

ANNUAL REPORT ON GRADUATE PROGRAMS AT FAIRMONT STATE UNIVERSITY 2014

Fairmont State University currently offers four (4) independent graduate programs of study:

- **Master of Education** with various concentrations including: Digital Media, New Literacies and Learning; Exercise Science, Fitness and Wellness; Professional Studies; Online Learning; Reading; and Special Education.
- **Master of Arts in Teaching.**
- **Master of Science in Criminal Justice.**
- **Master of Business Administration.**

The **Master of Science in Human Services** program was terminated (termination approved by Graduate Council in September 2010) and there are no remaining students to matriculate through the program.

The **Master of Science in Architecture (MArch)** degree has received all necessary approvals and the first cohort of students will begin with the fall semester 2014.

The development of the MArch degree began in 2010. This degree was considered essential due to the fact that West Virginia residents had to receive their advanced degrees for licensure at other out-of-state institutions. The College of Science and Technology developed an Intent to Plan and curriculum for the MArch program in 2011. The Intent to Plan was approved by the faculty of the College and the Board of Governors at Fairmont State University in 2012. The West Virginia Higher Education Policy Commission approved the offering of this degree in December of 2012. In February of 2013, the Graduate Studies Council at Fairmont State University approved the degree and course requirements for the MArch degree.

The approval of the MArch degree also required approval of the Higher Learning Commission. A report was presented to the Commission in April of 2013, and a visit by the Commission took place in October of 2013. The final report by the Higher Learning Commission was very positive with the recommendation to offer the program as quickly as possible.

To expedite the offering of the MArch degree and to begin the accreditation process, meetings were held with the Executive Director of the National Architectural Accrediting Board (NAAB) in September 2013. This was followed with the faculty developing a Plan for Achieving Initial NAAB Candidacy and a campus visit by NAAB in January 2014. NAAB accepted the degree program as eligible for candidacy in March 2014. The faculty are currently planning for another candidacy visit in the fall of 2014, and the program has started the admission process for the start of the fall semester 2014.

The **Master of Arts in Teaching (MAT)** program added one new course (EDUC 6307 Instructional Design II – Classroom Organization) and redesigned/renamed an existent course (EDUC 6306 Instructional Design I – Education Evaluation.) The student teaching experience (EDUC 6494 - 6 hours

credit) was divided into two courses (EDUC 6494 and 6495 – six hours credit for both courses.) The new section is named EDUC 6494 Action Research and Portfolio Development. Action research and portfolio were always part of the student teaching experience. The new section allows that portion of the student teaching clinical grade to be allocated to the action research project and the portfolio the students develop during student teaching. One course was deleted (EDUC 6690 Advanced Classroom Organization.) Critical information from this course was added to the newly created course (EDUC 6307 Instructional Design II – Classroom Organization.) The total credit hours for the MAT program remains at 38 hours.

The following table contains the number of students enrolled in each graduate program. The numbers reported below are consistent with other HEPC and IPEDS reports.
