

Connecting to Student wireless with a Mac

1. Open wifi using the wifi icon in top menu
2. Select Student
3. Enter username and password
 - a. Username is the UCA. It must be entered as uca@students for the username. If that doesn't work, try students\uca
 - b. Password is the same password used everywhere on campus

If prompted to accept a certificate, accept it. You may be prompted to enter the Mac's login credentials to do that.
