communicator and teacher to assist individuals to promote and attain health. Emphasis is placed on the following life processes: protective function-perioperative and oncology; fluid and electrolytes, and metabolism—diabetes and endocrine; elimination—GI, development—reproductive. The other life processes are considered as they apply throughout the course. Selected skills and simulated laboratory and primary nursing experiences will enable the student to acquire the knowledge and skills to implement effective nursing care and to meet client needs. The student is expected to integrate and use knowledge and skills acquired in prerequisite courses (4 hours class, 6 hours lab per week). PR: Admission to the ASN program. CR: BIOL 2205, PSYC 1101.

NURS 1109 Maternal & Newborn Nursing .................... 3 hrs.
This course is designed to introduce the student to the physiological, psychological, and social changes related to the child-bearing process as it affects both the mother and the family. Emphasis is placed on the normal processes. The student is expected to incorporate knowledge and skills that have been acquired in previous courses. The student will participate in clinical and simulated experiences to enhance his/her knowledge and skills in maternal and newborn health nursing and to practice the nursing roles of care provider, teacher and communicator. Antepartal and postpartal experiences include visits to various local clinics and offices providing women’s health care and the opportunity to observe...
NURS 1199 Special Topics in Nursing ......................... 1-12 hrs.
This course is concerned with special studies in selected topics, to be determined by the instructor and approved by the School's Dean. Credits earned will be applicable as free electives in degree and certificate programs. Offered as needed.

NURS 2203 Mental Health Nursing ............................. 3 hrs.
This course is a study of the concepts of mental health and common problems of mental illness as they affect the individual and family. Selected laboratory and simulated experiences enable the student to develop the knowledge and skills to use the nursing process to meet the needs of hospitalized clients having a functional disorder. This course stresses self-awareness, improving therapeutic communication skills, and establishing interpersonal relationships. Topics also include maladaptive behavioral patterns, current therapies, community mental health resources, and the role of nurse as communicator, teacher, and care provider. The life processes of protective function, psychosocial environment, and developmental concepts are addressed as they apply throughout the course. (2 hours class, 3 hours lab per wk). PR: Admission to the ASN program, PSYC 1101.

NURS 2208 Nursing Care of Adults II ............................ 7 hrs.
This course is designed to assist students to gain knowledge of common health problems of adults and to use the nursing process in assisting individuals and families to promote and attain health. Emphasis is placed on the life process of: oxygenation-respiratory, vascular/hematologic and cardiac; sensorimotor-musculoskeletal, neurological/eye and ear; elimination-renal. The other life processes are considered as they apply throughout the course. Selected laboratory experiences in caring for clients in the hospital, community agencies, and simulated experiences will enable the student to acquire the knowledge and skills to implement effective client care and to meet the client's needs. The nursing role of manager of care is developed with the involvement of the student in team nursing. Leadership, delegation, and collaboration are explored by the student while assuming roles of team leader, medication nurse, and patient educator (5 hours class, 6 hours lab per wk). Admission to the ASN program. Fall semester only. PR: BIOL 2205.

NURS 2209 Nursing of Children ............................... 4 hrs.
This course is designed to help the student gain a better awareness of the sequence of normal growth and development during the life processes of childhood. Students will examine health problems, disorders and illnesses common to children in each stage of development, from infancy through adolescence. A family-centered approach to child care, utilizing the nursing process, is emphasized. Special consideration is given to preventive and teaching aspects of concern to the patient and family. Selected clinical and simulated experiences will include care of children in healthcare and community agencies with emphasis on the roles of care provider, communicator and educator. (3 hours class, 3 hours lab per wk). PR: Admission to the ASN program. Spring semester only.

NURS 2211 Contemporary Nursing & Management ................... 3 hrs.
This is a capstone course designed to facilitate the transition from the role of student to the role of Registered Professional Nurse. This course addresses trends, issues, and management of health care. The student is expected to select a preceptor/role model to assist with the role transition as member of a profession through precepted clinical experience. This clinical experience is tailored to the student's interest and professional goals with emphasis on socialization into the nursing profession, management of multiple clients and application of clinical judgment skills. (2 hours class and 3 hours of clinical preceptorship per week). PR: Admission to the ASN program. Spring semester only.

NURS 2212 Advanced Nursing Care ............................. 4 hrs.
This course is designed to assist students to gain knowledge of complex and critical health problems and to use the nursing process to identify nursing interventions to promote the health of the individual and their family. Emphasis is placed on critical health problems of the life processes of: protective function, oxygenation, sensorimotor, elimination, and reproduction. Other content to be included will be emergency and disaster nursing and care of the high risk pregnant client and neonate. Selected laboratory experiences in caring for clients in acute care facilities and simulated experiences will enable the student to acquire knowledge and skill related to the theory content and to the nursing roles of care provider, communicator, educator, manager, and manager of care. (3 class hours, 3 lab hours per week). PR: Admission to the ASN program. Spring semester only.

NURS 3320 Health Assessment ................................. 4 hrs.
This course is designed to help students develop skills as providers in health/physical assessment. It includes discussion, demonstration, and the practice of assessment concepts and techniques applicable to various cultural groups and patients across the life span. Critical thinking skills are used to analyze assessment findings and apply them to patient-centered nursing care. Faculty-supervised campus laboratory and simulated experiences aid in development of students' skills. (3 hours class, 2 hours lab per week). PR: Admission to the BSN Program or successful completion of the first year of the ASN program. Spring semester only.

NURS 3340 Nursing Care of the Older Adult ..................... 3 hrs.
This course explores the unique health-related needs of the older adult. On-campus laboratory and simulation experiences give students the opportunity to practice using skills to provide safe, effective, evidence-based care to the older adult. Also explored are the needs of families and caregivers in relationship to the older adult. Special attention is given to culture, legal and ethical care, health promotion, resource management, multi-system disorders, patient-centered care, and interprofessional collaboration (2.5 class hours, 1 lab hour per week). PR: Admission to the BSN program or successful completion of the first year of the ASN program. Spring semester only.

NURS 3350 Professional Nursing Concepts ....................... 3 hrs.
This course is designed to introduce the concepts of professional nursing practice and the nurse generalist role. Students explore the healthcare context, health policy, and political action. The core health care competencies, as identified by the Institute of Medicine, are examined. Topics include patient-centered care, interprofessional teams, evidence-based practice, quality improvement, and informatics. The scope of the coursework covers the history, current state, and future of nursing in order to prepare registered nurses for diverse and dynamic professional roles. (3 hours lab per week). PR: Admission to the BSN program and NURS 3320; NURS 3330 may be taken concurrently. Active, unencumbered nursing license required beginning with this course. Fall semester only.

NURS 3360 Nursing Ethics ........................................ 3 hrs.
This course explores the values, codes, principles, and professional standards that govern bioethical and ethical decisions in professional nursing practice. The course supports the student in developing the professional role and the values of altruism, autonomy, human dignity, integrity, and social justice. The course investigates the emerging field of genomics as it relates to ethical decision-making. Case studies of ethical dilemmas are analyzed, and concepts learned are applied to nursing practice. (3 hours class per week). PR: NURS 3340 and NURS 3350; NURS 3340 may be taken concurrently. Spring semester only.

NURS 3399 Special Topics in Nursing ......................... 1-12 hrs.
This course is concerned with special studies in selected topics, to be determined by the instructor and approved by the School's Dean. Credits earned will be applicable as free electives.

NURS 4400 Research in Nursing Practice ....................... 3 hrs.
This course focuses on using research findings to provide nursing care. Students work in teams and use an evidence-based model...
NURS 4410  Community Health Nursing .......................... 5 hrs.

This course focuses on the theories and principles underlying current community health nursing practice. Students explore the reciprocal relationships among individuals, families, and populations as they relate to health promotion, maintenance, and restoration. Emphasis is placed on evidence-based practice, utilization of resources, team work, critical thinking, cultural competence, and community nursing. Preceptor-guided experiences and on-campus simulation activities allow students to practice providing patient-centered care (3 hours class, 4 hours lab per week). PR: NURS 3360 and NURS 4400. NURS 4410 may be taken concurrently. Accelerated Program: Instructor approval required. Fall semester only.

NURS 4440  Nursing Practicum .................................. 4 hrs.

In this course, students will explore the nurse generalist's roles as leaders and managers. Leadership and management theories and principles are explored and applied to a variety of health care situations. Emphasis is placed on critical thinking and decision making, team work, change theory, communication skills, conflict management, quality improvement, and resource management (3 hours class per week). PR: MGMT 2209 or MGMT 3308, and NURS 4400. MGMT may be taken concurrently. Accelerated Program: Instructor approval required. Spring semester only.

NURS 4441  School Nurse Practicum ............................ 4 hrs.

This clinical practicum is designed to help registered nurses with BSN degrees meet the West Virginia Board of Education standards for practicing school nurses. This specialization prepares nurses for their role as a professional and provider of age-appropriate, patient-centered care in the school setting. The focus in the course is on health education, child-centered care, and advocacy for children and their families. (One hour class, 6 hours lab per week). PR: Must be a registered nurse with an active, unencumbered WV license and a graduate of an accredited BSN program. Instructor's approval required.

NURS 4499  Special Topics in Nursing .......................... 1-12 hrs.

This course is concerned with special studies in selected topics, to be determined by the instructor and approved by the School's dean. Credits earned will be applicable as free electives.

NURS 4998  Undergraduate Research ............................ 0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

PHILO 1199  Special Topics in Philosophy ..................... 1-12 hrs.

The topic to be studied will be determined by the instructor and approved by the chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

PHILO 2200  S-FSU Introduction to Philosophy ................ 3 hrs.

A survey of the principal problems and theoretical responses which have come from man’s attempts to organize his experience and direct his existence. The ideas of individual thinkers (Socrates, Plato, St. Augustine, Bruno, Locke, Sartre, Heidegger, et al.) and schools of interpretation (rationalist, empiricist, pragmatic) are highlighted.

PHILO 2250  S-FSU Great Philosophers ........................ 3 hrs.

A survey of the historical development of western philosophical thought from ancient Greece to the twentieth century. This course is a continuation of PHILO 2200, covering the issues and philosophers in more analytical detail. The focus is on developing trends of thought as exhibited by the methods of the great philosophers, and the corresponding challenges presented by their critics.

PHILO 2275  Introduction to Logic and Critical Reasoning .... 3 hrs.

This course is an introduction to the study of arguments and critical reasoning, as well as how they occur in real-life contexts. Students are expected to learn the role and importance of arguments, how to recognize when arguments are being offered (as opposed, say, to definitions or explanations), how to extract and reconstruct them from their natural language settings, how to classify arguments, how to distinguish between good arguments and fallacious ones, and how to use them well. (Students preparing for the study of law will find this course especially helpful.) Elective Course. No prerequisites.

PHILO 3325  Ethics ....................................................... 3 hrs.

A study and evaluation of classical and contemporary theories of right and wrong, good and bad and inhuman conduct, with emphasis on the implications of these theories for resolving contemporary moral problems. The corrosion of dogmatic ethical positions through skepticism and relativism is examined, and helpful responses are introduced. Students will discuss problems in medical ethics as well.

PHILO 3350  Comparative Religion ............................... 3 hrs.

Description and analysis of the philosophical thought underlying the major religions of the world.

PHILO 4475  Philosophy of History .............................. 3 hrs.

A survey of the philosophical positions, both speculative and analytical, that have been advanced to evaluate humanity's historical understanding and experience. Credit in either philosophy or European history.

PHILO 4400  Seminar .................................................... 3 hrs.

Research and reading for advanced students. Participants are required to write a paper on a philosophical issue of their interest.

PHILO 4499  Special Topics in Philosophy ..................... 1-12 hrs.

The topic to be studied (at an advanced level) will be determined by the instructor and approved by the chairperson. Credits earned will be applicable as free electives in degree and certificate programs. PR: at least one philosophy course or permission of the instructor.

PHILO 4998  Undergraduate Research ............................ 0-6 hrs.

Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

This course is designed to provide an opportunity for students to make intelligent choices concerning lifelong wellness and to achieve optimum levels of fitness through regular exercise, proper nutrition, weight control and stress management.

PHED 1100 S-FSU Fitness and Wellness: This course is designed to provide an opportunity for students to make intelligent choices concerning lifelong wellness and to achieve optimum levels of fitness through regular exercise, proper nutrition, weight control and stress management.

PHED 1101 Basic Physiological Conditioning-Health: This course covers the analysis, application and integration of basic physical conditioning and health concepts. The course is offered in eight-week sessions.

PHED 1102 Weight Training/Lifting: The analysis and application of the rules, boundaries, strategies, psychomotor skills and safety aspects of weight training/lifting are studied. The course is offered in eight-week sessions.

PHED 1103 Movement: The analysis and application of rules, boundaries, strategies, psychomotor skills and safety aspects of the individual sport of movement are studied. This course is offered in eight-week sessions.

PHED 1104 Introductory Seminar in Human Movement: General survey of instructional and non-educational professional career alternatives available within physical education. Students will discuss issues, trends, history, philosophy, and future career directions in physical education.

PHED 1105 Archery: The analysis and application of rules, psychomotor skills, and safety aspects of the lifetime sport of archery. This course is offered in eight-week sessions.

PHED 1106 Aerobics: The analysis and application of the psychomotor skills, fitness components, and safety aspects in the lifetime activity of dance aerobics are studied. This course is offered in eight-week sessions.

PHED 1107 Badminton: The analysis and application of rules, boundaries, strategies, psychomotor skills, and safety aspects of the individual sport of badminton. This course is offered in eight-week sessions.

PHED 1108 Bowling: The analysis and application of rules, strategies, psychomotor skills, and safety aspects of the individual sport of bowling. This course is offered in eight-week sessions.

PHED 1109 Casting and Angling: The analysis and application of the psychomotor skills and safety aspects of the individual sport of casting and angling. This course is offered in eight-week sessions.

PHED 1110 Disc Sports: The analysis and application of the rules, game strategies, psychomotor skills and safety aspects in the life time sport of ultimate and disc golf are studied. This course is offered in eight-week sessions.

PHED 1111 Introductory Seminar in Human Movement: General survey of instructional and non-educational professional career alternatives available within physical education. Students will discuss issues, trends, history, philosophy, and future career directions in physical education.

PHED 1112 Volleyball: The analysis and application of the rules, boundaries, strategies, psychomotor skills, and safety aspects of the team sport of volleyball. This course is offered in eight-week sessions.

PHED 1113 Table Tennis: The analysis and application of the rules, game strategies, psychomotor skills and safety aspects in the life time sport of table tennis are studied. This course is offered in eight-week sessions.

PHED 1114 Tennis (Beginning): The student will be introduced to basic skills, rules, boundaries, game situations and team play.
PHED 2218 Advanced Personal Training ................. 3 hrs.
Designed to synthesize the knowledge acquired from an exercise science curriculum with practical application for successful job performance in the fitness industry.

PHED 2232 Basic Aquatics ........................................ 2 hrs.
Introduction to the knowledge and skills necessary to become proficient and safe in or on the water.

PHED 2233 Advanced Aquatics-Life guarding ........... 2 hrs.
Basic and advanced swimming strokes are examined, with an emphasis on achieving proficiency in lifesaving techniques. Does not apply to Recreation minor. Successful completion of this course is required for Red Cross certification.

PHED 2234 Individual and Dual Sports I ................. 2 hrs.
The rules, boundaries, strategies and psychomotor skills characteristic of the sport forms are analyzed and applied to the following: golf, racquetball, handball, squash and bowling.

PHED 2235 Team Sports I ........................................ 2 hrs.
The rules, boundaries, strategies and psychomotor skills characteristic of the sport forms are analyzed and applied to the following: basketball, flag football, baseball and speedball.

PHED 2236 Team Sports II ...................................... 2 hrs.
The rules, boundaries, strategies, and psychomotor skills characteristic of the sport forms are analyzed and applied to the following: volleyball, field hockey, softball and soccer.

PHED 2239 Individual and Dual Sports II .................. 2 hrs.
The rules, boundaries, strategies, and psychomotor skills characteristic of the sport forms are analyzed and applied to the following: track and field, tennis, table tennis and badminton.

PHED 2240 Outdoor Leisure Activities .................. 2 hrs.
Safety, knowledge and skills specific to the area of outdoor leisure activities are analyzed and applied in the following sports: archery, horseshoes, hiking, backpacking, orienteering, camping and others.

PHED 2241 Gymnastics and Dance ......................... 2 hrs.
This course analyzes and applies safety, instructional strategies, and skill techniques characteristic of gymnastics and dance in basic tumbling, fundamental jazz and aerobic dance.

PHED 2242 Social Dance ......................................... 2 hrs.
This course is designed to prepare the pre-service teacher to select, instruct, and evaluate a variety of multi-cultural dances for early childhood, middle childhood and adolescent education.

PHED 2243 Teaching Team Passing Sports ............. 3 hrs.
This course is designed to train pre-service teachers to instruct in the following areas: flag football, soccer, basketball, and speedball. Students are required to perform, assess, and analyze fundamental skills in each area. Knowledge of game rules, terminology, safety issues, equipment and playing strategies will enable students to design learning opportunities for different developmental levels of children and adolescents. Majors only restriction

PHED 2244 Teaching Wall-Net Sports ..................... 3 hrs.
This course is designed to train pre-service teachers to instruct in the following areas: badminton, table tennis, tennis, pickleball, and volleyball. Students are required to perform, assess, and analyze fundamental skills in each area. Knowledge of game rules, terminology, safety issues, equipment and playing strategies will enable students to design learning opportunities for different developmental levels of children and adolescents. Majors only restriction

PHED 2246 Teaching Striking / Target Sports ........... 2 hrs.
This course is designed to train pre-service teachers to instruct in the following areas: softball, golf, disc sports, and bowling. Students are required to perform, assess, and analyze fundamental skills in each area. Knowledge of game rules, terminology, safety issues, equipment and playing strategies will enable students to design learning opportunities for different developmental levels of children and adolescents. Majors only restriction

PHED 2212 Physiology of Exercise ..................... 3 hrs.
This course investigates the knowledge of basic physiological adaptations that accompany physical activity and sport. PR: PHED 2211.

PHED 3312 Physiology of Exercise ..................... 3 hrs.
The study of humans in motion, including the structures that are responsible for motion and the forces that influence human motion. PR: PHED 2211. Fall only.

PHED 3316 Fitness Assessment and Exercise Physiology ...................... 3 hrs.
The study of methods of determining fitness levels, developing safe exercise programs and developing and administering group exercise/wellness programs. Emphasis is placed on evaluation techniques and exercise prescription. PR: PHED 3312 or Instructor Permission.

PHED 3317 Clinical Applications of Exercise Physiology ...................... 3 hrs.
Study of exercise programs for improving the health-related fitness of specialized populations. Exposure to cardiac and pulmonary evaluation techniques for purposes of diagnosis and exercise prescription in symptomatic and asymptomatic populations. PR: PHED 3316 or Instructor Permission.

PHED 3318 Sport Social Psychology ..................... 2 hrs.
Students explore topics related to the social and psychological aspects of physical activity and sport. PR: SOCY 1110, PSYC 1101.

PHED 3320 Lifespan Motor Development ................ 3 hrs.
The course will study changes in motor behavior over the human lifespan and the processes which underlie these changes. Emphasis will be placed on current issues and research in motor development. PR: PHED 1121.

PHED 3323 Teaching Elementary Physical Education ................. 3 hrs.
This course examines the analysis and application of instructional strategies, psychomotor skills and patterns characteristic to the elementary physical education curriculum in the following areas: movement education, fundamental and manipulative skills, rhythmic activities and sport lead-up games. Fall semester only.

PHED 3324 Performance-Based Assessment ............. 3 hrs.
This course examines the evaluative process through the design and application of performance-based assessment instruments. The course will focus on authentic assessment of standards-based instruction in the physical education setting from pre-school through adolescent grade levels. PR: Math 1107 or higher, PHED 3323

PHED 3325 Instructional Strategies ..................... 3 hrs. Writing Intensive
This course is based on a motor development perspective with regard to the design of curriculum, instructional plans and assessment instruments. The scope of this course addresses instructional strategies across the developmental span of pre-kindergarten through the high school levels in a physical education setting. PR: ENGL 1108, PHED 3323

PHED 3326 Early Psychomotor Development ........... 3 hrs.
An analysis of the growth, development, and maturation of cognitive, psychomotor, affective and social sport behaviors of children. Students will explore activities pertinent to early childhood experiences.

PHED 3327 Sport in Society ..................................... 3 hrs. Writing Intensive
This course is designed to introduce students to the interrelationship between sport and society, the influence of sport upon the individual, and an understanding of individual cognitions, emotions, behaviors and economic dynamics that effect sport participants. Required course; PR: ENGL 1108, ECON 2200. Fall, Even Years
PHED 3342 Field Experience in Adapted Physical Education.................2-4 hrs.
A field experience in working with institutions and organizations which provide services to the handicapped. Variable credit is dependent upon the nature and duration of the field experience. PR: PHED 3343.

PHED 3343 Adapted Physical Education Activities........3 hrs.
This course is designed to provide an understanding of the areas of exceptionalities with an emphasis on the inclusion of students with high incidence disabilities in a physical activity environment. Instructional strategies in modifying physical activity to meet the needs of the individual are analyzed and applied in an activity lab setting. There will be practical experience in the public school setting. PR EDUC 2240. Spring only.

PHED 3353 Field Experience in Sport Coaching........2-4 hrs.
Field experience will be provided to involve the student as an intern coach in either an intercollegiate or interscholastic sport program.

PHED 3354 Sports Officiating.................................2 hrs.
This course involves the technical and theoretical aspects of sport officiating. The first-semester course will emphasize men's regulations common to the sport; the second semester will emphasize women's regulations common to the sport.

PHED 3355 Scientific Foundations of Sport Coaching........................4 hrs.
The student will examine basic human physiological adaptations that occur during participation in sport activities. Basic mechanical laws and principles and their application to the performance of sport activities will be studied.

PHED 3356 Administration and Coaching of Sport ...........................................3 hrs.
This course focuses on basic psychological, philosophical and technical knowledge and its relationship to the coaching of sport activities. Further emphasis will be placed on the principles and practices that are required in the planning, organization and administration of sport programs.

PHED 3357 Sport & the Law........................................2 hrs.
The course examines a variety of sport situations that help students appreciate the legal and ethical dilemmas facing those who participate in and manage the sport enterprise. Students will gain understanding of a wide range of legal principles applicable to the role of the sport manager. A major focus of this course is the review of judicial opinions that frequently arise in cases involving organized sport. Required course; PR: PHED 3325. Spring, Odd Years.

PHED 3358 Techniques of Sport Coaching ....................6 hrs.
A presentation of sport skill techniques in combination with the theoretical aspects of sport coaching. A field experience in sport coaching will be provided through an internship in two selected intercollegiate or interscholastic sports programs.

PHED 3365 Activities in Outdoor Education....................1-3 hrs.
This course provides experience in outdoor education, including backpacking, canoe-camping, rock climbing and other activities. Each weekend will be spent at a different location to develop a variety of outdoor educational skills.

PHED 3366 Field Experience in Outdoor Education..............1-3 hrs.
This course offers extended outdoor educational experiences, including Appalachian Trail, river canoe- camping trips, and others. Credit will vary according to the length of the experience. PR: PHED 3365.

PHED 3371 Principles of Athletic Training........................3 hrs.
Students will learn basic competencies related to the controlling and managing of sport-related injuries, including presentations of prevention and treatment of these injuries. PR: PHED 2211, 3312.

PHED 3372 Field Experience in Athletic Training........2-4 hrs.
Experiences in athletic training procedures and techniques with college and secondary school athletic teams are provided. Variable credit is dependent upon the nature and duration of the internship. PR: PHED 3371.

PHED 3398 Sport Management Internship......................1-12 hrs.
This course comprises a directed internship in a particular area of specialization. Students will complete the internship in cooperation with a community agency or business, clinic, or other appropriate organization. Direct observation and on-the-job experience, through active participation in ongoing programs, will enable students to broaden their scope beyond the classroom.

PHED 4201 Sport Finance........................................3 hrs.
Writing Intensive
This course applies fundamental accounting and finance concepts to real-world case studies in the sport industry. Students will investigate the current financial status of the sport industry, for-profit and not-for-profit budgeting, development and fundraising principles, financing principles, creating alignment within organizations, entrepreneurship, and the effects of continuity and change. Required course; PR: ENGL 1108, FINC 2201, Introduction to Financial Management. Spring, Even Years.

PHED 4400 Research Methodology................................3 hrs.
Introductory course in the planning and implementation of research in the study of human performance. Students will consider the topics of variables and hypotheses, research designs, data collection, analysis and interpretation. PR: PHED 3316 or Instructor Permission.

PHED 4410 Research Design Seminar............................3 hrs.
Writing Intensive
Survey of research in the historical, administrative, performance, motor development, philosophical, psychological and sociological issues in the current literature in the study of human movement. The student will select and design a research project in one of the specific areas. PR: ENGL 1108, PHED 4400.

PHED 4420 Exercise Science I.........................................3 hrs.
The purpose of this internship is to provide students with the opportunity to gain practical experience in the field of fitness/wellness. This culminating experience allows students to apply theoretical knowledge to a "real-life" situation under the supervision of professionals currently in the fitness/wellness field. PR: All pre-4400-level coursework. PR: All pre–4400 level exercise science course work or Instructor Permission.

PHED 4431 Methods and Materials in Teaching Physical Education..........................3 hrs.
The focus of this course is the application of instructional strategies, classroom management techniques and performance-based assessment across different developmental levels in the public school setting. Practical experience in the public schools is required. PR: PHED 3325.

PHED 4450 Advanced Sport........................................1 hr.
This course is open only to students with sufficient background in the techniques and methods of an indicated sport. Credit is not to be awarded until the student has attained junior standing and can be received only once during a student's academic career. This course is elective credit only and cannot be used to fulfill the requirements in any degree program.

PHED 4499 Special Topics in Sport Management..............1-9 hrs.
This course involves advanced study, mentorship and/or advanced internship experiences in a specialized area of sport management. Elective Course. Instructor approval required.

PHED 4998 Undergraduate Research..............................0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in
his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

PHYSICAL SCIENCE

PHSC 1199 Special Topics in Physical Science .......... 1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the department chair. Credits earned will be applicable as free electives in degree and certificate programs.

PHSC 2201 Exosphere .................................................. 4 hrs.
This course is designed to provide elementary education majors with an understanding of the interrelationships of matter and energy, and the earth in space. The Exosphere theme will focus primarily on astronomy and physics, while incorporating topics in earth science and biology. Class periods will be structured around the three-stage learning cycle, modeling constructivist teaching methods. Four hours of lecture/discussion/activities per week. PR: BIOL 1104 with a C or better and admission to Elementary Education. Fall semester only.

PHSC 2202 Geosphere .................................................. 4 hrs.
This course is designed to provide elementary education majors with an understanding of the dynamic earth and its matter. Students will primarily focus on earth science and chemistry topics, while integrating biology concepts and physics topics such as balanced and unbalanced forces, magnetism, friction, wave propagation, and structure. Four hours of lecture/discussion/activities per week. PR: BIOL 1104 with a C or better and admission to Elementary Education. Spring semester only.

PHSC 4412 Elementary Science Methods ..................... 3 hrs.
This course is designed to prepare pre-service elementary school teachers to teach science. Students will work with equity, authentic assessment, technology integration, safety, and science pedagogy including inquiry, constructivism and problem-based learning. Students will conduct a learning cycle-based lesson with elementary students during an after-school program, and will construct an integrated thematic unit for use in an elementary classroom. PR: Admission to the teacher education program and the following courses: PHSC 2201, 2202, all with a C or better.

PHSC 4430 Science Integration Seminar ..................... 1 hr.
This course is designed for students preparing to teach general science in middle and high schools. Teacher candidates will investigate the nature of science, the processes of science, and the inter-related nature of science disciplines. They will explore the science theme of Earth's Oceans to investigate the geoscience, biology, chemistry, physics content as it pertains to that theme. In addition, students will develop an original standards-based project-based module around an oceanography theme. Students should have completed a substantial portion of their general science coursework before enrolling in this course (e.g. PHYS 1101, GEOL 1101, CHEM 1105, and BIOL 1106). PR: Junior status and admission to Teacher Education.

PHSC 4431 Methods and Materials in Teaching Science ................. 3 hrs.
The course is designed for students preparing to teach science at the middle or secondary-school level. Students will develop and teach a science lesson to junior high school children in the Science Enrichment Program. They will become familiar with science curriculum in the middle and secondary schools, science teaching resources, laboratory safety, test construction and classroom management skills, and will develop an instruction unit. PR: junior status and admission to Teacher Education. Spring semester only.

PHSC 4998 Undergraduate Research ......................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

PHYSICS

PLEASE NOTE:
PHYS 1105/1106 substitutes for PHYS 1101/1102 in all programs. PHYS 1105/1106 is calculus based and is a more appropriate level of study than PHYS 1101/1102 for science majors and some technology majors.

PHYS 1101 S-FSU Introduction to Physics I ............. 4 hrs.
An introduction to elementary principles of mechanics, sound, and heat. A three-hour laboratory period each week supplements the three lecture-recitation periods. PR: MATH 1102 or MATH 1115 or MATH 1185 or MATH 1190 or MATH ACT 24 or MATH SAT 560 or Compass 67.

PHYS 1102 S-FSU Introduction to Physics II ............ 4 hrs.
A continuation of PHYS 1101; includes a study of electricity and magnetism, light and basic atomic and nuclear physics. PR: PHYS 1101.

PHYS 1105 S-FSU Principles of Physics I ............. 5 hrs.
Students are instructed in the elementary principles and calculus-based mathematical descriptions of matter and energy, including mechanics (linear and rotational motion, force, work and energy, harmonic motion), fluids, wave motion and thermal physics. A three-hour lab period supplements a four-hour weekly lecture. PR: MATH 1185 or MATH 1190 or TECH 2290 or MATH ACT 28 or MATH SAT 630 or Compass 89.

PHYS 1106 S-FSU Principles of Physics II ............ 5 hrs.
Students are instructed in the elementary principles and calculus-based mathematical descriptions of electricity and magnetism, light, optics and modern physics. A three-hour lab period supplements the four-hour weekly lecture. PR: PHYS 1105.

PHYS 1199 Special Topics in Physics ...................... 1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the department chair. Credits earned will be applicable as free electives in degree and certificate programs.

PHYS 2201 Demonstrations in Physics ................. 2 hrs.
This course covers effective use of everyday materials to illustrate physical phenomena, experience with a variety of lecture equipment, and practice in planning and executing demonstrations. It is designed to serve teachers in both the elementary and secondary schools. PR: Program Restriction: Physics teaching specialization.

PHYS 2202 Astronomy ................................................. 3 hrs.
A study of the physical properties of the solar system, stars and galaxies, including the concepts of motion, space and time. Occasional night sessions. PR: PHYS 1102 or PHYS 1106.

Students taking this course will build, examine and utilize scientific models of classical mechanics to conceptualize and understand the natural phenomena of motion and matter interactions. Students will apply these calculus-based models to a wide range of single and many-particle systems characterized by mass, electrical charge, atomic structure, and constant and variable interactions. Models include the principles of linear and angular momentum, Newton’s laws, waves and oscillatory motion. PR: PHYS 1102 or 1106 and MATH 1186 or 3315 or TECH 3300.

Students taking this course will build, examine and utilize energy-based scientific models to conceptualize and understand
the natural phenomena of motion and states of matter from an energy perspective. Students will apply these calculus-based models to systems involving gravitational, electric, atomic, and nuclear interactions. Models include the mechanical, thermal and electromagnetic energy of these systems. PR: PHYS 3211 (or at the same time with instructor’s permission).

**PHYS 3221 Intermediate Physics IIA - Electric Interactions** 3 hrs.
Students taking this course will build, examine and utilize the scientific models of classical electricity and magnetism to conceptualize and understand the natural phenomena of electric interactions on a macroscopic level. Students will apply these calculus-based models to various important electrical systems and circuits. PR: PHYS 3212.

**PHYS 3222 Intermediate Physics IIB - Electromagnetic Interactions and Semiconductor Devices** 3 hrs.
Students taking this course will build, examine and utilize the scientific models of magnetic field, electromagnetic radiation and electron energy levels in solids to conceptualize and understand magnetic and electromagnetic phenomena, quantum phenomena in solids, and transistors. Students will apply these calculus-based models to electromagnetic interference, particle-wave duality, and semiconductor devices and circuits. PR: (or at the same time with instructor’s permission): PHYS 3221.

**PHYS 3230 Intermediate Physics Laboratory** 2 hrs.
Students taking this course will systematically investigate aspects of the models and concepts of PHYS 3211-2 and 3221-2 through a set of laboratory experiences. The labs include preliminary research, and lab setups, analysis and reporting. Student reports will include oral presentations of their preliminary research and investigations, and demonstrations of their lab set-ups. PR: (or at the same time with instructor’s permission): PHYS 3221.

**PHYS 3310 Electricity and Electronics** 4 hrs.
A review of elementary direct and alternating current theory and transient responses of electrical components. Students are introduced to basic theory of vacuum tubes, semiconductors, amplifiers principles, and logic circuits. Two hours of laboratory and three hours of lecture each week. PR: PHYS 1102 or PHYS 1106.

**PHYS 3325 Advanced Physics I** 4 hrs.
An in-depth, rigorous, calculus-based treatment of thermodynamics, mechanics (including Newtonian mechanics, one-dimensional dynamics, oscillatory motion, vector analysis and central forces) and wave motion. A two-hour lab period supplements the three-hour weekly lecture. The lab component provides open-ended, inquiry-based investigations along with greater responsibility for interpreting, utilizing and communicating results in the classroom. PR: (PHYS 1102 or PHYS 1106) AND (MATH 1186 or MATH 3315 or TECH 3300)

**PHYS 3335 Advanced Physics II** 4 hrs.
An in-depth, rigorous, calculus-based treatment of modern physics, including relativity, particle-wave duality, electromagnetic radiation, Schrodinger’s wave equation, atomic theory and nuclear physics. A two-hour lab period supplements the three-hour weekly lecture. The lab component provides open-ended, inquiry-based investigations along with greater responsibility for interpreting, utilizing and communicating results in the classroom. PR: (PHYS 1102 or PHYS 1106) AND (MATH 1186 or MATH 3315 or TECH 3300)

**PHYS 3340 Special Problems** 2 hrs.
Individual studies of problems of special interest in the field of physics, for advanced students. PR: (PHYS 1102 or PHYS 1106) AND (MATH 1186 or MATH 3315 or TECH 3300)

**PHYS 3350 Mathematical Methods of Physics** 3 hrs.
This course deals with the applications of vectors, vector algebra, vector analysis, differential calculus, integral calculus and differential equations to problems in physics and related scientific fields. PR: (PHYS 1102 or PHYS 1106) AND (MATH 1186 or MATH 3315 or TECH 3300)

**PHYS 4998 Undergraduate Research** 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

**POLITICAL SCIENCE**

**POLI 1103 S-FSU American Government** 3 hrs.
A survey of the American political system, dealing particularly with the form and function of the federal system.

**POLI 2200 S-FSU Introduction to Political Science** 3 hrs.
A study of the fundamentals of politics and key issues, the concept of the state and its agent, government, types of political authority, the scope of governmental activities and the problem of world order.

**POLI 2201 S-FSU Principles of International Relations** 3 hrs.
A study designed to acquaint the student with the theory and practice of international relations.

**POLI 2203 S-FSU Comparative Government** 3 hrs.
This survey course is designed to foster a broad general acquaintance with the political institutions and government practices of certain nations.

**POLI 2206 Public Planning in Appalachia** 3 hrs.
A study of federal-state relations, regional planning and development administration in West Virginia, the Appalachian Regional Commission, public program analysis and evaluation and images and realities of public planning in West Virginia.

**POLI 2207 Public Budgeting and Government Finance** 3 hrs.
This course analyzes the political, economic and social aspects of budgeting, with particular emphasis on their relationships in West Virginia state and local government.

**POLI 2209 Selected Topics in Political Science** 3 hrs.
An issue-oriented study of some germane matter in public administration. The course involves an extensive commitment to a single issue or policy area over the course of the semester.

**POLI 2240 Nonparametric Statistics** 3 hrs.
This course introduces the student to the fundamental principles of descriptive and inferential statistics, with an emphasis on the analysis of nominal and ordinal data. Topics include nonparametric tests of significance, scaling, coding and a discussion of hypothesis construction. This course should be taken during the sophomore year. (Credit in either Political Science or Sociology.) PR is one of the following, with a grade of C or better:

(a) MATH 1100
(b) MATH 1107
(c) MATH 1112
(d) MATH 1115

**POLI 3300 Public Administration** 3 hrs.
This upper division course explores the politics of public administration. This course studies the origins, structures, and processes of government administration with a focus on administrative politics, law and ethics, organizational theory and technical fields, such as budgeting, planning, and personnel. Public
administration involves the bureaucracy in the implementation of politics often authored by other institutions of government (the legislative, executive, and judicial branches).

**POLI 3301 Comparative Public Administration**........... 3 hrs.

Utilizing the techniques of comparative analysis, this course explores the theory and practice of public administration in various cultures and political systems. Attention is centered on the practices of administration in American national, state and local governmental settings.

**POLI 3302 State and Local Government**.................... 3 hrs.

This course is designed to explore American state and local government structures and functions while focusing on constitutions, institutions, instruments of popular control, and intergovernmental relations. This course will examine a number of topics having to do with state and local politics with an emphasis on comparing states and extra attention on the state and local government in West Virginia.

**POLI 3303 Political Parties**............................... 3 hrs.

**POLI 3304 American Constitutional Government and Law** ........................................ 3 hrs.

This course examines the development, interpretation and application of basic principles of constitutional law in the United States. The course will be concerned with the definition, extents and limitations of governmental powers and rights of Americans. PR: POLI 1103.

**POLI 3305 American Political Theory**...................... 3 hrs.

A study of the political literature which has given expression to the ideas of individual liberty enjoyed by American citizens.

**POLI 3306 The American Presidency**........................ 3 hrs.

This course will introduce the student to the institution of the American presidency and will also act as a comprehensive survey of the presidency. Students will examine several aspects of the office and a variety of views about the presidency. PR: POLI 1103.

**POLI 3307 Congress and the Legislative Process**......... 3 hrs.

This course introduces the student to the institution of the Congress and the legislative process. Topics include the internal processes and structure of Congress, Congress-constituent connections and its relationship with other branches and levels of government. PR: POLI 1103.

**POLI 3308 Public Personnel Administration**................ 3 hrs.

An examination of public personnel administration, with emphasis on such matters as the merit system, the historical development of public service, staffing, training, classification, the rights and obligations of public employees and the human-relations aspects of public management.

**POLI 3310 Recent Political Theory**.......................... 3 hrs.

An analysis of the development and theoretical foundations of three major political ideologies of the nineteenth and twentieth centuries: Communism, fascism, and democracy.

**POLI 3311 Global Affairs**................................. 3 hrs.

This course analyzes major global issues facing the world today; such as human rights, terrorism, armed conflict, and peace. This course will also explore the politics of scarcity and security of energy resources, environment, economy, food and water resources, demographics and population growth, technology and information.

**POLI 3321 US Foreign Policy**.............................. 3 hrs.

This course explores U.S. foreign policy formulation and considers policies by areas and functions. PR: POLI 1103.

**POLI 3340 Political Science Research Methods**........... 3 hrs.

*Writing Intensive*

This course is designed to introduce the student to the methods of conducting replicable research in political science. Topics include research design, literature review, measurement criteria, data gathering, analysis and validity. The course will consist of lectures and exercises in the classroom, library and computer lab. PR: ENGL 1108.

**POLI 3350 International Law and Organizations**........ 3 hrs.

A study of the structure and functions of international institutions and legal processes involved in the effort to maintain peace and security in the world.

**POLI 3360 Government and Politics of the Far East**...... 3 hrs.

A study of political systems and developments in the countries of Communist and Nationalist China, South and North Korea and Japan, with emphasis on China. Students will consider such relevant aspects as the historical foundation, economic problems and foreign policy of the state.

**POLI 3370 World Religions and Politics**.................... 3 hrs.

This course will undertake a systematic and rigorous investigation of the relationship between politics and religion in a variety of countries around the world. Religion plays an important and contentious role in world politics and this course will analyze the philosophical thought underlying major world religions.

**POLI 3393 Future Global Crises**........................... 3 hrs.

A team-taught, multi-disciplinary study of potential developments in the world. Areas of concentration are tailored to students' interests. Credit in Technology or Psychology.

**POLI 4404 Civil Liberties in the US**....................... 3 hrs.

A study of the nature and substance of civil liberties in the United States. The philosophy underlying the Bill of Rights will be analyzed and students will discuss the development of each of the great freedoms protected therein, such as free speech, free press, and free religion among others. Particular attention will be given to how the Supreme Court has interpreted and applied the guarantees contained within the Bill of Rights in specific instances. PR: POLI 1103.

**POLI 4405 Terrorism**........................................ 3 hrs.

A course designed to give the student an understanding of the problem of terrorism and political violence. The course will define terrorism, examine its origins, characteristics, nature and trends, analyze in detail various terrorist organizations and address selected problems in the response to terrorism. Credit in Political Science or Criminal Justice.

**POLI 4406 International Problems**....................... 3 hrs.

This course covers the foreign policies of several nations and the machinery established for the peaceful adjudications of international differences.

**POLI 4410 Problems in American Government**........... 3 hrs.

A study of current problems affecting the structure and function of American national government. PR: POLI 1103.

**POLI 4411, 4412, 4413 Area Studies**...................... 3 hrs.

Studies of selected areas or regions of the world, conducted on an interdisciplinary basis. The area selected and the time span studied will be determined by the instructor. PR: Instructor approval required if offered as an arranged class; no prerequisite required if class meets regularly.

**POLI 4450 Practicum**........................................ 1-12 hrs.

A professional internship with a government or political agency, designed to give students pertinent experience in a particular field of political science. PR: POLI 1103, Instructor approval required.

**POLI 4470 Seminar in Political Science**.................. 3 hrs.

A survey of recent developments in the practice and theory of politics, with an emphasis on independent study. PR: Instructor approval required.

**POLI 4499 Special Topics in Political Science**........... 1-12 hrs.

Studies in special selected topics to be determined by the instructor and approved by the program advisor. Individual students
with specific interests work on a tutorial basis with an appropriate professor.

**POLI 4998 Undergraduate Research** ............................ 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for students to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level. Repeatable. Instructor approval required.

**PSYCHOLOGY**

**PSYC 1101**  S-FSU Introduction to Psychology ............. 3 hrs.
A general overview of the science of psychology. Topics include science methodology, life-span psychology, personality theory, consciousness, stress, health and coping, learning theory, psychological disorders, biopsychology, sensation, cognition and memory and social psychology.

**PSYC 2220**  History and Systems of Psychology ........... 3 hrs.
Traces the development of the science of psychology from its origins in philosophy, physiology and medicine to the modern era. PR: PSYC 1101.

**PSYC 2230**  Social Psychology
(Same as SOCY 2230) ........................................... 3 hrs.
A study of how people affect and are affected by others. Topics include the socio-psychological foundations of perception, affiliation, influence, group structure and dynamics, attitude formation and change. PR: PSYC 1101.

**PSYC 2240**  Statistics ........................................... 3 hrs.
This course covers elementary statistical description and analysis, as employed particularly in the behavioral sciences. Three hours of lecture, one hour of laboratory per week. PR: MATH 1101 or higher.

**PSYC 2250**  S-FSU Community Psychology .................. 3 hrs.
This course consists of lectures, discussion, readings and field observation designed to acquaint the student with the philosophy, technique and theory of community mental health. PR: PSYC 1101.

**PSYC 2260**  Industrial and Personnel Psychology ........... 3 hrs.
A study of psychological concepts and methods as applied to personnel management, human-factors engineering, employee selection, motivation, training, productivity, consumer psychology and human relations. PR: PSYC 1101.

**PSYC 3300**  Abnormal Psychology ............................ 3 hrs.
A survey of the antecedents, diagnosis, treatment and prevention of various maladjustments and personality disturbances. PR: PSYC 1101.

**PSYC 3305**  Research Methods .................................. 4 hrs.
Research methods provides an introduction to: 1) the scientific method used in the social sciences; 2) the design and control of research experiments; 3) the statistical analysis of data; 4) the communication of research results; and 4) an introduction to the application of ethics in the practice of research. Various approaches to conducting research in psychology will be presented including observational, relational, and experimental. This course includes three hours of instruction and one hour of Lab. PR: PSYC 2240.

**PSYC 3310**  Experimental Psychology .......................... 3 hrs.
An introduction to the procedures of experimental research, design and evaluation, using laboratory techniques. PR: PSYC 2240.

**PSYC 3320**  Sensation and Perception ......................... 3 hrs.
An examination of the classical concepts in sensation and perception and of the resulting psycho-physical data for each of the major senses, with an emphasis on vision and audition. Psychology and modern perceptual formulations are viewed through the lens of empirical data. PR: PSYC 1101.

**PSYC 3330**  Developmental Psychology ........................ 3 hrs.
A longitudinal study of behavior change and development through the life span of the individual, from conception through the end of life. PR: PSYC 1101.

**PSYC 3340**  Intervention Techniques and Applications .... 3 hrs.
A detailed study of operant techniques and methodologies, from the experimental laboratory to the community at large. Emphasis is placed on the development of skills in the observation, manipulation and evaluation of various behavior-control techniques in the light of ethical concerns. PR: PSYC 1101.

**PSYC 3350**  Biopsychology ..................................... 3 hrs.
This course focuses on the basic development, structure and function of the central nervous system, autonomic nervous system and endocrine system. The emphasis is on the relationship between physiological functioning and the behavior of the intact organism. PR: PSYC 1101.

**PSYC 3360**  Cognitive Psychology ......................... 3 hrs.
The study of thinking, memory, perception, cognition and verbal behavior. PR: PSYC 1101.

**PSYC 3370**  Theories of Learning ............................. 3 hrs.
A study of the experimental procedures, data and concepts dealing with changes in behavior that are usually defined as learning. The emphasis is on a detailed analysis of various theories of learning and contemporary approaches. PR: PSYC 1101.

**PSYC 3390**  Foundations of Psychology ...................... 3 hrs.
Writing Intensive
A detailed study of the methodological and philosophical issues involved in the analysis of behavior. The course objectives are to provide insight into the nature of applied scientific research, to foster the ability to construct empirical hypotheses, to develop facility in designing experimental tests of hypotheses, to promote effective reading and evaluation of psychological research and to encourage professional writing and speaking about psychological theory and experimentation. PR: ENGL 1108, PSYC 3305.

**PSYC 3393**  Future Global Crises ............................ 3 hrs.
A team-taught, multi-disciplinary study of potential developments in the world. Areas of concentration are tailored to students’ interests. (Credit in Political Science or Technology). PR: PSYC 1101

**PSYC 3399**  Special Topics in Psychology .................. 1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the School’s chairperson. Credits earned will be applicable as free electives in degree and certificate programs. PR: PSYC 1101

**PSYC 4400**  Psychometrics .................................... 3 hrs.
This course addresses the general theory of measurement as involved in various areas of psychology, such as psychological tests, attitude scales, psychophysics and qualified behavior theory. PR: PSYC 2240.

**PSYC 4410**  Theories of Personality ......................... 3 hrs.
A critical consideration of the major theories of personality, including Psychodynamic, Cognitive, Cognitive Behavioral, Behavioral, Existential, Trait, Adlerian and Gestalt theory. The basis of personality theoretical development will also be emphasized. PR: PSYC 1101.

**PSYC 4460**  Seminar ........................................... 3-6 hrs.
The discussion of specific research topics as reported in contemporary psychological literature is emphasized in this particular course. It is designed specifically to promote students’ analytical thinking and presentation, as it pertains to current research investigation. PR: PSYC 1101. May be repeated once.
RECR 1141 Introduction to Recreation ......................... 3 hrs.
The historical and philosophical foundations of leisure and recreation are introduced. Students will cultivate the knowledge needed to develop concepts concerning recreation, the socioeconomic movement affecting the growth and development of recreation, the economic services and the various areas of facilities used in recreation.

RECR 1142 Social Recreation.................................... 3 hrs.
This course is designed to present material and information necessary to adequately conduct social recreation in clubs, churches, campus, playgrounds and recreation centers. Students will be involved with planning, programming, and conducting social recreational activities.

RECR 1143 Outdoor Recreation................................. 3 hrs.
An examination of the history and development of outdoor recreation, conservation and organized camping. Opportunities are provided to learn camp craft and leadership skills and techniques through field trips and outings.

RECR 1150 Introduction to Rock Climbing.................. 2 hrs.
This course will focus on the basics of safe and responsible rock climbing. Topics include knots, equipment and care, belaying, rappelling, anchor building, and climbing techniques. Students will be required to participate in rappelling, rock climbing, belaying, and anchor building activities.

RECR 1151 Backcountry Living Skills.......................... 2 hrs.
This Recreation course is designed to provide: physical, mental, and social challenges that will introduce the participants to the backcountry using Leave No Trace methods. Students will actively engage in backpacking, camping, and survival activities in order to further develop hard skills and environmental ethics.

RECR 1153 Seminar in Outdoor Recreation ................ 2 hrs.
This course provides an advanced experience in the organization and presentation of various outdoor programs. Participation includes a number of weekend and extended outdoor experiences, plus field studies in area outdoor facilities. PR: RECR 1143.

RECR 1154 Recreation Field Work I ............................ 2 hrs.
The student will become acquainted with the nature and diversity of available recreation programs and services. The student will be assigned to recreational settings distinctly different in philosophy, organizational structure and clientele served.

RECR 1155 Recreation Field Work II ......................... 2 hrs.
A continuation of RECR 1154, this sequence of field work courses is developmental. Progress develops from a dependent position to an interdependent position.

RECR 1177 Introduction to Adventure ........................
Water Sports................................................. 2 hrs.
This course provides an introduction to various adventure water activities including canoeing, kayaking and white water rafting. Students will learn about trip planning, water safety, Leave No Trace ethics, and equipment use and care. Students will be introduced to these activities through experiential learning in the swimming pool and trips on the New River and Gauley River. PR: PHED 2232 or 2233 or 3381.

RECR 1178 Scuba Diving “Open Water Certification” ......... 2 hrs.
This course will cover all necessary requirements to obtain the open water certification. PR: PHED 2232 or 2233 or 3381.

RECR 1188 Introduction to Adventure ........................
Winter Sports............................................. 2 hrs.
This course provides an introduction to various adventure winter activities including: Cross country Skiing/ Snow Shoeing/ Downhill Skiing/ Snowboarding/ Spelunking. Students will be introduced to these activities through experiential learning in and around campus and trips to White Grass Resort, Wisp, Canaan Valley, Snowshoe, and Timberline resort.

RECR 1199 Special Topics in Recreation .................... 1-12 hrs.
Special selected topics will be studied, to be determined by the instructor and approved by the School’s chairman. Credits earned will be applicable as free electives in degree and certificate programs.

RECR 2220 Program Planning and Organization .............. 3 hrs.
A presentation of the underlying principles for effective recreation planning. Attention is given to the variety of programs associated with recreation and the interests of the participants. Students will also examine methods of planning, organization, leadership, facilities and equipment. PR: RECR 1141.
RECR 2250  Select Topics in Certification .......................... 2 hrs.
In this course, students will acquire a certification "of their choice" related to the field of outdoor recreation. The students will be required to document 30 hours of instruction and work experience and accomplish the desired certification. Choice of certification must be preapproved by the chair or instructor.

RECR 3300  Intramural Administration .......................... 3 hrs.
This course provides administrative experience in directing and supervising institutional physical recreational programs. The course will be offered both semesters on an arranged basis. (The course cannot replace or be used in the fulfillment of other program requirements.) Junior standing.

RECR 3301  Day Camp Administration .......................... 3 hrs.
In this course, students will gain administrative experiences in directing and supervising summer day camp programs (Falcon Camp). This course will be offered on an arranged basis during the first and second summer sessions only. Junior standing.

RECR 3330  Group Leadership .......................... 3 hrs.
This course presents information on group dynamics, leadership styles, activity facilitation, risk management, liability issues, and trip planning. Students will obtain practical knowledge of group situations and principles necessary for effective leadership. Opportunities to develop their own leadership skills through peer teaching will be provided. PR: RECR 1141.

RECR 3340  Internship/Camp Administration .......................... 3 hrs.
In this course, students will gain administrative experiences in directing and supervising summer day camp programs (Falcon Camp) or choose an internship that provides an equal or greater learning and work experience. Internships must be preapproved by instructor. Students will be required to obtain an internship in the field of recreation approved by instructor. Students will be required to fulfill 150 hours of documented work experience from their supervisor. Junior standing. PR: RECR 1151 and 3330.

SAFETY

SFTY 1100  Safety and Environmental Components of Industry .......................... 3 hrs.
This course provides an introduction to OSHA and EPA regulations pertaining to general and construction industry record keeping. OSHA/EPA inspection, fire, chemical exposure, most frequent violations and other topics.

An introductory examination of safety management principles, with an emphasis on recordkeeping, hazard identification, product safety and behavioral-based safety, as related to accident prevention. PR: SFTY 1100, MATH 1101.

SFTY 2210  S-FSU Disaster Preparedness and Emergency Systems .......................... 3 hrs.
A study of the major elements of disasters and emergencies, including systematic and organized methods of preparedness planning for these events.

SFTY 2250  Safety Law and Compliance .......................... 3 hrs.
This course is a study of federal and state regulations governing general industry and product safety, with an emphasis on various legal problems related to OSHA and general industry. (OSHA 10-hour card is attainable upon completion of this class.) PR: SFTY 1100.

SFTY 2280  Construction Safety & Law .......................... 3 hrs.
This course covers federal construction regulations and the case law surrounding the construction industry. (OSHA 10-hour card is attainable upon completion.) PR: SFTY 2250, MATH 1102.

SFTY 2290  S-FSU Industrial Hygiene and Toxicology .......................... 3 hrs.
This course covers the methods for anticipating, recognizing, evaluating and controlling exposures in the workplace while exploring the toxicological effects of contaminants on workforces. PR: SFTY 1150, CHEM 1102, SFTY 2250.

This class provides a comprehensive study of federal/state regulations and legislation pertaining to the Environmental Protection Agency. Coverage shall include EPCRA, TSCA, RCRA, CWA and CAA as related to generation, storage and disposal of chemicals and waste in industry. PR: CHEM 1102, PR or CR: SFTY 2250.

SFTY 3300  Industrial Hygiene Applications and Practices .......................... 4 hrs.
Writing Intensive
A continuation of SFTY 2290, this course allows students to explore and apply the industrial hygiene sampling methodologies applicable to different chemical, biological and thermal exposures in the workplace. This is a hands-on class, focusing on the utilization of sampling equipment. It satisfies the Writing Intensive Course requirement for General Studies. PR: ENGL 1108, SFTY 2290.

SFTY 3310  Ergonomics & Human Factors .......................... 3 hrs.
This class will explore the interaction between the design of the workplace and the worker, with an emphasis on anatomical/physiological stressors and common work-related musculoskeletal disorders. It will also focus on redesign and elimination of said stressors and cognitive factors related to the work environment. PR: SFTY 1100, CHEM 1102, MATH 1102, HLCA 1170 and HLCA 1171. Spring Semester Only

SFTY 3335  Air & Water Pollution .......................... 3 hrs.
This course is designed as a continuation of SFTY 2291 Environmental Engineering Technology: Hazardous Waste. This course will extend the student's knowledge in environmental regulations related to the CAA and CWA. Students will also be introduced to various control technologies related to air and water pollution. PR: SFTY 2291.

SFTY 3360  S-FSU Fire Prevention .......................... 3 hrs.
An examination of fire prevention, detection and suppression. The NFPA Lifesafety Code will be addressed, as well as basic water supply and hydraulics, including distribution systems. PR: SFTY 1100, CHEM 1102.

SFTY 4400  Safety Engineering Design .......................... 3 hrs.
This course covers design engineering and engineering countermeasures needed to minimize losses incurred by man and the environment. PR: SFTY 2250, PHYS 1102.

SFTY 4415  Safety Internship .......................... 3 hrs.
Students shall complete an advisor-approved safety internship. Responsibilities must be in the field of employee safety and/or health. PR: Instructor approval required.

SFTY 4420  System Safety and Management .......................... 3 hrs.
A study of System Safety methodologies and Process Safety management, with an emphasis on safety audits, safety management, risk assessment, loss control and statistical applications. PR: SFTY 4400, MATH 1113, INFO 1100.

SFTY 4480  Application of Safety Strategies .......................... 4 hrs.
This course is designed to serve as a capstone course for Occupational Safety majors. Students are required to successfully complete an approved senior project in the field of Safety, Health or Environmental. This course requires successful student participation on teams, in presentations, employee training and professional written communications. PR: SFTY 4400, SFTY 4420.
SCIE 1115 Earth and Sky ...................... 4 hrs.
For non-science majors, this course is designed to give students a greater appreciation of the world around them. The course focuses on observable, useful science by an integrated approach of meteorology and astronomy from the perspective of Earth. Topics cover the Earth’s formation, its weather, and its place in the Universe. Students investigate both the process and content of science through activities, collaborative learning, guest speakers, and local field trips. Concepts are applied to weather and astronomy observations as well as critical environmental issues. The course uses a printed text and meets for two-hour class periods twice a week.

SCIE 1120 Introduction to Meteorology .............. 4 hrs.
A non-technical treatment of the fundamentals of modern meteorology and the effects of weather and climate. This course gives a broad overview of the basics of meteorology, including temperature, air pressure, relative humidity, wind speed and direction, cloud formation, and atmospheric stability. This will provide a clear understanding of the “behind the scenes” work of the daily weather patterns.

SCIE 1103 Science That Matters ........................................ 4 hrs.
Socially-relevant science topics are investigated in an interdisciplinary (biology, chemistry, earth and space science, and physics), activities-based, modular format. Two-to three-week modules present both the process and content of science as a vital part of major contemporary issues. In each module, students explore the underlying science and employ collaborative learning and evidence-based analysis to understand the topic and formulate personal judgments about the issue. The course is heavily web-based, with no printed text, and meets for two-hour class periods twice a week.

SCIE 1105 Environmental Science ..................... 4 hrs.
This course meets twice a week with lecture and activity-based learning during each time period. The course introduces students to the biotic and abiotic world and human's impact on it. Students will review our current understanding of biology, chemistry and geology and learn how these concepts are applied to environmental science. This knowledge will be used to address current issues in environmental science dealing with specific problems. These activities will be based on real world environmental problems ranging from those of indigenous peoples to global warming. Individuals completing the course will have gained insight into human impact on the environment through an understanding of physical, chemical, and biological principles. They will also develop a greater understanding of human, cultural and societal concerns as related to the environment and will be more able to appreciate cost and benefits related to them.

SCIE 1107 Geographic Information Systems ........... 4 hrs.
This course meets two times per week and is a flipped (Lecture material is covered by students outside of class and applied in class), application based course requiring a working knowledge of computer applications such as Excel and Windows Explorer. This is an interdisciplinary course designed to introduce students to spatial thinking and its application through the use of Geographic Information Systems (GIS) software. Students will be introduced to basic concepts in cartography including the role of other spatial technologies (aerial photography, remote sensing, and Global Positioning Systems - GPS) as they relate to GIS applications. Students will also learn how to find data to answer specific questions by using GIS software and completing a semester project using GIS to address an issue of interest to them, and applicable to their fields of endeavor. Lecture content is provided online in the form of Power Point files and through readings form the text. Students are quizzed over this content online before working over it in class. Class time is used to learn Software application, complete exercises and work on a semester project.

SCIE 1110 S-FSU Chemistry of Life .................. 4 hrs.
An introduction to scientific principles, designed to provide an understanding of the chemistry of biological systems. The intent of this course is to foster an appreciation for the chemical nature of life as it relates to health, diagnostics and the treatment of human diseases. It will consist of one two-hour class period and one two-hour activity period per week. PR: Math ACT score of 19 or higher, SAT 460, COMPASS 36, or MATH 0095.

SCIE 1199 Special Topics in Science .................... 1-4 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the college dean. Credits earned will be applicable as free electives in degree and certificate programs.

SCIE 1210 Science in the Heart of Appalachia .......... 4 hrs.
During this course you will explore the science underlying the formation, extraction and utilization of coal within the context of coal-based societal issues. The course will emphasize active, student-centered learning. Topics include the formation of different coal types, why coal is such an excellent source of energy, acid mine drainage, environmental pollution, human health issues, and the future of new coal technologies. You will investigate the important, intractable social problems of non-renewable resource depletion, mountaintop removal-valley fills and public health. You will be challenged to examine your role as a citizen and energy consumer in finding equitable solutions to these and other issues.

SCIE 1220 Geologic Heritage in the Field ............ 4 hrs.
Designed for non-science majors and no prerequisites, this course explores introductory geology concepts in the classroom and through field trips. Topics include the Earth’s formation, plate tectonics, geologic time, mineral and rock identification, landform interpretation, and their relationship to cultural history. Students investigate both the process and content of geology through activities, collaborative learning, and local field trips. Concepts are applied to deciphering the state’s ancient geology, geography, and critical environmental issues. The course primarily uses handouts with a suggested textbook. The class meets for two-hour class periods twice a week that include local field trips during class time plus 3 or 4 daylong field trips on the weekends to areas of interest.

SCIE 1230 Student Projects in SPACE .................. 4 hrs.
Students taking this course will be introduced to concepts of science, scientific investigation and project engineering through a series of enjoyable and progressively more challenging projects, from bridge-building to a weather balloon rising 100,000 ft into the stratosphere. Concepts of physics, chemistry, engineering technologies, and business will be used to successfully complete the projects. Emphasis is placed on individual and team problem solving, systems thinking, and project management.
SOCIAL SCIENCE

SSCI 1199 Special Topics in Social Science..................1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the School's chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

SSCI 4431 Methods and Materials of Teaching Social Studies ..................................................3 hrs.
A survey of theory and practice in secondary school social studies. Students participate in laboratory exercises using various techniques of social studies teaching. Each student is also required to plan and teach at least one micro-unit. Fall semester only. PR: Successful completion of PPST PRAXIS Test.

SSCI 4498 Interdisciplinary Seminar ........................3 hrs.
Identification and synthesis of major concepts in the fields of geography, history, political science, psychology, sociology and economics. No prerequisites for History Majors. PR: Instructor approval required. Fall semester only.

SSCI 4998 Undergraduate Research .........................0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student's progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

SOCIOLOGY

SOCY 1110 S-FSU Introductory Sociology ..................3 hrs.
This course is built around selected sociological concepts and is designed to provide a general understanding of our modern society.

SOCY 1111 S-FSU Introduction to Anthropology ..........3 hrs.
This course is a survey of anthropology, covering both prehistoric and traditional peoples and cultures.

SOCY 1199 Special Topics in Sociology .....................1-12 hrs.
Studies in special selected topics, to be determined by the instructor and approved by the School's chairperson. Credits will be applicable as free electives in degree and certificate programs.

SOCY 2200 S-FSU Social Problems ........................3 hrs.
A study of social stresses and strains in important areas of human relationships. PR: SOCY 1110.

SOCY 2220 Introduction to Population Studies ............3 hrs.
This course is a general introduction to the theories and methodologies of population studies. Population studies are also referred to as demography and involve the study of human populations' size, composition and distribution. Population growth is examined, as well as many of the factors responsible for population growth. Interrelationships among demographic, social, economic and environmental factors are investigated, in the context of population issues and problems.

SOCY 2230 Social Psychology ..................................3 hrs.
A study of social structure and interaction. Students will focus on techniques of leadership and control. PR: SOCY 1110. Recommended: PSYC 1101 or EDUC 1302 and 1303. Same course as PSYC 2230.

SOCY 2240 Nonparametric Statistics ........................3 hrs.
Introduces the student to the fundamental principles of descriptive and inferential statistics, with an emphasis on the analysis of nominal and ordinal data. These areas include non-parametric tests of significance, scaling, coding, and a discussion of hypothesis construction. This course should be taken during the sophomore year. (Credit in either Political Science or Sociology.) PR is a grade of C or better in MATH 1100 or higher.

SOCY 3301 Ethnology .........................................3 hrs.
A study of human biological and social origins, including human prehistory, race, the origin and nature of culture, social organizations among preliterate peoples, cultural diffusion and culture change. PR: SOCY 1110 or 1111.

SOCY 3310 Sociology of the Family .........................3 hrs.
A study of the background, structure and function of the American family, with emphasis placed on the effect of social change upon the family. The meaning of the paired relationship is examined, along with alternatives to marriage and the family. PR: SOCY 1110.

SOCY 3325 Social Stratification ..............................3 hrs.
The course includes an analysis of social structure and stratification in terms of class, status and power relations in society; students will examine various theories and research findings. PR: SOCY 1110.

SOCY 3340 Juvenile Delinquency ............................3 hrs.
A study of what society defines as delinquent behavior and of the young people designated as delinquents. Emphasis will be placed on the causes of delinquency and on the various techniques and methods of prevention, treatment and rehabilitation. PR: SOCY 2200.

SOCY 3360 Methods of Social Research ....................3 hrs.
This course is an introduction to the planning and implementation of social research projects. Students will consider the topics of variables and hypotheses, flowcharts, tables, questionnaires, coding instructions and data sheets, machine processing and survey analysis of the data. PR: SOCY 2240.

SOCY 3390 Social Movement ...............................3 hrs.
This course will introduce students to paradigmatic theories of social movement. Topics covered may include conditions under which social actors organize collectively to engage in social change; how theorists understand these movements, their emergences, their potentials, and their successes or failures; and the state of social movement along with collective politics in “complex” societies. This course will introduce students to both mainstream theories of social movement and alternative ways of conceptualizing contemporary social movement. PR: SOCY 2220.

SOCY 4410 Industrial Sociology ..............................3 hrs.
A study of the organization, structure, function and social relationships found in the various areas of industrial activity in American society. The area of industrial relations will receive special emphasis. PR: SOCY 1110.

SOCY 4450 Minority Groups ...............................3 hrs.
A study of racial and cultural minority groups in the United States, with special emphasis upon understanding the causes of their perseverance and the reason for majority-minority antagonisms. Students will also examine the techniques whereby prejudices are developed and ameliorated. PR: SOCY 2200.

SOCY 4461 Advanced Methodology ..........................3 hrs.
This course will critically compare the various stages of social research, such as conceptualization of hypothesis, measurement, experimental design, sampling, data collection, data analysis and data interpretation. Within this format, various special topics will be developed, depending upon the available resources. PR: SOCY 3360 or Instructor approval required.

SOCY 4470 Sociological Theory .............................3 hrs.
Writing Intensive
A study of the historical development of modern sociological thought. PR: ENGL 1108 and SOCY 3360.
A comparison, contrast and critical examination of certain selected sociological theorists. PR: SOCY 4470 or Instructor approval required.

SOCY 4490 Seminar: Sociological Literature ......................................................... 1-12 hrs.
A course focusing on original sources and publications not primarily used as texts. PR: SOCY 4470 or Instructor approval required.

SOCY 4497 Seminar: Special Problems in Sociology ........................................... 1-12 hrs.
Open only to juniors and seniors majoring in Sociology. Reading and research on subjects suited to the student’s needs. PR: SOCY 4470 or Instructor approval required.

SOCY 4998 Undergraduate Research ............................................................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

SPANISH

SPAN 1101 S-FSU Elementary Spanish I ..................... 3 hrs.
Designed for the student with little or no prior experience with Spanish. Students will practice Spanish pronunciation and will learn basic grammar as they develop skills in reading, writing, speaking and comprehension. Students will develop communication skills in situations related to everyday living, both at home and in the workplace. Students with two years or more of high school Spanish should register for SPAN 1102.

SPAN 1102 S-FSU Elementary Spanish II ..................... 3 hrs.
A continuation of SPAN 1101. Students expand their skills and knowledge of grammar while reading, writing, speaking and building a broad vocabulary base. Students will develop communication skills in situations related to everyday living, both at home and in the workplace. PR: SPAN 1101 or equivalent.

SPAN 1199 Special Topics ...................................................... 3 hrs.
Studies in selected topics, to be determined by the instructor and approved by the chairperson. Credits earned will be applicable as free electives in degree and certificate programs.

SPAN 2200 Language Through Video ................................................. 3 hrs.
A video-based course designed to maximize the student’s exposure to the target language. Students independently watch Destinos and are tested on their comprehension of the material. PR: SPAN 1102.

SPAN 2201 S-FSU Intermediate Spanish I ....................... 3 hrs.
Students integrate the grammar studied with the skills acquired in SPAN 1101 and 1102, and become familiar with more sophisticated grammatical structures. The course will focus on reading, writing, and communication skills in situations related to everyday living, both at home and in the workplace. PR: SPAN 1102.

SPAN 2202 S-FSU Intermediate Spanish II ..................... 3 hrs.
The fourth and last course of the basic language program, this course is a continuation of SPAN 2201. The course emphasizes the development of speaking, listening, reading, and writing skills for effectively communicating in Spanish at the intermediate level within a cultural-based context. At the end of this course students should have attained a skill level of intermediate in all four skills mentioned above, the communicative modes (Interpersonal, Interpretive, and Presentational), and the five goals (Communication, Cultures, Connections, Comparisons, and Communities) recommended by the Proficiency Guidelines classifications of the American Council on Teaching Foreign Languages (ACTFL). Students participate in pair, small-group and whole-class activities that focus on the meaningful and accurate communication of information in the target language. The class is conducted entirely in Spanish. PR: SPAN 2201.

SPAN 2250 Spanish For the Medical Professions ................ 3 hrs.
This course is designed to enable the student to effectively manage the fundamentals of medical terminology in Spanish. PR: SPAN 1102. Offered on demand.

SPAN 2251 Spanish for Criminal Justice .......................... 3 hrs.
This course enables the student to effectively manage the fundamentals of law enforcement terminology in Spanish. PR: SPAN 1102.

SPAN 2252 Spanish for a World Economy ........................... 3 hrs.
This course is designed to enable the student to effectively manage the fundamentals of business terminology in Spanish. PR: SPAN 1102.

SPAN 3300 Undergraduate Student Exchange ..................... 3-6 hrs.
Any student who participates in an exchange program which is approved by his/her advisor may receive three to six credit hours, depending upon the type of program and its duration. PR: SPAN 1102.

SPAN 3301 Spanish Composition and Conversation I ........ 3 hrs. Writing Intensive
This course is designed for students who wish to develop proficiency in Spanish by integrating the four language skills and also increase their knowledge of Hispanic cultures and societies using authentic materials and literature. Students who enroll in this course should already have attained an acceptable proficiency in Spanish. This course should help students to develop their Spanish proficiency across three communicative modes (Interpersonal, Interpretive, and Presentational), and the five goals (Communication, Cultures, Connections, Comparisons, and Communities) recommended by the Proficiency Guidelines classifications of the American Council on Teaching Foreign Languages (ACTFL). Classroom activities are highly interactive and focus on speaking and writing in the target language at an advanced level. PR: SPAN 2202.

SPAN 3302 Spanish Composition and Conversation II .......... 3 hrs.
This course, a continuation of SPAN 3301, is designed for students who wish to acquire a solid knowledge of those major points of Spanish grammar. Students who enroll in this course should already have attained an acceptable proficiency in using Spanish. Through discussion and correction of assigned exercises, analysis of authentic readings, and contrastive study of Spanish and English syntax and lexicon, students will develop an awareness of the norms of standard Spanish with the aim of incorporating these features into their own oral and written linguistic production. Classroom activities focus on writing in the target language at an advanced level. SPAN 3301 and 3302 can be taken in any order, but it is strongly recommended to take 3301 before 3302. PR: SPAN 2202.

SPAN 3310 Spanish Civilization and Culture .................... 3 hrs.
The students will study the history, civilization, and culture of Spain through extensive reading, videos, writing and class discussion. PR: SPAN 3301 or 3302.

SPAN 3320 Latin American Civilization and Culture ............. 3 hrs.
The students will study the history, civilization, and culture of Latin America through extensive reading, videos, writing and class discussion. PR: SPAN 3301 or 3302.

SPAN 3350 History of the Spanish Language ..................... 3 hrs.
This class is an introduction to the historical development of the Spanish lexicon, morphology, and phonology. It is designed for the student with little or no previous background in linguistics. PR: SPAN 3301 or 3302.
SPAN 4400 Survey of Latin American Literature .......... 3 hrs.
This class covers the major movements in Latin American literature, from Pre-Colombian times through the present. Students will be exposed to the major genres (poetry, prose, and drama) through extensive reading and will become familiar with the greatest writers of Hispanic literature. PR: SPAN 3301 or 3302.

SPAN 4401 Survey of Peninsular Literature .......... 3 hrs.
This class focuses on the major movements in Peninsular literature, from the Spanish Middle Ages through the present. Students will be exposed to the major genres (poetry, prose, and drama) through extensive reading and will become familiar with the greatest writers of Spanish literature. PR: SPAN 3301 or 3302.

SPAN 4402 Independent Study .................... 3-6 hrs.
Students may participate in a variety of programs designed to help them attain a higher level of fluency and a greater understanding of Hispanic culture. PR: SPAN 4400 or 4401, and Instructor approval required.

SPAN 4418 U.S. Hispanic Cultures & Literature .......... 3 hrs.
This course studies the history of the Hispanic presence in the US, its influence upon contemporary US culture, society, and economy and the politics of language. Materials studied include newspaper articles, essays, films and plays. PR: SPAN 3310 or 3320.

SPAN 4431 Methods: Second Language Acquisition in the Classroom ........................................ 3 hrs.
Taught in English. In this class, foreign language teaching majors will study the methodology of second language acquisition and its application in the classroom, familiarize themselves with national foreign language instruction standards, design lesson plans, teach mini-lessons, participate in peer evaluation and become familiar with the latest pedagogical technologies available. PR: SPAN 4400 or 4401, and Instructor approval required.

SPAN 4998 Undergraduate Research .................. 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level. Repeatable. Instructor approval required.

TECHNOLOGY

TECH 1100 Technology and Society ..................... 3 hrs.
A study of the basic knowledge and understanding of the societal impacts of technology. Students will research basic fields in technology such as medicine, manufacturing, communication, transportation, biotechnology, environmental issues, technology transfer, and appropriate technology, to determine current trends. Students will be required to select one area where technology has affected society in a positive and/or negative way. Each student will be required to research and make an oral presentation on the selected topic.

TECH 1101 S-FSU Introduction to Technology .......... 3 hrs.
In this course, students will apply knowledge, tools, and skills to solve problems and extend their human capabilities. The goals of this course are for all students to develop some measure of Technological Literacy, while understanding the uniqueness of technology in human endeavors. A multidisciplinary approach to technology requires students to incorporate skills and techniques in all aspects of life. Interpersonal skills and relationships will be explored as students are challenged with collaborative hand-on problem-based learning activities. This course is intended as a survey of the discipline of technology and technological systems.

TECH 1102 Preventive Maintenance ....................... 3 hrs.
This course is the beginning class for all students interested in a heavy equipment career. Many employers require a commercial driver’s license of the employee. This course supports a CDL by providing the student with instruction on preventive maintenance practices, scheduled procedures, documents, and D.O.T. required record system and on determining the needs for repair.

TECH 1104 Technology Design & Problem Solving .......... 3 hrs.
This course provides incoming students with the prerequisite knowledge and skills for required technology systems classes that follow. Students will study the philosophy, rationale, and current curriculum trends in Technology Education. The course will also focus on basic design and drafting techniques, laboratory and machine tool safety practices and design and problem-solving processes used in technological career fields. Class methodology will include both lecture and applied experiences with tools, equipment and processes of technology.

TECH 1108 Engineering Graphics .......................... 3 hrs.
This course contains essentials of engineering graphics for technology students. Content and emphasis of the course is to provide competency in technical sketching, blueprint reading, CAD applications, applied geometry, orthographic projection, section, dimensioning, tolerances, threads and fasteners, weldments, detail and assembly drawing, charting and basic elements of descriptive geometry.

TECH 1150 Control Technology ....................... 3 hrs.
This course addresses the mechanical, fluid, electrical, electronic and computer instrumentation used to regulate technical products and systems. Students will develop knowledge and skills of common control-related components/devices and apply them to the solution of practical problems found in typical technology education settings. CR: TECH 1104.

TECH 1199 Special Topics ............................. 1-12 hrs.
A study of special topics of educational, technical, or industrial concern. PR: Instructor approval required.

TECH 2202 Transportation I ......................... 4 hrs.
A study of the means by which mass is moved from one point to another. This will be achieved by studying the propulsion, guidance, control, suspension, structure and support elements of a wide variety of transportation subsystems. Students will complete an historic timeline of transportation and will deliver an oral presentation on a specific transportation propulsion system. PR: TECH 1104.

TECH 2203 Manufacturing I .......................... 4 hrs.
This course deals with an introduction to the inputs, processes and output of the manufacturing system. The methodology of the course will involve students with selected research, development and production processes of the manufacturing system. More specifically, each student will design and engineer a middle school- or high school-level product. They will then perform selected production planning, plant engineering and quality control activities to prepare their product for mass-production. The results of these activities will be developed into camera-ready copy production packets. Finally, each student will set up a production line for the class to mass-produce a limited number of their products, using jigs, fixtures, and/or other mass-production related tools. PR: MANF 1100, TECH 1104.

TECH 2204 Construction I .......................... 4 hrs.
This introductory course in construction is designed to acquaint students with the impacts of construction on society, basic concepts of architectural design, construction accoutrements (materials, tools and equipment), specifications and contracts, and processes involved in residential construction. Students will complete an historic timeline of construction and will deliver an oral presentation on a specific residential construction topic. Students will perform several traditional construction activities such as materials testing, card structures, and building a residential model. PR: TECH 1104, MANF 1100.
TECH 2208  Engineering Graphics II ......................... 3 hrs.
This course is a continuation of Engineering Graphics I. It covers advanced concepts in 3D geometry; parametric solid modeling; geometric dimensioning and tolerancing using ANSI and ISO standards; working drawings and fasteners. Emphasis is placed on a thorough understanding of 3D solid modeling to create engineering graphics in civil, electrical, and mechanical engineering technology. PR: TECH 1108

TECH 2250  History of Technology .............................. 3 hrs.
A survey course from prehistorical tool-making to atomic energy and computers in the twentieth century. Credit in History or Technical Education.

TECH 2290  Engineering Analysis I ............................. 4 hrs.
This course covers technical problem solutions, utilizing analytical geometry and calculus. Topics include curvilinear motion, related rates, curve sketching, maximal and minimal problems, areas, volumes, centroids and moments of inertia by integration. PR: Sophomore standing; MATH 1102 with a grade of C or better or MATH ACT 25.

TECH 2299  Special Topics ........................................... 1-12 hrs.
A study of special topics of educational, technical, or industrial concern. PR: Instructor approval required.

TECH 3300  Engineering Analysis II ............................. 4 hrs.
A continuation of the study of problem-solving procedures, utilizing calculus. Topics include transcendental functions, partial derivative, double integration, methods of curve fitting, series expansion and differential equations. PR: TECH 2290 or MATH 1185, or MATH 1190 with a grade of C or better.

TECH 3301  Communication ........................................ 4 hrs.
This is a study of the technical means by which humans communicate. The emphasis will be on electronic and graphic forms of communication. The social/cultural aspects of communication will be studied, as well as the technical components. The course is designed for prospective junior and senior high school technology education teachers, and will be focused on general education. PR: INFO 1100, TECH 1104.

TECH 3302  Manufacturing I ....................................... 4 hrs.
This course deals with the analysis of the inputs, processes and outputs of the manufacturing system. The methodology of this class is to simulate the organization and operation of a manufacturing corporation. Students will elect a board of directors and a company president and will organize departments in research and development, industrial relations, finance, production and marketing. The class will design and engineer a college-level product, plan for mass-production, finance the production through common stock sales or other financial means, mass-produce the product, and market it in the school or local community. PR: TECH 2203.

TECH 3303  Transportation II ..................................... 4 hrs.
A study of the means by which mass is moved from one point to another. This will be achieved by studying the environments elements, and social/cultural aspects of the transportation system. The course is designed for prospective junior and senior high school technology education teachers, and will be focused on general education. PR: TECH 2202.

TECH 3304  Construction II ........................................ 4 hrs.
This course deals with an analysis of the inputs, processes, and outputs of the construction system. The methodology of this course will involve selected structural design and analysis, and structural production processes which are used by humans to construct building structures, non-building structures (bridges, tunnels, dams, etc.) and transportation structures/surfaces. This course is designed to provide teacher education majors with an overall view of the construction system that can be applied to middle school and high school classroom situations. The primary methodology in this course is structural model building and testing. PR: TECH 2204.

TECH 3310  Man and Technology ................................. 3 hrs.
A historical study of humans and technology as a basis for the development of contemporary philosophical systems. PR: Junior standing.

TECH 3331  Organization and Administration of Technology Education ......................... 4 hrs.
This course is designed to prepare the pre-service technology education teacher to effectively organize and manage a technology education classroom and laboratory. Emphasis is placed on safety system design, discipline planning, laboratory organization and management, requisitioning/supplies/equipment, machine maintenance and facility design. Also included are topics relating to curriculum trends, Technology Student Association (TSA) and public relations. PR: TECH 3303 and 3304.

TECH 3393  Future Global Crises ................................... 3 hrs.
A team-taught, multi-disciplinary study of potential developments in the world. Areas of concentration are subject to students’ choice. (Credit also available in Political Science or Psychology) PR: Junior standing.

TECH 3399  Special Topics ........................................... 1-3 hrs.
A study of special topics of educational, technical or industrial concern. PR: Instructor approval required.

TECH 4400  Work Experience Seminar ......................... 4 hrs.
A functional analysis of industrial organization and management, and the implementation of these concepts toward the initiation of a new industry. PR: Sophomore standing as a Technology major or Instructor approval required.

TECH 4401  Work Experience Laboratory ....................... 8 hrs.
Professional work experience, including employer evaluation. PR: Instructor approval required.

TECH 4431  Methods and Materials for Teaching Technology Education ......................... 3 hrs.
This course is designed to prepare the pre-service technology education teacher to effectively teach the range of students in grades five through twelve in the public schools. Emphasis is placed on designing a unit of instruction in one of the four technology education system areas. The primary assignment is the preparation of a unit of study that will include the following topics: a rationale, course/unit planning, lesson planning, instructional objectives, instructional strategies and student evaluation/grading. PR: TECH 3301 and 3331.

TECH 4499  Special Topics ........................................... 1-3 hrs.
A study of special topics of educational, technical, or industrial concern. PR: Instructor approval required.

TECH 4998  Undergraduate Research ......................... 0-6 hrs.
Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.

THEATRE

THEA 1110  Introduction to Theatre ......................... 3 hrs.
This course provides an overview of the purposes and organization of the theatre and allied areas and the functions of all of the jobs related to a theatrical presentation. Students will examine artistic, performer, director, designer, technicians, and “front-of-house” operations and the theatre as a profession, and will learn about professional organizations and securing employment. Fall semester only.
THEA 1114 Body Training and Stage Movement ............3 hrs.
The actor explores the movement of the body as it applies to space, line, focus, effort, strength, connection and emotional release. Recommended for Theatre majors and minors only. Spring semester only.

THEA 1120 S-FSU Theatre Appreciation ......................3 hrs.
A general theatre course that serves as an introduction to traditional and more recent developments in Western and non-Western theatrical practice. Students are encouraged to develop their own perspectives and critical skills by means of studying selected writings of theatre practitioners and critics, and by seeing and evaluating campus theatre productions.

THEA 1140 Theatrical Production.................................2 hrs.
Lecture course introducing the student to the principles and techniques of the organization, planning, and execution of technical theatre production, including scenery, properties, lighting, costuming, sound and stage management.

THEA 1148 S-FSU Theatre Workshop I ..........................1 hr.
Repeatable up to 4 hrs.
Students in this course are assigned to Masquers productions and studio theatre productions. Opportunities are provided for experience in all areas of technical theatre, such as scenic construction, properties, lighting, costume and sound crews, depending upon the proficiency of the student. No more than one hour can be earned during a semester. Open to freshmen and sophomores. (Juniors and seniors, see THEA 3348).

THEA 1151 Text Analysis ..............................................3 hrs.
This course provides a basic introduction to the processes, techniques and applications of text analysis as they relate to the activities and responsibilities of theatre artists - acting, directing, designing, directing, etc. Spring semester only.

THEA 1160 Technical Theatre Practicum: Costuming ..........1 hr.
Practical experience in varied aspects of costuming through work on Masquers productions or other staged events. Open to freshmen and sophomores.

THEA 1162 Technical Theatre Practicum: Lighting ............1 hr.
Practical experience in varied aspects of lighting through work on Masquers productions or other staged events. Open to freshmen and sophomores.

THEA 1164 Technical Theatre Practicum: Properties ..........1 hr.
Practical experience in varied aspects of properties through work on Masquers productions or other staged events. Open to freshmen and sophomores.

THEA 1166 Technical Theatre Practicum: Scenic ..............1 hr.
Practical experience in varied aspects of scenic through work on Masquers productions or other staged events. Open to freshmen and sophomores.

THEA 1168 Technical Theatre Practicum: Sound ..............1 hr.
Practical experience in varied aspects of sound through work on Masquers productions or other staged events. Open to freshmen and sophomores.

THEA 1199 Special Topics in Theatre .........................1-3 hrs.
Studies in selected special topics, to be determined by the instructor and approved by the School’s Dean. Credits earned will be applicable as free electives in degree and certificate programs. Maximum credit per semester: one hour.

THEA 2212 S-FSU Theatrical Makeup ............................1 hr.
Fundamentals of the theory and technique of designing and applying theatrical makeup, including laboratory experience and practical experience with Masquers productions and studio theatre productions. Fall semester only.

THEA 2220 S-FSU Oral Interpretation ............................3 hrs.
This course provides an introduction to the study and practice of the principles involved in understanding the meaning of prose, poetry and dramatic literature, and the effective transmission of that meaning to an audience. Spring semester only.

THEA 2228 Oral Interpretation Practicum I ......................1-4 hrs.
Preparation for and participation in public performances, intercollegiate competitions and festivals in oral interpretation. Maximum credit allowable per semester is one hour. Open to freshmen and sophomores. (Juniors and seniors, see THEA 4428.) PR: THEA 2220.

THEA 2230 S-FSU Acting .............................................3 hrs.
This course is an introduction to the theory and practice of fundamental acting techniques for the stage. PR: THEA 1151. Instructor approval required. Fall semester only.

THEA 2238 S-FSU Acting Workshop I .............................1 hr.
Credit is earned for public performance in faculty-directed Masquers productions. Maximum credit allowable per semester is one credit hour. Open to freshmen and sophomores. (Juniors and seniors see THEA 4432.)

THEA 2244 S-FSU Introduction to Theatrical Design .............3 hrs.
An introduction to the principles of theatrical design, including scenic, lighting and costume design. Spring semester only. PR: THEA 1140 and 1151.

THEA 2262 Production Practicum I ...............................1 hr.
Credit is earned for practical experience in varied aspects of technical theatre production, including scenery, lighting, costuming, properties and sound, through work on Masquers productions. Maximum credit allowable per semester is one credit hour. Open to freshmen and sophomores. PR: THEA 1148.

THEA 3314 Advanced Theatrical Makeup ......................1 hr.
Practice in advanced design and application of theatre makeup, through work on Masquers productions and studio theatre productions. PR: THEA 2212. Spring semester only, in odd years. Pre-Theatre, Theatre, Theatre Education, Oral Communication Majors only.

THEA 3320 The Art of Storytelling in Theory and Practice ........3 hrs.
The emphasis of the course will be on both the theory and research related to storytelling and the art of storytelling as performance. In this performance-based course, students will select, craft, rehearse and perform stories suitable to a variety of audiences. Students enrolled in this course are required to attend the National Storytelling Festival in Jonesborough, Tennessee. Also listed as FOLK 3320 and COMM 3320

THEA 3326 Performance Studies .................................3 hrs.
The course explores the theories and practices of approaching performance as a way of knowing. Through theatre exercises and personal discovery, students research, create and perform a solo piece for the stage. PR: THEA 2230. Fall semester only, in even years. Pre—Theatre, Theatre, Theatre Education, Oral Communication Majors only.

THEA 3330 Advanced Acting .................................3 hrs.
This course is a continuation of THEA 2230, with specific emphasis on the exploration and application of twentieth-century acting theories applied to both realistic and non-realistic plays. PR: THEA 2230. Spring semester only, in odd years. Pre—Theatre, Theatre, Theatre Education, Oral Communication Majors only.
THEA 3336  Directing ................................................. 3 hrs.
Principles and techniques of play directing. Special attention is given to directing problems in educational theatre: play selection, budgeting, casting, mounting and staging, public relations and coordination of crafts. PR: THEA 1140 and THEA 2230. Spring semester only. Pre-Theatre, Theatre, Theatre Education, Oral Communication Majors only.

THEA 3340  Theatre History I ........................................ 3 hrs.
Writing Intensive
A study of the development of theatre from its beginnings through the eighteenth century. PR: ENGL 1108 and THEA 1151. Fall semester only, in even years.

THEA 3341  Theatre History II ....................................... 3 hrs.
Writing Intensive
This course is a continuation of THEA 3340, exploring the development of theatre from the nineteenth century to the present. PR: ENGL 1108 and THEA 1151. Spring semester only, in odd years.

THEA 3344  Advanced Theatrical Design ........................................ 3 hrs.
This course will involve completed projects in scenic, lighting and costume design. Students will apply theory and introductory techniques and skills presented in the beginning course. Fall semester only, in odd years. PR: THEA 2244. Pre-Theatre, Theatre, Theatre Education, Oral Communication Majors only.

THEA 3346  Creative Puppetry ........................................... 3 hrs.
The course explores the theories and practices of puppetry as an artistic performance and as an educational tool. Projects in this course will include puppet design, construction and performance. Emphasis will be placed on teaching the National Standards in Theatre as well as on ways to use puppets across the curriculum. Full semester only, in odd years.

THEA 3348  Theatre Workshop II .......................................... 1 hr.
Repeatable up to 4 hrs.
Students in this course are assigned to Masquers mainstage and studio theatre productions. Opportunities are provided for experience in all areas of technical work, such as scenic construction, properties, lighting, costume and sound crews, depending upon the proficiency of the student. No more than one hour can be earned per semester. Open to juniors and seniors. (Freshmen and sophomores see THEA 1148.)

THEA 3350  Children's Drama ........................................... 3 hrs.
Writing Intensive
A lecture course providing an introduction to the theories and techniques involved in both creative drama for children and children's theatre. Spring semester only, in even years. PR: ENGL 1108.

THEA 3352  Creative Drama ............................................... 3 hrs.
The course explores the history, theories and practices of playmaking, storytelling, creative drama and theatre-in-education as they are used in educational settings with diverse populations. Projects in this course will also apply drama techniques across the school curriculum. Fall semester only, in even years.

THEA 3354  Theatre Education Practicum ................................. 1 hr.
This course involves the application of theories and techniques of children's theatre, creative dramas and puppetry under supervision with diverse populations in educational settings. PR: THEA 3346, 3350 and 3352.

THEA 3356  Summer Theatre: Rehearsal and Performance ..................... 1-3 hrs.
Systematic rehearsal and public performance with Town & Gown Summer Theatre. Designed for students who desire concentrated stage training and experience. Roles are dependent upon directors' selection and hours of credit desired. PR: Auditions.

THEA 3358  Summer Theatre: Production and Management ......................... 1-3 hrs.
Experience provided in every phase of theatrical production and some phases of theatre management, in conjunction with Town & Gown Summer Theatre. Experiences include set construction, lighting, costumes, makeup, box office, house management and publicity. Assignments dependent upon hours of credit desired. Instructor approval required.

THEA 3360  Technical Theatre Practicum: Costuming II ..................... 1 hr.
Practical experience in varied aspects of costuming through work on Masquers productions or other staged events. Open to juniors and seniors.

THEA 3362  Technical Theatre Practicum: Lighting II ..................... 1 hr.
Practical experience in varied aspects of lighting through work on Masquers productions or other staged events. Open to juniors and seniors.

THEA 3364  Technical Theatre Practicum: Properties II .................. 1 hr.
Practical experience in varied aspects of properties through work on Masquers productions or other staged events. Open to juniors and seniors.

THEA 3366  Technical Theatre Practicum: Scenic II .................... 1 hr.
Practical experience in varied aspects of scenic work through work on Masquers productions or other staged events. Open to juniors and seniors.

THEA 3368  Technical Theatre Practicum: Sound II .................... 1 hr.
Practical experience in varied aspects of sound through work on Masquers productions or other staged events. Open to juniors and seniors.

THEA 3375  Development of Dramatic Art ................................ 3 hrs.
Writing Intensive
Study of the works of major playwrights and critical theorists of Western and non-Western theatre. Fall semester only, in even years. PR: ENGL 1108.

THEA 3392  Costume History and Design ................................ 3 hrs.
History of wearing apparel and appointment, with emphasis on the Western world. The course begins with the Egyptians and goes up to the present day, and offers an introduction to the principles of costume design. Fall semester only, in odd years. PR: THEA 2244.

THEA 4428  Oral Interpretation Practicum II ................................ 1-4 hrs.
Preparation for and participation in public performances, intercollegiate competitions and festivals in oral interpretation. Maximum allowable credit per semester is one hour. Open to juniors and seniors. (Freshmen and sophomores, see THEA 2228.) PR: THEA 2220. Instructor approval required.

THEA 4432  Acting Workshop II ......................................... 1 hr.
Credit is earned for public performance in faculty-directed Masquers productions. Maximum allowable credit per semester is one hour. Open to juniors and seniors. (Freshmen and sophomores see THEA 2238.)

THEA 4438  Senior Comprehensive Project ................................ 3 hrs.
The course consists of a capstone experience that assesses student understanding of the theories and practices studied and developed throughout the program. A significant production/research project is designed and executed with the guidance of a faculty mentor. Senior standing. Pre-Theatre, Theatre, Theatre Education, Oral Communication Majors only.

THEA 4462  Production Practicum II ..................................... 1 hr.
Credit is earned for practical experience in varied aspects of technical theatre production, including scenery, lighting, costuming, properties and sound, through work on Masquers productions or other staged events. Maximum allowable credit per semester is one hour. Junior or senior standing. Instructor approval required. PR: THEA 1148.
THEA 4480  Theatre Business Management and Promotion ................................................... 3 hrs.
 Study of theatre management procedures, including responsibilities and practices in business management, box office management and house management and the study of the responsibilities and practices in theatre promotion, including the use of the media. Spring semester only, in even years.

THEA 4484  Theatre Business Management Practicum ................................................... 1 hr.
 Practical experience in varied aspects of business management, including box office assignments through work with Masquers and other productions. Instructor approval required.

THEA 4488  Promotion Practicum ................................................... 1 hr.
 Practical experience in varied aspects of theatrical promotion through work on Masquers productions. Instructor approval required.

THEA 4490  Directed Study in Theatre ................................................... 1 hr.
 The student selects directed study in any area of theatre which is not treated in the theatre course offerings. Course designed by student and selected faculty, with approval of the School’s Dean. Instructor approval required.

THEA 4998  Undergraduate Research ................................................... 0-6 hrs.
 Undergraduate research is an experiential learning activity that provides an opportunity for a student to engage in the scholarly activities of their major discipline under the guidance of a faculty mentor who will work in close partnership with each student in his or her formulation of a project, the development of a research strategy, and the assessment of a student’s progress. The primary goal is for each student scholar to conduct an inquiry or investigation that makes an original, intellectual or creative contribution to their discipline and which is shared in an appropriate venue. Sophomore-Senior Level, Repeatable. Instructor approval required.
FSU Faculty

ABBOTT, AMANDA (2010)  
Temporary Assistant Professor of Nursing  
A.S.N., B.S.N. Fairmont State University  
M.S.N. Mountain State University

Associate Professor of Occupational Safety  
B.S. Fairmont State College  
M.S., Ph.D. West Virginia University

ABRUZZINO, DAVID (2011)  
Director of Open Source Intelligence Exchange (OSIX) Lab  
B.A. Hamilton College

ALLEN, GEORGE (2012)  
Assistant Professor of Psychology  
B.A. Alderson-Broaddus College  
M. Div. Pittsburgh Theological Seminary  
M.S. Loyola College of Baltimore  
Ph.D. West Virginia University

Associate Professor of Electronics Engineering Technology  
B.S.E.E., M.S.E.E. West Virginia University

ALSHALLAH, MOHAMED (1988)  
Associate Professor of Economics/Business Administration  
B.S. Baghdad University  
M.B.A. University of Bridgeport

BAKER, J. ROBERT (1994)  
Chair, Department of Language and Literature  
Director, Honors Program  
Professor/Senior Level: English  
Graduate Faculty  
A.B., M.A., Ph.D. University of Notre Dame

BAKER, RANDALL (1986)  
Assistant Professor of Computer Science  
B.S. Fairmont State College  
M.S. West Virginia University

BAKER, WARREN (1992)  
Assistant Professor of Education  
B.S., M.S. West Virginia University

BARTOLO, ANN D. (2001)  
Temporary Instructor of Criminal Justice  
B.A. University of Maine  
M.A. Northeastern University, Boston

BATES, JOYCE A. (2005)  
Assistant Professor of Nursing  
B.S.N., M.S.N. West Virginia University

BAUR, ANDREAS (2000)  
Professor of Chemistry  
Ph.D. University of Regensburg

BAXTER, HARRY N., III (1985)  
Professor of Chemistry  
B.S. Clarion University of Pennsylvania  
Ph.D. The Pennsylvania State University

BERRYHILL, PHILIP (1990)  
Professor of Education  
Graduate Faculty  
B.S. Edinboro University  
M.Ed. California University  
M.S. West Virginia University  
M.P.A., D.Ed. Penn State University

BLACKWOOD, BRIAN (2012)  
Assistant Professor of Mathematics  
B.S. Ohio University  
Ph.D. Ohio University
BLANKENSHIP, JOSEPH (2008)
Coordinator, School of Business IBM Program
Associate Professor of Information Systems
Graduate Faculty
B.S, B.A., D.Sc. Robert Morris University

BOBO, LEIA (2011)
Assistant Professor of Nursing
A.S.N., B.S.N. Fairmont State University
M.S.N. Marshall University

BOGGESS, JENNIFER H. (2002)
Coordinator, Department of Art
Professor of Art
B.A., M.A., M.F.A. West Virginia University

BOLYARD, JASON (2007)
Assistant Professor of Mechanical Engineering Technology
A.S., B.S. Fairmont State College
M.S. West Virginia University

BONI, MARY SHARON (2006)
Dean, School of Nursing & Allied Health Administration
Director of Nursing
Professor of Nursing
B.S. Alderson-Broadus College
M.S.N. West Virginia University
Ph.D. The Catholic University of America

BRADISH, KELLY (2011)
Emerging Technologies Librarian
Assistant Librarian
B.A. Pennsylvania State University
M.L.I.S. University of Pittsburgh

BRESCOACH, SHARON W. (2011)
Temporary Assistant Professor of Journalism
B.S., M.A. West Virginia University
M.A. Marshall University
Ph.D. University of Kentucky

BROWN, JESSICA (2013)
Assistant Professor of Exercise Science
B.S Plymouth State University
M.S., Ph.D. Springfield College

BURNELL, MARY A., CPA (1989)
Coordinator of Accounting and Finance
Associate Professor of Accounting
B.A., B.S. Fairmont State College
M.P.A. West Virginia University

BYERS, JUDY P. (1982)
Director, Frank and Jane Gabor WV FolkLife Center
Professor/Senior Level: English & Folklore Studies
Abelina Suarez Professor
Graduate Faculty
B.A. Fairmont State College
M.A., Ed.D. West Virginia University

CABLE, ROBERT (1991)
Associate Athletic Director-Sports Medicine / & Game Day Management
Instructor of Physical Education
B.S. West Virginia Wesleyan College
M.S. West Virginia University

CASSELL, MACGORINE (1992)
Professor of Business Administration
Graduate Faculty
B.B.A. Fort Valley State College
M.P.A. Atlanta University
Ph.D. United States International University

CASTO, PAMELA (2009)
Temporary Assistant Professor of Geoscience
B.S., M.A. West Virginia University

CHIBA, TORU (2002)
Electronic Services Librarian
Assistant Librarian
B.A. Kansai University
M.A., M.L.I.S. University of Iowa

Professor of Architecture/Civil Engineering Technology
B.S.C.E., M.S.C.E. West Virginia University

CONDRON, ELLEN (1990)
Associate Professor of Nursing
B.S.N., M.S.N. West Virginia University

COSTELLO, HUGH M., P.E. (2009)
Assistant Professor of Mechanical Engineering Technology
B.S.M.E. West Virginia University
M.S.M.E. Massachusetts Institute of Technology

Associate Dean, School of Education
Professor of Physical Education
B.A. Fairmont State College
M.S., Ed.D. West Virginia University

Dean, School of Education/Health and Human Performance
Professor of Education
B.A., M.A., Ph.D. University of North Carolina at Chapel Hill

DERICO, KIMBERLY (2013)
Assistant Professor of Nursing
B.S.N., West Virginia University
M.S.N., Marshall University

DUNLEVY, JAMES O. (1965-69; 1972)
Associate Professor of Mathematics
B.A. College of Steubenville
M.A. Arizona State University
EDWARDS, CONSTANCE (2005)
Interim Dean, School of Fine Arts
Coordinator, Department of Music
Associate Professor of Music
B.M. The College of Wooster
M.M. The University of Akron
D.M.A. The University of Arizona

EICHENBAUM, DANIEL (2012)
Assistant Professor of Music
B.M. Pennsylvania State University
M.M. University of Michigan
D.M.A. University of Arizona

ENGEBRETSON, JEAN, CPA (2008)
Associate Professor of Accounting
B.S., M.P.A. West Virginia University
D.B.A. Cleveland State University

ENSIGN, TODD (2005)
Temporary Assistant Professor of Geoscience
B.S. Northern Arizona University
M.Ed. Northern Arizona University

ENTWISTLE, JEREMY (2012)
Temporary Assistant Professor of Art
B.F.A. Alfred State University
M.F.A. West Virginia University

FANTASIA, GINA (2011)
Director, University Business Center - School of Business
Graduate Faculty
B.S. Fairmont State College
M.S.I.R. West Virginia University
J.D. University of Houston

FLOOD, MARK R. (1994)
Professor of Biology
B.S. Purdue University
M.S. Washington State University
Ph.D. Utah State University

FREEMAN, PHILIP M., AIA (2003)
Associate Professor of Architecture
B.S. Fairmont State College
M.Arch. Virginia Polytechnic Institute and State University

GAILEY, EDWARD D. (2007)
MBA Program Director
Associate Professor of Business Administration
Graduate Faculty
B.S. Cleveland State
M.B.A. Case Western Reserve
D.B.A. Cleveland State

GALLO, VERONICA (2004)
Associate Professor of Nursing
A.S.N., B.S.N. Fairmont State University
M.S.N. Marshall University

Professor of English
S.B., Ph.D. Massachusetts Institute of Technology

GILBERTI, ANTHONY F., DTE (2007)
Dean, College of Science & Technology
Professor of Technology Education
Graduate Faculty
B.S. Fitchburg State College
M.S. Eastern Illinois University
Ph.D. University of Maryland

GIORCELLI, REBECCA (2005)
Assessment Coordinator for the School of Business
Associate Professor of Information Systems Management
Graduate Faculty
BSIE, MSIE, Ph.D. West Virginia University

GODFREY, AMY F. (2012)
Assistant Professor of Economics
B.S., M.A. Ph.D., West Virginia University

GOODWIN, SUSAN (1989)
Professor of Mathematics
A.B., M.S., Ed.D. West Virginia University

GREENHAM, JEFF S. (2006)
Associate Professor of Art
B.F.A. Rochester Institute of Technology
M.F.A. West Virginia University

GURASH, DAN (2008)
Temporary Assistant Professor of Geography/Sociology
B.A. California State University, Fresno
M.R.E. Southwest Baptist Theological Seminary
M. Div. United Theological Seminary
D. Min. Trinity Theological Seminary

Cataloging Librarian
Assistant Librarian
B.S., B.A., M.L.S. University of Pittsburgh

HANSEN, GALEN J. (1994)
Professor of Physics
B.S. Brigham Young University
M.S., Ph.D. Utah State University

HARRISON, WILLIAM H. (2013)
Temporary Assistant Professor of Political Science
B.A. New York University
M.A. United States International University
Ph.D. West Virginia University

HARVEY, ERICA L. (1994)
Professor of Chemistry
B.A. Wellesley College
Ph.D. California Institute of Technology

HARVEY, RICHARD (1988)
Dean, School of Business
Professor of Finance/Business Law
Graduate Faculty
B.M., M.B.A., J.D. West Virginia University
HAYNES, D. STEPHEN (1970)
   Professor of Physics
   B.S. Georgia Tech
   Ph.D. Florida State University

HEAGY, H. SUZANNE (2008)
   Assistant Professor of English
   B.A. University of Indiana-Purdue University
   M.A., Ph.D. University of Wisconsin-Milwaukee

HEMLER, DEBRA A. (2000)
   Coordinator of Geoscience
   Professor of Geoscience
   Graduate Faculty
   B.S. Northland College
   M.S., Ed.D. West Virginia University

HESS, RANDY (1982)
   Assistant Professor of Physical Education
   B.A. Glenville State College
   M.S. West Virginia University

HICKS, ALEXIS (2009)
   Assistant Professor of Nursing
   A.S.N., B.S.N. Fairmont State University
   M.S.N. Marshall University

HILL, LARRY L. (1968)
   Assistant Professor of Physical Education
   A.B. Fairmont State College
   M.A. West Virginia University

HILTZ, SHARON L. (1987)
   Professor/Senior Level: English
   Graduate Faculty
   B.A. Swarthmore College
   M.A., Ph.D. University of Pennsylvania

   Professor/Senior Level: Business Law
   Graduate Faculty
   A.B. Fairmont State College
   J.D. West Virginia University

HIPPOLYTE, ERIN (2006)
   Associate Professor of French
   B.A. Hamline University in St. Paul
   M.A., Ph.D. University of Rochester

HIVELY, CHARLEY (2007)
   Coordinator of Reference and Instructional Services
   Assistant Librarian
   B.A. University of Charleston/Morris Harvey College
   M.A. Marshall University
   M.L.S. Clarion University

HOAG, DEBRA (2002)
   Associate Professor of Nursing
   A.A.S. South Florida Community College
   B.S. Florida Southern College
   M.S. University of Phoenix

HOKOM, MATTHEW L. (2001)
   Professor of English
   B.A. University of Puget Sound
   M.A., Ph.D. University of Nebraska, Lincoln

HOSSAIN, MAHMOOD (2006)
   Associate Professor of Computer Science
   B.S., M.S. University of Dhaka at Bangladesh
   M.S., Ph.D. Mississippi State University

   Associate Professor of Music
   Director of Bands
   B.A. Fairmont State College
   M.M.A. Ohio University
   D.M.A. University of Missouri-Kansas City

   Associate Professor of Biology
   Graduate Faculty
   B.S., M.S., Ed.D. West Virginia University

HUTCHINS, THELMA J. (2000)
   Director of Library Services
   Associate Librarian
   A.A. Mars Hill College
   B.A. Wake Forest University
   B.D. Southeastern Baptist Theological Seminary
   M.S.L.S. University of North Carolina, Chapel Hill
   Advanced M.S. in LS, Florida State University

INGMAN, JEFFREY (2006)
   Coordinator, Department of Communication and Theatre Arts
   Associate Professor of Theatre
   B.S. South Utah University
   M.F.A. Rutgers University

   Associate Professor of Education
   Graduate Faculty
   B.A. Eastern Connecticut State University
   M.A. University of Connecticut
   Ed.D. West Virginia University

JOSHI, TULASI R. (1972)
   Professor of Geography
   Graduate Faculty
   B.A. Tri-Chandra College
   M.A. Tribhuvan University
   M.A. University of Hawaii
   Ph.D. University of Pittsburgh

JUNG, JAMES J. (2013)
   Assistant Professor of National Security and Intelligence
   B.A. Dartmouth College
   J.D. Fordham University School of Law
KAST, CHRISTOPHER (2013)  
Temporary Assistant Professor of Sociology  
B.A. Concord University  
M.A. Ohio University  
Ph.D. Iowa State University

KATO, TADASHI (2003)  
Associate Professor of Psychology  
Graduate Faculty  
B.A., M.A. The University of Tokyo  
Ph.D. Ohio University

KELLEY, SUSAN M. (1991)  
Professor of English  
B.A. University of Michigan  
Ph.D. Boston College

KERWIN, VICKI (2007)  
Associate Professor of Nursing  
A.S.N. Fairmont State College  
B.S.N., M.S.N. West Virginia University

KHALIL, MOHAMAD A. (1988)  
Coordinator, Business Administration/Economics  
Professor/Senior Level: Business Administration/ Economics  
Graduate Faculty  
B.S. Baghdad University  
M.B.A. Bridgeport University  
M.A., Ph.D. West Virginia University

KIEFER, KRISTI A. (1994)  
Assistant Professor of Physical Education  
R.B.A., B.A. Fairmont State College  
M.S., Ed.D. West Virginia University

Assistant Professor of Nursing  
B.S.N., M.S.N. West Virginia University

KIRBY, JACK R. (2001)  
Associate Provost for Academic Affairs  
Director of Graduate Studies  
Associate Professor of Business Administration  
Graduate Faculty  
A.B., M.S., Ed.D. West Virginia University

KIRCHOFF, DENICE (1998)  
Professor of Nursing  
B.S. University of Pittsburgh  
M.S.N., Ed.D. West Virginia University

KIRK, FRANCENE (2000)  
Associate Professor of Communication and Theatre  
Abelina Suarez Professor  
B.A. Glenville State College  
M.A., Ed.D. West Virginia University

KREMER, JOSEPH (2012)  
Assistant Professor of Finance  
B.S., B.A. University of Delaware  
M.B.A. University of Wisconsin  
Ph.D. University of South Carolina

LARUE, A. DENNINE (2006)  
Temporary Assistant Professor of Mathematics  
A.B. Fairmont State College  
M.S. West Virginia University

LARUE, THEODORE K. (1982)  
Assistant Professor of Computer Science  
B.S. Fairmont State College  
M.A. West Virginia University

LAVORATA, CHRISTINA M. (1999)  
Provost and VP, Academic Affairs  
Associate Professor of Education  
Graduate Faculty  
B.A. Fairmont State College  
M.A., Ed.D. West Virginia University

LEARY, JANIE M. (2013)  
Assistant Professor of Community Health  
B.S.W. Georgia State University  
MPH Armstrong Atlantic University  
Ph.D. West Virginia University

LEE, CHEON-PYO (FRANK) (2009)  
Associate Professor of Information Systems Management  
Graduate Faculty  
B.S., Inha University  
M.B.A., Morehead State University  
M.S., Georgia State University  
Ph.D. Mississippi State University

LEJEUNE, JENNIFERYERDON (2007)  
Assistant Professor of Art  
B.F.A. The College of Saint Rose, Albany, New York  
M.F.A. West Virginia University

LINDSTROM, DENISE (2008)  
Assistant Professor of Digital Media & Instructional Technology  
B.A. California State University / Chico  
M.S., Ph.D. Iowa State University

LONG, DONNA J. (1999)  
Professor of English  
Graduate Faculty  
B.A. University of Tampa  
M.A., Ph.D. Florida State University

MAGRO, ALBERT (1992)  
Professor/Senior Level: Biology  
B.A. Montclair State College  
Ph.D. Rutgers University

MARSHALL, HOLLIANNE (2012)  
Assistant Professor of Criminal Justice  
B.A. City University of New York  
M.A., Ph.D. University of Central Florida

MATTHEWS, JAMES (2002)  
Associate Professor of English  
Graduate Faculty  
B.A. Saint Vincent College  
M.A., Ph.D. Duquesne University
MAZURE, SHARON L. (1997)
Reference and Interlibrary Loan Librarian
Assistant Librarian
B.A. Fairmont State College
M.L.I.S. University of South Carolina

MCCLURE, NANCY C. (1998)
Director, Gaston Caperton Center
Professor of Education
Graduate Faculty
B.S., M.A., Ed.D. West Virginia University

MCDONALD, STEPHEN M. (1994)
Head Women’s Basketball Coach
B.S. West Virginia University
M.A. West Virginia Wesleyan College

MCLAUGHLIN, JOHN E. (2013)
Assistant Professor of Criminal Justice
A.A. University of Florida
B.S. Florida State University
M.S. Florida International University
Ph.D. Lynn University

METCALF, AMANDA (2013)
Assistant Professor of Physical Education
B.S. Mars Hill College
M.A. East Tennessee State University
Ph.D. West Virginia University

MELANSON, ELIZABETH G. (2013)
Temporary Assistant Professor of Art History
B.A. Bucknell University
M.A. The George Washington University
Ph.D. University of Delaware

MICHAEL, BEVERLY (2004)
Assistant Professor of School Health
B.A., M.S., M.A., Ed.D. West Virginia University

MILD, ROBERT (1988)
Professor/Senior Level: Communication
B.A. West Virginia Wesleyan College
M.A. West Virginia University
Ph.D. University of Pittsburgh

MILLENN-PENN, KENNETH (1995)
Professor of History
B.A. State University College at Oneonta
M.A., Ph.D. SUNY at Binghamton

MOORE, STEPHEN (2013)
School of Business Learning Coordinator
B.S. SUNY, Utica
M.S., M.B.A., Ph.D. Syracuse University

MOROOS, DONALD A. (1969)
Professor/Senior Level: Education
Graduate Faculty
B.A. Fairmont State College
M.S., Ed.D. West Virginia University

Associate Professor of Architecture
A.S. Central Florida College
A.A. Santa Fe College

Ph.D. West Virginia University

O’CONNOR, JOHN E. (1998)
Professor/Senior Level: Theatre
B.S.Ed. Northern Illinois University
M.A. Miami University
Ph.D. University of Washington

OWENS, BARBARA (2005)
Director, FSU PDS Partnerships and Clinical Experiences
B.A. Fairmont State College
M.A. West Virginia University

OXLEY, TIMOTHY (2008)
Associate Dean of the School of Business
Associate Professor of Business
Graduate Faculty
B.S. Concord University

Professor of Music
B.A. Georgia College and State University
M.Ed., Ph.D. University of Florida

PAYNE, ROBIN (2012)
Assistant Professor of History
B.A., M.A. Washington State University
Ph.D. University of North Carolina at Chapel Hill

PODLASKOWSKI, ADAM (2009)
Assistant Professor of Philosophy
B.A. University of Michigan
M.A., Ph.D. The Ohio State University

PRICE, JEREMY (2013)
Assistant Professor of Digital Media & Instructional Technology
B.A. Brandeis University
Ed.M. Harvard University
Ph.D. Boston College

RADULOVICH, NENAD (2006)
Temporary Assistant Professor of History & Social Studies Education
B.A., M.S. University of Western Ontario
M.S. Ed. Niagara University

RANSOM, MICHAEL R. (2011)
Assistant Professor of Psychology
B.A. Elon University
M.S., Ph.D. Ohio University

RAOL, MARCIE (2013)
Temporary Assistant Professor of Geoscience Education
B.A., M.A. West Virginia University

RENEAU, JULIE L. (2009)
Assistant Professor of Special Education
Graduate Faculty
B.S. Vanderbilt University
M.Ed. George Peabody College of Vanderbilt University
M.A., Ed.D. West Virginia University

Chair, Health and Human Performance
Professor of Exercise Science
Graduate Faculty
B.S. West Virginia Wesleyan
M.Ed. George Peabody College of Vanderbilt University
Ph.D. The University of Alabama

RICHARDS, AIMMEE (2006)
Debate Coach
Assistant Professor of Communication
B.A. Bethany College
M.A. West Virginia University
Ed.D. West Virginia University

RIESEN, JOSEPH (1992)
Professor of Mathematics
Graduate Faculty
B.A. Moorhead State University
M.A. University of Nebraska, Lincoln
Ph.D. Northwestern University

ROGERS, TANYA L. (2001)
Associate Professor of Nursing
BSN Program Director
Assistant Director of Nursing
A.S.N., B.S.N. Fairmont State College
M.S.N., Ed.D. West Virginia University

ROHRBAUGH, CLARENCE C. (2002)
Chair, Department of Behavioral Science
Associate Professor of Psychology
Graduate Faculty
A.A. Allegany Community College
B.S. Frostburg State University
M.S., Ph.D. Kansas State University

ROOF, STEVEN K. (1994)
Professor of Biology
B.S. Kansas State University
Ph.D. Washington State University

ROSE, MARIA C. (1991)
President
Professor of Academic Skills
B.A. Fairmont State College
M.A., Ed.D. West Virginia University

RYAN, MICHAEL (2009)
Assistant Professor of Exercise Science
Graduate Faculty
B.S. West Virginia University
M.Ed. Auburn University
RYAN, PATRICIA P. (1966)  
Professor of Political Science  
Graduate Faculty  
B.A. American University at Cairo  
M.A., Ph.D. West Virginia University

SANFORD, RHONDA LEMKE (1999)  
Professor of English  
Graduate Faculty  
B.A., M.B.A., M.A. University of Colorado at Denver  
Ph.D. University of Colorado at Boulder

SAPP, G. H. BUDD (1997)  
Professor of Education  
Graduate Faculty  
B.A. Fairmont State College  
M.S., Ed.D. West Virginia University

SAVAGE, ELIZABETH A. (2001)  
Professor of English  
B.A. James Madison University  
M.A. Boston College  
Ph.D. Duquesne University

SCANLON, MATTHEW (1991)  
Professor of Chemistry  
B.A. St. Vincent College  
Ph.D. Montana State University

SCHWER, MARY ANGELA (1997)  
Professor of English  
B.A. Ball State University  
M.A. Duquesne University  
Ph.D. University of Notre Dame

SHAVER, A. JOSEPH (1988)  
Professor of Psychology  
Graduate Faculty  
B.S. Fairmont State College  
M.S. University of Central Florida  
C.A.S. West Virginia College of  
Graduate Studies  
Ed.D. West Virginia University

SHAVER, ANNV. (1997)  
Professor of Psychology  
Graduate Faculty  
B.A. Fairmont State College  
M.A. West Virginia University  
Ed.S. West Virginia Graduate College  
Ed.D. West Virginia University

SHEPPARD, SUMOR (2013)  
Temporary Assistant Professor of Spanish  
B.A. Tulane University  
M.A. University of Memphis  
Ph.D. University of Houston

SHEILDS, CHARLES (1996)  
Professor of Criminal Justice  
Graduate Faculty  
B.S. Marshall University  
J.D. West Virginia University

SHIELDS, DEANNA (1982)  
Dean, College of Liberal Arts  
Professor of Criminal Justice  
Graduate Faculty  
B.S., M.S. Marshall University  
Ph.D. Indiana University of Pennsylvania

SHROYER, ASHLEY (2009)  
Assistant Professor of Nursing  
A.S.N. Fairmont State University  
B.S.N. West Virginia University  
M.S.N. Marshall University

SIDWELL, AMY M. (2011)  
Assistant Professor of Health and Physical Education  
Graduate Faculty  
B.S. Edinboro University  
M.S., Ph.D. West Virginia University

SMALLRIDGE, JOSHUA (2011)  
Assistant Professor of Criminal Justice  
A.A.S. Pierpont Community & Technical College  
B.S., M.S. Fairmont State University  
Ph.D. Indiana University of Pennsylvania

SMITH, SHARON (2004)  
Professor of Education  
Graduate Faculty  
B.A., Fairmont State College  
M.A. West Virginia University

SNYDER, TROY (2004)  
Associate Professor of Theatre  
B.F.A. West Virginia University  
M.F.A. University of North Carolina-Greensboro

SPEAR, SAMUEL (2009)  
Assistant Professor of Music  
B.M. Furman University  
M.M. University of Cincinnati  
D.M.A. University of Miami

STEVEN, JONATHAN, CPA (2013)  
Temporary Assistant Professor of Accounting  
B.S. Fairmont State University

SURENDRAN, SUNIL (1994)  
Professor of Marketing and Management  
Graduate Faculty  
B.S., M.B.A. Gujarat University  
Ph.D. Kent State University

TANNOUS, CAROL (2006)  
Director of Destination Education  
B.S., M.A. Indiana University of Pennsylvania
Professor of Biology
B.S. Heidelberg College
M.S., Ph.D. Miami University of Ohio

VASSIL, JAMES E. (2002)
Associate Professor of Civil Engineering Technology
A.S. Ocean County College
B.S. Fairmont State College
M.S. New Jersey Institute of Technology

WEAVER, ROBERT C. (1988)
Coordinator of Management and Marketing
Associate Professor of Management and Marketing
B.S. Fairmont State College
M.P.A. West Virginia University

WOLF, MARK D. (2011)
Assistant Professor of Technology Education
B.A. Fairmont State College
M.A. University of Maryland Eastern Shore

YEAGER, PHILLIP E. (1999)
Professor of Biology
B.A. University of Northern Colorado
M.S. University of Wyoming, Laramie
Ph.D. University of North Texas

YOUNG, FRANCES T. (1997)
Associate Professor of Nursing
Director LPN-ASN Program
B.S.N. Marshall University
M.S.N. Bellarmine University

Associate Professor of Civil Engineering Technology
B.S.C.E., M.C.E. North Carolina State University
M.B.A. West Virginia University

INSTITUTIONAL BOARD OF GOVERNORS

The Institutional Board of Governors for Fairmont State University consists of nine members appointed by the Governor with the advice and consent of the Senate and a representative from the faculty, classified staff, and student body chosen by their respective groups.

Ron Tucker, Chair – Fairmont
Mark Pallotta, Vice Chair – Fairmont
Dixie Yann, Secretary – Fairmont
Robert Mild – Faculty Representative – Fairmont
Holly Fluharty – Classified Staff Representative – Fairmont
Bryan Foley – Student Representative – Pipestem
Chris Courtney, DO – Bridgeport
John Myers – Morgantown
Shirley Stanton – Fairmont
Bryan Towns – Fairmont
Frank Washenitz – Fairmont
Jack “Bob” White – Fairmont

HIGHER EDUCATION POLICY COMMISSION

The West Virginia Higher Education Policy Commission (WVHEPC) is responsible for developing, establishing, and overseeing the implementation of a public policy agenda for the state’s four-year colleges and universities. It is charged with oversight of higher education institutions to ensure they are accomplishing their missions and implementing the provisions set by state statute.

The Commission consists of ten members; seven of whom are appointed by the governor, and three ex-officio members: Secretary of Education and the Arts, State Superintendent of Schools, and Chairperson of the West Virginia Council for Community and Technical College Education.

Paul Hill, Chancellor – Charleston
Bruce Berry, Chair – Morgantown
Jenny Allen, Vice Chair – Shepherdstown
Kathy Eddy, Secretary – Parkersburg
Bob Brown, Ex-Officio – Charleston
John Estep – Richwood
Kay H. Goodwin, Ex-officio – Charleston
David K. Hendrickson – Charleston
John Leon – Fairmont
James Phares, Ex-officio – Elkins
David Richard Tyson – Huntington
