

Data Governance

Agenda

November 1, 2019

1. HEPC and IPEDS rewrite timeline
2. Report data code book for all programmers
3. ARGOS cleanup strategy and timeline
4. Data Governance moving forward: Accessibility, Policy, and Evaluation (APE)
5. Review the data governance charter
 - a. Any changes or edits?
 - b. What is the scope of our activity? Just Banner data or other as well?
 - c. Should anyone else be included in the initial membership?
 - d. Are we ready to define our data stewards and data owners?
6. How do we want to track team work?
 - a. Work on code book
 - b. Resolving data issues, Argos cleanup, etc.
7. How do we track data changes and how do we know that we are gathering those changes from the various offices? Essentially we need a configuration management procedure. Recent examples include
 - c. HEPC rewrite
 - d. Changes to processing based on Ellucian's visit
8. What data are we missing that we need to collect?
 - tying majors to division and department
 - what courses are for the major, which ones are service courses, etc.
 - Major change indicator
 - Full-time part-time indicator for literally everything
 - Program/Service courses
 - Living in housing indicator
 - First generation college student indicator
 - Everything adjunct related
 - HR things
 - Graduate table cleanup
 - Etc.
 - Second BA- specific indicator
 - Minors to divisions/depts
 - Student awards/honors
