

HEALTHCARE MANAGEMENT

BACHELOR OF SCIENCE IN HEALTHCARE MANAGEMENT

OVERVIEW OF THE PROGRAM:

Fairmont State University College of Business & Aviation offers the only Bachelor of Science (B.S.) in Healthcare Management in the northcentral region of West Virginia. The Healthcare Management program is designed to introduce and attract current or future careerists into the healthcare administration field. With courses including a sound business core with additional study of healthcare systems, population health, finance, quality management, information management, and healthcare policy, graduates will gain key leadership competencies required for future careerist and innovators in the changing health care industry. The Healthcare Management core coursework (HCMG) is delivered in a hybrid format. The hybrid format in the School of Business & Aviation generally refers to a blend of face-to-face class sessions and online content delivery.

EMPLOYMENT OPPORTUNITIES:

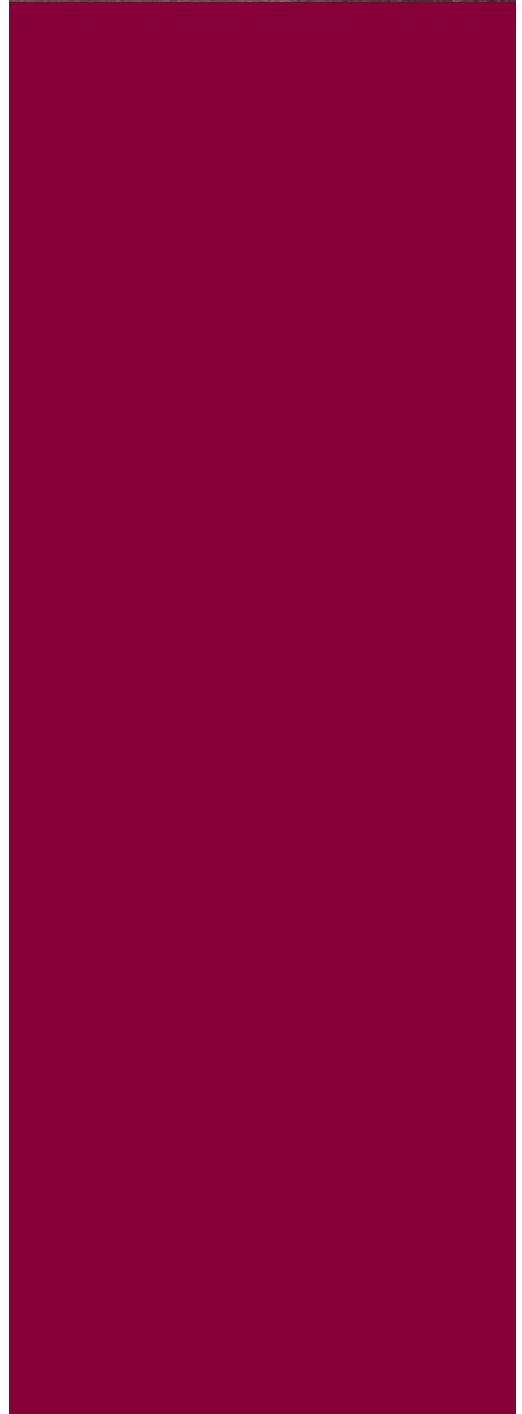

As the backbone of healthcare systems, healthcare administrators take on the duties of overseeing vast expanses of a care delivery system that includes strategy, stewardship, building teams, and leading an effective workforce. As the structure and financing of the healthcare industry changes, healthcare administrators must be able to adapt to new environments. A projected employment growth of 17%, higher than average for all occupations, is expected in the industry over the next decade. Graduates of a B.S. in Healthcare Management could expect to obtain entry-level administrative employment such as planning, directing, or coordinating medical and health services in a variety of health care organizations, up to and including, hospitals, clinics, skilled care facilities, home based services, public health agencies, or similar organizations.
