

Accounting Program

OVERVIEW OF THE PROGRAM:

The accounting curriculum is designed to provide students with the skills necessary to enter today's workforce, to attain professional accounting certification, or to pursue graduate education. The B.S. in Accounting trains students in the traditional accounting fields of financial accounting, managerial accounting, taxation, information systems, and auditing. Moreover, the program also incorporates the dynamic skill set required of today's business professionals by requiring proficiency in critical thinking, communication, technology, and ethics. The Accounting Program is Accredited by the Accreditation Council for Business Schools & Programs (ACBSP).

EMPLOYMENT OPPORTUNITIES:

Students completing the B.S. in Accounting are prepared for entrance into competitive graduate schools as well as for careers in public, industrial, and governmental accounting. Specific career opportunities include staff accountants, account managers, internal auditors, industrial accountants, financial analysts, and Internal Revenue agents. Over time, our graduates move into senior positions such as controllers, treasurers, chief financial officers, or partners in public accounting firms.

"I'm just trying to do what I can to be that first person in my immediate family to get to the NFL. My uncle tried and didn't quite make it. My dad tried and didn't quite make it. They always say I'm the last hope. However my dad always, aside from that, told me that this is all due to academics. You can't get anywhere in life without taking care of your books first," Monroe says.

The red shirt freshman and academic junior is committed to showing the same drive and determination in class as he does on the field. Prior to transferring to FSU as a football running back and student, Monroe made the dean's list at Florida State University. "Here I am striving to make the President's List every semester," he explains. In his first night on the field as a starter for the Fighting Falcons, Monroe had 161 yards on 18 carries and scored 2 touchdowns. But, there will be more to come as Monroe plans to earn an undergraduate degree in accounting and finance at Fairmont State University.

Daniel Monroe
Accounting and Finance major
Miami, Florida

BACHELOR OF SCIENCE IN ACCOUNTING

MODEL SCHEDULE

FRESHMAN FIRST SEMESTER

ENGL 1101	WRITTEN ENGLISH I	3
